

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Libero Balanced Fund X GBP

A sub Fund of the Libero Portfolio Fund

This Fund is managed by Thesis Unit Trust Management Limited

ISIN (Accumulation):

GB00B5LB0957

ISIN (Income):

GB00B5NL0W62

Objectives and Investment Policy

The objective of the Fund is to provide income and capital growth, net of fees, over the longer term (a five-year rolling period).

The Fund will aim to achieve its investment objective through investment in a portfolio of transferable securities which aims to provide a balance of income and capital growth. These may include:

- equity securities (55% to 95%)
- corporate bonds and government bonds (5% to 40%)
- permitted closed-ended funds, including investment trusts and REITs (up to 20%)
- warrants (up to 5%).

Exposure to the above asset classes may be obtained directly or indirectly via investment in collective investment schemes (including those managed or operated by the ACD and/or advised or managed by the Investment Manager). The Fund may invest 5% to 30% in permitted transferable securities (including equities, debt instruments, collective investment schemes and permitted closed-ended funds) which provide exposure to alternative investments (including property and commodities) that have less volatility than equity markets. The Fund may also invest in deposits and approved money market instruments.

Derivatives may be used for efficient portfolio management. The portfolio will be actively managed (which means the Investment Manager decides which investments to buy and sell and when) and will normally remain fully invested save for such operational liquidity as is required from time to time. The assets of the Fund will be managed in such a way that the Shares in the Fund will be qualifying investments for Individual Savings Accounts. The use of derivatives and/or hedging transactions are permitted in connection with the efficient portfolio management of the Fund, and borrowing will be permitted on a temporary basis under the terms of the Regulations. It is not intended that the use of derivatives in this way will change the risk profile of the Fund.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares, and reinvested in the case of accumulation shares. Investors can buy and sell shares on demand when the scheme prices daily at 12 midday.

Risk and Reward Profile

The risk rating of the Fund is category 4 due to the volatility of the Fund price which sits in a range of between 5% and 10%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	10.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	0.36%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 31st December 2025. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see clauses 16, 17 and 18 in the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk

Past Performance

(a) The Fund launched in 2010. The Libero Balanced Fund X GBP launched in 2011

(b) The bar chart shows the calendar year returns for the last 10 full calendar years. If a column is blank, there is insufficient performance data to provide a complete calendar year of performance

(c) Past performance has been calculated in pounds sterling

(d) Performance is calculated as Total Return, including all charges levied against the Fund

(e) Past performance has limited value as a guide to future performance

(f) Investments may go down as well as up

Performance source: Morningstar Direct
