

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Climate Assets Balanced Fund X

A sub Fund of The Sun Portfolio Fund

This Fund is managed by Thesis Unit Trust Management Limited ISIN (Accumulation): GB00B62YB196 ISIN (Income): GB00B63XD754

Objectives and Investment Policy

The investment objective of the Fund is to provide a balance of capital growth and income, net of fees, over the longer term (rolling 5 year periods). The Fund focuses on sustainable investment.

The Fund will aim to achieve the investment objective by investing in a global portfolio which is comprised of:

- Equity securities (60% to 75%)
- Corporate bonds and government bonds (5% to 25%)
- Alternatives (up to 25%) - alternatives would be defined as assets that have historically (over 5 years or more) had a low correlation to equity markets, such as investment trusts focusing on social or green infrastructure
- Permitted closed-ended funds, including investment trusts and real estate investment trusts (up to 20%)
- Warrants (up to 5%)
- Cash (up to 10%)

Investments other than sovereign debt will be invested in line with the thematic investment criteria outlined in the Prospectus. Sovereign debt will not be expected to exceed 15% of the portfolio. There may be times when the Fund may invest outside these parameters. For example, during times of market stress (including a market crash/unforeseen event or circumstance). The Fund may achieve indirect exposure to the above asset classes by holding units in other collective investment schemes (including those managed or operated by the ACD and/or advised or managed by the Investment Manager, or an associate of the ACD or Investment Manager), but these will be limited to a maximum of 10% of the total value of the Fund's portfolio. The use of derivatives and/or hedging transactions is permitted in connection with the efficient portfolio management of the Fund. However, the use of derivatives in this manner is expected to be limited. Borrowing will be permitted on a temporary basis in accordance the Regulations. On giving 60 days' notice to Shareholders, the Fund may, in addition to its other investment powers, use derivatives and forward transactions for investment purposes. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

More information on the sustainable investment strategy can be found in the prospectus.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares, and reinvested in the case of accumulation shares. Investors can buy and sell shares on demand when the scheme prices daily at 12 midday.

Risk and Reward Profile

The risk rating of the Fund is category 5 due to the volatility of simulated data which sits in a range of between 10% and 15%. The risk rating is calculated using historical data and a prescribed standard deviation methodology. The simulated data used is consistent with risk limits of the Fund.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- The investable universe is smaller than that of an unscreened universe, therefore there may be assets with potentially higher returns that cannot be invested in
- Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	10.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	0.08%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges. The UCITS annual report for each financial year will include detail on the exact charges made. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see the section headed 'The Fees, Charges and Expenses of the Depositary' the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk

Past Performance
