This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## Mellifera Managed Fund Class A

This Fund is managed by Thesis Unit Trust Management Limited

ISIN (Accumulation): GB00BN7CJ462

ISIN (Income): GB00B839ZD76

### Objectives and Investment Policy

The Sub-Fund's aim is to achieve capital growth in excess of the Consumer Price Index plus 3% per annum, after deduction of fees, over rolling 5 year periods. Although the Sub-Fund aims to outperform the UK Consumer Price Index +3% over rolling 5 year periods, capital invested is, in fact, at risk and there is no guarantee that a positive return will be generated over that time period or any other time period.

By investing at least 80% of the Sub-fund in a range of actively managed open and closed-ended funds, the Sub-fund will be indirectly exposed to a broad range of asset classes including equities, fixed interest securities (government and corporate bonds) as well as alternative asset classes, such as infrastructure, commodities (including precious metals, such as gold) property and private equity. The funds selected for investment, such as unit trusts, OEICs, ETFs as well as investment trusts and REITs, may include those managed by the ACD and the Investment Adviser, and their respective associates. The Sub-Fund may also invest directly in, equities, fixed interest securities, exchange-traded commodities ("ETCs"), money market instruments, deposits, cash and near cash. It is intended that at least 50% of the Sub-fund will have an exposure at any time to equities. The Sub-Fund, which is actively managed, will typically hold between 20 and 40 holdings. Through these holdings, the Sub-Fund will be diversified by reference to various factors such as industry, geography or asset class. Although there are no restrictions on allocations between these different factors the Investment Adviser will, in selecting the holdings for the Sub-fund, take a thematic multi-asset approach to asset allocation, identifying long term structural trends which it considers offer the best potential returns for the Sub-fund. The Investment Adviser expects the managers of the funds in which it invests to consider ESG factors and good stewardship principles when investing, including engaging with companies and voting on corporate actions to deliver the best outcomes for their investors; whilst the underlying funds are expected to consider ESG factors, their managers have full discretion over the stocks they select regardless of any ESG considerations.

Derivatives to reduce risk or cost or to generate additional capital or income at proportionate risk (known as "Efficient Portfolio Management"). It is intended that the use of derivatives will be limited.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares, and reinvested in the case of accumulation shares. Investors can buy and sell shares on demand when the scheme prices daily at 12 midday.

### Risk and Reward Profile

The risk rating of the Fund is category 5 due to the volatility of the Fund price which sits in a range of between 10% and 15%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Where derivative investments in the Fund may include a counterparty, there is a risk that the counterparty will not fulfil their obligation.
- The Fund may use derivatives to reduce costs, overall risk and/or generate additional capital or income. This is known as Efficient Portfolio Management (EPM). When used for EPM purposes, there should not be an increase in the overall risk level of the Fund.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

## Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.26%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges. The Non-UCITS annual report for each financial year will include detail on the exact charges made. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed "Fees and Expenses" of the Fund's Prospectus, which is available on request via email to [thesisut@tutman.co.uk](mailto:thesisut@tutman.co.uk)
