Tutman Fund Solutions Ltd is authorised and regulated by the Financial Conduct Authority

Assessment of Value

The FCA's Assessment of Value requirements have been in place since 2019, with Authorised Fund Managers (AFMs) such as Tutman Fund Solutions Ltd (TFSL) being required to perform an annual Assessment of Value (AOV) at share class level within the fund and to report its findings to investors. The assessment is based upon the seven criteria set out in the rules for each of the funds that the AFM controls.

The TFSL Board should ensure that the AFM carries out the assessment required by the FCA, and acts in the best interests of the investors. This report is the result of a rigorous review process by TFSL's AOV Committee which reviews the completed assessment and the data used to support all conclusions. TFSL uses third-party systems to ensure that comparative data is relevant and up to date.

Overall Assessment of Value

- The Board concluded that SVS Landseer European Equity Fund had provided some value to investors. With regard to the Fund's significant underperformance relative to the benchmark, the Investment Manager remains committed to the current strategy and the asset allocation remains largely unchanged and believes that recent underperformance does not reflect a structural issue with the portfolio or its underlying investment process that would require remedial action. TFSL will continue to monitor performance through its normal oversight process.
