

**CFP CASTLEFIELD THOUGHTFUL EUROPEAN
FUND**

Assessment of Value Report

For the year ended

28 February 2025

ConBrio Fund Partners Limited is authorised and regulated by the Financial Conduct Authority.

Fund Information

Fund objective:	The investment objective of the Fund is to seek to achieve long term capital growth, which is superior to the median performance of all of the funds forming the official peer group of which the Fund is a part. 'Peer group' is defined as being the Investment Association sector to which the Fund has been allocated (currently being the Europe Excluding UK Sector) or to which it may be allocated in future, as determined by that body. Long term means over rolling five year periods.
Fund size:	£23,974,298
Performance Comparator:	IA Europe Excluding UK

Assessment of Value

The Board of the Authorised Fund Manager (AFM) is required to perform an annual Assessment of Value for each share class within the fund and to report its findings to investors.

The Assessment of Value places a responsibility on the AFM to determine whether the fees and charges of the fund are justified in the context of the overall service and value provided to investors.

Following the introduction of the Assessment of Value requirement in 2019, we appointed two independent non-executive directors with a particular remit to oversee and challenge the Assessment of Value process conducted in relation to the fund.

In this Assessment of Value report, we have used a traffic light system whereby:

The fund has delivered value to investors

The fund has delivered some value to investors but action may be needed to improve value delivery

The fund has not delivered value to investors and action is needed before value will be delivered

Independent AFM model - terminology

The AFM has the regulatory responsibility for all aspects of the fund operations including the actions of its delegates. Its role requires a focus on good investor outcomes, investor protection, oversight, compliance and general regulatory matters.

The Investment Manager is appointed by the AFM and has the full discretion to manage the assets of the portfolio in accordance with the fund's objective and investment policy. The Investment Manager is the entity which delivers out- or under-performance on behalf of investors. It is the entity which in turn receives the greatest share of the Annual Management Charge.

The Investment Manager and the AFM can be part of the same organisation or separate. When they are separate the fund can be described as having an Independent AFM which is the case with the CFP CASTLEFIELD THOUGHTFUL EUROPEAN FUND

Background to our firm - Independent AFM

ConBrio Fund Partners Limited is a specialist provider of independent AFM services. Our approach to delivering good outcomes for investors in our funds, from the initial design phase and throughout the fund life cycle, is based upon having the right blend of experience, culture and governance.

We choose to work with a variety of service providers (fund accountants, depositaries, transfer agents and auditors) and provide independent, bespoke and flexible solutions. By outsourcing day-to-day activity to specialist providers our teams can focus on investor outcomes, risk management, oversight, product governance and regulatory change.

We delegate fund servicing to a panel of reputable institutions. Consequently, we have an informed view of this part of the supply chain. We benchmark those fund servicers against a range of criteria including service and cost. We build close relationships with our delegates at all levels within our respective organisations allowing for effective escalation when appropriate and always with the best interests of investors in mind. We are also able to change a service provider with relative ease as and when required to improve quality of service, reduce cost or for other strategic or operational reasons.

We delegate investment management to a wide range of firms who utilise different strategies and investment techniques. As such we have a broad and informed view of the investment management marketplace and independently benchmark across a range of criteria including service, performance and costs. Coming from a fund management background we have qualified investment managers and research analysts within our AFM business who have the experience to monitor fund performance and challenge third party investment managers on behalf of investors in the funds.

Overall Assessment of Value

Following our assessment, the board of ConBrio Fund Partners Limited has concluded its assessment of value for each share class as follows:

CFP Castlefield Thoughtful Eurp G Inc

Subsequent to the date of this assessment the FCA approved a number of changes to the fund which were also approved at an EGM of shareholders held on 18th June 2025. These changes cover a move of Authorised Corporate Director from ConBrio Fund Partners to Thesis Unit Trust Management Limited as well as changes to the name, investment objective and policy of the fund. Specifics can be found in the investor circular dated 2nd June 2025 available on the ConBrio Fund Partners website (<https://www.conbriofunds.com/fund-literature/>).

Independent AFM - service and costs

In assessing the quality and cost of our independent AFM service we have concluded that we have delivered a service that meets the requirements of investors in the fund, and the fund sponsor, and which has delivered value.

Examples of the criteria that we considered included the operation and compliance of the fund (including the number of errors and investor complaints), the results from the depositary's inspection and audit of our AFM arrangements, and other factors such as the implementation of regulatory change at no cost to investors.

We judge whether our AFM fee is competitive and can be justified based on feedback from independent consultants, our clients who select us and when existing funds move to us from our competitors. Our fees are tiered thereby providing economies of scale for investors as the fund value increases.

Service provider and costs

Having separately assessed the quality and cost of the outsourced fund service providers we have concluded that services have met the requirements expected and delivered value to investors.

Examples of the criteria that we considered included Key Performance Indicators in the key areas including pricing, delivery of statements, delivery of report and accounts, and investor complaints.

We have assessed that the service providers' fees are competitive and provide value to investors by benchmarking against the other service providers on our panel. The majority of fees are tiered thereby providing a mechanism for economies of scale as the fund value increases.

Investment manager services and costs

It is our judgement that the experience of investors in the fund and an assessment of whether the fund has delivered value is most directly impacted by the services, performance and costs that are attributable to the Investment Manager.

Further details of our value assessment, with a particular focus on the Investment Manager, is shown below:

Quality of service

The range and quality of service delivered by the Investment Manager including the experience of the team, track record, quality of relationship with our AFM team, and the results from our governance and oversight arrangements.

We are satisfied that the Investment Manager continues to meet our requirements and provide a good quality of service.

Costs

Whether the charges are reasonable compared with the costs of providing the service (considering factors such as the size of the Investment Manager, its balance sheet strength and profit margins).

At £23,974,298 we do note the fund's small size meaning that some parties fixed minimum costs apply however we are satisfied that the costs charged to the fund are reasonable given a holistic assessment of the benefits that accrue to its investors.

Economies of Scale

The Investment Managers' fees and those of other parties are tiered, and set at appropriate levels, to enable economies of scale to be passed back to the fund.

Comparable services

The Investment Manager's charges for comparable services to other investors are in line with the charges borne by this fund. All investors pay the same whether they are direct or clients of the Investment Manager. Larger investors with particular requirements pay specific additional fees for those services. In respect of this criteria, our assessment finds that the fund is demonstrating value.

Performance

Whether the fund has provided good performance, net of fees, in relation to its investment objective. We have considered performance against the fund's benchmark and/or appropriate peer group, compliance with investment policy, volatility and liquidity, and any evidence of closet tracking.

The fund is being actively managed in accordance with the investment objective and policy. Performance number/s are shown below along with that of the Comparator. With regard to the Investment Manager's process, Castlefield integrate exclusionary criteria alongside a specific framework used for investment selection. Further details on the Castlefield's approach can be found at www.castlefield.com and within the investment policy section of the prospectus.

Whether the fund has met the sustainability aspects as set out in the funds objective and policy

Although not a labelled fund under the FCA's new Sustainability Disclosure Requirements 'Thoughtful' in the name of the fund refers to the specific detail in the fund's investment policy which frames the Investment Manager's investment process. We therefore run a quarterly check on the fund's investments against the exclusions and measurables detailed therein and have assessed that the fund is invested in line with this part of its objective and policy.

Investment Performance

Share classes in issue	One Year	Three Years	Five Years						
	28/02/24 28/02/25	28/02/22 28/02/25	28/02/20 28/02/25	--	--	--	--	--	--
CFP Castlefield Thoughtful Eurp G Inc	10.9%	14.2%	39.7%	--	--	--	--	--	--
Performance Comparator									
IA Europe Excluding UK	7.5%	28.5%	59.1%	--	--	--	--	--	--
Subset of Exclusionary funds drawn from the above sector									
17 Funds	6.8%	26.3%	51.8%						

All performance numbers (incl. foreign currency share classes and indices) are Total Return and in GBP unless stated otherwise.

The fund's return has been assessed versus the comparator as detailed in the prospectus and also the average return of a subset of exclusionary strategy funds from this sector. Although the return over the latest year has been strong it has not been superior to the broad IA Europe ex UK fund sector over the time horizon stated in the objective and has lagged the average return among the latter subset. Not all exclusionary strategies are the same though and we recognise that the manager meet investor objectives by investing according to the criteria specific to this fund. As such we therefore assess overall performance as Amber.

Comparable market rates

Whether the charges are comparable with similar funds in this sector of the market.

The AFM uses a peer group to compare the overall cost of this fund. The peer group has been selected for cost comparison purposes because the asset parameters (or objective in the case of absolute return funds) for its constituent funds are closely aligned to those of this fund. The peer group may include funds managed under a range of strategies. Where the peer group includes funds managed wholly or materially through investment in passive assets, these will generally have lower costs than actively managed funds, which are typically more expensive. Similarly, where the peer group includes active funds managed wholly or materially through investment in other funds, these are typically more expensive than directly invested funds. Explicit index tracking funds are removed from the peer group.

An annual management charge rebate amounting to 0.02 of average assets was paid into the fund during the period, which effectively reduced the overall expenses paid by the fund but is not deducted from the OCF.

Share classes in issue	OCF	
CFP Castlefield Thoughtful Eurp G Inc	1.07	
It is our assessment that the OCF after rebate of this share class is higher than the OCF of other similar funds in the market		

Peers	Average OCF
IA Europe Excluding UK	0.89

Classes of shares

As an independent AFM we operate multiple funds. We appoint different service providers and a wide range of Investment Managers and can readily benchmark fees. Similar funds are defined as those in the same sector and of a similar size to this fund.

The fund only has one class of share in issue

Overall Assessment of Value

Following our assessment, the board of ConBrio Fund Partners Limited has concluded its assessment of value for each share class as follows:

CFP Castlefield Thoughtful Eurp G Inc		Has delivered some value to investors but action may be needed on value delivery
---------------------------------------	---	--

Subsequent to the date of this assessment the FCA approved a number of changes to the fund which were also approved at an EGM of shareholders held on 18th June 2025.
