TM NEW COURT GROWTH FUND

Assessment of Value Report

For the year ended

31 December 2025

Thesis Unit Trust Management Limited is authorised and regulated by the Financial Conduct Authority.

[tutman.co.uk](https://www.tutman.co.uk)

Fund Information

Fund objective:

The Fund aims to preserve and grow the real (i.e. after inflation) value of the Units of the Fund, net of fees, by the UK Consumer Price Index (CPI) plus 4% per annum, on average, over a five year rolling period. Capital invested in the Fund is at risk and there is no guarantee that the investment objective of the Fund will be achieved over a rolling 5 year period, or any other period.

Fund size:

£254,376,447

Performance Target:

UK CPI+4%

Assessment of Value

The Board of the Authorised Fund Manager (AFM) is required to perform an annual Assessment of Value for each share class within the fund and to report its findings to investors.

The Assessment of Value places a responsibility on the AFM to determine whether the fees and charges of the fund are justified in the context of the overall service and value provided to investors.

Following the introduction of the Assessment of Value requirement in 2019 the AFM now has four independent non-executive directors appointed with a particular remit to oversee and challenge the Assessment of Value process conducted in relation to the fund.

In this Assessment of Value report, we have used a traffic light system whereby:

The fund has delivered value to investors

The fund has delivered some value to investors but action may be needed to improve value delivery

The fund has not delivered value to investors and action is needed before value will be delivered

Independent AFM model - terminology

The AFM has the regulatory responsibility for all aspects of the fund operations including the actions of its delegates. Its role requires a focus on good investor outcomes, investor protection, oversight, compliance and general regulatory matters.

The Investment Manager is appointed by the AFM and has the full discretion to manage the assets of the portfolio in accordance with the fund's objective and investment policy. The Investment Manager is the entity which delivers out- or under-performance on behalf of investors. It is the entity which in turn receives the greatest share of the Annual Management Charge.

The Investment Manager and the AFM can be part of the same organisation or separate. When they are separate the fund can be described as having an Independent AFM which is the case with the TM NEW COURT GROWTH FUND

Background to our firm - Independent AFM

Thesis Unit Trust Management Limited is a specialist provider of independent AFM services. Our approach to delivering good outcomes for investors in our funds, from the initial design phase and throughout the fund life cycle, is based upon having the right blend of experience, culture and governance.

We choose to work with a variety of service providers (fund accountants, depositaries, transfer agents and auditors) and provide independent, bespoke and flexible solutions. By outsourcing day-to-day activity to specialist providers our teams can focus on investor outcomes, risk management, oversight, product governance and regulatory change.

We delegate fund servicing to a panel of reputable institutions. Consequently, we have an informed view of this part of the supply chain. We benchmark those fund servicers against a range of criteria including service and cost. We build close relationships with our delegates at all levels within our respective organisations allowing for effective escalation when appropriate and always with the best interests of investors in mind. We are also able to change a service provider with relative ease as and when required to improve quality of service, reduce cost or for other strategic or operational reasons.

We delegate investment management to a wide range of firms who utilise different strategies and investment techniques. As such we have a broad and informed view of the investment management marketplace and independently benchmark across a range of criteria including service, performance and costs. Coming from a fund management background we have qualified investment managers and research analysts within our AFM business who have the experience to monitor fund performance and challenge third party investment managers on behalf of investors in the funds.

Overall Assessment of Value

Following our assessment, the board of Thesis Unit Trust Management Limited has concluded its assessment of value for each share class as follows:

	Independent AFM service and costs	Serviceprovider service & costs	Investment manager service & costs	Quality of service	Performance	Costs	Economies of Scale	Comparable market rates	Comparable services	Classes of shares	Overall

The following pages detail how we assessed each criteria and our overall assessment along with any detail on any action we may take.

Independent AFM - service and costs

In assessing the quality and cost of our independent AFM service we have concluded that we have delivered a service that meets the requirements of investors in the fund, and the fund sponsor, and which has delivered value.

Examples of the criteria that we considered included the operation and compliance of the fund (including the number of errors and investor complaints), the results from the depositary's inspection and audit of our AFM arrangements, and other factors such as the implementation of regulatory change at no cost to investors.

We judge whether our AFM fee is competitive and can be justified based on feedback from independent consultants, our clients who select us and when existing funds move to us from our competitors. Our fees are tiered thereby providing economies of scale for investors as the fund value increases.

Service provider and costs

Having separately assessed the quality and cost of the outsourced fund service providers we have concluded that services have met the requirements expected and delivered value to investors.

Examples of the criteria that we considered included Key Performance Indicators in the key areas including pricing, delivery of statements, delivery of report and accounts, and investor complaints.

We have assessed that the service providers' fees are competitive and provide value to investors by benchmarking against the other service providers on our panel. The majority of fees are tiered thereby providing a mechanism for economies of scale as the fund value increases.

Investment manager services and costs

It is our judgement that the experience of investors in the fund and an assessment of whether the fund has delivered value is most directly impacted by the services, performance and costs that are attributable to the Investment Manager.

Further details of our value assessment, with a particular focus on the Investment Manager, is shown below:

Quality of service

The range and quality of service delivered by the Investment Manager including the experience of the team, track record, quality of relationship with our AFM team, and the results from our governance and oversight arrangements.

We monitor the Investment Manager on a daily basis, and maintain frequent contact with them on a range of aspects of their work including adherence with the investment mandate and policy, liquidity management, and fair value pricing as well as regulatory compliance. We have more formal contact quarterly and further periodic reviews on a thematic basis.

We are satisfied that the Investment Manager continues to meet our requirements and provide a good quality of service.

Costs

Whether the charges are reasonable compared with the costs of providing the service (considering factors such as the size of the Investment Manager, its balance sheet strength and profit margins).

At a fund size of £254,376,447 we are satisfied that the costs charged to the fund are reasonable given its size and a holistic assessment of the benefits that accrue to its investors.

Economies of Scale

The AFM, Depository and Administrator of the fund have set fees on a tiered basis, at appropriate levels, and from which the fund is benefitting.

Comparable services

The Investment Manager's charges across their funds with us are consistent.

Performance

Whether the fund has provided good performance, net of fees, in relation to its investment objective. We have considered performance against the fund's benchmark and/or appropriate peer group, compliance with investment policy, volatility and liquidity, and any evidence of closet tracking.

Investment Performance

The fund is being actively managed in accordance with the investment objective and policy. Performance number/s are shown below along with that of the Target

Share classes in issue	One Year	Three Years	Five Years	--	--	--	--	--	--	
	31/12/24 31/12/25	31/12/22 31/12/25	31/12/20 31/12/25	--	--	--	--	--	--	
TM New Court Gr A2011	7.2%	33.6%	33.0%	--	--	--	--	--	--	
TM New Court Gr F Acc	7.7%	35.7%	36.4%	--	--	--	--	--	--	
TM New Court Gr F Inc	7.7%	35.6%	36.3%	--	--	--	--	--	--

TM New Court Gr B Inc	7.3%	34.0%	33.6%	--	--	--	--	--	--	
TM New Court Gr D Acc	7.5%	34.9%	35.0%	--	--	--	--	--	--	
Performance Target										
UK CPI+4%	7.5%	24.0%	56.4%	--	--	--	--	--	--	

All performance numbers (incl. foreign currency share classes and indices) are Total Return (net income reinvested) and in GBP unless stated otherwise.

The fund has not matched or beaten its CPI+4% target over its five year objective time horizon. This is principally because of the rapid and unexpected spike in inflation during 2022. Over the latest year and three years the fund is however ahead of its target. We have also considered the fund's outperformance versus the average of funds from the IA Mixed Investment 40-85% shares sector (which have similar investment policies) and also a subset of other CPI+4% targetted funds, and therefore rate performance as Amber.

Comparable market rates

Whether the charges are comparable with similar funds in this sector of the market.

The AFM uses a peer group to compare the overall cost of this fund. The peer group has been selected for cost comparison purposes because the asset parameters (or objective in the case of absolute return funds) for its constituent funds are closely aligned to those of this fund. The peer group may include funds managed under a range of strategies. Where the peer group includes funds managed wholly or materially through investment in passive assets, these will generally have lower costs than actively managed funds, which are typically more expensive. Similarly, where the peer group includes active funds managed wholly or materially through investment in other funds, these are typically more expensive than directly invested funds. Explicit index tracking funds are removed from the peer group.

This fund is held by a close group of investors where the OCF of the share class they hold represents the sole fee for a portfolio management service. As such these investors receive added value as part of their portfolio management including personal reporting and meetings with the investment manager. This has formed part of our considerations in our comparison and assessment below.

Share classes in issue	OCF	
TM New Court Gr A2011	1.37	
It is our assessment that the OCF of this share class is higher than the OCF of other similar funds in the market		
TM New Court Gr F Acc	0.87	
It is our assessment that the OCF of this share class is lower or within an allowable tolerance of the OCFs of other similar funds in the market		
TM New Court Gr F Inc	0.87	
It is our assessment that the OCF of this share class is lower or within an allowable tolerance of the OCFs of other similar funds in the market		
TM New Court Gr A Acc	1.37	
It is our assessment that the OCF of this share class is higher than the OCF of other similar funds in the market		
TM New Court Gr E Acc	0.97	
It is our assessment that the OCF of this share class is lower or within an allowable tolerance of the OCFs of other similar funds in the market		
TM New Court Gr C Acc	1.17	
It is our assessment that the OCF of this share class is higher than the OCF of other similar funds in the market

TM New Court Gr B Inc	1.27	
It is our assessment that the OCF of this share class is higher than the OCF of other similar funds in the market		
TM New Court Gr D Acc	1.07	
It is our assessment that the OCF of this share class is lower or within an allowable tolerance of the OCFs of other similar funds in the market		
Peers	Average OCF	
IA Mixed Investment 40-85% Shares	0.84	

Classes of shares

As an independent AFM we operate multiple funds with differing share classes but within this criteria we consider the range of share classes available in the fund, their differences (such as charges) and whether investors are in the appropriate share classes.

Excluding the E shares, which are for employees of the Investment Manager, there is a 40bp differential between the AMC/OCFs of the share class range. The share classes see progressively lower AMCs/OCFs based on increasing minimum initial investment amounts which represent a discount provided to larger investors. Although we generally consider such discounts reasonable and justifiable on the basis that larger investors increase the fund size and the potential for economies of scale, we are questioning the manager on the rationales and application of the minimums.

Overall Assessment of Value

Following our assessment, the board of Thesis Unit Trust Management Limited has concluded its assessment of value for each unit class as follows:

TM New Court Gr A2011		Has delivered some value to investors but action may be needed on value delivery
TM New Court Gr F Acc		Delivered value to investors
TM New Court Gr F Inc		Delivered value to investors
TM New Court Gr A Acc		Has delivered some value to investors but action may be needed on value delivery
TM New Court Gr E Acc		Delivered value to investors
TM New Court Gr C Acc		Has delivered some value to investors but action may be needed on value delivery
TM New Court Gr C Inc		Has delivered some value to investors but action may be needed on value delivery
TM New Court Gr B Acc		Has delivered some value to investors but action may be needed on value delivery
TM New Court Gr B Inc		Has delivered some value to investors but action may be needed on value delivery
TM New Court Gr D Acc		Delivered value to investors

The fund is delivering value to investors. We will continue to monitor performance relative to the target and challenge the investment manager on charges.
