

ALLIANCEBERNSTEIN

SVS ALLIANCEBERNSTEIN UK OEIC

An open-ended investment company with variable capital incorporated with limited liability and registered in England and Wales under registered number IC004565

PROSPECTUS

This document is the Prospectus of SVS AllianceBernstein UK OEIC (the Company) which has been prepared in accordance with the Collective Investment Schemes Sourcebook of the Financial Conduct Authority's Handbook of Rules and Guidance. Copies of this Prospectus have been sent to the Financial Conduct Authority and the Depositary.

Tutman Fund Solutions Limited, the Authorised Corporate Director of the Company (the ACD), is the person responsible for the information contained in this Prospectus. To the best of the ACD's knowledge, information and belief (having taken all reasonable care to ensure that such is the case) the information contained in this Prospectus does not contain any untrue or misleading statements or omit any matters required to be included in it by the Collective Investment Schemes Sourcebook.

This Prospectus is dated, and is valid as at 2 March 2026

NOTICE

This Prospectus is intended for distribution in the United Kingdom. The distribution of this Prospectus and the offering of Shares in the Company may be restricted in other jurisdictions. Potential investors are required to inform themselves of the legal requirements and restrictions of their own jurisdiction and act accordingly. This Prospectus does not amount to a solicitation or offer by any person in any jurisdiction in which such solicitation or offer would be unauthorised or unlawful.

The Shares have not been and will not be registered under the United States Securities Act of 1933, as amended. They may not be offered or sold in the United States of America, its territories and possessions, any state of the United States of America and the District of Columbia or offered, sold, or transferred to a US Person as that term is defined under Regulation S promulgated under the U.S. Securities Act of 1933. The Company has not been and will not be registered under the United States Investment Company Act of 1940, as amended. The ACD has not been registered under the United States Investment Advisers Act of 1940.

Under the provisions of the Foreign Account Tax Compliance Act of the USA (FATCA), the Company may be required to disclose to 111\ARC personal details or other information about investors in the Company who are, or who become, US Persons for the purposes of FATCA.

The Company is offering Shares in its Sub-Funds on the basis of the information contained in this Prospectus. No person has been authorised by the Company to give any information or to make any representations in connection with the offering of the shares other than those contained in this Prospectus, and, if given or made, such information or representations must not be relied upon.

The delivery of this Prospectus or the issue of Shares shall not, under any circumstances, imply that the affairs of the Company have not changed since the date hereof or that the information contained herein is correct as of any time subsequent to this date.

This Prospectus is based on information, law and practice at the date hereof. The Company cannot be bound by an out of date prospectus when it has issued a new prospectus and investors should check with Tutman Fund Solutions Limited that this is the most recently published prospectus. Further copies of this Prospectus are available, free of charge from Tutman Fund Solutions Limited.

Potential investors should not treat the contents of this Prospectus as advice relating to legal, taxation, investment or any other matters and are recommended to consult their own professional advisers concerning the acquisition, holding or disposal of Shares.

IMPORTANT: If you are in any doubt about the contents of this Prospectus you should consult your own financial adviser.

DEFINITIONS

"AB Group"	means AllianceBernstein L.P. and its subsidiaries and affiliates;
"Accumulation Shares"	shares in the Sub--Funds of the Company as may be in issue from time to time in respect of which income allocated thereto is credited periodically to capital pursuant to the FCA rules;
"ACD"	Tutman Fund Solutions Limited, the authorised corporate director of the Company;
"ACD Agreement"	an agreement between the Company and the ACD;
"Administrator"	State Street Bank and Trust Company, or such other entity as is appointed to act as administrator to the Company from time to time;
"Auditor"	Ernst & Young, or such other entity as is appointed to act as auditor to the Company from time to time;
"Business Day"	a day on which the London Stock Exchange is open for business;
"Class" or "Classes"	in relation to Shares, means (according to the context) all of the Shares of a particular class or classes of Share related to a single Sub-Fund;
"COLL"	the Collective Investment Schemes Sourcebook of the FCA Handbook;
"Company"	SVS AllianceBernstein UK OEIC;
"Custodian"	State Street Bank and Trust Company or such other entity as is appointed to act as custodian to the Company from time to time;
"Dealing Day"	Monday to Friday inclusive, except for Bank Holidays in the UK (England and Wales) and other days at the ACD's discretion. Such exception may include, without limitation, those applicable to each Sub-Fund, for e.g. the New York Stock Exchange holidays;
"Depositary"	State Street Trustees Limited, or such other entity as is appointed to act as depositary;
"EEA State"	a member state of the European Union and any other state which is within the European Economic Area;
"Eligible Institution"	an eligible institution as defined in the Glossary of the FCA Handbook;
"Eligible Market"	an eligible market as defined in the Glossary of the FCA Handbook and described in Appendix 3;
"EPM" or "Efficient Portfolio Management"	investment techniques that may be used for the purposes of hedging or the efficient management of the Scheme Property as described in Section 7 of Appendix 2;
"ESG Sourcebook"	the Environmental, Social and Governance Sourcebook issued by the FCA and as amended from time to time;

"Exclusion Policy"	the exclusion policies which may be adopted by each of the Sub-Funds and amended from time to time as set out in Appendix 4;
"FCA"	the Financial Conduct Authority or any successor body which may assume its regulatory responsibilities from time to time;
"FCA Handbook"	the FCA Handbook of Rules and Guidance, as amended from time to time;
"FSMA"	The Financial Services and Markets Act 2000 as amended from time to time;
"Income Shares"	shares in the Sub-Funds of the Company as may be in issue from time to time in respect of which income is distributed periodically pursuant to the FCA rules;
"Instrument"	the instrument of incorporation of the Company as amended from time to time;
"Investment Manager"	AllianceBernstein Limited, an investment manager authorised and regulated by the FCA under reference number 147956;
"Net Asset Value" or "NAV"	the value of the Scheme Property of the Company or of any Sub-Fund (as the context may require) less the liabilities of the Company (or of the Sub-Fund concerned) as calculated in accordance with the Instrument of Incorporation;
"OEIC"	an open-ended investment company with variable capital;
"OEIC Regulations"	the Open-Ended Investment Companies Regulations 2001 as amended or re-enacted from time to time;
"Register"	the register of Shareholders of the Company;
"Registrar"	FNZ TA Services Limited, or such other entity as is appointed to act as registrar to the Company from time to time;
"Regulations"	the OEIC Regulations and the FCA Handbook (including COLL);
"Scheme Property"	the cash, transferable securities or any other asset of the Company or of a Sub-Fund (as the case may be) required under COLL to be held for safekeeping by the Depositary;
"SDR"	the FCA's sustainability disclosure requirements, including the anti-greenwashing rule, labelling requirements and naming and marketing rules as set out in the ESG Sourcebook;
"SDRT"	stamp duty reserve tax;
"Share" or "Shares"	a share or shares in the Company (including larger denomination shares, and fractions);
"Shareholder"	a registered holder of Shares in the Company;
"Sub-Fund"	a sub-fund of the Company being part of the Scheme Property of the Company which is pooled separately, to which specific assets and

	liabilities of the Company may be allocated and which is invested in accordance with the investment objective applicable to the sub-fund concerned;
"Sub-Investment Manager"	As indicated in Appendix 1 for each Sub-Fund, either AllianceBernstein L.P. an investment manager registered with the U.S. Securities and Exchange Commission as an investment adviser under the U.S. Investment Advisers Act of 1940, or AllianceBernstein (Europe) Limited (ABEL) an investment manager authorised and regulated by the Central Bank in Ireland (CBI) reference number: C532707;
"Switch" or "Switching"	the exchange where permissible of Shares of one class of Shares or Sub-Fund for Shares of another class of Shares or Sub-Fund;
"Transfer Agent"	FNZ TA Services Limited, or such other entity as is appointed to act as Transfer Agent and Registrar to the Company from time to time;
"UCITS"	means an undertaking established in the United Kingdom or an EEA State in accordance with section 236 A of FSMA, as amended;
"UK"	the United Kingdom of Great Britain and Northern Ireland;
"UK UCITS"	means an undertaking established in accordance with section 236 A and 237 of FSMA, as amended;
"Valuation Point"	12:00 noon London time on each Dealing Day, at which time the ACD carries out a valuation of the Scheme Property for the purpose of determining the price at which Shares may be issued, cancelled or redeemed;
"Value Added Tax" or "VAT"	the UK tax imposed on the supply of goods and services, or any other tax substituted for that tax or in respect of supplies, turnover or value added sales.

1. THE COMPANY

- 1.1. SVS AllianceBernstein UK OEIC (the "**Company**") is incorporated in England and Wales as an ICVC under registration number IC004565 and is on the FCA register under Product Reference Number 836755. The Shareholders are not liable for the debts of the Company or of any Sub-Fund.
- 1.2. The Company is authorised by the FCA as a UK UCITS Scheme under COLL and is an umbrella company for the purposes of the Regulations with each Sub-Fund being a UK UCITS Scheme. Details of the investment objectives and policies of the Sub-Funds, including their borrowing powers and investment restrictions, are set out in Appendix 1 and Appendix 2 of this Prospectus. The Eligible Markets on which the Sub-Funds may invest are listed in Appendix 3.
- 1.3. At the date of this Prospectus the Company has the following Sub-Funds. Details of these Sub-Funds are set out in Appendix 1.
 - 1.3.1. SVS AllianceBernstein Concentrated US Equity Fund
 - 1.3.2. SVS AllianceBernstein Europe (Ex UK) Equity Fund
 - 1.3.3. SVS AllianceBernstein Low Volatility Global Equity Fund
 - 1.3.4. SVS AllianceBernstein Sustainable Global Equity Fund
 - 1.3.5. SVS AllianceBernstein Sustainable US Equity Fund
 - 1.3.6. SVS AllianceBernstein Strategic Bond Fund
- 1.4. Sub-Funds are segregated portfolios of assets and, accordingly, the assets of a Sub-Fund belong exclusively to that Sub-Fund and shall not be used to discharge directly or indirectly the liabilities of, or claims against, any other person or body, including the Company, or any other Sub-Fund, and shall not be available for any such purpose. While the provisions of the OEIC Regulations provide for segregated liability between Sub-Funds, the concept of segregated liability is relatively new. Accordingly, where claims are brought by local creditors in foreign courts or under foreign law contracts, it is not yet known how those foreign courts will react to regulations 11A and 11B of the OEIC Regulations.
- 1.5. For the purposes of this Prospectus, each obligation, requirement, restriction, or other provision applicable to a Sub-Fund should be read as applying to each Sub-Fund individually and not collectively unless stated otherwise.
- 1.6. The Company's Head Office and the address for service in the UK on the Company of notices or other documents is at Tutman Fund Solutions Limited, Exchange Building, St John's Street, Chichester, West Sussex, PO19 1UP.
- 1.7. The effective date of the authorisation order made by the FCA was 15 March 2019. The Instrument is filed with the FCA. The Instrument and most recent annual and half yearly long reports of the Company may be inspected at the Head Office address given above. Paper copies of the Instrument, this Prospectus and the most recent annual and half yearly reports are available on request from the head office.
- 1.8. The base currency of the Company is Pounds Sterling.
- 1.9. The minimum share capital of the Company is £1 and the maximum is £100,000,000,000.

2. THE SHARES

- 2.1. The Company and each Sub-Fund currently issues the classes of Shares as detailed in Appendix 1 (please note that not all classes of Share may be available for all Sub-Funds):
- 2.2. The minimum initial investment for each class of Shares in a Sub-Fund is detailed in Appendix 1. The ACD may at its discretion accept subscriptions for holdings at less than the minimum amounts set out in Appendix 1.
- 2.3. The number of Shares issued will be the greatest number of larger denomination shares with the balance of the subscription amount being used to purchase smaller denomination shares.
- 2.4. Payment of the subscription amount is made by bank transfer to the account details on the application form. Payment will be made in the Share Class currency and accompany the application for Shares. An order for the purchase of Shares will only be deemed to have been accepted by the ACD once it is in receipt of cleared funds for the application. The purchaser remains liable for any loss incurred by the ACD in the case of non-settlement.
- 2.5. Share Certificates will not be issued in respect of Shares. Ownership of the Shares will be evidenced by entry of the applicant's name in the Register of Shareholders.
- 2.6. The ACD has the right to reject any application for Shares in whole or in part on reasonable grounds relating to the circumstances of the investor. If the ACD does reject the application, then the whole of the balance of the subscription amount will be returned at the risk of the investor. Applicants for Shares made during any period of suspension (see Section 3) will be notified that, unless withdrawn, their applications will be considered on the next Dealing Day immediately following the ending of the suspension.
- 2.7. The Company is subject to anti-money laundering legislation in force in the UK. In order to comply with the requirements of this legislation the ACD may require proof of the identity of any applicant for Shares or of the person on whose behalf the application is being made. Where such proof has been requested, the ACD reserves the right to refuse to issue Shares (or pay the proceeds of a redemption) to the applicant until sufficient information has been supplied to satisfy the ACD's identification requirements.
- 2.8. Each Class includes larger and smaller denomination shares in the ratio of 1:1,000. Rights of Smaller denomination Shares are therefore in proportion to those of the larger denomination Shares in the same ratio.
- 2.9. Different Classes of Share may attract different charges and subscription and redemption levels. Details of the minimum subscription for each class and the rates of charges and expenses of each Class are set out in Appendix 1.

Limited Issue

- 2.10. The ACD may in its discretion limit the issue of Shares in a Sub-Fund, or in a class of Shares in a Sub-Fund in accordance with the rules in COLL. The ACD may limit the issue of Shares either:
 - 2.10.1. When the NAV of the Scheme Property of a Sub-Fund has reached a specified value;
or
 - 2.10.2. When the NAV of the proportion of the Scheme Property of a Sub-Fund that is attributable to a class of Shares in that Sub-Fund has reached a specified value.
- 2.11. In either case, the specified NAV at which limited issue will apply is determined by the ACD. Once the ACD has determined that limited issue will apply it will notify Shareholders in the Sub-Fund, or the Class, as appropriate of the Dealing Day from which subscriptions for the Sub-Fund or Class will no longer be accepted. Such Dealing Day will be the day on which the ACD determines that based on the level of subscriptions received, the NAV will reach or exceed the value at which limited issue is to be applied.

- 2.12. The ACD may, in its absolute discretion, and when it is appropriate to do so, continue to accept subscriptions after limited issue has been applied. The ACD will only do so once it is satisfied on reasonable grounds that the proceeds of that subsequent issue can be invested without compromising the Sub-Fund's investment objective or materially prejudicing existing Shareholders.
- 2.13. The ACD may also refuse to accept subscriptions when it determines that, even though the specified NAV limit has not been reached, sufficient subscriptions have been received that it would still be appropriate to limit further issues of Shares in the Sub-Fund, or in a class of Shares. Subscriptions that the ACD has refused to accept will be refunded in full.
- 2.14. Details of the circumstances in which the ACD may limit issues in the Shares of the Sub-Fund are provided in Appendix 1.
- 2.15. Shareholders have the right (in accordance with COLL) to switch between Sub-Funds and between classes of Shares, subject to conditions as outlined in Appendix 1.
- 2.16. The Shares are not listed or traded on any Stock Exchange.
- 2.17. Shares have no par value and, within each Class in each Sub-Fund subject to their denomination, are entitled to participate equally in the profits arising in respect of, and in the proceeds of, the liquidation of the Company or termination of a relevant Sub-Fund Shares do not carry preferential or pre-emptive rights to acquire further Shares.
- 2.18. The ACD may, with the agreement of the Depositary and in accordance with the Instrument of Incorporation launch further Sub-Funds, or issue new Classes of Shares as are provided for in the Instrument. On the launch of any new Sub-Fund or Class, this Prospectus will be updated.
- 2.19. All transactions in Shares are governed by English law.

Hedged Share Classes

- 2.20. The ACD may issue hedged Share Class versions of existing Share Classes. The hedging employed is Portfolio Hedging, sometimes referred to as look through hedging, whereby the underlying currency exposures of the portfolio are hedged back to the designated currency of the Share Class.
- 2.21. Hedged Share Classes attempt to mitigate the effect of fluctuations in the exchange rate of the currency of assets relative to the designated currency of the hedged Share Class.
- 2.22. The ACD will seek to mitigate these risks (where relevant) by using financial instruments such as currency forwards to hedge the currency exposure of the underlying portfolio to a given currency, provided that such instruments shall not result in hedged positions exceeding 100% of the Net Asset Value attributable to the relevant Share Class. In practice the ACD expects to hedge around 100% +/- 1% of the Net Asset Value of assets denominated in currencies other than the base currency of the Class attributable to the relevant hedged Share Class. The ACD will hedge the value of the assets attributable to the relevant hedged Share Class.
- 2.23. There is no guarantee that a hedging transaction will be successful and even where the ACD hedges 100% of the assets attributable to the relevant hedged Share Class this will not be a perfect hedge. Whilst hedging transactions aim to mitigate the risk of hedged Share Classes from being exposed to adverse fluctuations in currencies, this may not always be achieved. This means that the benefit to Shareholders of the relevant Class is limited if the designated currency falls against the base currency and / or the currency in which assets of the relevant Sub-Fund are designated. The ACD has procedures in place to monitor the hedging strategies of the Sub-Funds and will review the hedging position of each hedged Share Class on each Dealing Day and on each day on which there is a Valuation Point and may adjust the hedges following such review. The ACD may in addition adjust hedges where the ACD considers that there has been a material change to dealing volume.

- 2.24. Hedging techniques incur transaction costs which are borne by the relevant hedged Share Class. Gains and losses resulting from hedging transactions will accrue to the relevant hedged Share Class although there is a risk that if the assets attributed to the relevant hedged Share Class are not sufficient to cover any costs or losses resulting from a hedging transaction, then other classes within the Sub-Fund may be adversely affected. The financial instruments used to implement such hedging strategies shall be assets or liabilities of the relevant Sub-Fund as a whole. This may adversely affect the Net Asset Value of the other Classes within the relevant Sub-Fund as well as the hedged Share Class in question. In addition, given that there is no segregation of liabilities between Share Classes, there is a risk that, under certain circumstances like winding up, the settlement of currency hedging transactions or the requirement for collateral (if such activity is collateralised) in relation to one Share Class could have an adverse impact on the net asset value of the other Share Classes in issue.
- 2.25. Unless otherwise stated, Share Classes issues are unhedged.

3. DEALING IN THE SHARES

Buying Shares

Shares may be purchased by sending a completed application form by post to the ACD at Tutman Fund Solutions Limited C/O FNZ TA Services, PO BOX 12892, Dunmow, CM6 9DL, by faxing a copy of the completed application to 0844 8801 559, or by calling 0330 024 0785. Certain Classes of shares may also be purchased by electronic means where available.

- 3.1. Applications received by the Transfer Agent up to 12 noon on a Dealing Day will be dealt with on that day. Applications received after that time will be dealt with on the next following Dealing Day.
- 3.2. Applicants will receive a contract note setting out the details of the transaction including the number and price paid for Shares. The contract note will normally be issued no later than the close of business on the day following the Dealing Day on which the purchase is made or (if later) the day on which the issue price is determined. Applicants will also receive (if applicable) a notice of their right to cancel the purchase. Further details concerning cancellation rights are given at Section 3.23.
- 3.3. The ACD has the right to reject, on reasonable grounds relating to the circumstances of the applicant, any application for shares in whole or part, and in this event the ACD will return any money sent, or the balance of such monies, at the risk of the applicant. In addition the ACD may reject any application previously accepted in circumstances where the applicant has paid by cheque and that cheque subsequently fails to be cleared.
- 3.4. The minimum subscription value of Shares in each Class of Shares for each Sub-Fund is detailed in Appendix 1.
- 3.5. The ACD does not currently charge an initial fee for Share purchases. The ACD may only introduce an initial fee if it has given the Shareholders 60 days' notice of its intention to do so.

Redeeming Shares

- 3.6. Shareholders are entitled to redeem part or all of their Shareholdings.
- 3.7. Instructions to redeem shares should be sent by post to the ACD at Tutman Fund Solutions Limited C/O FNZ TA Services, PO BOX 12892, Dunmow, CM6 9DL or by fax to 0844 8801 559 or by calling on 0330 0240 785 between 9:00am and 5:00 pm on any Dealing Day. The ACD may require instructions received by telephone to be confirmed in writing.
- 3.8. Instructions received by the ACD up to 12 noon on a Dealing Day will be dealt with on that Dealing Day. Instructions received after that time will be dealt with on the next following Dealing Day.
- 3.9. The minimum value of Shares in each Class of Shares for each Sub-Fund which may be redeemed is detailed in Appendix 1.

- 3.10. The ACD may, in its absolute discretion, accept redemptions for lower amounts. The ACD may also at its discretion refuse to redeem Shares if as a result of the redemption the redeeming Shareholder will hold less than the minimum amount of Shares required to be held in the Class of Share concerned.
- 3.11. The ACD may charge a fee on the redemption of Shares although it does not currently do so. The ACD may only introduce a redemption charge if it has given the Shareholders 60 days' notice of its intention to do so.
- 3.12. Contract notes will normally be issued no later than the close of business on the day following the day on which the redemption is effected and the issue price is determined. Contract notes will be sent to the address of the Shareholder appearing on the Register of Shareholders, and in the case of joint Shareholders to the address of the first named Shareholder.
- 3.13. Settlement will normally be made by bank transfer in the Share Class currency, within 3 Business Days of receipt of a renunciation form or other signed confirmation of redemption from the Shareholder that is acceptable to the ACD. Where such shareholder document or information is incomplete, the ACD will hold the payment and notify the shareholder till the ACD received all required information.
- 3.14. Shares may not be redeemed during any period of suspension (except as described in Section 3.31 below). Shareholders requesting redemptions at such times will be notified of the suspension and, unless withdrawn, redemption applications will be considered as at the next Dealing Day following the end of such suspension.
- 3.15. Where the ACD becomes aware that for a Shareholder to continue to hold legally or beneficially any or all shares in the Company that would result in a breach of law or governmental regulation or requirement of any jurisdiction, or may result in the Company incurring any additional liability to taxation or any other liability, then the ACD may give notice to the Shareholder to transfer the shares to another person or to satisfy it that the Shareholder is suitably qualified to hold the shares or if no such action is taken within 30 days of the notice then the ACD may compulsorily redeem the shares.
- 3.16. As permitted by the Instrument, the ACD may permit deferrals of redemptions at any Valuation Point to the next Valuation Point if requested redemptions exceed 10% of the relevant Sub-Fund's Scheme Property. In such circumstances any redemption requests relating to the earlier Valuation Point will be dealt with in priority to redemption requests received at the next following Valuation Point.

Switching

- 3.17. Shareholders are entitled (subject to certain restrictions and/or eligibility criteria that may apply to a particular Class of Shares as described in Appendix 1) to switch all or part of their Shareholding in a Class or a Sub-Fund for Shares in another Class within the same Sub-Fund or for Shares of the same or another Class within a different Sub-Fund where there is no change in the currency of the Share Class.
- 3.18. The ACD may, at its discretion, refuse an application to switch Shares if as a result of the switch the original shareholding will fall below the minimum amount for the Class concerned or if the Shareholder is applying for less than the minimum amount of Shares to be held in the new Class or Sub-Fund. Alternatively, the ACD may require the Shareholder to switch the entire Shareholding to Shares of the new Class or Sub-Fund in order to meet minimum holding requirements.
- 3.19. The ACD may at its discretion charge a fee on the switching of Shares between Sub-Funds or on a switch between Classes of the same Sub-Fund. The ACD does not currently make a charge for switching between Sub-Funds or for switching between Classes of the same Sub-Fund.
- 3.20. Please note that a switch of Shares in one Sub-Fund for Shares in any other Sub-Fund is treated as a redemption and sale and will, for persons subject to UK taxation, be a realisation for the purposes of capital gains taxation (see Section 7 for further explanation of taxation).

A Shareholder exchanging Shares in one Sub-Fund for Shares in any other Sub-Fund will not under any circumstances be entitled to withdraw from or cancel the transaction.

Cancellation

- 3.21. Applicants for Shares who have been given advice on the investment may have the right to cancel the transaction within 14 days of receipt of a cancellation notice sent to them by the ACD. An applicant will not have the right to cancel if:
- (a) the applicant is a professional investor;
 - (b) the applicant entered into the transaction on a non-advised execution only basis; or
 - (c) the purchase is made pursuant to a customer agreement with an authorised person or during negotiations with a view to entering into such an agreement.
- 3.22. Where the investment is made by lump sum payment an applicant opting to cancel may not get a full refund of the subscription amount if the purchase price of the Shares falls before the cancellation request is received by the ACD. In such cases an amount equal to the shortfall in the Share value will be deducted from the subscription repayment. Where the purchase price has not yet been paid the applicant will be required to pay the amount of the shortfall to the ACD.

Direct Issue and Cancellation of Shares by the ACD

- 3.23. Not applicable. Shares are issued or cancelled by the ACD making a record of the issue or cancellation and of the number of shares of each class concerned.

In specie Redemptions

- 3.24. When Shares are being redeemed, the ACD may at its discretion arrange to have transferred to the Shareholder concerned certain identified property of the relevant Sub-Fund instead of making a payment in cash for the price of the Shares. Such a transfer is known as an in specie redemption. In such cases, the ACD will serve a notice on the Shareholder within 2 days of receipt of the redemption instructions that it proposes to make an in specie redemption.
- 3.25. The Shareholder may within 3 days of receiving the notice serve a notice on the ACD requiring that the ACD realise the selected Scheme Property and pay the proceeds to the Shareholder. The selection of the Scheme Property will be made by the ACD in consultation with the Depositary to ensure that such a redemption will not result in any Shareholder (including the redeeming Shareholder) unfairly benefiting or being disadvantaged.

In specie Subscriptions

- 3.26. The ACD may by special arrangement and at its discretion, in consultation with the Depositary, accept assets other than cash as payment for the issue of shares. The acceptance of the assets will be on the basis that the receipt of the property should not adversely affect the interests of the existing shareholders of the respective Sub-Fund and subject to the investment restrictions of that Sub-Fund.

Suspension of Dealing

- 3.27. In exceptional circumstances, the ACD may, with the prior agreement of the Depositary, or shall immediately if the Depositary requires it, temporarily suspend dealing in Shares (which includes selling, redeeming and switching). This will only happen if the ACD (or the Depositary as appropriate) is of the opinion that there is good and sufficient reason for doing so and it is in the interests of the Shareholders. Any such suspension period will only be allowed to continue for as long as it is justified having regard to the interests of the Shareholders. The ACD will notify Shareholders as soon as is practicable of any decision to suspend dealings in Shares and the circumstances giving rise to the decision to do so.

- 3.28. The ACD and Depositary will keep the suspension under ongoing review and will conduct a formal review of the reasons for the suspension at least every 28 days. Shareholders will be kept informed in writing of updates concerning any suspension.
- 3.29. The FCA will also be notified immediately of the suspension (and the reasons for it) and will be kept informed of the results of the formal reviews and provided with any updated information concerning the suspension.
- 3.30. Shares may not be created or cancelled while the suspension remains in force. During such period the ACD will consider any requests to withdraw redemption applications made before the suspension.
- 3.31. Recalculation of prices will commence at 12 noon on the first Dealing Day immediately following the end of the suspension period.

4. VALUATION AND PRICING

- 4.1. The Scheme Property of the Company and each Sub-Fund will normally be valued at 12 noon on each Dealing Day for the purpose of calculating the price at which Shares in the Company may be issued, sold, repurchased or redeemed.
- 4.2. The ACD reserves the right to revalue the Company or any Sub-Fund at any time if it considers it desirable to do so.
- 4.3. Additional valuations may also be carried out in accordance with the OEIC Regulations and the FCA Regulations in connection with a scheme of amalgamation or reconstruction, or on the day the annual or half yearly accounting period ends.
- 4.4. The Net Asset Value of the Scheme Property shall be the value of its assets less the value of its liabilities determined as follows.
- 4.5. All the Scheme Property (including receivables) is to be included, subject to the following provisions.
- 4.6. Property which is not cash (or other assets dealt with in paragraphs 4.7 and 4.8 below) or a contingent liability transaction shall be valued as follows and the prices used shall (subject as follows) be the most recent prices which it is practicable to obtain:
 - (a) units or shares in a collective investment scheme:
 - (i) If a single price for buying and selling units or shares is quoted, at that price; or
 - (ii) If separate buying or selling prices are quoted, at the average of the two prices provided the buying price has been reduced by any initial charge included in the buying price and the selling price has been increased by any exit or redemption charge attributable to the selling price; or
 - (iii) If, in the opinion of the ACD, the price obtained is unreliable or no recent traded price is available or if no recent price exists, at a value which, in the opinion of the ACD, is fair and reasonable;
 - (b) exchange-traded derivative contracts:
 - (i) If a single price for buying and selling the exchange-traded derivative contract is quoted, at that price; or
 - (ii) If separate buying and selling prices are quoted, at the average of the two prices;

- (c) over-the-counter derivative contracts shall be valued in accordance with the method of valuation as shall have been agreed between the ACD and the Depositary;
 - (d) any other investment:
 - (i) If a single price for buying and selling the security is quoted, at that price; or
 - (ii) If separate buying and selling prices are quoted, at the average of the two prices; or
 - (iii) If, in the opinion of the ACD, the price obtained is unreliable or no recent traded price is available or if the most recent price available does not reflect the ACD's best estimate of the value, at a value which, in the opinion of the ACD, is fair and reasonable.
 - (e) Property other than that described in (a), (b), (c) and (d) above, at a value which, in the opinion of the ACD, represents a fair and reasonable mid-market price.
- 4.7. For all Sub-Funds with the exception of the SVS AllianceBernstein Europe (Ex UK) Equity Fund, in the event that the most recent price available to the ACD for any item of scheme property was made available prior to the relevant Sub-Funds Valuation Point, the ACD may apply a market factor to the most recent available price when calculating the Net Asset Value. The market factor accounts for events or market movements that are likely to have an impact on the price of the property between the time that its most recent price was made available and the relevant Sub-Funds Valuation Point. The application of a market factor will create a revised valuation price for the property, and this revised valuation price will be used in the Net Asset Value calculation for the relevant Sub-Fund. In determining the applicable market factor, the ACD may utilize information from a third party including, but not limited to, a vendor appointed by the Investment Manager. For investors in the SVS Alliance Bernstein UK OEIC, the foregoing approach aligns with the valuation methodology of the Investment Manager
- 4.8. For the avoidance of doubt, the ACD retains the ability to not apply a market factor, at any Valuation Point for any Sub-Fund, if in the opinion of the ACD the revised valuation price after the application of the market factor is unreliable or if in the opinion of the ACD the revised valuation price does not reflect the ACD's best estimate of the value, at a value which, in the opinion of the ACD, is fair and reasonable.
- 4.9. Cash and amounts held in current and deposit accounts and in other time-related deposits shall be valued at their nominal values.
- 4.10. In determining the value of the scheme property, all instructions given to issue or cancel shares shall be assumed (unless the contrary is shown) to have been carried out and any cash payment made or received and all consequential actions required by the Regulations or the Instrument shall be assumed (unless the contrary is shown) to have been taken.
- 4.11. Subject to paragraphs 4.10 and 4.11 below, agreements for the unconditional sale or purchase of property which are in existence but uncompleted shall be assumed to have been completed and all consequential action required to have been taken. Such unconditional agreements need not be taken into account if made shortly before the valuation takes place and, in the opinion of the ACD, their omission will not materially affect the final net asset amount.
- 4.12. Futures or contracts for differences which are not yet due to be performed and unexpired and unexercised written or purchased options shall not be included under paragraph 4.9.
- 4.13. All agreements are to be included under paragraph 4.9 which are, or ought reasonably to have been, known to the person valuing the property assuming that all other persons in the ACD's employment take all reasonable steps to inform it immediately of the making of any agreement.
- 4.14. Deduct an estimated amount for anticipated tax liabilities (on unrealised capital gains where the liabilities have accrued and are payable out of the property of the Scheme; on realised capital gains in respect of previously completed and current accounting periods; and on income where liabilities

have accrued) including (as applicable and without limitation) capital gains tax, income tax, corporation tax, value added tax, stamp duty and SDRT.

- 4.15. Deduct an estimated amount for any liabilities payable out of the scheme property and any tax thereon treating periodic items as accruing from day to day.
- 4.16. Deduct the principal amount of any outstanding borrowings whenever payable and any accrued but unpaid interest on borrowings.
- 4.17. Add an estimated amount for accrued claims for tax of whatever nature which may be recoverable.
- 4.18. Add any other credits or amounts due to be paid into the scheme property.
- 4.19. Add a sum representing any interest or any income accrued due or deemed to have accrued but not received and any stamp duty reserve tax provision anticipated to be received.
- 4.20. Add the total amount of any cost determined to be, but not yet, amortised relating to the authorisation and incorporation of the Company and of its initial offer or issue of shares.
- 4.21. Currencies or values in currencies other than the base currency or (as the case may be) the designated currency of a Sub-Fund shall be converted at the relevant valuation point at a rate of exchange that is not likely to result in any material prejudice to the interests of shareholder or potential shareholders.
- 4.22. For the above purposes, instructions given to issue or cancel Shares are assumed to have been carried out (and any cash paid or received); and uncompleted arrangements for the unconditional sale or purchase of property are (with certain exceptions) assumed to have been completed and all consequential action taken.
- 4.23. Each Sub-Fund will have credited to it the proceeds of all Shares issued in respect of it, together with the assets in which such proceeds are invested or reinvested and all income, earnings, profits, or assets deriving from such investments. All liabilities and expenses attributable to a Sub-Fund will be charged to it.
- 4.24. The Company will allocate any assets, costs, charges or expenses which are not attributable to a particular Sub-Fund among the Sub-Funds generally in a manner which is fair to all the Shareholders.

Pricing Basis

- 4.25. There is a single price for buying, selling and switching Shares in a Sub-Fund which represents the Net Asset Value of the Sub-Fund concerned.
- 4.26. The Share price is calculated on a forward pricing basis, that is at the next Valuation Point after the purchase or redemption is deemed to be accepted by the ACD.
- 4.27. Shareholders can obtain the price of their shares on www.trustnet.com. Neither the ACD nor the Company can be held responsible for any errors in the publication of the prices. The Shares in the Company will be issued and redeemed on a forward pricing basis which means that the price will not necessarily be the same as the published price.

Equalisation

- 4.28. An income equalisation amount representing the value of income attributable to the Shares accrued since the record date for the last income distribution for Income Shares or deemed distribution for Accumulation Shares is included in the price of shares and so reflected as a capital sum in the price. Being capital, it is not liable to income tax but must be deducted from the cost of shares for capital gains tax purposes.

- 4.29. For Accumulation Shares, the equalisation amount is reinvested alongside the taxed income. This means that no adjustment need be made to the cost of the shares in calculating the relevant capital gains tax.
- 4.30. Equalisation only applies to shares purchased during the relevant accounting period. It is the average amount of income included in the price of all shares issued during that period.
- 4.31. Details of charges payable are contained in Section 6.

5. MANAGEMENT AND ADMINISTRATION

5.1. The Authorised Corporate Director

The ACD of the Company is Tutman Fund Solutions Limited which is a private company limited by shares incorporated in England and Wales under the Companies Act 1985. The ACD was incorporated on 30 July 1985 (Registered Company No 1934644).

Registered Office and Head Office:

Exchange Building
St John's Street
Chichester
West Sussex
PO19 1UP

The directors of the ACD are set out in Appendix 9.

The ACD is authorised and regulated by the Financial Conduct Authority and, by virtue of this is authorised to carry on investment business in the United Kingdom.

In relation to the Company and each Sub-Fund, the ACD must ensure that:

- (a) the Shareholders are treated fairly;
- (b) the interests of any group of Shareholders are not placed above the interests of any other group of shareholders;
- (c) it applies appropriate policies and procedures for preventing malpractices that might reasonably be expected to affect the stability and integrity of the market;
- (d) fair, correct and transparent pricing models and valuation systems are used for each Sub-Fund in order to comply with its duty to act in the best interests of the Shareholders;
- (e) it is able to demonstrate that the Scheme Property is accurately valued;
- (f) it acts in such a way as to prevent undue costs being charged to the Company, a Sub-Fund or Shareholders; and
- (g) in carrying out its functions it acts honestly, fairly, professionally and independently, and solely in the interests of the Company, each Sub-Fund and its Shareholders.

The ACD may act as an authorised fund manager or ACD to other clients and funds and to companies in which the Company may invest and these are listed in Appendix 4. It may also delegate its activities and retain the services of another person to assist in its functions.

The agreement between the ACD and the Company can be terminated by either party on 6 months' notice in writing or sooner upon mutual agreement between the ACD and the Company. The Company agrees to indemnify the ACD against losses, liabilities, costs, claims, actions, damages, or expenses (including all reasonable legal and other professional expenses) incurred by the ACD acting as ACD except where caused by the fraud, negligence, or wilful default of the

ACD. A copy of the agreement between the ACD and the Company is available to shareholders on request from the head office of the ACD.

The Thesis Group remuneration policy is designed to be compliant with the UCITS V Remuneration Code contained in SYSC 19E of the FCA Handbook. The Remuneration Policy is designed to ensure that the ACD's remuneration practices are consistent with and promote sound and effective risk management, do not encourage risk taking and are consistent with the risk profile of the Company and the Sub-Funds. The ACD considers the Remuneration Policy to be appropriate to the size, internal operations, nature scale and complexity of the Company and in line with the risk profile, risk appetite and the strategy of the Company.

The matters covered by the Remuneration Policy include:

- An assessment of the individual member of staff's performance;
- restrictions on the awarding of guaranteed variable remuneration;
- the balance between fixed and variable remuneration;
- any payment of remuneration in the form of units or shares in the Sub-Funds;
- any mandatory deferral periods for the payment of some or all of the variable remuneration component; and
- the reduction or cancellation of remuneration in the case of under-performance.

The Remuneration Policy will apply to the fixed and variable (if any) remuneration received by the identified staff, which includes senior management, risk takers, staff engaged in controlled functions where the person's professional activities have a material impact on the risk profiles of the ACD or the Company.

The up-to-date Remuneration Policy is available on the ACD's website at <https://www.tutman.co.uk/remuneration-policy/>. A paper copy is available free of charge upon request.

5.2. **The Depositary**

The Company has appointed State Street Trustees Limited as the depositary of the Company (the "Depositary"). The Depositary is a private limited company and was incorporated in England and Wales on 24 October 1994. Its registered and head office is at Quartermile 3, 10 Nightingale Way, Edinburgh, EH3 9EG.

The principal business activity of the Depositary is to act as trustee and depositary of regulated collective investment schemes. It is authorised and regulated by the FCA and by virtue of this is authorised to carry on investment business in the United Kingdom.

Duties of the Depositary

The Depositary is responsible for the safekeeping of the Scheme Property of the Company and the Sub-Funds and has a duty to take reasonable care to ensure that certain processes carried out by the ACD are performed in accordance with the Regulations, the instrument and this Prospectus.

The Depositary has been entrusted with the following main functions:

- ensuring that the sale, issue, repurchase, redemption and cancellation of Shares are carried out in accordance with applicable law and the Instrument.
- ensuring that the value of the Shares is calculated in accordance with applicable law and the Instrument.
- carrying out the instructions of the ACD unless they conflict with applicable law and the Instrument.

- ensuring that in transactions involving the assets of the Sub-Fund any consideration is remitted within the usual time limits.
- ensuring that the income of the Company and each Sub-Fund is applied in accordance with applicable law and the Instrument.
- monitoring of the Sub-Fund's cash and cash flows.
- safe-keeping of the Sub-Fund's assets, including the safekeeping of financial instruments to be held in custody and ownership verification and record keeping in relation to other assets.

Depository's Liability

In carrying out its duties the Depository shall act honestly, fairly, professionally, independently and solely in the interests of the Company, each Sub-Fund and the Shareholders.

In the event of a loss of a financial instrument held in custody, determined in accordance with the Regulations, in accordance with COLL 6.6.18R of the Collective Investment Schemes sourcebook, the Depository shall return financial instruments of identical type or the corresponding amount to the ACD acting on behalf of the Sub-Fund without undue delay.

The Depository shall not be liable if it can prove that the loss of a financial instrument held in custody has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary pursuant to the Regulations and applicable law.

In case of a loss of financial instruments held in custody, the Shareholders may invoke the liability of the Depository directly or indirectly through the ACD provided that this does not lead to a duplication of redress or to unequal treatment of the Shareholders.

The Depository will be liable to the Company for all other losses suffered by it or a Sub-Fund as a result of the Depository's negligent or intentional failure to properly fulfil its obligations pursuant to the Regulations and applicable law.

The Depository shall not be liable for consequential or indirect or special damages or losses, arising out of or in connection with the performance or non-performance by the Depository of its duties and obligations.

Delegation

The Depository has full power to delegate the whole or any part of its safe-keeping functions but its liability will not be affected by the fact that it has entrusted to a third party some or all of the assets in its safekeeping. The Depository's liability shall not be affected by any delegation of its safe-keeping functions under the Depository Agreement.

Information about the safe-keeping functions which have been delegated and the identification of the relevant delegates and sub-delegates are contained in Appendix 6 to the Prospectus.

Conflicts of Interest

The Depository is part of an international group of companies and businesses that, in the ordinary course of their business, act simultaneously for a large number of clients, as well as for their own account, which may result in actual or potential conflicts. Conflicts of interest arise where the Depository or its affiliates engage in activities under the depository agreement or under separate contractual or other arrangements. Such activities may include:

- (a) providing nominee, administration, registrar and transfer agency, research, agent securities lending, investment management, financial advice and/or other advisory services to the Company;
- (b) engaging in banking, sales and trading transactions including foreign exchange, derivative, principal lending, broking, market making or other financial transactions with the Sub-Funds either as principal and in the interests of itself, or for other clients.

- (c) In connection with the above activities the Depository or its affiliates:
- (i) will seek to profit from such activities and are entitled to receive and retain any profits or compensation in any form and are not bound to disclose to, the Company, the nature or amount of any such profits or compensation including any fee, charge, commission, revenue share, spread, mark-up, mark-down, interest, rebate, discount, or other benefit received in connection with any such activities;
 - (ii) may buy, sell, issue, deal with or hold, securities or other financial products or instruments as principal acting in its own interests, the interests of its affiliates or for its other clients;
 - (iii) may trade in the same or opposite direction to the transactions undertaken, including based upon information in its possession that is not available to the Sub-Fund;
 - (iv) may provide the same or similar services to other clients including competitors of the Company;
 - (v) may be granted creditors' rights by the Company which it may exercise. In exercising such rights the Depository may have the advantage of an increased knowledge about the affairs of the Sub-Fund thus improving its ability to enforce.

The ACD may use an affiliate of the Depository to execute foreign exchange, spot or swap transactions for the account of a Sub-Fund. In such instances the affiliate shall be acting in a principal capacity and not as a broker, agent or fiduciary of the Sub-Fund concerned. The affiliate will seek to profit from these transactions and is entitled to retain and not disclose any profit to the Sub-Fund. The affiliate shall enter into such transactions on the terms and conditions agreed with the ACD.

Where cash belonging to a Sub-Fund is deposited with an affiliate being a bank, a potential conflict arises in relation to the interest (if any) which the affiliate may pay or charge to such account and the fees or other benefits which it may derive from holding such cash as banker and not as trustee.

The ACD may also be a client or counterparty of the Depository or its affiliates.

The types and levels of risk that the Depository is willing to accept may conflict with a Sub-Fund's preferred investment policy and strategy.

The Depository will typically only provide depository services where global custody is delegated to an affiliate of the Depository.

Other service providers to the Company, which may include affiliates of the Depository, are appointed by the ACD. The ACD is responsible for the due diligence, selection and ongoing monitoring of such service providers.

Potential conflicts that may arise in the Depository's use of sub-custodians include four broad categories:

- (a) conflicts from the sub-custodian selection and asset allocation among multiple sub-custodians influenced by (i) cost factors, including lowest fees charged, fee rebates or similar incentives and (ii) broad two-way commercial relationships in which the Depository may act based on the economic value of the broader relationship, in addition to objective evaluation criteria;
- (b) sub-custodians, both affiliated and non-affiliated, act for other clients and in their own proprietary interest, which might conflict with clients' interests;
- (c) sub-custodians, both affiliated and non-affiliated, have only indirect relationships with clients and look to the Depository as its counterparty, which might create incentive for the

Depository to act in its self-interest, or other clients' interests to the detriment of clients; and

- (d) sub-custodians may have market-based creditors' rights against client assets that they have an interest in enforcing if not paid for securities transactions.

In carrying out its duties the Depository shall act honestly, fairly, professionally, independently and solely in the interests of the Company, the Sub-Funds and Shareholders.

The Depository has functionally and hierarchically separated the performance of its depository tasks from its other potentially conflicting tasks. The system of internal controls, the different reporting lines, the allocation of tasks and the management reporting allow potential conflicts of interest and the Depository issues to be properly identified, managed and monitored. Additionally, in the context of the Depository's use of sub-custodians, the Depository imposes contractual restrictions to address some of the potential conflicts and maintains due diligence and oversight of sub-custodians to ensure a high level of client service by those agents. The Depository further provides frequent reporting on clients' activity and holdings, with the underlying functions subject to internal and external control audits. Finally, the Depository internally separates the performance of its custodial tasks from its proprietary activity and follows a Standard of Conduct that requires employees to act ethically, fairly and transparently with clients.

Up-to-date information on the Depository, its duties, any conflicts that may arise, the safe-keeping functions delegated by the Depository, the list of delegates and sub-delegates and any conflicts of interest that may arise from such a delegation will be made available to Shareholders on request.

Depository Agreement

The appointment of the Depository has been made under an agreement between the ACD and the Depository. The Depository Agreement may be terminated on 90 days written notice by the Depository or the ACD. However, the Depository is not permitted to retire voluntarily except on the appointment of a new depository. The Financial Conduct Authority is entitled to prior notification of any proposal by the ACD to replace the Depository.

The Depository Agreement provides indemnities to the Depository (except in respect of its failure to exercise due care and diligence) and (to the extent permitted by the Regulations) exempts it from liability for special, indirect or consequential loss or damage.

The Depository is entitled to act as depository to other companies (as well as carrying on its custodial and other businesses, including with the Company).

5.3. The Investment Manager

The ACD has appointed AllianceBernstein Limited to provide investment management and advisory services to the ACD with respect to each Sub-Fund as outlined in Appendix 1.

The Investment Manager may delegate investment management and advisory services for a Sub-Fund. Any reference herein to "Investment Manager," "Investment Management Agreement," or corresponding term shall be read to mean AllianceBernstein Limited.

The Investment Manager's Agreement with the ACD (the Investment Management Agreement) may be terminated on 3 months' written notice by the Investment Manager or the ACD or sooner if mutual agreed by the ACD and the Investment Manager.

AllianceBernstein Limited have sub-delegated the investment management for the Sub-Funds as shown below.

SUB-INVESTMENT MANAGER

SUB-FUND

AllianceBernstein L.P.	SVS AllianceBernstein Concentrated US Equity Fund SVS AllianceBernstein Sustainable Global Equity Fund SVS AllianceBernstein Sustainable US Equity Fund SVS AllianceBernstein Low Volatility Global Equity Fund SVS AllianceBernstein Strategic Bond Fund
------------------------	---

AllianceBernstein (Europe) Limited (ABEL)	SVS AllianceBernstein Europe (Ex UK) Equity Fund
---	--

The Investment Manager is authorised by the ACD to exercise complete discretion to buy, sell, retain, exchange or otherwise deal in the Scheme Property of the Company and each Sub-Fund.

Under the Investment Management Agreement, the Investment Manager provides indemnities to the ACD and the Company for any losses suffered or imposed as a result of negligence, wilful default, fraud, breach of the Regulations or breach of the Investment Management Agreement by the Investment Manager or any of its officers, employees, delegates or agents. The ACD may be entitled under the indemnities in the ACD Agreement to recover from the Company amounts paid by the ACD under the indemnities in the Investment Management Agreement.

Notwithstanding the foregoing, the Investment Manager is nevertheless (i) permitted to delegate (and to authorise its delegates to sub-delegate) the whole or part of its duties and (ii) as, the Investment Manager is part of AB Group, the Investment Manager may utilise the services of investment and other personnel of other entities within AB Group for the provision of services to the Company and each Sub-Fund; such use of AB Group members will not be deemed delegation for the purposes of this Prospectus or the Investment Management Agreement.

Research

Where the Investment Manager delegates investment management functions to an affiliate outside the United Kingdom or the EU, information regarding research costs may vary from information available from affiliates located with the United Kingdom or the EU.

As stated above, the Investment Manager has sub-delegated the investment management of SVS AllianceBernstein Concentrated US Equity Fund, SVS AllianceBernstein Sustainable Global Equity Fund, SVS AllianceBernstein Sustainable US Equity Fund and SVS AllianceBernstein Low Volatility Global Equity Fund to AllianceBernstein L.P., an investment manager registered with the U.S. Securities and Exchange Commission as an investment adviser under the U.S. Investment Advisers Act of 1940.

AllianceBernstein L.P. (the 'Sub-Investment Manager') uses commission sharing agreements under which it pays commission to a broker for trade execution and asks the broker to allocate a proportion of the commission to an independent research provider. Such "bundling" of payments for third party research and execution services will be carried out in accordance with the applicable rules of the U.S. Securities and Exchange Commission.

Part of the bundled payment described in the paragraph above will be used to fund the purchase of third-party research that the Sub-Investment Manager believes will benefit the relevant Sub-Funds by assisting the Sub-Investment Manager to make better investment decisions. The use of research supports investment decisions with timely, high-quality information and analysis conducted via in-depth research on corporations, industries, and macro trends, offering an expert's view on a subject. The Sub-Investment Manager will take into account whether prospective research represents value for money for each Sub-Fund, and to what extent it is likely to lead to better investments decisions and enhanced performance in line with each Sub-Fund's investment objective, policy and investment strategy when considering whether to purchase that research for the benefit of that Sub-Fund.

Having been provided with a copy of the Investment Manager's policy regarding research, the ACD has satisfied itself that the Sub-Investment Manager has established a process whereby it will

regularly assess the quality of the research purchased using the bundled payment under the commission sharing agreements.

This assessment is based on robust quality criteria, including the extent to which, in the Sub-Investment Manager's opinion, that research contributes to its decision-making process when making investment decisions on behalf of each Sub-Fund. The research undertaken helps to ensure a clear understanding of a company's economics, including a discussion of the key drivers of revenues and expenses.

The Research Allocation Committee (which encompasses both the Investment Manager's and the Sub-Investment Manager's activities) agrees how much research each investment strategy requires through the establishment research budget. The Research Allocation Committee agrees the research budget for payments to be made to research providers on an annual basis. The Research Allocation Committee agrees the budget based on a reasonable assessment of the need for third-party research while also considering the investment strategies, the expected assets under management, the size of the team requiring research, the number of stocks under coverage, historical expenditures, and market conditions.

The budget may be adjusted upwards or downwards. The Research Allocation Committee is also responsible for monitoring and regularly assessing the budget. Research payments are tracked to ensure the research budget is met through monitoring payments. Once the research budget is met, the Sub-Investment Manager will only pay for execution services going forward.

A summary of the following information in respect of the most recent annual reporting period is available to investors from the ACD on request and will be provided to the ACD by the Investment Manager on a yearly basis:

- the research providers paid by brokers from their commission; and
- the total amount of research commissions generated by each commission-sharing broker.

Details of the Sub-Investment Manager's research budget and the estimated research charge for each Sub-Fund is also available from the ACD upon request.

5.4. The Transfer Agent & Registrar

The ACD has appointed FNZ TA Services Limited of Level 7, 2 Redman Place, Stratford, E20 1JQ (the Transfer Agent & Registrar) to which it has delegated responsibility for administration functions in relation to dealings in Shares, and to act as transfer agent.

The ACD has also appointed FNZ TA Services Limited as registrar with responsibility for maintaining the Share Register. The Share Register is kept at Level 7, 2 Redman Place, Stratford, E20 1JQ where it may be inspected by Shareholders.

5.5. The Administrator

The ACD has appointed State Street Bank and Trust Company of 20 Churchill Place, London E14 5HJ (the Administrator) to which it has delegated responsibility for administration functions in relation to calculation of the Net Asset Value of the Company and Sub-Funds, and to act as fund accountant.

5.6. The Auditors

The auditors of the Company are Ernst & Young of Young LLP of Atria One, 144 Morrison Street, Edinburgh EH3 8EX.

6. CHARGES AND EXPENSES

6.1. General

This Section sets out details about the charges and expenses associated with the Sub-Funds. Where indicated, such fees and charges will be recovered from the Scheme Property and where it is permitted under COLL. The ACD may, in its discretion, waive a charge or cap the extent to which a particular type of charge may be applied to a Sub-Fund. The ACD will act in the best interests of the Shareholders in considering whether a charge should be waived or capped, and also in making the decision as to whether to reintroduce a charge. Shareholders will be notified of such changes to the charging structure in accordance with the rules in COLL.

The ongoing charges figure (the OCF) which represents these ongoing fees and charges made to the Sub-Funds is published in the Key Investor Information Document (KIID) for each Sub-Fund.

6.2. Dealing Charges

Details, where applicable of the initial charges, redemption charges and switching charges for each Sub-Fund will be set out in Appendix 1.

6.3. ACD fees

The ACD is entitled to receive from each Sub-Fund an ACD fee which accrues daily with reference to the previous business day's Net Asset Value and is payable monthly in arrears. The amount due for each month is required to be paid as soon as practicable after the month-end. The current ACD Fee is set out below:

- £0-£500m net asset value – 0.0275%;
- £500m-£1bn net asset value – 0.02%;
- £1bn-£2bn - 0.015%;
- £2bn+ - 0.01%,

Applied to the aggregate NAV of the Company and apportioned to each Sub-fund, subject to a minimum of £23,500 per Sub-Fund. Note that for any new Sub-Fund launches, the minimum fee will be waived for up to 6 months.

The ACD may increase these fees on 60 day notice to investors.

The ACD is entitled to receive payment for expenses detailed in Section 6.10 below,

6.4. Investment Management Fee

The Investment Manager is entitled to receive an Investment Management fee, the details of which are set out in Appendix 1 and which is payable out of the Scheme Property. The Investment Management Fee accrues daily and is payable monthly in arrears and is calculated by reference to the previous day's Net Asset Value of the Sub-Funds.

6.5. Transfer Agent & Registrar Fees

The Transfer Agent & Registrar is entitled to receive out of the Scheme Property fees for its services both in respect of the register and any sub registers.

Fees for the services of establishing and maintaining the Register and any plan registers, and any associated expenses, will always be payable by the Company, whether those services are provided by the Transfer Agent & Registrar, its associates or any other person.

The Transfer Agent & Registrar is entitled to receive out of the Scheme Property by way of remuneration a periodic charge, which will be calculated daily with reference to the previous business day's Net Asset Value and paid monthly in arrears.. The rate of the Registrars periodic

charge in respect of each Sub-Fund will be such rate or rates as agreed from time to time between the ACD and the Transfer Agent & Registrar.

The Company is subject to a periodic charge based on the Net Asset Value of each Sub-Fund. While the maximum applicable rate is 0.05% per annum, the Company currently applies the following tiered rate structure:

- £0-£250m net asset value – 0.02%;
- £250m-£500m net asset value – 0.015%;
- £500m+ - 0.01%,

Each Sub-Fund is also subject to a Minimum Monthly Fee of £625, payable each calendar month. Total monthly fees are calculated using the aggregate Net Asset Value of the Company and proportionally allocated across each Sub-Fund where the Minimum Monthly Fee is applicable. For example, if six Sub-Funds incur the minimum charge, the total monthly fee would be £3,750.

The Registrar will additionally seek to recover all reasonable disbursement costs incurred as a result of the proper execution of its duties. These costs would include, but would not be restricted to, postage, printing, telephone, fax and stationery.

The Company will not necessarily avail itself of all the services the Registrar can offer.

Any value added tax on fees, charges or expenses payable to the Registrar will be added to such fees, charges or expenses.

6.6. Administrator Fees

The Administrator is entitled to receive out of the scheme property fees for its Fund Administration services in arrears at an annual percentage rate of up to 0.025% of the value of the scheme property. The fee structure applicable to the Sub-Fund shall comprise no minimum fee during the first year following the launch of the Sub-Fund. In the second year, a minimum fee equal to 50% of the standard minimum amount shall apply. From the third year onwards, the fee shall be subject to the minimum charge of £39,500 per annum per Sub Fund. Administrator fees will be calculated daily with reference to the previous business day's Net Asset Value and paid monthly in arrears. The minimum fee covers the administration of two base currency Share Classes. An additional Administration Fee of £1,970 per annum will be payable from the scheme property for each additional base currency Share Class administered, and an additional Administration Fee of \$6,000 per annum will be payable for each additional hedged Share Class administered, payable from the scheme property attributable to that hedged Share Class.

6.7. Dilution Adjustment

In order to counter the effects of dilution on a Sub-Fund's Net Asset Value brought about by large purchases and/or redemptions of a Sub-Fund's Shares, the ACD has implemented a swing pricing policy.

Dilution involves a reduction in the Net Asset Value brought about by investors purchasing, selling and/or exchanging in and out of a Sub-Fund at a price that does not reflect the dealing costs associated with the Sub-Funds trade activity undertaken to accommodate the corresponding cash inflows or outflows. Dilution occurs when the actual cost of purchasing or selling the underlying assets of a Sub-Fund deviates from the valuation of these assets in the Sub-Fund due to dealing charges, taxes and any spread between the buying and selling prices of the underlying assets. Dilution may have an adverse effect on the value of a Sub-Fund and therefore impact Shareholders.

Under the ACD's swing pricing policy, if on any Business Day, the aggregate net investor inflows or outflows in Shares of a Sub-Fund exceed a pre-determined threshold, as determined from time to time by the ACD, the Net Asset Value of the Sub-Fund may be adjusted upwards or downwards

to reflect the costs attributable to such net inflows or net outflows. The threshold is set by the ACD taking into account factors such as the prevailing market conditions, the estimated dilution costs and the size of a Sub-Fund. The level of swing pricing adjustment will be reviewed and may be adjusted on a periodic basis to reflect an approximation of dealing costs as determined by the ACD. The application of swing pricing will be triggered automatically on a daily basis upon crossing the relevant threshold. The swing pricing adjustment will be applicable to all Shares of a Sub-Fund (and all transactions) on that Business Day. The swing pricing adjustment may vary by Sub-Fund and is dependent upon the particular assets in which a Sub-Fund is invested. The swing pricing adjustment will generally not exceed 2% of the original Net Asset Value of a Sub-Fund.

Investors are advised that the application of swing pricing may result in increased volatility in a Sub-Funds valuation and performance, and a Sub-Fund's Net Asset Value may deviate from the underlying investments' performance on a particular Business Day as a result of the application of swing pricing. Typically, such adjustment will increase the Net Asset Value per Share on a given Business Day when there are net inflows into a Sub-Fund and decrease the Net Asset Value per Share when there are net outflows.

6.8. Depositary's fees

The Depositary is entitled to receive out of the property of each Sub-Fund for its own account, by way of remuneration, a periodic charge (plus VAT) which will accrue daily and be payable monthly. The rate of the Depositary's periodic charge will be the amount agreed by the Company and the Depositary from time to time.

The Depositary's current periodic charge in respect of each Sub-Fund is outlined in the table below. The Depositary Fee will be calculated by multiplying the average monthly NAV of each Sub-Fund by the applicable basis point fee, dividing the result (or the sum of the results if tiered rates are applicable) by actual number of days in year multiplied by actual number of days in month. The average monthly NAV of each Sub-Fund will be calculated by taking the sum of the Sub-Fund's daily NAVs for each day of the month (for each non-business day, the preceding business day's NAV will be used) and dividing that amount by the number of days in the month. This rate may be subject to change from time to time, with the agreement of the Depositary and the ACD.

Net Asset Value (NAV)	Annual Basis Point Fee
First £197 million	0.015%
Next £197 million	0.0125%
Balance	0.01%

Subject to an annual minimum charge of £31,500 per Sub-Fund per annum (excluding VAT)

* The fee structure applicable to the Sub-Fund shall comprise no minimum fee during the first year following the launch of the Sub-Fund. In the second year, a minimum fee equal to 50% of the standard minimum amount shall apply. From the third year onwards, the fee shall be subject to a minimum charge of £31,500 per Sub-Fund per annum (excluding VAT).

In addition, the Depositary will be entitled to make charges consisting of custody fees, transaction fees and other related fees.

The Depositary will be reimbursed by the Company for expenses properly incurred in performing or arranging for the performance of functions conferred on it by the Regulations, or the Depositary Agreement or by general law. These functions may (without limitation of the foregoing) include custody, insurance, acquisition and dealing with assets of the Company; making deposits or loans, dealing with borrowings, effecting foreign currency dealings and effecting efficient portfolio management transactions, as permitted by the FCA Regulations; collection of income or capital; submission of tax returns and handling tax claims; preparation of the Depositary's annual report; calling shareholders' meetings and communicating with shareholders; preparing, clearing and

dispatching distribution warrants; obtaining professional advice; conducting legal proceedings; carrying out administration relating to the Company; and supervision of certain of the activities of the ACD.

The amount or rate of any expenses shall be determined either by the Depositary or by reference to the scale or tariff or other basis from time to time agreed between the ACD and the Depositary and notified to the ACD by the Depositary provided that in either case such charges shall be at least as favourable as if they had been effected on normal commercial terms negotiated at arm's length between the Depositary and a comparable customer.

Any service charges or additional remuneration payable to the Depositary as above shall accrue due when the relevant transaction or other dealing is effected or relevant service is provided or as may otherwise be agreed between the Depositary and the ACD and shall be paid to the Depositary as soon as practicable after they have accrued.

On a winding-up of the Company, a Sub-Fund or the redemption of a class of shares, the Depositary will be entitled to its pro rata fees and expenses to the date of termination and any additional expenses necessarily realised in settling or receiving any outstanding obligations. No compensation for loss of office is provided for in the agreement with the Depositary.

6.9. Charges payable to hedging providers (applicable to hedged Share Classes only)

Charges will be payable to hedging providers out of the Scheme Property.

These charges are payable to Brown Brothers Harriman Investor Services Ltd. and encompass currency management, transaction, and accounting fees in respect of hedged Share Classes. The current charge will be 0.005% of the total net asset value of the assets hedged.

6.10. Other Expenses

The following expenses may also be paid out of the Scheme Property of each Sub-Fund so far as permitted by COLL:

- 6.10.1. broker's commission, fiscal charges and other disbursements (including stamp duty and/or stamp duty reserve tax) which are necessary to be incurred in effecting transactions for the Company and normally shown in contract notes, confirmation notes and difference accounts as appropriate;
- 6.10.2. any costs incurred in publishing the price of the Shares in a national or other newspaper or any other form of media;
- 6.10.3. any cost incurred in producing and dispatching payments made by the Company or a Sub-Fund (as the case may be), or the yearly and half yearly reports of the Company;
- 6.10.4. any fees, expenses or disbursements of any legal or other professional adviser of the Company including tax, legal counsel, foreign registration and translators;
- 6.10.5. any costs incurred in taking out and maintaining an insurance policy in relation to the Company;
- 6.10.6. any costs incurred in respect of meetings of Shareholders convened for any purpose;
- 6.10.7. any liability arising after the transfer of property to another authorised fund in consideration of units or shares in such other fund in accordance with COLL 6.7.15R;
- 6.10.8. interest on permitted borrowings and charges incurred in effecting or terminating such borrowings or in negotiating or varying the terms of such borrowings;

- 6.10.9. taxation and duties payable in respect of the Scheme Property or the issue or redemption of Shares;
- 6.10.10. the audit fees of the Auditors (including VAT) and any expenses of the Auditors;
- 6.10.11. periodic fees of the FCA, together with any corresponding fees of any regulatory authority in a country or territory outside the UK in which Shares in the Company and/or Sub-Funds are or may be marketed;
- 6.10.12. any expense incurred in relation to company secretarial duties and the duties of the Registrar including the cost of maintenance of minute books and other documentation required to be maintained by the Company;
- 6.10.13. any payment otherwise due by virtue of a change to the Regulations or other applicable law;
- 6.10.14. any costs incurred which are associated with independent risk monitoring or daily “value at risk” or “VaR” calculations (part of the risk monitoring process);
- 6.10.15. any costs incurred in producing or amending the Instrument of Incorporation or this Prospectus including costs in respect of meetings of shareholders and/or directors convened for the purposes which include the purpose of amending the Instrument of Incorporation or this Prospectus;
- 6.10.16. payments, costs of any other administrative expenses in relation to the preparation and distribution of literature required or necessary for the purpose of complying with the Regulations or of any other law or regulation (excluding the cost of distributing the KIID or equivalent successor documentation);
- 6.10.17. any cost incurred in the preparation, translation (where necessary) and production of reports required by regulation (in relation to taxation or for any other reason) in the United Kingdom and in any overseas territory in which Sub-Funds are or may be lawfully marketed;
- 6.10.18. costs (apart from promotional payments) in respect of communications with actual or potential investors;
- 6.10.19. fees of any paying, representative or other agents of the Company or ACD;
- 6.10.20. fees and expenses in respect of third party system providers to enable straight through processing (STP) with the Registrar;
- 6.10.21. additional fees charged in relation to clearing system arrangements in any jurisdiction where the shares of the Sub-Fund are registered for distribution;
- 6.10.22. the fees of any stock lending agent and the fees of the ACD for arranging any stock lending, subject to giving Shareholders 60 days’ prior written notice of the details of these fees;
- 6.10.23. royalties, licensing fees and other like payments in relation to the use of intellectual property;
- 6.10.24. any costs and expenses related to reporting of data in relation to any requirements under the Regulation or where the ACD or the Company has an obligation to submit data under international law and agreement;
- 6.10.25. any VAT or similar tax relating to any charge or expense set out herein;
- 6.10.26. fees and expenses in respect of third-party system providers to enable the ACD to value the underlying assets;

6.10.27. in respect of hedged Share Classes, the fees of any hedging provider (for further information please see paragraph 6.9); and

6.10.28. any other payment permitted to be paid out of the Scheme Property under the Regulations.

The ACD is also entitled to be paid by the Company out of the Scheme Property any expenses incurred by the ACD or its delegates of the kinds described above.

Expenses are allocated between capital and income in accordance with the Regulations. The applicable policy for each Sub-Fund is set out in Appendix 1. Where expenses are deducted in the first instance from income if, and only if this is insufficient, deductions will be made from capital. If deductions are made from capital, this could have an adverse effect on the Sub-Fund's capital and constrain growth.

The establishment costs of any Sub-Fund launched after the issue of this Prospectus may be borne by that Sub-Fund.

Value Added Tax will be added to all these payments, where applicable.

Further charges for taxation may be paid out of the Scheme Property as described in Section 7 below.

6.11. Cap on Fund Expenses

For all Sub Funds, the Investment Manager may, at its discretion, apply a cap between 0.0% and up to 0.1% on the total expenses associated with operating the Sub Funds. These expenses include fees and costs incurred during the operation of the Sub-Funds, excluding the Investment Management Fee. Where applied, the cap is intended to ensure the expenses do not exceed the level set by the Investment Manager, up to a maximum of 0.1% of the value of scheme property.

The ACD will provide a notice 60 days in advance should the Investment Manager wish to remove this cap.

7. TAXATION

7.1. General

The following information is only a summary of the taxation position of the Company and Shareholders. It does not constitute legal or tax advice and prospective investors should consult their own professional advisers as to the implications of subscribing for, purchasing, holding, switching or disposing of Shares in the Sub-Funds under the laws of the jurisdiction in which they may be subject to tax.

7.2. The Company

7.2.1. Each Sub-Fund is treated as a separate entity for UK tax purposes. The Sub-Funds are exempt from UK tax on capital gains realised on the disposal of investments held within them.

7.2.2. Dividends from UK companies are received by a Sub-Fund with a tax credit and no further tax is payable by a Sub-Fund on that income. Income received by a Sub-Fund from transactions in futures or options contracts is exempt from tax.

7.2.3. The Sub-Funds will each be subject to corporation tax at 20% on other types of income but after deducting allowable expenses (which include the gross amount of any interest-type distributions made).

- 7.2.4. Income from foreign securities may be subject to withholding tax. Where this is the case, the Company will be entitled to a tax credit for the withholding against its UK corporation tax liability.

7.3. Shareholders' Income

UK Resident Individuals

- 7.3.1. Dividend distributions to UK resident individual Shareholders will be charged at the rates below on amounts received above a threshold set in each tax year. The threshold for the 2024/2025 tax year is £500 and the amount paid will depend upon the individual's tax paying band. For the tax year 2024/2025 these are as follow:

- (a) basic rate taxpayers: 8.75%
- (b) higher rate taxpayers: 33.75%
- (c) additional rate taxpayers: 39.35%

UK Resident Corporates

- 7.3.2. Corporate Shareholders who receive dividend distributions may have to divide them into two parts (as will be shown on the tax voucher):
- (a) the part representing dividends received from a UK company will be treated as dividend income and are generally not taxable; and
 - (b) other income.
- 7.3.3. Shareholders liable to pay corporation tax will be treated as receiving interest with a 20% income tax credit attached which can be offset against the Shareholder's liability to corporation tax.

Interest Distributions

Interest will be paid to Shareholders without deduction of tax. Distributions are taxable as savings income and individual Shareholders may be eligible for the personal savings allowance which will vary depending on the individual's income tax band:

- (a) basic rate taxpayers: £1,000
- (b) higher rate taxpayers: £500
- (c) additional rate taxpayers: £0

7.4. SDRT

SDRT is no longer chargeable on redemptions of Shares in a Sub-Fund. SDRT at 0.5% may however be charged on in specie redemptions which are not pro rata to holdings in a Sub-Fund. Where an SDRT charge is to be applied, The ACD may retain out of the property to be transferred (or the proceeds of sale) property or cash of value or amount equivalent to any SDRT to be paid in relation to the cancellation of the shares.

7.5. Income Equalisation

Income equalisation applies in relation to the Sub-Funds.

Part of the purchase price of a Share reflects the relevant share of accrued income received or to be received by the Company. This capital sum is returned to a Shareholder with the first allocation of income in respect of a Share issued during an accounting period.

The amount of income equalisation is either the actual amount of income included in the issue price of that Share or is calculated by dividing the aggregate of the amounts of income included in the price of Shares issued or sold to Shareholders in an annual or interim accounting period by the number of those Shares and applying the resultant average to each of the Shares in question.

7.6. Capital Gains

Shareholders who are resident or ordinarily resident in the UK for tax purposes may be liable to capital gains tax or, if a company, corporation tax in respect of gains arising from the sale, exchange or other disposal of Shares (but not on switches between Classes within a Sub-Fund).

The amount representing the income equalisation in the Share's price is a return of capital and is not taxable in the hands of Shareholders. This amount should be deducted from the cost of Shares in computing any capital gain realised on the disposal.

7.7. General

These statements are based on UK law and HM Revenue & Customs practice as known at the date of this document. Shareholders are recommended to consult their professional advisers if they are in any doubt about their tax position.

8. RISK FACTORS

All investments in the Company involve risk. Potential investors should consider the following risk factors before investing in the Company and a corresponding Sub-Fund. The risk descriptions below correspond to some of the main risk factors for the Company and each Sub-Fund.

The risks of some of the Sub-Funds may be comparatively high. A Sub-Fund could potentially be affected by risks beyond those listed for it or described here and these risk descriptions themselves are intended to be exhaustive.

Each risk is described as if for an individual Sub-Fund, as applicable. Sub-Fund specific risks listed in Appendix 1 are not intended to be exhaustive but instead informative for the benefit of potential investors consideration.

The investments of the Company are subject to market fluctuations and other risks inherent in investing in securities. The value of investments and the income derived from them may fall as well as rise and investors may not recoup the original amount they invest in a Sub-Fund. There is no certainty that the investment objective of a Sub-Fund will actually be achieved. The ACD does not guarantee any yield or return on capital in any Sub-Fund.

8.1. Charges to Capital Risk.

- (a) Where the investment objective of a Sub-Fund is income generation rather than capital growth, or the generation of income and capital growth have equal priority, all or part of the ACD's fee may be charged against capital instead of against income. The treatment of the ACD's fee may increase the amount of income (which may be taxable) available for distribution to Shareholders in the Sub-Fund concerned but may constrain capital growth.
- (b) Where charges are made to the income of a Sub-Fund, but insufficient income is available to meet those charges, all or part of the charges may also be taken from the capital of the Sub-Fund, which may constrain capital growth.

Whether costs are taken from income or capital will be specified for each Sub-Fund in Appendix 1.

8.2. China A Shares Risk

A Sub-Fund may invest in eligible China A shares which involves certain risks, including without limitation greater price volatility, less developed regulatory and legal framework, economic, social and political instability of the stock market.

There are restrictions on the amount of China A shares which a single foreign investor is permitted to hold and restrictions on the combined holdings of all foreign investors in a single company's China A shares. Where those limits are reached, no further purchase of those shares will be permitted until the holding is reduced below the threshold and if the thresholds are exceeded, the relevant issuer of the China A shares may sell those shares to ensure compliance with Chinese law which may mean that the relevant China A shares are sold at a loss. China A shares are denominated in Renminbi ("RMB") and as RMB is not the base currency of these funds the ACD may have to convert payments from RMB into Sterling when realising China A shares and convert Sterling into RMB when purchasing shares.

China A shares are traded on the China Connect Scheme, which is a securities trading and clearing linked program developed by, amongst others, The Stock Exchange of Hong Kong Limited (SEHK), Shanghai Stock Exchange (SSE), Shenzhen Stock Exchange (SZSE) (together with SSE, each a China Connect Market), Hong Kong Securities Clearing Company Limited (HKSCC) and China Securities Depository and Clearing Corporation Limited (ChinaClear), with an aim to achieve mutual stock market access between China and Hong Kong. The HKSCC and ChinaClear are third party security settlement systems that hold China A shares and mix them with other investors' assets and may be subject to lower safekeeping, segregation and record keeping requirements than investments held in the UK or in the European Union. As the China Connect Scheme is relatively new, it remains not fully developed, the rules governing it and trading are subject to changes and the availability of securities and products may fluctuate.

8.3. Concentration Risk.

The Sub-Fund will normally be invested in a diversified portfolio of securities however, there may be occasions when market conditions dictate that the Sub-Fund may invest in a relatively small number of securities (subject to the concentration limits set out in Appendix 2), which may result in portfolio concentration in sectors, countries, or other groupings. These potential concentrations mean that a loss arising in a single investment may cause a proportionately greater loss in the Sub-Fund than if a larger number of investments were made.

8.4. Counterparty and Custody Risk.

An entity with which a Sub-Fund trades or does business, such as temporary or long-term custody of Sub-Fund assets, could become insolvent, unwilling, or unable to meet its obligations to the Sub-Fund resulting in payments owed to a Sub-Fund being delayed, reduced, or eliminated.

8.5. Country Risk.

In certain countries, there are risks associated with custody and counterparties are higher than in developed countries.

8.6. Credit and Fixed Interest Securities Risk.

- (a) Fixed interest securities (bonds) are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. Inflation will also decrease the real value of capital.
- (b) The value of a fixed interest security will fall in the event of the default or reduced credit rating of the issuer. Generally, the higher the rate of interest, the higher the perceived credit risk of the issuer. High yield bonds with lower credit ratings (also known as sub-investment grade bonds) are potentially more risky (higher credit risk) than investment grade bonds.
- (c) Below Investment Grade Bonds. These securities are considered speculative. Compared to investment grade bonds, the prices and yields of below investment grade bonds are more volatile

and more sensitive to economic events, and the bonds are less liquid and carry greater default risk.

- (d) **Unrated Securities.** Unrated securities will be considered for investment by a Sub-Fund when the Investment Manager believes that the financial condition of the issuers of such securities, or the protection afforded by the terms of the securities themselves, limits the risk to the Sub-Fund to a degree comparable to that of rated securities which are consistent with the Sub-Fund's objectives and policies.
- (e) **Distressed Securities.** Certain securities may become distressed when the issuer of such securities enters into default or is in high risk of default. While these securities can offer high rewards, they are highly speculative, can be very difficult to value or sell, and often involve complex and unusual situations and extensive legal actions involving multiple parties whose outcome is quite uncertain. There can be no assurance that investment will generate returns to compensate investors adequately for the risks assumed without experiencing a loss.
- (f) **Sovereign Debt.** Debt issued by governments and government-owned or -controlled entities can be subject to additional risks, especially in cases where the government is reliant on payments or extensions of credit from external sources, is unable to institute the necessary systemic reforms or control domestic sentiment or is unusually vulnerable to changes in geopolitical or economic sentiment.

Even if a government issuer is financially able to pay off its debt, investors may have little recourse should it decide to delay, discount or cancel its obligations, as the main avenue to pursue payment is typically the sovereign issuer's own courts.

Investment in sovereign debt exposes the Sub-Fund to direct or indirect consequences of political, social, and economic changes in various countries.

8.7. Currency Risk.

To the extent that the Sub-Fund holds assets that are denominated in currencies other than the base currency, any changes in currency exchange rates could reduce investment gains or income, or increase investment losses, in some cases significantly. Currency risks will be different for hedged Share Classes whereby underlying portfolio holdings will be hedged to a given currency (See Hedged Share Classes in section 2).

8.8. Default Risk.

The issuers of certain bonds or other debt instruments could become unable to make payments.

8.9. Over the counter (OTC) Derivatives Risk

Because OTC derivatives are in essence private agreements between a Sub-Fund and one or more counterparties, they are regulated differently than market-traded securities. They also carry greater counterparty and liquidity risks; in particular, it may be more difficult to force a counterparty to honour its obligations to a Sub-fund. A downgrade in the creditworthiness of counterparty can lead to a decline in the value of OTC contracts with that counterparty. If counterparty ceases to offer a derivative that a fund had been planning on using, the fund may not be able to find a comparable derivative elsewhere and may miss an opportunity for gain or find itself unexpectedly exposed to risks or losses, including losses from a derivative position for which it was unable to buy an offsetting derivative.

Because it is generally impractical for the Company to divide its OTC derivative transactions among a wide variety of counterparties, a decline in the financial health of any one counterparty could cause significant losses. Conversely, if any fund experiences any financial weakness or fails to meet an obligation, counterparties could become unwilling to do business with the Company, which could leave the Company unable to operate efficiently and competitively.

8.10. Derivatives Risk.

The Company permits the use of derivatives for investment purposes by a Sub-Fund.

A Sub-Fund may invest in derivatives for the purposes of hedging and in accordance with the principles of Efficient Portfolio Management.

A Sub-Fund's use of hedging, EPM, borrowing, cash holding and stock lending and is not intended to significantly raise the risk profile of the Sub-Fund or increase its volatility.

A Sub-Fund's ability to use derivatives may be limited by market conditions, regulatory limits and tax considerations. Any income or capital generated will be paid to the Sub-Funds. Use of derivatives can expose the Scheme Property to a higher degree of risk. For example,

- (a) because of the effect of gearing, relatively small market movements can result in disproportionately high levels of loss;
- (b) off exchange transactions can carry higher levels of risk due to lack of liquidity, difficulty in valuing the investment and determining a fair price;
- (c) a Sub-Fund can be exposed to counterparty risk through counterparty default or insolvency. The use of one or more separate counterparties will be made to undertake derivative transactions on behalf of these Sub-Funds. The Sub-Fund may be required to pledge or transfer collateral paid from within the assets of the relevant Sub-Fund to secure such contracts entered into including in relation to derivatives and stock lending. There may be a risk that a counterparty will wholly or partially fail to honour their contractual arrangements under the arrangement with regards the return of collateral and any other payments due to the relevant Sub-Fund;
- (d) the ACD and Investment Manager measures the creditworthiness of counterparties as part of the risk management process. The counterparties of these transactions will be highly rated financial institutions specialising in these types of transactions and approved by the Investment Manager.
- (e) a Sub-Fund's ability to settle derivative contracts on maturity may be affected by the level of liquidity in the underlying asset;
- (f) in adverse situations, a Sub-Fund's use of derivatives may become ineffective in hedging or EPM and a Sub-Fund may suffer significant loss as a result.

For an explanation of a Sub-Fund's permitted derivatives investment strategy please refer to Appendix 2.

The investment policy in relation to derivatives of each Sub-Fund is set out in Appendix 1.

8.11. Dilution Provisions Risk.

Where the ACD requires the payment of a dilution levy to offset the effects of dilution caused by dealing charges, taxes, and any spread between buying and selling prices of the investments (see Section 6.7) this will increase the purchase price of Shares or reduce the sale proceeds.

8.12. Equity Securities Risk.

Equities are securities that represent an ownership interest in an issuer. Equities can lose value rapidly, and typically involve higher (often significantly higher) market risks than bonds, money market instruments or other debt instruments. Fluctuation in value may occur in response to activities of individual companies, the general market, economic conditions, or changes in currency exchange rates.

Equities may be purchased in the primary or secondary market. Purchases in the primary market through initial public offerings may involve higher risks due to various factors including limited numbers of available shares, unfavourable trading conditions, lack of investor knowledge, and lack of operating history of the issuing company.

8.13. Sustainable Investing Risk

The Sub-Funds may use certain ESG criteria in their investment strategies. Where applicable, the Sub-Funds' ESG investment strategy may limit the types and number of investment opportunities available to the Sub-Funds and, as a result, the Sub-Funds may underperform in relation to other funds that do not have an ESG focus. ESG based exclusionary criteria used in an ESG Sub-Fund's investment policy may result in the ESG Sub-Fund foregoing opportunities to buy certain securities when it might otherwise be advantageous to do so, and/or selling securities due to their ESG characteristics when it might be disadvantageous to do so. In the event the ESG characteristics of a security held by an ESG Sub-Fund changes, resulting in the Investment Manager having to sell the security, neither the Sub-Funds, the Company nor the Investment Manager accept liability in relation to such change. In addition, companies selected by the relevant index provider may not exhibit positive or favourable ESG characteristics.

8.14. Illiquid or Restricted Securities Risk.

Certain securities may be hard to value or sell at a particular time due to market illiquidity or restrictions on their resale. This may include securities that are generally considered to be illiquid or restricted, due to conditions associated with the security, such as bond offerings under Rule 144A of the SEC and securities that represent a small issue, trade infrequently, or are traded on markets that are comparatively small or have long settlement times. Selling illiquid or restricted securities usually requires more time and cost are often higher.

8.15. Inflation Risk.

If inflation falls or remains low, the yields on short-term inflation-linked securities will fall or remain low.

8.16. Investment in Collective Investment Schemes Risk.

- (a) A Sub-Fund may invest in other collective investment schemes, including unregulated collective investment schemes, in accordance with the investment restrictions set out in Appendix 2. Unregulated schemes can include hedge funds and alternative investment funds which can be established, for example, as open-ended investment companies, closed-ended schemes, limited partnerships, or unit trusts. Such schemes may also be subject to less rigorous regulation than authorised or regulated schemes, and therefore may expose investors in such schemes to a higher degree of risk.
- (b) Unregulated schemes may be subject to restrictions on redemption or be otherwise illiquid, restricting investors' ability to sell interests in the scheme. Such schemes may also be geared, that is, amounts borrowed by the scheme may cause a small movement (up or down) in the value of the scheme's assets to create a correspondingly high movement (up or down) in the net asset value of the scheme making the scheme volatile.
- (c) Unless otherwise stated in Appendix 1 a Sub-Fund may only invest up to a maximum of 10% of its assets in other collective investment schemes.

8.17. Investment in Contingent Convertible Bonds Risk.

Contingent convertible bonds are a type of debt security, issued by a financial institution, that may be converted into equity or could be forced to suffer a write down of principal upon the occurrence of a pre-determined event ("the trigger event") and can be exposed to several risks (including but not limited to):

- (a) Trigger level risk: The trigger event is ordinarily linked to the financial position of the issuer and therefore the conversion is likely to occur as a result of a deterioration of the relative capital strength of the underlying. The relative risk associated with different contingent convertibles will depend on the distance between the current capital ratio and the effective trigger level. It is likely that the conversion to equity would occur at a share price, which is lower than when the bond was issued or purchased.

- (b) Capital structure inversion risk: In the case of a principal write down of a contingent convertible bond, it is possible that the holder could take a write down before equity holders, which is contrary to the typical capital structure hierarchy.
- (c) Liquidity risk: In stressed market conditions, the liquidity profile of the issuer can deteriorate significantly and it may be difficult to find a ready buyer which means that a significant discount may be required in order to sell it. Call extension risk: Contingent convertible bonds can also be issued as perpetual bonds (i.e. bonds without a maturity date), while these will have call dates, there is no guarantee that the issue will be called on this date and there is a possibility that the bond may never be called resulting in the investor not receiving the return of the principal at any date, like for any other non-callable perpetual bond.

8.18. Interest Rate Risk.

When interest rates rise, bond and other debt instruments values generally fall. This risk is generally greater the longer the duration of a bond investment is. For bank deposits and for money market instruments and other short- maturity investments, interest rate risk works in the opposite direction. Falling interest rates can be expected to cause investment yields to fall.

8.19. Liabilities of the Company Risk.

- (a) Although each Sub-Fund so far as possible will be treated as bearing the liabilities, expenses, costs and charges attributable to it, in the unlikely event that its assets are not sufficient to meet these, the ACD may re-allocate assets, liabilities, expenses, costs and charges between the Sub-Funds of the Company in a manner which it believes is fair to the Shareholders generally. The ACD would normally expect any such re-allocation to be effected on a pro rata basis having regard to the Net Asset Values of the relevant Sub-Fund. If there is any such re-allocation the ACD will advise Shareholders of it in the next succeeding annual or half yearly report to Shareholders.
- (b) Notwithstanding the above, a Shareholder is not liable to make any further payment to the Company or Sub-Fund after he has paid the price on purchase of the Shares.

8.20. Liquidity Risk.

The Company's investments may be subject to liquidity constraints, which means that the investments may trade infrequently and in small volumes, or that a particular instrument is difficult to buy or sell. Normally liquid investments may also be subject to periods of disruption in difficult market conditions. As a result, changes in the value of investments may be unpredictable and, in certain circumstances, it may be difficult to deal an investment at the latest market price quoted or at a value considered by the ACD to be fair.

8.21. Management Risk.

A Sub-Fund may be subject to management risk because it is an actively managed investment fund. When managing a Sub-Fund and applying investment techniques and risk analyses, the Investment Manager's assessment of market or economic trends, their choice or design of any software models they use, their allocation of assets, or other decisions regarding how the Sub-Fund's assets will be invested cannot be guaranteed to ensure returns on investments.

8.22. Overseas Investments Risk.

- (a) A Sub-Fund which invests overseas in non-sterling denominated investments may be affected by fluctuations in rates of currency exchange in addition to the usual securities market fluctuations. Such fluctuations may cause the value of the shares to go up or down. Accordingly, investors may not receive back the amount invested.

- (b) Investments in some overseas markets such as emerging or frontier markets may carry risks associated with failed or delayed settlement of market transactions and with the registration and custody of securities. Where the Scheme Property of a Sub-Fund may consist of more than 10% of investments in emerging or frontier markets this will be described in the Sub-Fund's investment policy in Appendix 1

8.23. Small and Mid-Cap Equity Risk.

Shares of small and mid-size companies can be more volatile and less liquid than shares of larger companies. These risks may be greater in emerging and frontier markets. Small and mid-size companies often have fewer financial resources, shorter operating histories, and less diverse business lines, and as a result can be at greater risk of long-term or permanent business setbacks. Initial public offerings (IPOs) can be highly volatile and can be hard to evaluate because of a lack of trading history and relative lack of public information.

8.24. Suspension of Dealings in Shares Risk.

Investors are reminded that in certain circumstances their right to redeem Shares (including a redemption by way of switching) may be suspended (see Section 3.28).

8.25. Warrants Risk.

Up to 100% of the value of the scheme property of the Sub-Fund may consist of warrants which may, at times, make the portfolio composition of the Sub-Fund highly volatile, provided that warrants may only be held if it is reasonably foreseeable that the exercise of the rights conferred by the warrants will not contravene the Regulations. Securities on which any sum is unpaid may be held provided that it is reasonably foreseeable that the amount of any existing and potential call for any sum unpaid could be paid by the Sub-Fund at any time when the payment is required without contravening the Regulations.

8.26. Risks associated with leaving the European Union

On 31 January 2020, the UK left the European Union, a process known as Brexit, whilst the transition period part of it ended on 31 December 2020. The political, economic and legal consequences of Brexit are still not completely defined. In the short term, from 2021 there may be increased volatility in the financial markets, particularly in the UK and across Europe. Changes in currency exchange rates may make it more expensive dealing in investments that are not denominated in pound Sterling. After the end of the transition period, and the conclusion of the negotiations between the UK and the EU regarding Brexit terms, there might be a period of political, regulatory and commercial uncertainty whilst the UK implements the terms of its new regime. There might be circumstances in which share transfers and redemptions may be impacted, in the event of high levels of redemption, the ACD may use certain liquidity management tools permitted by the FCA, including deferred redemptions, the implementation of fair value pricing or suspension of the Sub-Funds.

8.27. Market Risk

Prices and yields of many securities can change frequently and can fall based on a wide variety of factors. Examples of these factors include:

- (a) Political and economic news
- (b) Government policy
- (c) Changes in technology and business practice
- (d) Changes in demographics, cultures and populations
- (e) Natural or human-caused disasters

- (f) Weather and climate patterns
- (g) Scientific or investigative discoveries
- (h) Costs and availability of energy, commodities, and natural resources

The effects of market risk can be immediate or gradual, short term or long-term, narrow or broad. This risk can apply to both the design and operation of computer models and can apply whether a model is used to support human decision-making or to directly generate trading recommendations. Flaws in software programs can go undetected for long periods of time.

8.28. Hedging Risk.

Hedging may be used in connection with managing a Sub-Fund. Any attempts to reduce or eliminate certain risks may not work as intended, and to the extent that they do work, they will generally eliminate potentials for gain along with risks of loss.

Any measures that a Sub-Fund takes that are designed to offset specific risks may work imperfectly, may not be feasible at times, or may fail completely.

Hedging involves costs, which could reduce investment performance. Therefore, with any share class that involves hedging both at the Sub-Fund level and the share class level, there could be two levels of hedging, some of which may yield no benefit (for example, at the Sub-Fund level, a fund may hedge sterling denominated assets to US dollars, while a sterling hedged share class of the Sub-Fund would then reverse that hedge as appropriate).

As there is no segregation of liabilities between the various share classes within a Sub-Fund, there is a remote risk that, under certain circumstances, currency hedging transactions in relation to a partially hedged share class could result in liabilities which might affect the Net Asset Value of the other share classes of the same Sub-Fund, in which case assets of the other share classes of the Sub-Fund may be used to cover the liabilities incurred by such partially hedged share class.

8.29. Volatility Risk

A Sub-Fund's use of derivatives can increase the volatility of the Sub-Fund. Volatility can be defined as the extent to which the price of an investment changes within a short time period. Small changes in the value of an underlying security on which the value of a derivative is based can cause a large change in the value of the derivative.

8.30. Operational Risk

The operations of the Sub-Fund could be subject to human error, faulty processes or governance, or technological failures. Operational risks may subject the fund to errors affecting valuation, pricing, accounting, tax reporting, financial reporting, custody and trading, among other things. Operational risks may go undetected for long periods of time, and even if they are detected it may prove impractical to recover prompt or adequate compensation from those responsible.

8.31. Regulatory and Government Policy Risk

The laws that govern the Sub-Fund may change in future. Any such changes may not be in the best interest of the Sub-Fund and may have a negative impact on the value of your investment.

8.32. Single Swinging Price – Impact on Sub Fund

Each Sub-Fund has a single swinging price. The single price can be swung up or down in response to inflows or outflows from the Sub Fund, in order to protect existing investors from the effect of dilution. Dilution occurs where the Sub Fund incurs costs as a result of the investment manager buying or selling assets following inflows or outflows. A change to the pricing basis will result in a movement to the Sub Fund's published price and reported investment performance.

8.33. **Suspension and Termination Risk**

Investors should note that in exceptional circumstances, the ACD may, after consultation with the Depositary, suspend the issue, cancellation, sale and redemption (including switching) of shares in any and all Sub-Funds and Classes.

8.34. **Taxation Risks**

A country could change its tax laws or treaties in ways that affect investors. Tax changes potentially could be retroactive and could affect investors with no direct investment in the country.

8.35. **Cancellation Rights Risk**

When cancellation rights are applicable and are exercised, the full amount invested may not be returned if the price falls before the ACD is aware that the contract has been cancelled.

8.36. **Pandemic/Epidemics/Outbreaks Risks**

The effects of epidemics, pandemics or outbreaks of communicable diseases may adversely affect the performance of the investment of the Sub-Fund, which in turn affects the performance of the Shares. In response to intensifying efforts to contain epidemics, pandemics or outbreaks of communicable diseases, governments around the world may take actions, including prohibiting residents' freedom of movement, encouraging or ordering employees to work remotely from home, and banning public activities and events, among others. Financial conditions may be negatively impacted as a result of any prolonged disruption of businesses. The performance of the Shares could also be adversely affected to the extent that any of these epidemics, pandemics or outbreaks harms the economy in general.

9. **TERMINATION AND AMALGAMATION**

The Company shall not be wound up except as an unregistered company under Part V of the Insolvency Act 1986 or under COLL. A Sub-Fund may only be wound up under COLL. Where the Company or a Sub-Fund is to be wound up under COLL, such winding up can only commence following approval by the FCA. The FCA may only give such approval if the ACD provides a statement (following an investigation into the affairs of the Company) either that the Company will be able to meet its liabilities within 12 months of the date of the statement or that the Company will be unable to do so. The Company may not be wound up under COLL if there is a vacancy in the position of the ACD at the relevant time.

The Company will be wound up if:

- 9.1.1. an extraordinary resolution to that effect is passed by the Shareholders;
- 9.1.2. the order declaring the Company to be an authorised collective investment scheme is revoked;
- 9.1.3. if the ACD or Depositary requests the FCA to revoke the order declaring the Company to be an authorised ICVC and the FCA has agreed that on the conclusion of the winding up of the Company it will accede to that request;
- 9.1.4. on the effective date of a duly approved scheme of amalgamation of the Company with another body or scheme;
- 9.1.5. if the Share capital of the Company falls below the prescribed minimum;
- 9.1.6. on the effective date of a duly approved scheme of reconstruction which results in all the property of the reconstructed scheme becoming the property of two or more authorised or recognised schemes; or if a court scheme is initiated under Part V of the Insolvency Act 1986 for an unregistered company.

A Sub-Fund may be terminated if:

- 9.1.7. an extraordinary resolution to that effect has been passed by meeting(s) of the Class(es) of Shares of the Sub-Fund;
- 9.1.8. the FCA has agreed to and approved a request by the ACD for the termination of the Sub-Fund; and
- 9.1.9. a solvency statement is lodged with the FCA in respect of the liabilities of the Company relating to the Sub-Fund.

The ACD may make a request to FCA to wind up a Sub-Fund if at any time after the first anniversary of the issue of the first Shares of the Sub-Fund the net value of the assets attributable to the Sub-Fund is less than £20,000,000.

The ACD will carry out the following procedure for winding up the Company or a Sub-Fund as appropriate:

- 9.1.10. in the case of an amalgamation or reconstruction the ACD will wind up the Company in accordance with the approved scheme of amalgamation or reconstruction;
- 9.1.11. in any other case, the ACD shall as soon as practicable after the Company or Sub-Fund falls to be wound up and after notifying Shareholders of the proposal to wind up the Company or Sub-Fund, realise the Scheme Property (and in the case of a Sub-Fund, the Scheme Property attributable to that Sub-Fund).

After paying out of all liabilities of the Company or Sub-Fund properly so payable and retaining provision for the costs of the winding up, the ACD shall distribute the proceeds to the Shareholders and to itself (upon production by them of evidence as to their entitlement) proportionately to their respective interests in the Company or Sub-Fund.

On winding up the Company, any unclaimed net proceeds or other cash held to the account of the Company after the expiry of one month from the date of dissolution of the Company will be paid by the ACD into court subject to the ACD having a right to receive out of it any expenses incurred by it in making that payment into court. On completion of the winding up, the Depositary shall notify the FCA and the ACD shall request the FCA to revoke the order of authorisation.

Following completion of a winding up of either the Company or a Sub-Fund, the ACD must prepare a final account showing how the Scheme Property has been distributed. The auditors of the Company shall make a report in respect of the final account stating their opinion as to whether the final account has been properly prepared. The auditors' report together with the final account will be sent to the FCA and the Shareholders within two months of the completion of the winding up of the Company or termination of the Sub-Fund as appropriate.

10. GENERAL INFORMATION

10.1. Instrument of Incorporation

The Instrument of Incorporation (including any amendments to it) is available for inspection free of charge at the offices of the Transfer Agent & Registrar at Level 7, 2 Redman Place, Stratford, E20 1JQ during normal business hours.

The following documents may also be inspected free of charge at the same address:

- 10.1.1. the most recent annual and half-yearly reports of the Company; and
- 10.1.2. the material contracts referred to below.

Shareholders may obtain copies of the above documents from this address. The ACD may, at its discretion make a charge for copies of documents, except of the annual and half yearly reports which are available free of charge to any person on request.

10.2. **Material Contracts**

The following contracts, not being contracts entered into in the ordinary course of business, have been entered into by the Company and are, or may be material:

- 10.2.1. the Agreement dated 29 March 2019 between the Company and the ACD;
- 10.2.2. the Depositary Agreement dated 29 March 2019 between the Company, the ACD and the Depositary;
- 10.2.3. the Administration Agreement dated 29 March 2019 between the ACD and the Administrator;
- 10.2.4. the Investment Management Agreement dated 28 March 2019 between the ACD and the Investment Manager; and
- 10.2.5. The Transfer Agency Agreement dated 7 April 2017 between the ACD and the Transfer Agent & Registrar.

Details of the above contracts are given in Section 5 above.

10.3. **Meetings of Shareholders and voting rights**

- 10.3.1. The Company does not hold annual general meetings.
- 10.3.2. The ACD may requisition a general meeting at any time.
- 10.3.3. The following provisions applying to the Company as a whole also apply to meetings of a Class or a Sub-Fund as if they were general meetings of the Shareholders, but by reference to the Shares of the Class or Sub-Fund concerned and the Shareholders and prices of such Shares.
- 10.3.4. Shareholders who together hold not less than one-tenth in value of all of the shares may also requisition a general meeting of the Company. Such requisition must be in writing signed by the requisitioning Shareholders, state the objects of the meeting, and be deposited at the head office of the Company. The ACD must convene a general meeting within eight weeks of receiving a requisition.
- 10.3.5. Notices of meetings and adjourned meetings will be sent to Shareholders at their registered address. Shareholders who have consented to receiving notices by electronic means will be sent Notices at the email address supplied for that purpose. Shareholders will receive at least 14 days' notice of a general meeting.
- 10.3.6. Where in the reasonable opinion of the ACD, it is either not possible or it is otherwise highly impractical to hold a physical meeting of Shareholders for legal or health and safety reasons, the ACD may opt to hold a meeting of Shareholders on a fully or semi-virtual basis. Where the ACD opts to hold a fully or semi-virtual meeting then physical attendance at such meeting may not be permitted.

Subject to COLL and the OEIC Regulations, where a meeting is held on a fully virtual basis, a Shareholder does not have a right to attend the meeting in person and may only vote in accordance with the means determined by the ACD for that meeting. The ACD will notify Shareholders of the means for voting in advance of the meeting.

- 10.3.7. The quorum for a meeting of shareholders is two shareholders present in person or by proxy. If at an adjourned meeting two shareholders are not present in person or by

proxy then the quorum for that adjourned meeting will be one shareholder present in person or by proxy.

- 10.3.8. Except where an extraordinary resolution (requiring a majority of 75% of the votes validly cast in favour of the resolution) is required to be passed under COLL or the Instrument of Incorporation, each resolution shall be proposed as an ordinary resolution requiring a simple majority of the votes validly cast in favour to be passed.
- 10.3.9. At any meeting of Shareholders or a Class of the Company or a Sub-Fund on a show of hands every shareholder who (being an individual) is present in person or (being a corporation) is represented in person by its properly authorised representative has one vote. A poll may be demanded by the Chairman of the meeting, by the Depositary, or by two or more Shareholders present in person or by proxy. On a poll every shareholder who is present in person or by proxy will be entitled to a number of votes calculated in accordance with the value that his Shareholding bears in relation to the value of the Company or Sub-Fund as relevant. A Shareholder entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses in the same way.
- 10.3.10. In the case of joint shareholders the vote of the senior Shareholder who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders and for this purpose seniority is determined by the order in which the names stand in the Register of Shareholders.
- 10.3.11. The ACD is entitled to receive notice of and attend any meeting of Shareholders but is not entitled to vote or be counted in the quorum. Neither the ACD nor any associate (as defined in COLL) of the ACD holding shares shall be entitled to vote at such a meeting except in respect of shares which are held on behalf of a person who, if he himself were the registered Shareholder, would be entitled to vote and from whom voting instructions have been received.
- 10.3.12. Where all the Shares in a Sub-Fund are registered to, or held by, the ACD or its associates and they are therefore prohibited from voting on a resolution required to conduct business at a general meeting, it shall not be necessary to convene such a meeting and the resolution (whether an ordinary resolution or extraordinary resolution) may, with the prior written agreement of the Depositary, instead be passed with the written consent of Shareholders representing the requisite majority of the Shares in issue.
- 10.3.13. Shareholders shall be those persons entered on the register at a time determined by the ACD (which shall be not less than 48 hours before the time fixed for the meeting) which shall be stated in the notice of the meeting.

10.4. Variation of Class Rights

The rights attached to a Class of Shares in a Sub-Fund may be varied in accordance with COLL.

10.5. Reports to Shareholders

The annual accounting period of the Company ends on the last day of February in each year (the accounting reference date) and the interim accounting period ends on the last day of August in each year (the interim accounting reference date).

The Company's annual long report incorporating audited financial statements will be published within four months after the end of the financial year and the interim long report within two months of the end of the interim accounting period. Copies of the interim and annual long reports will be available on request from the ACD.

The ACD will provide the following information relating to the risk management of the Company to Shareholders on request:

- 10.5.1. the quantitative limits applying to the risk management of the Company;
- 10.5.2. the methods used in relation to 10.5.1; and
- 10.5.3. any recent development of the risk and yields of the main categories of investment.

10.6. Income Allocations

- 10.6.1. The Sub-Fund issues Income Shares and Accumulation Shares (see details in Appendix 1). Income will be allocated on the income allocation dates as set out for each Sub-Fund in Appendix 1.
- 10.6.2. In the case of Income Shares, the ACD will distribute income for the Sub-Fund on or before the final and interim income distribution date[s] appropriate to the Sub-Fund as set out in Appendix 1.
- 10.6.3. In the case of Accumulation Shares, the ACD will reinvest the income allocated to the Sub-Fund concerned. Such income allocated will be reflected in the price of the Accumulation Shares as at the end of the relevant accounting period.
- 10.6.4. The amount available for distribution in any accounting period is calculated by taking the aggregate of the income received or receivable for the account of the Sub-Fund in respect of that period, and deducting the charges and expenses of the Sub-Fund paid or payable out of income in respect of that accounting period. The ACD then makes such other adjustments as it considers appropriate (and after consulting the auditors as appropriate) in relation to taxation, income equalisation, income unlikely to be received within 12 months following the relevant income allocation date, income which should not be accounted for on an accrual basis because of lack of information as to how it accrues, transfers between the income and capital account and any other adjustments (including for amortisation) which the ACD considers appropriate after consulting the auditors.
- 10.6.5. Distributions will be declared and paid as detailed in Appendix 1.
- 10.6.6. Distributions not claimed within a six-year period will be forfeited and added back to the capital of the Sub-Fund.

10.7. Complaints

Any complaints concerning the Company or the ACD should be referred to:

Tutman Fund Solutions Limited
C/O – FNZ TA Services Ltd
PO BOX 12892
Dunmow
CM6 9DL

If a complaint is not resolved to the satisfaction of the complainant it may be, subject to the status of the complainant, referred to the Financial Ombudsman Service at Exchange Tower, Harbour Exchange Square, London E14 9SR. A copy of the ACD's complaints handling procedure is available on request..

APPENDIX 1 – THE FUNDS

SVS ALLIANCEBERNSTEIN EUROPE (EX UK) EQUITY FUND

Sustainability statement This product does not have a UK sustainable investment label. Sustainable investment labels help investors find products that have a specific sustainability goal. While the Investment Manager does consider environmental, social and governance (ESG) factors in its investment decision making process, it does so in order to support the financial risk and return profile of the Sub-Fund and does not seek a specific, positive sustainability goal or outcome. Nevertheless, the ACD and the Investment Manager have provided further information for investors on the Investment Manager's sustainable investing process. The Sub-Fund's exclusions list is set out in Appendix 4.

Investment objective To achieve an increase in the value of its investment over a rolling 5 year period after the deduction of all fees through an actively managed, diversified portfolio of shares in European (excluding UK) companies.

Investment policy The Sub-Fund seeks to meet its investment objective by investing at least 80% of the Sub-Fund's total value in shares of European (excluding UK) companies. A "European company" means any company that is organized in or has substantial business activities in Europe. Investment can be direct or indirect, in shares (including common and preference shares), rights for shares, warrants, and depositary receipts (securities issued by banks that represent company shares). Indirect exposure may be achieved through investment in Collective Investment Schemes.

The Sub-Fund is actively managed meaning the Investment Manager uses their expertise to select investments to achieve the Sub-Fund's objectives.

The Sub-Fund will be diversified (investing in at least 30 companies) and the Investment Manager's investment decisions are not restricted to any specific industry sector or company size,

When selecting which companies to invest in and how much, the Investment Manager uses a combination of in-depth research (to develop a view on the ability of a company to meet return targets), an assessment of the downside risks (to estimate a company's potential to decline in value if market conditions change) and the company's contribution to the portfolio's overall risk exposures.

The Investment Manager will include, as part of its overall investment process, Environmental, Social, and Governance ("ESG") factors when considering whether or not to invest in or sell particular shares. The Investment Manager is not restricted by the investment policy from holding a particular company, unless the company is identified in accordance with the Sub-Fund's Exclusion Policy as stated in Appendix 4.

The Investment Manager engages with companies as part of their fundamental research process and will continue to take an active stewardship role by engaging with companies and actively voting in relation to shares held by the Sub-Fund once it has invested

Although the Sub-Fund name states '(Ex UK)', and in-line with the Sub-Fund's Investment policy, the Sub-Fund may invest in shares of UK companies to achieve its Investment objective. At all times the Sub-Fund's investment into UK companies will not exceed 5% of the Sub-Fund's net assets.

The Sub-Fund may also invest up to 20% of its value in money market instruments, deposits, cash and near cash, and up to 10% of its value in units in collective investment schemes (including other funds managed by the Investment Manager or its affiliates).

The Sub-Fund may also use derivatives for investment, efficient portfolio management or hedging purposes. Use of derivatives for investment purposes are limited to currency forwards used to gain exposure to European (ex UK) currencies.

Any investment in derivatives for efficient portfolio management and investment purposes, is not intended to increase the Sub-Fund's risk profile.

Investment Strategy	The Sub-Fund employs an investment strategy that uses fundamental research to actively build a high conviction portfolio of securities of issuers that the Investment Manager believes have the ability to compound high fundamental returns over the long term and offers superior long term growth characteristics (bottom up approach). The issuers of these securities are chosen for their specific growth and business characteristics, including but not limited to, structural growth, profitability, a strong financial position and experienced management. The Investment Manager expects the Sub-Fund to be sector and benchmark agnostic with a long term investment time horizon.
---------------------	---

SDR disclosures	Funds with sustainability features, but which do not use a UK sustainable investment label, are required under the ESG Sourcebook to provide certain information to investors on those features. The information below is provided to comply with those requirements and/or to demonstrate where this information is disclosed in the Prospectus.
-----------------	---

- **Sustainability statement.**

Please see "Sustainability Statement" above the Investment Objective.

- **Investment policy and strategy and information on how the manager determines the assets in which the fund invests.**

The investment policy and strategy of the Sub-Fund is set out above. The following information further explains how the Investment Manager uses its ESG framework to select assets for the Sub-Fund.

The Investment Manager considers material ESG factors at each applicable step of the investment process. Material ESG risks and factors are ESG-related events or conditions that, if they occurred, could cause an actual or potential material impact to the financial returns of the Sub-Fund (e.g., climate change, pollution, human rights, employee relations, corruption).

ESG Integration

ESG risks and factors are integrated into the Investment Manager's research and investment processes through the AllianceBernstein Stewardship Approach.

The Investment Manager's research analysts focus on the specific industries, companies and issuers that they cover. Using their own proprietary research, third-party research and findings from other sources incorporated in the Investment Manager's research collaboration platform, they analyse companies' and issuers' ESG practices to identify potentially material ESG risks and opportunities.

ESG considerations are incorporated into the Investment Manager's research and investment process and are one of several considerations for making investment decisions, both in deciding to purchase the holding for the Sub-fund and, on an on-going basis, in deciding whether to retain the holding.

After consideration of material ESG factors including those that could negatively impact a potential holding, the Investment Manager may still purchase the security

and/or retain it in the Sub-Fund. ESG considerations may not be applicable to all types of instruments or investments.

Exclusions policy

The Sub-Fund is subject to the Investment Manager’s exclusions policy, under which the Investment Manager employs restrictions to certain sectors such as controversial weapons, private prisons and cannabis. Further detail can be found in Appendix 4.

Engagement

The Investment Manager engages with companies as part of its fundamental research process and will continue to take an active stewardship role by engaging with companies and actively voting in relation to shares held by the Sub-Fund once it has invested.

The Investment Manager uses engagement in two ways, referring to these as: insight and action.

- **Insight:** To obtain insights into the ESG credentials of companies as part of the Investment Manager’s ongoing research and assessment process
- **Action:** The Investment Manager will actively encourage issuers to better address material ESG risks or take advantage of ESG opportunities
- **Details of any other metrics a retail investor may find useful in understanding the investment policy and strategy for the product.**

The ACD and the Investment Manager consider that a retail client may find the following metrics reasonably useful in understanding the Investment Manager’s investment policy and strategy (as that relates to the ESG elements of the Company’s strategy):

- % of the Sub-Fund subject to ESG integration
- % of the Sub-Fund with documented ESG Engagements and/or Research
- % of the Sub-Fund compliant with its defined exclusion criteria

Investor Profile	The Sub-Fund invests across a number of markets, European regions and industry sectors with emphasis on a diversified portfolio of shares in European companies. The Sub-Fund will therefore be suitable for investors looking to invest in such companies and who are also willing to accept a higher level of risk arising out of investment in potentially volatile shares in pursuit of higher returns over the longer term. As such the Sub-Fund is not suitable for investors who are looking for capital preservation. The Sub-Fund is also not suitable for investors who are looking for an investment solution that has a specified limit in capital loss or no capital loss. The Sub-Fund is aimed at investors with a long-term investment horizon who will be able to hold the Sub-Fund for at least 5 years.
------------------	--

Launch date:	29 March 2019
--------------	---------------

Type of Sub-Fund	UK UCITS Scheme: Product Reference Number 836755
------------------	--

Investment Manager	AllianceBernstein Limited
--------------------	---------------------------

Sub-Investment Manager	AllianceBernstein (Europe) Limited (ABEL)
------------------------	---

Income Payments	Income will be calculated annually as at the last day of February and the appropriate allocation will be made within two months

INVESTMENT CRITERIA

	CLASS I SHARES	CLASS S SHARES	CLASS F SHARES	CLASS Z SHARES
	Class I shares will be available to all eligible investors who are able to meet the Investment Criteria as set out below.	Class S shares will be available to all eligible investors who are able to meet the Investment Criteria.	Class F shares will be available to all eligible investors who are able to meet the Investment Criteria as set out below.	Class Z shares are available to eligible Institutional investors who have entered into a formal Fees Agreement with the Investment Manager.
Minimum initial investment	£1,000	£50,000,000	£5,000,000 or currency equivalent	£20,000,000
Minimum Subsequent Investment	£500	£500	£500 or currency equivalent	£500

Minimum Redemption Amount	£500	£500	£500 or currency equivalent	£500
Minimum Holding Amount	£1,000	£50,000,000	£5,000,000 or currency equivalent	£20,000,000

Expenses are to be deducted from income.

For up to date historical performance, please refer to the current published KIID available on the ACDs website <https://www.tutman.co.uk/literature/>.

The Sub-Fund is not managed to target or exceed the performance of any specific benchmark, nor are the Investment Manager's investment decisions constrained by any benchmark. However, the ACD welcomes investors to compare the Sub-Fund's performance by comparison to the MSCI Europe ex UK Growth Index, as the ACD believes this index is an appropriate representation of the exposure to European ex UK equities for the purpose of comparing performance of the Sub-Fund.

The ACD will include performance data for the MSCI Europe ex UK Growth Index within the 'Past Performance' section of the Sub-Fund's Key Investor Information Document (KIID), which is available on the ACD's website – <https://www.tutman.co.uk/literature/>.

SVS ALLIANCEBERNSTEIN CONCENTRATED US EQUITY FUND

Sustainability statement	<p>This product does not have a UK sustainable investment label. Sustainable investment labels help investors find products that have a specific sustainability goal. While the Investment Manager does consider environmental, social and governance (ESG) factors in its investment decision making process, it does so in order to support the financial risk and return profile of the Sub-Fund and does not seek a specific, positive sustainability goal or outcome. Nevertheless, the ACD and the Investment Manager have provided further information for investors on the Investment Manager's sustainable investing process. The Sub-Fund's exclusions list is set out in Appendix 4.</p>
Investment objective	<p>To achieve an increase in the value of its investment over a rolling 5 year period after the deduction of all fees, through an actively managed, concentrated, high conviction portfolio of shares in US companies.</p>
Investment policy	<p>The Sub-Fund seeks to achieve its investment objective by investing at least 80% of the Sub-Fund's total value in shares of US companies. A "US company" means any company that is organised in or has substantial business activities in the United States of America.</p> <p>Investment can be direct or indirect, in shares (including common and preference shares), rights for shares, warrants, and depositary receipts (securities issued by banks that represent company shares). Indirect exposure may be achieved through investment in Collective Investment Schemes.</p> <p>The Sub-Fund will be concentrated (investing in 15 to 25 companies) and the Investment Manager's investment decisions are not restricted to any specific market, industry sector or company size, meaning that the Investment Manager will invest in a relatively small number of companies when compared to the number of companies available for investment (a "High Conviction" approach).</p> <p>Companies are chosen for their specific growth and business characteristics, consistent revenue and earnings growth potential, financial position and experienced management. The Investment Manager uses a bottom-up selection process to identify, analyse and invest in companies that the Investment Manager considers of the highest quality (companies with the potential to generate consistent earnings growth and outperform the market over the long-term).</p> <p>The Sub-Fund is actively managed meaning the Investment Manager uses their expertise to select investments to achieve the Sub-Fund's objectives.</p> <p>The Investment Manager will include, as part of its overall investment process, Environmental, Social, and Governance ("ESG") factors and consider whether or not to invest in or sell particular shares. The Investment Manager is not restricted by the investment policy from holding a particular company, unless the company is identified in accordance with the Sub-Fund's Exclusion Policy as stated in Appendix 4.</p> <p>The Investment Manager engages with companies as part of their fundamental research process and will continue to take an active stewardship role by engaging with companies and actively voting in relation to shares held by the Sub-Fund once it has invested</p> <p>The Sub-Fund may also invest up to 20% of its value in money market instruments, deposits, cash and near cash, and up to 10% of its value in collective investment schemes (including other funds managed by the Investment Manager or its affiliates).</p>

The Sub-Fund may also use derivatives for efficient portfolio management or hedging purposes.

Any investment in derivatives for efficient portfolio management is not intended to increase the Sub-Fund's risk profile.

SDR disclosures

Funds with sustainability features, but which do not use a UK sustainable investment label, are required under the ESG Sourcebook to provide certain information to investors on those features. The information below is provided to comply with those requirements and/or to demonstrate where this information is disclosed in the Prospectus.

- **Sustainability statement.**

Please see “Sustainability Statement” above the Investment Objective.

- **Investment policy and strategy and information on how the manager determines the assets in which the fund invests.**

The investment policy and strategy of the Sub-Fund is set out above. The following information further explains how the Investment Manager uses its ESG framework to select assets for the Sub-Fund.

The Investment Manager considers material ESG factors at each applicable step of the investment process. Material ESG risks and factors are ESG-related events or conditions that, if they occurred, could cause an actual or potential material impact to the financial returns of the Sub-Fund (e.g., climate change, pollution, human rights, employee relations, corruption).

ESG Integration

ESG risks and factors are integrated into the Investment Manager’s research and investment processes through the AllianceBernstein Stewardship Approach.

The Investment Manager’s research analysts focus on the specific industries, companies and issuers that they cover. Using their own proprietary research, third-party research and findings from other sources incorporated in the Investment Manager’s research collaboration platform, they analyse companies’ and issuers’ ESG practices to identify potentially material ESG risks and opportunities.

ESG considerations are incorporated into the Investment Manager’s research and investment process and are one of several considerations for making investment decisions, both in deciding to purchase the holding for the Sub-fund and, on an on-going basis, in deciding whether to retain the holding.

After consideration of material ESG factors including those that could negatively impact a potential holding, the Investment Manager may still purchase the security and/or retain it in the Sub-Fund. ESG considerations may not be applicable to all types of instruments or investments.

Exclusions policy

The Sub-Fund is subject to the Investment Manager’s exclusions policy, under which the Investment Manager employs restrictions to certain sectors such as controversial weapons, private prisons, cannabis, tobacco, coal mining, fossil fuels, and gambling. Further detail can be found in Appendix 4.

Engagement

The Investment Manager engages with companies as part of its fundamental research process and will continue to take an active stewardship role by engaging with companies and actively voting in relation to shares held by the Sub-Fund once it has invested.

The Investment Manager uses engagement in two ways, referring to these as: insight and action.

- **Insight:** To obtain insights into the ESG credentials of companies as part of the Investment Manager's ongoing research and assessment process
- **Action:** The Investment Manager will actively encourage issuers to better address material ESG risks or take advantage of ESG opportunities
- **Details of any other metrics a retail investor may find useful in understanding the investment policy and strategy for the product.**

The ACD and the Investment Manager consider that a retail client may find the following metrics reasonably useful in understanding the Investment Manager's investment policy and strategy (as that relates to the ESG elements of the Company's strategy):

- % of the Sub-Fund subject to ESG integration
- % of the Sub-Fund with documented ESG Engagements and/or Research
- % of the Sub-Fund compliant with its defined exclusion criteria

Investor Profile	The Sub-Fund invests in a single market with emphasis on building a concentrated portfolio of shares in US companies. The Sub-Fund will therefore be suitable for investors looking to invest in US companies and who are also willing to accept a higher level of risk arising out of investment in potentially volatile shares in pursuit of higher returns over the longer term. As such the Sub-Fund is not suitable for investors who are looking for capital preservation. The Sub-Fund is also not suitable for investors who are looking for an investment solution that has a specified limit in capital loss or no capital loss. The Sub-Fund is aimed at investors who will be able to hold the Sub-Fund for at least 5 years.
Launch date	13 March 2020
Type of Sub-Fund	UK UCITS Scheme: Product Reference Number 922916
Investment Manager	AllianceBernstein Limited
Sub-Investment Manager	AllianceBernstein L.P.
Income Payments	Income will be calculated annually as at the last day of February and the appropriate allocation will be made within two months
Sub-Fund Specific Risks	Concentration Risk, Counterparty and Custody Risk, Country Risk, Currency Risk, Derivatives Risk, Equity Securities Risk, Hedging Risk, Illiquid or Restricted Securities Risk, Investment in Collective Investment Schemes Risk, Liquidity Risk, Management Risk, Overseas Investment Risk, Suspension of Dealings in Shares Risk, Market Risk, Volatility Risk, Operational Risk, Regulatory and Government Policy Risk, Single Swinging Price Risk, Suspension & Termination Risk, Taxation Risk, Small and Mid-Cap Equity Risk, Risks associated with leaving the European Union, and Pandemic/Epidemics/Outbreaks Risks.
Applicable Exclusion Policy (see Appendix 4)	Umbrella Exclusions Policy, Concentrated Exclusions Policy

Sub-Fund Dealing Day	Any day that is a New York Stock Exchange holiday will not be a dealing day for the Sub-Fund.

INVESTMENT CRITERIA

Class I shares will be available to all eligible investors who are able to meet the Investment Criteria.

Class Z shares are available to eligible Institutional investors who have entered into a formal Fees Agreement with the Investment Manager.

Minimum initial investment	£1000	£20,000,000
Minimum Subsequent Investment	£500	£500
Minimum Redemption Amount	£500	£500
Minimum Holding Amount	£1,000	£20,000,000

Expenses are to be deducted from income.

For up to date historical performance, please refer to the current published KIID available on the ACDs website <https://www.tutman.co.uk/literature/>.

The Sub-Fund is not managed to target or exceed the performance of any specific benchmark, nor are the Investment Manager's investment decisions constrained by any benchmark. However, the ACD welcomes investors to compare the Sub-Fund's performance by comparison to the S&P 500 Index, as the ACD believes this index is an appropriate representation of the exposure to US equities for the purpose of comparing performance of the Sub-Fund.

The ACD will include performance data for the S&P 500 Index within the 'Past Performance' section of the Sub-Fund's Key Investor Information Document (KIID), which is available on the ACD's website – <https://www.tutman.co.uk/literature/>

SVS ALLIANCEBERNSTEIN SUSTAINABLE GLOBAL EQUITY FUND

Sustainability label The label used for the Sub-Fund is the Sustainability Focus label:

Investment objective information

Financial objective To achieve an increase in the value of its investment over a rolling 5 year period after the deduction of all fees.

Sustainability objective The Sub-Fund's sustainability objective is to positively contribute to environmental and social challenges, by investing in companies that provide solutions to the Sub-Fund's sustainability themes (together the "Sustainability Themes") of:

- **Climate** – companies providing solutions to key global climate objectives including lower carbon emissions, biodiversity and resource preservation, and reduced pollution;
- **Health** – companies providing solutions to key global health objectives including improved life expectancy, greater health-related quality of life, and reduced disparities of care; and / or
- **Empowerment** – companies that enable greater economic growth and productivity which may help individuals enjoy more prosperous and fulfilling lives through the provision of solutions which include widening access to previously inaccessible financial systems, communication systems, education and the development of critical social and physical infrastructure.

The Sub-Fund seeks to contribute to these fundamental challenges by investing in companies that have revenue assessed to be aligned to one or more of the UN Sustainable Development Goals (UN SDGs) identified by the Investment Manager as contributing to the achievement of the Sustainability Themes.

Material effects of sustainability objective on financial objective or sustainability outcomes

While the Sub-Fund's investment strategy may result in a narrower investment universe compared to a fund without a similar sustainability objective, the Investment Manager does not believe that this will have a material effect on the financial risk and return of the Sub-Fund or on the Sub-Fund's ability to meet its financial investment objective.

The Investment Manager does not consider that pursuing the Sub-Fund's sustainability objective will result in material negative environmental and / or social outcomes. While the Investment Manager pursues positive selection criteria, negative environmental and/or social outcomes are mitigated through a number of methodologies:

- The Investment Manager may not invest in a company in the Sub-Fund's Exclusion Policy as stated in Appendix 4 of the Prospectus.
- The Investment Manager applies a proprietary framework to assess for material negative environmental and / or social outcomes as explained in "ESG Integration" below.
- The Investment Manager's selection criteria also includes the consideration of ESG risks and opportunities in its fundamental research process as explained in "ESG Integration" below.

The Investment Manager engages with companies as part of their fundamental research process as detailed in "Stewardship" below.

Investment policy information

Primary investment policy

The Sub-Fund seeks to achieve its financial and sustainable investment objectives by investing at least 80% of the Sub-Fund's total value in shares of global companies that that the Investment Manager has identified as positively contributing to the Sustainability Themes.

This positive contribution requires that companies generate at least 25% of their revenue from the direct provision of products or services aligned with Sustainability Themes, as measured against one or more of the UN SDGs (as detailed below).

The Sub-Fund may from time to time also invest (in addition to the 80% investment in Climate, Health and/or Empowerment) in other UN SDG-linked sustainable themes identified through the same methodology. The Sustainability Themes may change over time, and investors will be notified should this occur.

Sustainability standard

What sustainability standard does the Sub-Fund use to select assets?

The robust, evidence based standard of sustainability used by the Sub-Fund for the purposes of asset selection is a 25% revenue alignment to the UN SDGs.

The UN SDGs comprise 17 goals, broken down into 169 specific sub-targets designed to address key global social and environmental issues. Further information on the UN SDGs can be found at <https://sdgs.un.org/>.

The Investment Manager uses the UN SDGs (and their sub-targets) as the framework for the Sub-Fund's absolute standard of sustainability by:

- identifying companies with a UN SDG revenue alignment verifiably mapped to one or more of the Sustainability Themes (as further detailed below); and
- ensuring that no company deriving less than a minimum revenue threshold of 25% from UN SDG aligned activities is included within the investible universe.

Why is this standard of sustainability considered to be appropriate for the Fund?

The UN SDGs were chosen as the basis of the robust evidence-based standard as they directly target the themes specified in the Sub-Fund's sustainability objective.

Further, the UN SDGs were adopted by all UN Member States in 2015 and are one of the most internationally recognised and accepted standards and measures of sustainability, and a standard which can be applied consistently across the Sub-Fund's main asset class of global equities. Further, the UN SDGs are interconnected, apply to all countries, and require action by all stakeholders – governments, the private sector, civil society, the United Nations system and others.

As a multi-theme portfolio, the 25% threshold for revenue alignment enables the Sub-Fund to access a diversified range of companies which might otherwise be inaccessible at a higher revenue threshold. The Investment Manager has determined as a result of its internal research that a minimum revenue percentage of 25% is appropriate on the basis that companies with at least 25% revenue alignment have sufficient management focus on the UN SDG-aligned area of their business to allow them to consistently deliver in line with the Sub-Fund's sustainability objective.

This allows for investment into a broader range of themes to include products and services such as emerging technologies or essential services such as access to financial products or food packaging.

How does the Investment Manager map the Sustainability Themes to the UN SDGs?

The Investment Manager assesses and maps the Sustainability Themes against the detailed 169 sub-targets of the UN SDGs, and the Sustainability Themes are therefore not limited to being measured or assessed against any one of the main 17 UN SDGs.

Each of the Sustainability Themes may encompass one or more of the main 17 UN SDGs, and the UN SDGs under consideration in respect of a particular theme may change over time.

As an indication for investors, the following mapping demonstrates the Investment Manager’s consideration of how the Sustainability Themes may map to the UN SDGs, together with some examples of the types of companies under each Sustainability Theme which may be suitable for the investment universe if they have sufficient revenue from their products and services which can demonstrate alignment to the goals of the SDGs.

Given the Investment Manager maps the Sustainable Themes at the UN SDG sub-target level, the indication below is not an exhaustive list of the relevant SDGs, nor of the types of the companies in which the Sub-Fund may invest. The Investment Manager may alter the sub-themes and targets it considers from time to time, while remaining within the broader Sustainability Themes set out in the sustainable investment objective.

Sustainability Theme	Example UN SDGs	Examples of types of companies whose products and services may typically demonstrate SDG alignment per Sustainability Theme
Climate	SDG 6 (ensure availability and sustainable management of water and sanitation for all), SDG 7 (ensure access to affordable, reliable, sustainable and modern energy for all), SDG 9 (build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation), SDG 11 (make cities and human settlements inclusive, safe, resilient and sustainable), SDG 12 (ensure sustainable consumption and production patterns), SDG 13 (take urgent action to combat climate change and its impacts), SDG 14 (conserve and sustainably use the oceans, seas and marine resources for sustainable development), SDG 15 (protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss)	<ul style="list-style-type: none"> - Companies enabling the ongoing transition towards lower or zero carbon energy solutions - Companies enabling the provision of clean, efficient, safe and accessible transportation - Companies enabling more efficient provision, utilization and management of resources - Companies involved in the collection and environmentally sound disposal or recycling of waste, waste-management technologies, and wastewater treatment
Health	SDG 1 (End poverty in all its forms everywhere),	- Companies which provide or expand access to or lower the

	<p>SDG 2 (End Hunger, achieve food security and improved nutrition and promote sustainable agriculture), SDG 3 (Ensure healthy lives and promote well-being for all at all ages), SDG 4 (Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all), SDG 6 (ensure availability and sustainable management of water and sanitation for all), SDG 11 (make cities and human settlements inclusive, safe, resilient and sustainable).</p>	<p>costs of health related products and services</p> <ul style="list-style-type: none"> - Companies involved in the discovery, research, innovation, development or manufacture of new or improved treatments, medication or devices for significant global medical needs - Companies enabling improved nutrition and food security, including through modern agricultural practices - Companies enabling improved quality of life through fitness, hygiene, and other personal care-related products and services
Empowerment	<p>SDG 1 (End poverty in all its forms everywhere), SDG 2 (End Hunger, achieve food security and improved nutrition and promote sustainable agriculture), SDG 3 (Ensure healthy lives and promote well-being for all at all ages), SDG 4 (Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all), SDG 5 (Achieve gender equality and empower all women and girls), SDG 8 (promote sustained , inclusive and sustainable economic growth, full and productive employment and decent work for all), SDG 9 (build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation), SDG 10 (reduce inequalities within and among countries), SDG 11 (make cities and human settlements inclusive, safe, resilient and sustainable).</p>	<ul style="list-style-type: none"> - Companies providing critical technology and communication systems, components and software - Companies enabling transparent, efficient, and affordable access to financial markets and services - Companies providing social infrastructure services such as education, employment, and other services that enhance personal development and business growth and productivity - Companies that facilitate the development and maintenance of critical physical infrastructure intended to promote sustainable, healthy and resilient communities

Asset selection criteria

The Investment Manager uses the UN SDGs to define and monitor the Sustainability Themes and to identify the investment universe by using fundamental research, engagement and analysis.

The Investment Manager applies positive selection criteria, ESG integration and an exclusionary screen to determine the assets in which the Sub-Fund may invest to ensure that all assets eventually selected by the Investment Manager have the relevant sustainability characteristics and are aligned with the objective.

Positive selection criteria

The degree of revenue alignment with one or more of the UN SDGs mapped to the Sustainability Themes is a key indicator for assessing the companies in which the Sub-Fund may invest. No company deriving less than the minimum revenue threshold of 25% from UN SDG aligned activities is included within the investible universe.

The Investment Manager uses a proprietary process based on internal and external data and research to identify companies that meet this minimum threshold as detailed below:

1. Through proprietary research, the Investment Manager assesses the UN SDG sub-targets and identifies those that present opportunities for investment. The Investment Manager identifies a list of products and services that support the achievement of these sub-targets. These products and services are mapped by the Investment Manager to Sustainable Themes of Climate, Health, and Empowerment and additional sub-themes reflecting the UN SDG alignment methodology. Please see “Sustainability Standard” above for further details on the UN SDGs.
2. Using a mix of proprietary data science capabilities, external data and internal research by our analysts, companies assessed to generate at least 25% of their annual revenues from these UN SDG-aligned products and services are identified. The data science tools used reference publicly available data, such as annual reports and public filings, and allow the Investment Manager to cross-reference output from third-party sources to ensure data quality. Revenue data is also used to identify issuers generating revenue from products and services that inhibit the achievement of the UN SDGs as outlined in the Exclusion policy. The affected issuers are deemed ‘misaligned’ and uninvestible, leaving only ‘Aligned’ issuers in the investible universe.

ESG Integration

ESG risks and factors are integrated into the Investment Manager’s research and investment processes through the AllianceBernstein Stewardship Approach.

The Investment Manager’s research analysts focus on the specific industries, companies and issuers that they cover. Using their own proprietary research, third-party research and findings from other sources incorporated in the Investment Manager’s research collaboration platform, they analyse companies’ and issuers’ ESG practices to identify potentially material ESG risks and opportunities.

ESG considerations are incorporated into the Investment Manager’s research and investment process and are one of several considerations for making investment decisions, both in deciding to purchase the holding for the Sub-fund and, on an on-going basis, in deciding whether to retain the holding.

After consideration of material ESG factors, and corresponding ESG scoring, including those that could negatively impact a potential holding, the Investment Manager may still purchase the security and / or retain it in the Sub-Fund. ESG considerations may not be applicable to all types of instruments or investments.

Material negative environmental and/or social outcomes: As a fund with a Sustainable Investment Objective, minimum thresholds, which represent the Investment Manager’s interpretation of material negative environmental and/or social outcomes, are applied to each factor. If at any point a security is assessed to breach the threshold to assess for material negative environmental and / or social outcomes, the security will no longer be deemed to contribute towards the sustainability objective.

Exclusionary screen

Only ‘aligned’ issuers that satisfy the Investment Manager’s inclusion criteria and do not breach the terms of the Sub-Fund’s Exclusion Policy (as explained below and detailed in Appendix 4) are contained within the investible universe.

Exclusion policy All securities in the investible universe must also avoid involvement in misaligned activities as per the Sub-Fund's Exclusion Policy, as stated in Appendix 4.

Companies invested in by the Sub-Fund must derive a minimum of 25% of their revenue from the direct provisions of products or services that support the achievement of one or more UN SDGs. Activities assessed to negatively impact the achievement of the UN SDGs are excluded. Should a company positively contribute to one UN SDG but be misaligned with another, investment would not be permitted.

The Investment Manager's selection criteria include the consideration of ESG risks and opportunities in its fundamental research process, and when considering whether or not to invest in or sell particular shares.

The Investment Manager engages with companies as part of their fundamental research process and will continue to take an active stewardship role by engaging with companies and actively voting in relation to shares held by the Sub-Fund once it has invested.

Other asset classes and broader investment management strategy Investment in shares of companies can be direct or indirect (including common and preference shares, depositary receipts (securities issued by banks that represent company shares) and rights for shares). Indirect exposure may also be achieved by investing up to 10% of the Sub-Fund's value in Collective Investment Schemes. Investment in Collective Investment Schemes may include other funds managed by the Investment Manager or its affiliates.

The Sub-Fund will be diversified (investing in at least 30 companies).

The Sub-Fund is actively managed meaning the Investment Manager uses their expertise to select investments to achieve the Sub-Fund's objectives. The Investment Manager is not required to hold investments in each sustainable investment theme, and there is no limit on the weighting of investments across themes at any time.

The Sub-Fund may also invest up to 10% of its value in money market instruments, deposits, cash and near cash.

The Sub-Fund may also use derivatives for investment, efficient portfolio management or hedging purposes. Use of derivatives for investment purposes are limited to currency forwards used to gain exposure to global currencies.

Any investment in derivatives for efficient portfolio management and investment purposes is not intended to increase the Sub-Fund's risk profile.

Stewardship The Investment Manager is a signatory of the UK Stewardship Code 2020, published by the Financial Reporting Council. The Investment Manager engages with companies as part of their fundamental research process and will continue to take an active stewardship role by engaging with companies and actively voting in relation to shares held by the Sub-Fund once it has invested.

Through engagements, the Investment Manager gathers insights and may actively encourage issuers to better address material ESG risks or take advantage of ESG opportunities in alignment with the Sub-Fund's sustainability objective and any wider ESG risks or opportunities identified by the Investment Manager. The insights the Investment Manager gains helps it to promote company behaviour that is in the best interests of investors and their financial goals. Insights from engagements may also inform the Sub-fund's understanding of issuer alignment or misalignment to the UN SDGs. The Investment Manager may encourage action that can lead to better identification and management of risk and opportunities, strategy, operations, and ultimately, results. Insight and action drive the Investment Manager's ability to make decisions and generate enhanced risk-adjusted investment returns for its investors. As stewards of investor assets, the Investment Manager believes that proxy voting is a fundamental responsibility. The Investment Manager votes its active and passive

shareholdings and unit holdings in accordance with its proprietary, publicly available Proxy Voting and Governance Policy: <https://www.alliancebernstein.com/content/dam/corporate/corporate-pdfs/AB-Proxy-Voting-and-Governance-Policy.pdf>.

More information can be found in the Investment Manager's Global Stewardship Statement and Annual Stewardship Report: <https://www.alliancebernstein.com/content/dam/corporate/corporate-pdfs/ab-global-stewardship-statement-and-report.pdf>.

Escalation plan

The Sub-Fund has a minimum threshold of 25% UN SDG revenue alignment to define its investment universe and excludes companies involved in misaligned activities as per the Sub-Fund's Exclusion Policy.

It is possible that a company that met the selection criteria at the time of purchase may subsequently fail to meet the eligibility criteria. On these occasions, which would be identified by the Investment Manager as a result of its ongoing monitoring of the portfolio, the relevant company will no longer be deemed to contribute towards the sustainability objective. We will then consider whether it remains eligible for inclusion in the portfolio.

The following examples detail scenarios where this might occur and the Investment Manager's associated escalation plan:

- A company falls below 25% UN SDG alignment and there are no mitigating temporary circumstances - the Investment Manager must endeavour to divest in a way that has minimal impact to the portfolio (subject to liquidity or external forces that don't allow divestment).
- A company falls below 25% UN SDG alignment due to mitigating temporary circumstances - the Investment Manager must document the mitigating circumstance of the passive breach and detail a plan by which the issuer will regain its eligibility within a reasonable timeframe. The plan must be presented to Investment Manager's oversight committee for review and approval.
- A company's third-party UN SDG alignment data falls below the 25% SDG alignment threshold but the Investment Manager assesses the aligned revenue meets the threshold based on proprietary research - the Investment Manager must document the proprietary research demonstrating the company to meet the minimum threshold of 25% UN SDG revenue alignment. The research must be presented to the Investment Manager's Oversight Committee for review and approval.
- Once a company is deemed ineligible based on involvement in misaligned activities as per the Sub-Fund's Exclusion Policy - the Investment Manager must endeavour to divest in a way that has minimal impact to the Sub-Fund (subject to liquidity or external forces that don't allow divestment). In considering whether a company is ineligible and should be divested, the Investment Manager will consider each circumstance on a case by case basis, taking into account third party and internal data, whether the misalignment is expected to be temporary or there are other mitigating factors, and whether it would be appropriate in the first instance to engage with the company.

In each of these cases, the Investment Manager will inform the ACD and provide details of the approach being taken.

Ongoing monitoring, KPIs and assurance

The Sub-Fund's fundamental policy and related KPI is that each corporate issuer must derive at least 25% revenue from products or services that aligns with the achievement of one or more UN SDG sub targets and this minimum threshold of 25% is used, together with the other criteria specified above, to define the Sub-Fund's investment universe.

The 25% minimum alignment to the UN SDGs allows the investable universe and portfolio to remain diversified and support environmental and / or social outcomes across sector, geography, theme and UN SDG alignment providing a broad range of possible investments against which the Investment Manager can apply its other ESG and financial investment criteria.

The Investment Manager monitors the UN SDG KPI as well as a number of sustainability criteria including but not limited to:

1. The degree of revenue alignment for each issuer to the UN SDGs to ensure each issuer meets the 25% minimum;
2. The weighted average UN SDG-revenue alignment for the Sub-Fund;
3. The Sub-Fund's allocation to each of Health, Climate, and Empowerment; and
4. The percentage of the Sub-Fund's portfolio in compliance with the Sub-Fund's exclusion policy.

The Investment Manager uses compliance systems to assist the monitoring of aforementioned information used in the investment process. These systems monitor the Sub-Fund's portfolio on both a pre-trade and post-trade basis, and are administered either by the Portfolio Management Group (PMG) with oversight by others, or by departments independent of portfolio management, such as the Investment Manager's Client Guidelines Management (CGM) Group.

There is no third party assessment. The Investment Manager has a team of dedicated individuals whose role is the verification and assessment of whether a particular asset meets the applicable standard of sustainability. At the same time, the Investment Manager's Internal Audit team (which operates separately and independently of the investment team) has undertaken an independent assessment of the Sub-Fund's approach to its sustainability standard. Where any changes are made to the investment team's process for determining the sustainability characteristics of a particular asset, the Internal Audit team will carry out a further assessment as necessary. The Internal Audit team will also carry out a periodic review of the sustainability standard to ensure it remains appropriate.

Investor Profile	The Sub-Fund invests across a number of markets, regions and industry sectors with emphasis on building a diversified portfolio of shares in global companies aligned with the SDGs. The Sub-Fund will therefore be suitable for investors looking to invest in sustainable global companies and who are also willing to accept a higher level of risk arising out of investment in potentially volatile shares in pursuit of higher returns over the longer term. As such the Sub-Fund is not suitable for investors who are looking for capital preservation. The Sub-Fund is also not suitable for investors who are looking for an investment solution that has a specified limit in capital loss or no capital loss. The Sub-Fund is aimed at investors who will be able to hold the Sub-Fund for at least 5 years.

The Sub-Fund is not managed to target or exceed the performance of any specific benchmark, nor are the Investment Manager's investment decisions constrained by any benchmark. However, the ACD welcomes investors to compare the Sub-Fund's performance by comparison to the MSCI All Country World Index, as the ACD believes this index is an appropriate representation of the exposure to global equities for the purpose of comparing performance of the Sub-Fund.

The ACD will include performance data for the MSCI All Country World Index within the 'Past Performance' section of the Sub-Fund's Key Investor Information Document (KIID), which is available on the ACD's website – <https://www.tutman.co.uk/literature/>

SVS ALLIANCEBERNSTEIN SUSTAINABLE US EQUITY FUND

Sustainability label The label used for the Sub-Fund is the **Sustainability Focus** label:

Investment objective information

Financial objective To achieve an increase in the value of its investment over a rolling 5 year period after the deduction of all fees.

Sustainability objective The Sub-Fund's sustainability objective is to positively contribute to environmental and social challenges, by investing in companies that provide solutions to the Sub-Fund's sustainability themes (together the "Sustainability Themes") of:

- **Climate** – companies providing solutions to key global climate objectives including lower carbon emissions, biodiversity and resource preservation, and reduced pollution;
- **Health** – companies providing solutions to key global health objectives including improved life expectancy, greater health-related quality of life, and reduced disparities of care; and / or
- **Empowerment** – companies that enable greater economic growth and productivity which may help individuals enjoy more prosperous and fulfilling lives through the provision of solutions which include widening access to previously inaccessible financial systems, communication systems, education and the development of critical social and physical infrastructure.

The Sub-Fund seeks to contribute to these fundamental challenges by investing in companies that have revenue assessed to be aligned to one or more of the UN Sustainable Development Goals (UN SDGs) identified by the Investment Manager as contributing to the achievement of the Sustainability Themes.

Material effects of sustainability objective on financial objective or sustainability outcomes

While the Sub-Fund's investment strategy may result in a narrower investment universe compared to a fund without a similar sustainability objective, the Investment Manager does not believe that this will have a material effect on the financial risk and return of the Sub-Fund or on the Sub-Fund's ability to meet its financial investment objective.

The Investment Manager does not consider that pursuing the Sub-Fund's sustainability objective will result in material negative environmental and / or social outcomes. While the Investment Manager pursues positive selection criteria, negative environmental and/or social outcomes are mitigated through a number of methodologies:

- The Investment Manager may not invest in a company in the Sub-Fund's Exclusion Policy as stated in Appendix 4 of the Prospectus.
- The Investment Manager applies a proprietary framework to assess for material negative environmental and / or social outcomes as explained in "ESG Integration" below.
- The Investment Manager's selection criteria also includes the consideration of ESG risks and opportunities in its fundamental research process as explained in "ESG Integration" below.

The Investment Manager engages with companies as part of their fundamental research process as detailed in “Stewardship” below.

Investment policy information

Primary investment policy The Sub-Fund seeks to achieve its financial and sustainable investment objectives by investing at least 80% of the Sub-Fund's total value in shares of US companies that that the Investment Manager has identified as positively contributing to the Sustainability Themes.

This positive contribution requires that companies generate at least 25% of their revenue from the direct provision of products or services aligned with Sustainability Themes, as measured against one or more of the UN SDGs (as detailed below).

The Sub-Fund may from time to time also invest (in addition to the 80% investment in Climate, Health and/or Empowerment) in other UN SDG-linked sustainable themes identified through the same methodology. The Sustainability Themes may change over time, and investors will be notified should this occur.

Sustainability standard

What sustainability standard does the Sub-Fund use to select assets?

The robust, evidence based standard of sustainability used by the Sub-Fund for the purposes of asset selection is a 25% revenue alignment to the UN SDGs.

The UN SDGs comprise 17 goals, broken down into 169 specific sub-targets designed to address key global social and environmental issues. Further information on the UN SDGs can be found at <https://sdgs.un.org/>.

The Investment Manager uses the UN SDGs (and their sub-targets) as the framework for the Sub-Fund's absolute standard of sustainability by:

- identifying companies with a UN SDG revenue alignment verifiably mapped to one or more of the Sustainability Themes (as further detailed below); and
- ensuring that no company deriving less than a minimum revenue threshold of 25% from UN SDG aligned activities is included within the investible universe.

Why is this standard of sustainability considered to be appropriate for the Fund?

The UN SDGs were chosen as the basis of the robust evidence-based standard as they directly target the themes specified in the Sub-Fund's sustainability objective.

Further, the UN SDGs were adopted by all UN Member States in 2015 and are one of the most internationally recognised and accepted standards and measures of sustainability, and a standard which can be applied consistently across the Sub-Fund's main asset class of global equities. Further, the UN SDGs are interconnected, apply to all countries, and require action by all stakeholders – governments, the private sector, civil society, the United Nations system and others.

As a multi-theme portfolio, the 25% threshold for revenue alignment enables the Sub-Fund to access a diversified range of companies which might otherwise be inaccessible at a higher revenue threshold. The Investment Manager has determined as a result of its internal research that a minimum revenue percentage of 25% is appropriate on the basis that companies with at least 25% revenue alignment have sufficient management focus on the UN SDG-aligned area of their business to allow them to consistently deliver in line with the Sub-Fund's sustainability objective.

This allows for investment into a broader range of themes to include products and services such as emerging technologies or essential services such as access to financial products or food packaging.

How does the Investment Manager map the Sustainability Themes to the UN SDGs?

The Investment Manager assesses and maps the Sustainability Themes against the detailed 169 sub-targets of the UN SDGs, and the Sustainability Themes are therefore not limited to being measured or assessed against any one of the main 17 UN SDGs.

Each of the Sustainability Themes may encompass one or more of the main 17 UN SDGs, and the UN SDGs under consideration in respect of a particular theme may change over time.

As an indication for investors, the following mapping demonstrates the Investment Manager’s consideration of how the Sustainability Themes may map to the UN SDGs, together with some examples of the types of companies under each Sustainability Theme which may be suitable for the investment universe if they have sufficient revenue from their products and services which can demonstrate alignment to the goals of the SDGs.

Given the Investment Manager maps the Sustainable Themes at the UN SDG sub-target level, the indication below is not an exhaustive list of the relevant SDGs, nor of the types of the companies in which the Sub-Fund may invest. The Investment Manager may alter the sub-themes and targets it considers from time to time, while remaining within the broader Sustainability Themes set out in the sustainable investment objective.

Sustainability Theme	Example UN SDGs	Examples of types of companies whose products and services may typically demonstrate SDG alignment per Sustainability Theme
Climate	SDG 6 (ensure availability and sustainable management of water and sanitation for all), SDG 7 (ensure access to affordable, reliable, sustainable and modern energy for all), SDG 9 (build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation), SDG 11 (make cities and human settlements inclusive, safe, resilient and sustainable), SDG 12 (ensure sustainable consumption and production patterns), SDG 13 (take urgent action to combat climate change and its impacts), SDG 14 (conserve and sustainably use the oceans, seas and marine resources for sustainable development), SDG 15 (protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt	<ul style="list-style-type: none"> - Companies enabling the ongoing transition towards lower or zero carbon energy solutions - Companies enabling the provision of clean, efficient, safe and accessible transportation - Companies enabling more efficient provision, utilization and management of resources - Companies involved in the collection and environmentally sound disposal or recycling of waste, waste-management technologies, and wastewater treatment

	and reverse land degradation and halt biodiversity loss)	
Health	SDG 1 (End poverty in all its forms everywhere), SDG 2 (End Hunger, achieve food security and improved nutrition and promote sustainable agriculture), SDG 3 (Ensure healthy lives and promote well-being for all at all ages), SDG 4 (Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all), SDG 6 (ensure availability and sustainable management of water and sanitation for all), SDG 11 (make cities and human settlements inclusive, safe, resilient and sustainable).	<ul style="list-style-type: none"> - Companies which provide or expand access to or lower the costs of health related products and services - Companies involved in the discovery, research, innovation, development or manufacture of new or improved treatments, medication or devices for significant global medical needs - Companies enabling improved nutrition and food security, including through modern agricultural practices - Companies enabling improved quality of life through fitness, hygiene, and other personal care-related products and services
Empowerment	SDG 1 (End poverty in all its forms everywhere), SDG 2 (End Hunger, achieve food security and improved nutrition and promote sustainable agriculture), SDG 3 (Ensure healthy lives and promote well-being for all at all ages), SDG 4 (Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all), SDG 5 (Achieve gender equality and empower all women and girls), SDG 8 (promote sustained , inclusive and sustainable economic growth, full and productive employment and decent work for all), SDG 9 (build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation), SDG 10 (reduce inequalities within and among countries), SDG 11 (make cities and human settlements inclusive, safe, resilient and sustainable).	<ul style="list-style-type: none"> - Companies providing critical technology and communication systems, components and software - Companies enabling transparent, efficient, and affordable access to financial markets and services - Companies providing social infrastructure services such as education, employment, and other services that enhance personal development and business growth and productivity - Companies that facilitate the development and maintenance of critical physical infrastructure intended to promote sustainable, healthy and resilient communities

Asset selection criteria

The Investment Manager uses the UN SDGs to define and monitor the Sustainability Themes and to identify the investment universe by using fundamental research, engagement and analysis.

The Investment Manager applies positive selection criteria, ESG integration and an exclusionary screen to determine the assets in which the Sub-Fund may invest to

ensure that all assets eventually selected by the Investment Manager have the relevant sustainability characteristics and are aligned with the objective.

Positive selection criteria

The degree of revenue alignment with one or more of the UN SDGs mapped to the Sustainability Themes is a key indicator for assessing the companies in which the Sub-Fund may invest. No company deriving less than the minimum revenue threshold of 25% from UN SDG aligned activities is included within the investible universe.

The Investment Manager uses a proprietary process based on internal and external data and research to identify companies that meet this minimum threshold as detailed below:

1. Through proprietary research, the Investment Manager assesses the UN SDG sub-targets and identifies those that present opportunities for investment. The Investment Manager identifies a list of products and services that support the achievement of these sub-targets. These products and services are mapped by the Investment Manager to Sustainable Themes of Climate, Health, and Empowerment and additional sub-themes reflecting the UN SDG alignment methodology. Please see “Sustainability Standard” above for further details on the UN SDGs.
2. Using a mix of proprietary data science capabilities, external data and internal research by our analysts, companies assessed to generate at least 25% of their annual revenues from these UN SDG-aligned products and services are identified. The data science tools used reference publicly available data, such as annual reports and public filings, and allow the Investment Manager to cross-reference output from third-party sources to ensure data quality. Revenue data is also used to identify issuers generating revenue from products and services that inhibit the achievement of the UN SDGs as outlined in the Exclusion policy. The affected issuers are deemed ‘misaligned’ and uninvestible, leaving only ‘Aligned’ issuers in the investible universe.

ESG Integration

ESG risks and factors are integrated into the Investment Manager’s research and investment processes through the AllianceBernstein Stewardship Approach.

The Investment Manager’s research analysts focus on the specific industries, companies and issuers that they cover. Using their own proprietary research, third-party research and findings from other sources incorporated in the Investment Manager’s research collaboration platform, they analyse companies’ and issuers’ ESG practices to identify potentially material ESG risks and opportunities.

ESG considerations are incorporated into the Investment Manager’s research and investment process and are one of several considerations for making investment decisions, both in deciding to purchase the holding for the Sub-fund and, on an on-going basis, in deciding whether to retain the holding.

After consideration of material ESG factors, and corresponding ESG scoring, including those that could negatively impact a potential holding, the Investment Manager may still purchase the security and / or retain it in the Sub-Fund. ESG considerations may not be applicable to all types of instruments or investments.

Material negative environmental and/or social outcomes: As a fund with a Sustainable Investment Objective, minimum thresholds, which represent the Investment Manager’s interpretation of material negative environmental and/or social outcomes, are applied to each factor. If at any point a security is assessed to breach the threshold to assess for material negative environmental and / or social outcomes, the security will no longer be deemed to contribute towards the sustainability objective.

Exclusionary screen

Only 'aligned' issuers that satisfy the Investment Manager's inclusion criteria and do not breach the terms of the Sub-Fund's Exclusion Policy (as explained below and detailed in Appendix 4) are contained within the investible universe.

Exclusion policy

All securities in the investible universe must also avoid involvement in misaligned activities as per the Sub-Fund's Exclusion Policy, as stated in Appendix 4.

Companies invested in by the Sub-Fund must derive a minimum of 25% of their revenue from the direct provisions of products or services that support the achievement of one or more UN SDGs. Activities assessed to negatively impact the achievement of the UN SDGs are excluded. Should a company positively contribute to one UN SDG but be misaligned with another, investment would not be permitted.

The Investment Manager's selection criteria include the consideration of ESG risks and opportunities in its fundamental research process, and when considering whether or not to invest in or sell particular shares.

The Investment Manager engages with companies as part of their fundamental research process and will continue to take an active stewardship role by engaging with companies and actively voting in relation to shares held by the Sub-Fund once it has invested.

Other asset classes and broader investment management strategy

Investment in shares of companies can be direct or indirect (including common and preference shares, depositary receipts (securities issued by banks that represent company shares) and rights for shares). Indirect exposure may also be achieved by investing up to 10% of the Sub-Fund's value in Collective Investment Schemes. Investment in Collective Investment Schemes may include other funds managed by the Investment Manager or its affiliates.

The Sub-Fund will be diversified (investing in at least 30 companies).

The Sub-Fund is actively managed meaning the Investment Manager uses their expertise to select investments to achieve the Sub-Fund's objectives. The Investment Manager is not required to hold investments in each sustainable investment theme, and there is no limit on the weighting of investments across themes at any time.

The Sub-Fund may also invest up to 20% of its value in money market instruments, deposits, cash and near cash.

The Sub-Fund may also use derivatives for hedging purposes. Any investment in derivatives for hedging purposes is not intended to increase the Sub-Fund's risk profile.

Stewardship

The Investment Manager is a signatory of the UK Stewardship Code 2020, published by the Financial Reporting Council. The Investment Manager engages with companies as part of their fundamental research process and will continue to take an active stewardship role by engaging with companies and actively voting in relation to shares held by the Sub-Fund once it has invested.

Through engagements, the Investment Manager gathers insights and may actively encourage issuers to better address material ESG risks or take advantage of ESG opportunities in alignment with the Sub-Fund's sustainability objective and any wider ESG risks or opportunities identified by the Investment Manager. The insights the Investment Manager gains helps it to promote company behaviour that is in the best interests of investors and their financial goals. Insights from engagements may also inform the Sub-fund's understanding of issuer alignment or misalignment to the UN SDGs. The Investment Manager may encourage action that can lead to better identification and management of risk and opportunities, strategy, operations, and ultimately, results. Insight and action drive the Investment Manager's ability to make decisions and generate enhanced risk-adjusted investment returns for its investors.

As stewards of investor assets, the Investment Manager believes that proxy voting is a fundamental responsibility. The Investment Manager votes its active and passive shareholdings and unit holdings in accordance with its proprietary, publicly available Proxy Voting and Governance Policy: <https://www.alliancebernstein.com/content/dam/corporate/corporate-pdfs/AB-Proxy-Voting-and-Governance-Policy.pdf>.

More information can be found in the Investment Manager's Global Stewardship Statement and Annual Stewardship Report: <https://www.alliancebernstein.com/content/dam/corporate/corporate-pdfs/ab-global-stewardship-statement-and-report.pdf>.

Escalation plan

The Sub-Fund has a minimum threshold of 25% UN SDG revenue alignment to define its investment universe and excludes companies involved in misaligned activities as per the Sub-Fund's Exclusion Policy.

It is possible that a company that met the selection criteria at the time of purchase may subsequently fail to meet the eligibility criteria. On these occasions, which would be identified by the Investment Manager as a result of its ongoing monitoring of the portfolio, the relevant company will no longer be deemed to contribute towards the sustainability objective. We will then consider whether it remains eligible for inclusion in the portfolio.

The following examples detail scenarios where this might occur and the Investment Manager's associated escalation plan:

- A company falls below 25% UN SDG alignment and there are no mitigating temporary circumstances - the Investment Manager must endeavour to divest in a way that has minimal impact to the portfolio (subject to liquidity or external forces that don't allow divestment).
- A company falls below 25% UN SDG alignment due to mitigating temporary circumstances - the Investment Manager must document the mitigating circumstance of the passive breach and detail a plan by which the issuer will regain its eligibility within a reasonable timeframe. The plan must be presented to Investment Manager's oversight committee for review and approval.
- A company's third-party UN SDG alignment data falls below the 25% SDG alignment threshold but the Investment Manager assesses the aligned revenue meets the threshold based on proprietary research - the Investment Manager must document the proprietary research demonstrating the company to meet the minimum threshold of 25% UN SDG revenue alignment. The research must be presented to the Investment Manager's Oversight Committee for review and approval.
- Once a company is deemed ineligible based on involvement in misaligned activities as per the Sub-Fund's Exclusion Policy - the Investment Manager must endeavour to divest in a way that has minimal impact to the Sub-Fund (subject to liquidity or external forces that don't allow divestment). In considering whether a company is ineligible and should be divested, the Investment Manager will consider each circumstance on a case by case basis, taking into account third party and internal data, whether the misalignment is expected to be temporary or there are other mitigating factors, and whether it would be appropriate in the first instance to engage with the company.

In each of these cases, the Investment Manager will inform the ACD and provide details of the approach being taken.

Ongoing monitoring, KPIs and assurance

The Sub-Fund's fundamental policy and related KPI is that each corporate issuer must derive at least 25% revenue from products or services that aligns with the achievement of one or more UN SDG sub targets and this minimum threshold of 25%

is used, together with the other criteria specified above, to define the Sub-Fund's investment universe.

The 25% minimum alignment to the UN SDGs allows the investable universe and portfolio to remain diversified and support environmental and / or social outcomes across sector, geography, theme and UN SDG alignment providing a broad range of possible investments against which the Investment Manager can apply its other ESG and financial investment criteria.

The Investment Manager monitors the UN SDG KPI as well as a number of sustainability criteria including but not limited to:

1. The degree of revenue alignment for each issuer to the UN SDGs to ensure each issuer meets the 25% minimum;
2. The weighted average UN SDG-revenue alignment for the Sub-Fund;
3. The Sub-Fund's allocation to each of Health, Climate, and Empowerment; and
4. The percentage of the Sub-Fund's portfolio in compliance with the Sub-Fund's exclusion policy.

The Investment Manager uses compliance systems to assist the monitoring of aforementioned information used in the investment process. These systems monitor the Sub-Fund's portfolio on both a pre-trade and post-trade basis, and are administered either by the Portfolio Management Group (PMG) with oversight by others, or by departments independent of portfolio management, such as the Investment Manager's Client Guidelines Management (CGM) Group.

There is no third party assessment. The Investment Manager has a team of dedicated individuals whose role is the verification and assessment of whether a particular asset meets the applicable standard of sustainability. At the same time, the Investment Manager's Internal Audit team (which operates separately and independently of the investment team) has undertaken an independent assessment of the Sub-Fund's approach to its sustainability standard. Where any changes are made to the investment team's process for determining the sustainability characteristics of a particular asset, the Internal Audit team will carry out a further assessment as necessary. The Internal Audit team will also carry out a periodic review of the sustainability standard to ensure it remains appropriate.

Investor Profile	The Sub-Fund invests in a single market with emphasis on a diversified portfolio of shares in US companies aligned with the SDGs. The Sub-Fund will therefore be suitable for investors looking to invest in sustainable US companies and who are also willing to accept a higher level of risk arising out of investment in potentially volatile shares in pursuit of higher returns over the longer term. As such the Sub-Fund is not suitable for investors who are looking for capital preservation. The Sub-Fund is also not suitable for investors who are looking for an investment solution that has a specified limit in capital loss or no capital loss. The Sub-Fund is aimed at investors who will be able to hold the Sub-Fund for at least 5 years.

Minimum Holding Amount	£1,000	£50,000,000	£5,000,000	£20,000,000

Expenses are to be deducted from income.

For up to date historical performance, please refer to the current published KIID available on the ACDs website <https://www.tutman.co.uk/literature/>.

The Sub-Fund is not managed to target or exceed the performance of any specific benchmark, nor are the Investment Manager's investment decisions constrained by any benchmark. However, the ACD welcomes investors to compare the Sub-Fund's performance by comparison to the S&P 500 Index, as the ACD believes this index is an appropriate representation of the exposure to US equities for the purpose of comparing performance of the Sub-Fund.

The ACD will include performance data for the S&P 500 Index within the 'Past Performance' section of the Sub-Fund's Key Investor Information Document (KIID), which is available on the ACD's website – <https://www.tutman.co.uk/literature/>

SVS ALLIANCEBERNSTEIN LOW VOLATILITY GLOBAL EQUITY FUND

Sustainability statement This product does not have a UK sustainable investment label. Sustainable investment labels help investors find products that have a specific sustainability goal. While the Investment Manager does consider environmental, social and governance (ESG) factors in its investment decision making process, it does so in order to support the financial risk and return profile of the Sub-Fund and does not seek a specific, positive sustainability goal or outcome. Nevertheless, the ACD and the Investment Manager have provided further information for investors on the Investment Manager's sustainable investing process. The Sub-Fund's exclusions list is set out in Appendix 4.

Investment objective To achieve an increase in the value of its investment over a rolling 5 year period after the deduction of all fees, while aiming to have lower volatility than the broad global equity market, as represented by the MSCI World Index and reduce losses when global equity markets decline, through an actively managed, diversified portfolio of shares in global companies.

Investment policy The Sub-Fund seeks to achieve its investment objective by investing at least 80% of the Sub-Fund's total value in shares of global companies. Investment can be direct or indirect, in shares (including common and preference shares), rights for shares, warrants, and depositary receipts (securities issued by banks that represent company shares). Indirect exposure may be achieved through investment in Collective Investment Schemes.

The Sub-Fund will invest in shares that the Investment Manager believes to have fundamentally lower volatility (measure of the ups and downs of performance) and less downside risks in the future. The Investment Manager uses its proprietary risk and return models as well as its judgment and experience in managing investment portfolios to construct a diversified portfolio with a balance of quality, stability and price.

The Sub-Fund is actively managed meaning the Investment Manager uses their expertise to select investments to achieve the Sub-Fund's objectives.

The Sub-Fund will be diversified (investing in at least 30 companies) and the Investment Manager's investment decisions are not restricted to any specific market, region, industry sector or company size.

The Investment Manager will include, as part of its overall investment process, Environmental, Social, and Governance ("ESG") factors when considering whether or not to invest in or sell particular shares. The Investment Manager is not restricted by the investment policy from holding a particular company, unless the company is identified in accordance with the Sub-Fund's Exclusion Policy as stated in Appendix 4.

The Investment Manager engages with companies as part of their fundamental research process and will continue to take an active stewardship role by engaging with companies and actively voting in relation to shares held by the Sub-Fund once it has invested

The Sub-Fund may also invest up to 20% of its value in money market instruments, deposits, cash and near cash, and up to 10% of its value in units in collective investment schemes (including other funds managed by the Investment Manager or its affiliates).

The Sub-Fund may also use derivatives for investment, efficient portfolio management or hedging purposes. Use of derivatives for investment purposes are limited to currency forwards used to gain exposure to global currencies.

Any investment in derivatives for efficient portfolio management and investment purposes is not intended to increase the Sub-Fund's risk profile.

SDR disclosures

Funds with sustainability features, but which do not use a UK sustainable investment label, are required under the ESG Sourcebook to provide certain information to investors on those features. The information below is provided to comply with those requirements and/or to demonstrate where this information is disclosed in the Prospectus.

- **Sustainability statement.**

Please see “Sustainability Statement” above the Investment Objective.

- **Investment policy and strategy and information on how the manager determines the assets in which the fund invests.**

The investment policy and strategy of the Sub-Fund is set out above. The following information further explains how the Investment Manager uses its ESG framework to select assets for the Sub-Fund.

The Investment Manager considers material ESG factors at each applicable step of the investment process. Material ESG risks and factors are ESG-related events or conditions that, if they occurred, could cause an actual or potential material impact to the financial returns of the Sub-Fund (e.g., climate change, pollution, human rights, employee relations, corruption).

ESG Integration

ESG risks and factors are integrated into the Investment Manager’s research and investment processes through the AllianceBernstein Stewardship Approach.

The Investment Manager’s research analysts focus on the specific industries, companies and issuers that they cover. Using their own proprietary research, third-party research and findings from other sources incorporated in the Investment Manager’s research collaboration platform, they analyse companies’ and issuers’ ESG practices to identify potentially material ESG risks and opportunities.

ESG considerations are incorporated into the Investment Manager’s research and investment process and are one of several considerations for making investment decisions, both in deciding to purchase the holding for the Sub-fund and, on an on-going basis, in deciding whether to retain the holding.

After consideration of material ESG factors including those that could negatively impact a potential holding, the Investment Manager may still purchase the security and/or retain it in the Sub-Fund. ESG considerations may not be applicable to all types of instruments or investments.

Exclusions policy

The Sub-Fund is subject to the Investment Manager’s exclusions policy, under which the Investment Manager employs restrictions to certain sectors such as controversial weapons, private prisons and cannabis. Further detail can be found in Appendix 4.

Engagement

The Investment Manager engages with companies as part of its fundamental research process and will continue to take an active stewardship role by engaging with companies and actively voting in relation to shares held by the Sub-Fund once it has invested.

The Investment Manager uses engagement in two ways, referring to these as: insight and action.

- **Insight:** To obtain insights into the ESG credentials of companies as part of the Investment Manager’s ongoing research and assessment process

- **Action:** The Investment Manager will actively encourage issuers to better address material ESG risks or take advantage of ESG opportunities
- **Details of any other metrics a retail investor may find useful in understanding the investment policy and strategy for the product.**
 The ACD and the Investment Manager consider that a retail client may find the following metrics reasonably useful in understanding the Investment Manager's investment policy and strategy (as that relates to the ESG elements of the Company's strategy):
 - % of the Sub-Fund subject to ESG integration
 - % of the Sub-Fund with documented ESG Engagements and/or Research
 - % of the Sub-Fund compliant with its defined exclusion criteria

Investor Profile	The Sub-Fund invests across a number of markets, regions and industry sectors with emphasis on building a diversified portfolio of shares in global companies while seeking to limit volatility and reduce losses when markets decline. The Sub-Fund will therefore be suitable for investors looking to invest in such global companies and who are also willing to accept a higher level of risk arising out of investment in potentially volatile shares in pursuit of higher returns over the longer term. As such the Sub-Fund is not suitable for investors who are looking for capital preservation. The Sub-Fund is also not suitable for investors who are looking for an investment solution that has a specified limit in capital loss or no capital loss. The Sub-Fund is aimed at investors who will be able to hold the Sub-Fund for at least 5 years.

Minimum Holding Amount	£1,000	£20,000,000

Expenses are to be deducted from income.

For up to date historical performance, please refer to the current published KIID available on the ACDs website <https://www.tutman.co.uk/literature/>.

The Sub-Fund is not managed to target or exceed the performance of any specific benchmark. The Sub-Fund's performance may be compared to the MSCI World Index and the ACD believes this index is an appropriate representation of the exposure to global equities for the purpose of comparing performance of the Sub-Fund.

The Sub-Fund's volatility (measure of the ups and downs of performance) is compared to the MSCI World Index and the ACD believes this index is an appropriate representation of the volatility of global equity markets to which the Sub-Fund will have exposure.

The ACD will include performance data for the MSCI World Index within the 'Past Performance' section of the Sub-Fund's Key Investor Information Document (KIID), which is available on the ACD's website – <https://www.tutman.co.uk/literature/>

SVS ALLIANCEBERNSTEIN STRATEGIC BOND FUND

Sustainability statement	<p>This product does not have a UK sustainable investment label. Sustainable investment labels help investors find products that have a specific sustainability goal. While the Investment Manager does consider environmental, social and governance (ESG) factors in its investment decision making process, it does so in order to support the financial risk and return profile of the Sub-Fund and does not seek a specific, positive sustainability goal or outcome. Nevertheless, the ACD and the Investment Manager have provided further information for investors on the Investment Manager's sustainable investing process. The Sub-Fund's exclusions list is set out in Appendix 4.</p>
Investment objective	<p>To achieve an increase in the value of its investment over a rolling 5 year period after the deduction of all fees, through an actively managed portfolio of global bonds denominated in, or hedged back to, Sterling.</p>
Investment policy	<p>The Sub-Fund seeks to achieve its investment objective by investing at least 80% of the Sub-Fund's total value in global bonds.</p> <p>The Sub-Fund will invest flexibly across different bond securities, investing in government and corporate bond issuers, investment grade and sub-investment grade bonds, and in bonds issued in any country (including Emerging Market Countries) in any currency. The Sub-Fund may invest in asset and mortgage backed securities.</p> <p>The Sub-Fund will have a minimum exposure of 80% of its value to Sterling, either directly or indirectly, at any given time.</p> <p>The Sub-Fund is actively managed meaning that the Investment Manager uses their expertise to select investment to achieve the Sub-Fund's objective.</p> <p>The Investment Manager will include, as part of its overall investment process, Environmental, Social, and Governance ("ESG") factors when considering whether or not to invest in or sell a particular bond. The Investment Manager is not restricted by the Investment Policy from holding a particular issuer, unless the issuer is identified in accordance with the Sub-Fund's Exclusion Policy as stated in Appendix 4 of the Prospectus.</p> <p>The Sub-Fund may also invest up to 20% of its value in money markets instruments, deposits, cash and near cash, and up to 10% of its value in Collective Investment Schemes (including other funds managed by the Investment Manager).</p> <p>The Sub-Fund may use derivatives for Hedging, EPM, and Investment Purposes.</p>
SDR disclosures	<p>Funds with sustainability features, but which do not use a UK sustainable investment label, are required under the ESG Sourcebook to provide certain information to investors on those features. The information below is provided to comply with those requirements and/or to demonstrate where this information is disclosed in the Prospectus.</p>

- **Sustainability statement.**

Please see “Sustainability Statement” above the Investment Objective.

- **Investment policy and strategy and information on how the manager determines the assets in which the fund invests.**

The investment policy and strategy of the Sub-Fund is set out above. The following information further explains how the Investment Manager uses its ESG framework to select assets for the Sub-Fund.

The Investment Manager considers material ESG factors at each applicable step of the investment process. Material ESG risks and factors are ESG-related events or conditions that, if they occurred, could cause an actual or potential material negative impact to the financial returns of the Sub-Fund (e.g., climate change, pollution, human rights, employee relations, corruption).

ESG Integration

ESG risks and factors are integrated into the Investment Manager’s research and investment processes through the AllianceBernstein Stewardship Approach.

The Investment Manager’s research analysts focus on the specific industries, companies and issuers that they cover. Using their own proprietary research, third-party research and findings from other sources incorporated in the Investment Manager’s research collaboration platform, they analyse issuers’ and Sovereigns’ ESG practices to identify potentially material ESG risks and opportunities.

ESG considerations are incorporated into the Investment Manager’s research and investment process and are one of several considerations for making investment decisions, both in deciding to purchase the holding for the Sub-fund and, on an on-going basis, in deciding whether to retain the holding.

After consideration of material ESG factors including those that could negatively impact a potential holding, the Investment Manager may still purchase the security and/or retain it in the Sub-Fund. ESG considerations may not be applicable to all types of instruments or investments.

As part of ESG Integration, ESG scoring may be used in the research process for fixed income securities. PRISM, a proprietary credit rating and scoring system integrates fixed-income ESG research into a fully digitalized data and security analysis platform. With PRISM, analysts can develop and share views on individual issuers in a consistent, comparable and quantifiable way across industries, ratings categories and geographies. Analysts evaluate each issuer on multiple dimensions, using research and engagement insights to assign specific ESG scores, which are used in credit scoring. PRISM scoring will weigh ESG factors differently depending on the industry being analysed and are based on what AB analysts view as the most important ESG factors for the company or issuer. For sovereign issuers and securitisations, the ESG scoring framework is adapted to take account of how ESG issues may affect a country’s ability to meet its payment obligations, or the extent to which specific ESG issues are applicable to major subsectors of the securitised market, including CMBS and CRTs.

Exclusions policy

The Sub-Fund is subject to the Investment Manager’s exclusions policy, under which the Investment Manager employs restrictions to certain sectors such as controversial weapons, private prisons and cannabis. Further detail can be found in Appendix 4.

Engagement

The Investment Manager engages with companies as part of its fundamental research process and will continue to take an active stewardship role by engaging

with companies and actively voting in relation to shares held by the Sub-Fund once it has invested.

The Investment Manager uses engagement in two ways, referring to these as: insight and action.

- **Insight:** To obtain insights into the ESG credentials of companies as part of the Investment Manager's ongoing research and assessment process
- **Action:** The Investment Manager will actively encourage issuers to better address material ESG risks or take advantage of ESG opportunities.
- **Details of any other metrics a retail investor may find useful in understanding the investment policy and strategy for the product.**

The ACD and the Investment Manager consider that a retail client may find the following metrics reasonably useful in understanding the Investment Manager's investment policy and strategy (as that relates to the ESG elements of the Company's strategy):

- % of the Sub-Fund with an ESG score
- % of the Sub-Fund compliant with its defined exclusion criteria

Investor Profile	The Sub-Fund invests across a number of markets, regions and industry sectors with emphasis on building a diversified portfolio of bonds issues by governments or companies issued in, or hedged back to, Sterling. The Sub-Fund will therefore be suitable for investors looking to gain Sterling fixed income exposure and who are also willing to accept a moderate level of risk. The Sub-Fund is not suitable for investors who are looking for an investment solution that has a specified limit in capital loss or no capital loss. The Sub-Fund is aimed at investors who will be able to hold the Sub-Fund for at least 5 years.
Launch date:	28 May 2025
Type of Sub-Fund	UK UCITS Scheme: Product Reference Number 1033457
Investment Manager	AllianceBernstein Limited
Sub-Investment Manager	AllianceBernstein L.P.
Income Payments	Income will be calculated quarterly as at the last day of February, May, August and November and the appropriate allocation will be made within two months
Sub-Fund Specific Risks	Counterparty and Custody Risk, Country Risk, Credit and Fixed Interest Securities Risk, Currency Risk, Default Risk, Over the counter (OTC) Derivatives Risk, Derivatives Risk, Dilution Provisions Risk, Hedging Risk, Illiquid or Restricted Securities Risk, Inflation Risk, Investment in Collective Investment Schemes Risk, Investment in Contingent Convertible Bonds Risk, Interest Rate Risk, Liabilities of the Company Risk, Liquidity Risk, Management Risk, Overseas Investments Risk, Suspension of Dealings in Shares Risk, Market Risk, Volatility Risk, Operational Risk, Regulatory & Government Policy Risk Single Swinging Price Risk, Suspension and Termination Risk, Cancellation Rights Risk, Taxation Risks.
Applicable Exclusion Policy (see Appendix 4)	Umbrella Exclusions Policy

Sub-Fund Dealing Day	Any day that is a New York Stock Exchange holiday will not be a dealing day for the Sub-Fund.

AVAILABLE SHARE CLASSES	CLASS I SHARES	CLASS S SHARES	CLASS F SHARES	CLASS Z SHARES
Share Class Options	Income and Accumulation Shares			
Currency	GBP	GBP	GBP	GBP
Investor Type	All	All	All	Institutional
Investment Management Fee	0.50%	0.40%	0.30%	0.00%
Initial Charge	0.00%	0.00%	0.00%	0.00%
Redemption Charge	0.00%	0.00%	0.00%	0.00%
Switching Charge	0.00%	0.00%	0.00%	0.00%

INVESTMENT CRITERIA

	CLASS I SHARES	CLASS S SHARES	CLASS F SHARES	CLASS Z SHARES
	Class I shares will be available to all eligible investors who are able to meet the Investment Criteria.	Class S shares will be available to all eligible investors who are able to meet the Investment Criteria.	Class F shares will be available to all eligible investors who are able to meet the Investment Criteria.	Class Z shares are available to eligible Institutional investors who have entered into a formal Fees Agreement with the Investment Manager.
Minimum initial investment	£1,000	£50,000,000	£5,000,000	£20,000,000
Minimum Subsequent Investment	£500	£500	£500	£500
Minimum Redemption Amount	£500	£500	£500	£500
Minimum Holding Amount	£1,000	£50,000,000	£5,000,000	£20,000,000

Expenses are to be deducted from income.

For up to date historical performance, please refer to the current published KIID available on the ACDs website <https://www.tutman.co.uk/literature/>.

The Sub-Fund is not managed to target or exceed the performance of any specific benchmark, nor are the Investment Manager's investment decisions constrained by any benchmark. However, the ACD welcomes investors to compare the Sub-Fund's performance to the Bloomberg Global Aggregate GBP-Hedged Index, as the ACD believes this index / peer group is an appropriate representation of the exposure to global bonds hedged back to Sterling. Investors may also compare the Sub-Fund's performance against the IA Sector: Sterling Strategic Bond and the Investment Manager may also choose to show performance against this sector in marketing materials. The IA sectors enable investors to compare performance to other funds with relatively similar asset allocations. The IA Sector: Sterling Strategic Bond has been selected as a suitable comparative measure as it comprises other funds in the market whose investment strategies are based on similar allocations to fixed interest securities.

The ACD will include performance data for the Bloomberg Global Aggregate GBP-Hedged Index within the 'Past Performance' section of the Sub-Fund's Key Investor Information Document (KIID), which is available on the ACD's website – <https://www.tutman.co.uk/literature/>

APPENDIX 2 – INVESTMENT POWERS AND RESTRICTIONS

The Scheme Property will be invested with the aim of achieving the investment objectives of the Sub-Funds but subject to any limits set out in a Sub-Fund's investment policy and the investment and borrowing set out in Chapter 5 of COLL applicable to UCITS Schemes which are summarised in this Appendix.

The Scheme Property of a UCITS Scheme must be invested to provide a prudent spread of risk. There are also strict limits on both the spread and concentration of investments held by the Company as outlined below. These limits do not apply until 6 months after the date of the Company's authorisation order.

1. THE SCHEME PROPERTY

- 1.1. The Scheme Property of the Sub-Funds can only consist of:
 - 1.1.1. Transferable securities;
 - 1.1.2. Units in permitted collective investment schemes;
 - 1.1.3. Approved money market instruments;
 - 1.1.4. Deposits held with an approved bank, cash or near cash; and
 - 1.1.5. Approved derivatives, warrants and forwards (the underlying of which must be one of the UCITS eligible assets or financial indices, interest rates, foreign exchange rates or currencies).
- 1.2. The Scheme Property of the Company will not include an interest in any moveable or immoveable property.
- 1.3. The ACD intends that the Sub-Fund will normally be fully invested, but Scheme Property may be held in the form of cash or near cash when the ACD reasonably regards this as necessary in order to enable the redemption of units, efficient management of a Sub-Fund or for any one purpose which may reasonably be regarded as ancillary to the investment objectives of a Sub-Fund.
- 1.4. The Sub-Fund may invest in the Shares of another scheme or fund operated by the ACD in so far as permitted by COLL.
- 1.5. A Sub-Fund may invest in the Shares of another Sub-Fund of the Company in so far as permitted by COLL.
- 1.6. The requirements on spread of investments generally and in relation to investment in government and public securities do not apply until 6 months after the effective authorisation date of the Sub-Fund (or on which the initial offer commenced if later) provided that the requirement to maintain a prudent spread of risk is complied with.

2. TRANSFERABLE SECURITIES

- 2.1. Transferable Securities are:
 - 2.1.1. shares in companies and other securities equivalent to shares in companies;
 - 2.1.2. debentures;
 - 2.1.3. government and public securities;

- 2.1.4. warrants; and
 - 2.1.5. any other negotiable securities which carry the right to acquire any such transferable securities by subscription or exchange,
- 2.2. A Sub-Fund may only invest in transferable securities that fulfil the following criteria (and subject to the investment limits set out below):
- 2.2.1. the potential loss which the Sub-Fund may incur with respect to holding the transferable security is limited to the amount paid for it;
 - 2.2.2. its liquidity does not compromise the ability of the ACD to comply with its obligation to redeem Shares at the request of any qualifying Shareholder;
 - 2.2.3. reliable valuation is available for it as follows:
 - (a) in the case of a transferable security admitted to or dealt in on an eligible market, where there are accurate, reliable and regular prices which are either market prices or prices made available by valuation systems independent from issuers;
 - (b) in the case of a transferable security not admitted to or dealt in on an eligible market, where there is a valuation on a periodic basis which is derived from information from the issuer of the transferable security or from competent investment research;
 - 2.2.4. it is negotiable; and
 - 2.2.5. its risks are adequately captured by the risk management process of the ACD.

Transferable securities admitted to or dealt in on an eligible market will be deemed to meet the conditions in 2.2.2 and 2.2.4 unless the ACD has information that would lead to a different determination. The ACD will assess the liquidity risk that may result from investment in illiquid transferable securities in the light of its obligations to redeem Shares at the request of Shareholders.

Units in closed ended funds may be transferable securities provided that such funds meet the conditions set out in COLL, which in summary are:

- 2.2.6. the closed end fund is subject to corporate governance mechanisms applied to companies (if it is an investment company or unit trust) or equivalent to those applied to companies (in the case of closed end funds constituted by contract). Equivalent corporate governance mechanisms include investors rights to vote on key decisions such as removal of the asset manager, and amendments to the constitution or contract constituting the fund;
- 2.2.7. any asset manager of the closed end fund is appropriately regulated for the purpose of investor protection;
- 2.2.8. the assets of the closed end fund in contractual form should be separate and distinct from those of the asset manager with the fund subject to liquidation rules that adequately protect the investors.

An investment is not a transferable security if the title to it cannot be transferred, or can be transferred only with the consent of a third party (which does not include the issuing body corporate or any members or debenture holders of it).

Also an investment is not a transferable security unless the liability of the holder of it to contribute to the debts of the issuer is limited to any amount for the time being unpaid by the holder of it in respect of the investment.

Transferable securities held by a Sub-Fund must be approved securities, that is admitted to or dealt on an eligible market, and must remain so until disposed of by a Sub-Fund. Up to 10% in value of the Scheme Property may consist of transferable securities which are not approved securities. See Appendix 2 for details of the Eligible Markets of the Company.

If a market ceases to be an eligible market, investments on that market cease to be approved securities and must then be included in the calculation of the 10% restriction on investing in non-approved securities.

3. MONEY MARKET INSTRUMENTS

A Sub-Fund may invest in money market instruments provided that:

- 3.1.1. they are normally dealt in on an eligible money market;
- 3.1.2. they are liquid;
- 3.1.3. their value can be accurately determined at any time; and
- 3.1.4. the money market instrument has been issued by or guaranteed by a central, regional or local authority. The Bank of England, a central bank of an EEA State, the European Central Bank, the European Union or the European Investment Bank, a non-EEA State or, in the case of a federal state, by one of the members making up the federation, or by a public international body to which the UK or one or more EEA States belong; or issued or guaranteed by an establishment subject to prudential supervision in accordance with criteria defined by UK law or by an establishment which is subject to and complies with prudential rules considered by the FCA to be at least as stringent as those laid down by UK law; or issued by a body, any securities of which are dealt in on an eligible market.

Save that, a Sub-Fund may invest up to 10% of the Scheme Property in money market instruments which do not meet these criteria.

In addition to instruments admitted to or dealt in on an eligible market the Sub-Fund may with the express consent of the FCA invest in an approved money-market instrument meeting the following requirements:

- 3.1.5. the issue or the issuer is regulated for the purpose of protecting investors and savings; and
- 3.1.6. the instrument is issued or guaranteed by one of the bodies listed for the purpose in COLL.

For the condition in 3.1.5, the issue or the issuer of a money-market instrument, (other than one dealt in on an eligible market) shall be regarded as regulated for the purpose of protecting investors and savings if:

- 3.1.7. the instrument is an approved money-market instrument;
- 3.1.8. appropriate information is available for the instrument (including information which allows an appropriate assessment of the credit risks related to investment in it), in accordance with COLL; and
- 3.1.9. the instrument is freely transferable.

4. SPREAD: CORPORATES AND OTHER COLLECTIVE INVESTMENT SCHEMES

Generally, not more than 20% of the Scheme Property can be invested with a single body (for the limits on Government and Public Securities see Section 5 below). For these purposes companies in the same group will comprise a single body. The specific limits are:

- 4.1.1. A Sub-Fund can invest up to 5% of the Scheme Property in transferable securities, or money market instruments issued by any single body. This limit rises to 10% in respect of up to 40% of the Scheme Property. For these purposes certificates representing certain securities are treated as equivalent to the underlying security;
- 4.1.2. not more than 20% of the Scheme Property can be deposits held with a single body. This limit includes amounts held in cash (except cash representing distributable income or credited to a distribution account);
- 4.1.3. not more than 20% of the Scheme Property can consist of transferable securities and money market instruments issued by the same group. When applying the limits set out in (a) this provision would allow the Company to invest up to 5% in the transferable securities of each of four group member companies, or 10% in two of them (if applying the 40% limit);
- 4.1.4. the exposure of a Sub-Fund to OTC derivatives must not exceed 5% to any one counterparty, unless the counterparty is an EEA credit institution in which case the limit rises to 10%. Exposure can be reduced to the extent that approved collateral meeting the requirements in COLL is held by a Sub-Fund to offset that exposure. Positions held with the same counterparty can be netted in accordance with the Regulations;
- 4.1.5. A Sub-Fund's holdings in any combination of transferable securities, money market instruments, deposits or OTC derivatives issued by a single body must not exceed 20% of the Scheme Property overall (after accounting for approved collateral held by a Sub-Fund to offset the exposure to OTC derivatives);
- 4.1.6. up to 100% of the Scheme Property can be invested in other UCITS Schemes and up to 30% in schemes meeting the conditions as set out in COLL which broadly offer UCITS equivalent protection to investors. However, no more than 20% can be invested in any one scheme (and then only provided that the scheme limits investment in other schemes to 10% of its property). Where the second Scheme is an umbrella scheme, these limits apply to each Sub-Fund as if it were a separate scheme; and
- 4.1.7. where Scheme Property consists of warrants, the exposure created by the exercise of the right conferred by those warrants must not cause a Sub-Fund to exceed the limits set out above.

A Sub-Fund may invest in the units of other schemes operated by the ACD or for which the ACD acts as authorised corporate director, or the authorised fund manager subject to the requirements of COLL.

5. SPREAD: GOVERNMENT AND PUBLIC SECURITIES

This section applies in respect of a transferable security or an approved money-market instrument ("such securities") that is issued by:

- 5.1.1. an EEA State:
- 5.1.2. the UK
- 5.1.3. a local authority or an EEA State:
- 5.1.4. a non-EEA State: or
- 5.1.5. a public international body to which one or more EEA States belong.

Where no more than 35% of the Scheme Property is invested in such securities issued by any one body, there is no limit on the amount which may be invested in such securities or in any one issue.

Subject to its investment objective and policy, a Sub-Fund may invest more than 35% in value of the scheme property in such securities issued by any one body provided that, the ACD has before any such investment is made consulted with the Depositary and as a result considers that the issuer of such securities is one which is appropriate in accordance with the investment objectives of the Sub-Fund, and:

- 5.1.6. no more than 30% in value of the scheme property consists of such securities of any one issue; the scheme property includes such securities issued by that or another issuer, of at least six different issues; and
- 5.1.7. the disclosures required by the FCA have been made.

These rules apply to the Sub-Funds listed in Appendix 1 only where that Sub-Fund's investment objective and policy specifically states more than 35% of the scheme property of that Sub-Fund is or may be invested in certain securities (which are listed in the investment objective and policy).

In relation to such securities:

- 5.1.8. issue, issuer and guarantor include guarantee, guaranteed and guarantor: and
- 5.1.9. an issue differs from another if there is a difference as to repayment date, rate of interest, guarantor or other material terms of the issue.

6. DERIVATIVES

The Company's Instrument of Incorporation permits the use of derivatives for investment purposes and for the Efficient Portfolio Management of the Sub-Fund.

A Sub-Fund may make transactions in approved derivatives (which include futures, options, contracts for differences (CFDs) and forwards), but will only do so for the purpose of hedging the Sub-Fund's investments in order to manage the risk profile of the Scheme Property, reduce costs and generate additional capital or income. The transactions must be in line with the Sub-Fund's investment objectives and be sufficiently covered by the Scheme Property to the extent permitted by COLL.

Transactions in approved derivatives must be made on or under the rules of an eligible derivatives market. Eligible derivatives markets are regulated markets which the ACD, after consultation and notification with the Depositary, has decided are appropriate for the purpose of investment of or dealing in the Scheme Property with regard to the relevant criteria set out in COLL and the Guidance on eligible markets issued by FCA as amended from time to time.

The eligible derivatives markets for the Company are set out in Appendix 3.

The underlying of a transaction in a derivative must consist of any one or more of the permitted investments for a UCITS Scheme (see list in paragraph 1 of this Appendix 2) and;

- 6.1.1. financial indices;
- 6.1.2. interest rates;
- 6.1.3. foreign exchange rates; and
- 6.1.4. currencies.

Derivatives of financial indices will be permitted if they satisfy the following criteria:

- 6.1.5. the index is sufficiently diversified;
- 6.1.6. the index represents an adequate benchmark for the market to which it refers; and
- 6.1.7. the index is published in an appropriate manner.

The ACD will have regard to the FCA guidance in COLL in determining whether these criteria are met.

Exposure of the Scheme Property to the underlying asset of a derivative must not cause the Sub-Fund to exceed the limits for investment in such assets as set out in this Appendix and COLL.

The addition of new eligible derivatives markets for a Sub-Fund requires the approval by resolution of Shareholders unless the ACD and the Depositary have agreed in writing that the addition is of minimal significance to the investment strategy of the Sub-Fund concerned, or the ACD has, not less than 60 days before the change, given notice in writing as set out above in the case of additional eligible securities markets.

Each derivative transaction must be fully covered by Scheme Property sufficient in value or amount to match the exposure arising from a derivative obligation to which the Sub-Fund is committed. Exposure includes the principal or notional principal created by the transaction taking into account the value of the underlying assets, any reasonably foreseeable market movements, counterparty risk and the time available to liquidate any positions. A Sub-Fund may not enter into a derivative position which would result in the Sub-Fund's global exposure exceeding the net value of its Scheme Property.

Calculation of Global Exposure

The ACD will calculate the global exposure of a Sub-Fund on at least a daily basis taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

The ACD will use the commitment approach for calculation, being the approach deemed appropriate taking into account:

- 6.1.8. the investment strategy pursued by the Sub-Fund;
- 6.1.9. the types and complexities of the derivatives and forward transactions used; and
- 6.1.10. the proportion of the Scheme Property comprising derivatives and forward transactions.

Use of the commitment approach for the calculation of global exposure means that the ACD must:

- 6.1.11. ensure that it applies this approach to all derivative and forward transactions (including embedded derivatives whether used as part of the Sub-Fund's general investment policy, for the purposes of risk reduction or for the purposes of efficient portfolio management; and
- 6.1.12. convert each derivative or forward transaction into the market value of an equivalent position in the underlying asset of that derivative or forward (standard commitment approach).

The ACD may apply other calculation methods which are equivalent to the standard commitment approach.

The ACD may take account of netting and hedging arrangements when calculating global exposure of the Sub-Fund, where these arrangements do not disregard obvious and material risks and result in a clear reduction in risk exposure.

Where the use of derivatives or forward transactions does not generate incremental exposure for the Sub-Fund, the underlying exposure need not be included in the commitment calculation.

Generally scheme property is not available for cover if it is the subject of a stocklending transaction, and therefore will not be included in the calculation of global cover, unless the ACD has taken reasonable care to determine that such Scheme Property is redelivered in time to meet the obligation for which cover is required.

In the case of off exchange (OTC) derivatives, which may only be futures, options or CFDs, the transaction may only be entered into once the Depositary is satisfied that the counterparty will agree to provide reliable and verifiable valuations on at least a daily basis and otherwise meet the conditions set out in COLL.

Any OTC transactions must be with an approved counterparty (eligible institutions or approved banks or authorised principals). A derivative or forward transaction which would or could lead to delivery of scheme property to the Depositary in respect of a Sub-Fund may be entered into only if such scheme property can be held by the Sub-Fund concerned, and the ACD reasonably believes that the delivery of the property pursuant to the transaction will not lead to a breach of COLL.

7. EFFICIENT PORTFOLIO MANAGEMENT (EPM)

A Sub-Fund may invest in derivatives for the purposes of hedging which means that the transactions must satisfy the following broad requirements:

- 7.1.1. A transaction must be reasonably believed by the ACD to be economically appropriate to the efficient portfolio management of a Sub-Fund in that they are realised in a cost effective way. This means that for transactions undertaken to reduce risk or cost (or both), the transaction alone or in combination will diminish a risk or cost of a kind or level which it is sensible to reduce and, for a transaction undertaken to generate additional capital or income, the Sub-Fund is likely (barring events which are not reasonably foreseeable) to derive a benefit from the transaction.
- 7.1.2. EPM may not include speculative transactions.
- 7.1.3. The purpose of an EPM transaction for a Sub-Fund must be to achieve one of the following in respect of a Sub-Fund:
 - (a) Reduction of risk. This allows for the use of the technique of cross-currency hedging in order to switch all or part of the scheme property away from a currency the ACD considers unduly prone to risk, to another currency. This aim also permits the use of tactical asset allocation (please see (b));
 - (b) Reduction of cost. The aims of reduction of risk or cost, together or separately, allow the ACD on a temporary basis to use the technique of tactical asset allocation. Tactical asset allocation permits the ACD to undertake a switch in exposure by the use of derivatives rather than through sale and purchase of the scheme property; or
 - (c) The generation of additional capital or income for a Sub-Fund with a risk level which is consistent with the risk profile of the Sub-Fund concerned and the rules in COLL.

The generation of additional capital or income may arise out of taking advantage of price imperfections or from the receipt of a premium for writing of covered call or covered put options (even if the benefit is obtained at the expense of the chance of yet greater benefit) or pursuant to stocklending as permitted by COLL.

The relevant purpose must relate to Scheme Property (whether precisely identified or not) which is to be or is proposed to be acquired for a Sub-Fund; and anticipated cash receipts of the Sub-Fund, if due to be received at some time and likely to be received within one month.

The ACD has adopted a risk management process that takes account of the investment objectives and policies of the Sub-Funds which enables the ACD to monitor and measure as frequently as appropriate the risk of a Sub-Fund's positions and their contribution to the overall risk profile of the Sub-Fund.

The ACD will notify the requisite details of the risk management process to the FCA and will notify the FCA in advance of any material alteration to it.

8. CONCENTRATION

A Sub-Fund

- 8.1.1. must not acquire transferable securities other than debt securities which:
 - (a) do not carry a right to vote on any matter at a general meeting of the body corporate that issued them; and
 - (b) represent more than 10% of these securities issued by that body corporate;
- 8.1.2. must not acquire more than 10% of the debt securities issued by any single body;
- 8.1.3. must not acquire more than 25% of the units in a collective investment scheme (if a single fund scheme) or 25% of the units of a sub-fund of a collective investment scheme);
- 8.1.4. must not acquire more than 10% of the money market instruments issued by any single body; and
- 8.1.5. need not comply with the limits in paragraphs 8.1.2 to 8.1.3 if, at the time of the acquisition, the net amount in issue of the relevant investment cannot be calculated.

9. STOCK LENDING

- 9.1. A Sub-Fund may enter into a stock lending arrangement or repo in accordance with COLL if it reasonably appears to the ACD to be appropriate to do so with a view to generating additional income for the Sub-Fund with an acceptable degree of risk.
- 9.2. Briefly, such transactions are those where a Sub-Fund or the Depositary delivers securities which are the subject of the transaction in return for which it is agreed that securities of the same kind and amount should be redelivered to the Sub-Fund or the Depositary at a later date. The Sub-Fund or the Depositary at the time of delivery receives collateral to cover against the risk of the future redelivery not being completed. There is no limit on the value of the property of the Company which may be the subject of stocklending transactions.
- 9.3. Such transactions must always comply with the requirements of the Taxation of Chargeable Gains Act 1992. The transactions must also comply with the requirements of COLL and the Guidance on Stocklending issued by FCA as amended from time to time.
- 9.4. Underwriting and sub-underwriting contracts and placings may also, subject to certain conditions set out in COLL, be entered into for the account of the Company.

10. BORROWING

- 10.1. The ACD may, on the instructions of the Company and subject to COLL, borrow money from an Eligible Institution or an Approved Bank for the use of the Company on terms that the borrowing is to be repayable out of the Scheme Property.
- 10.2. Borrowing must be on a temporary basis, must not be persistent, and in any event must not exceed three months without the prior consent of the Depositary, which may be given only on such conditions as appear appropriate to the Depositary to ensure that the borrowing does not cease to be on a temporary basis.
- 10.3. The ACD must ensure that borrowing does not, on any Business Day, exceed 10% of the value of each Sub-Fund.
- 10.4. These borrowing restrictions do not apply to "back to back" borrowing for currency hedging purposes (i.e. borrowing permitted in order to reduce or eliminate risk arising by reason of fluctuations in exchange rates).

APPENDIX 3 – ELIGIBLE MARKETS

A market is eligible for the purposes of COLL if it is:

- (a) a regulated market as defined in the FCA Handbook; or
- (b) a market in the UK, which is regulated, operates regularly and is open to the public.
- (c) a market in an EEA State which is regulated, operates regularly and is open to the public.

A market not falling within (a) or (b) above is eligible for these purposes if:

- (vi) the ACD, after consultation with the Depositary, decides that market is appropriate for these purposes on the basis that it is regulated, operates regularly, is recognised, is open to the public, is adequately liquid and has adequate arrangements for unimpeded transmission of income and capital to or for the order of investors; and
- (vii) the Depositary has taken reasonable care to determine that:
 - (A) adequate custody arrangements can be provided for the investment dealt in on that market; and
 - (B) all reasonable steps have been taken by the ACD in deciding whether that market is eligible.

The additional eligible markets of the Company as agreed with the Depositary are as follows:

APPENDIX 4 – RESPONSIBLE INVESTING AND EXCLUSION POLICIES

Environmental, Social and Governance Integration Policy

Environmental, social and governance (“ESG”) considerations are integrated into the Investment Manager’s research and investment processes through the AB Stewardship Approach. The Investment Manager’s research analysts are experts in the specific industries and the companies and issuers they cover. Using their own proprietary research, third-party research and findings from other sources incorporated in the Investment Manager’s research collaboration platform, they analyse firms’ and issuers’ ESG practices to identify potentially material ESG factors that can vary company by company and issuer by issuer.

ESG considerations are incorporated into the Investment Manager’s research and investment process and are one of several considerations for making investment decisions. After consideration of all ESG factors including those that could negatively impact a security of issuers or companies, the Investment Manager may still purchase the security and/or retain it in the Portfolio. ESG considerations may not be applicable to all types of instruments or investments. Analysts also may monitor and engage with companies and issuers in which the Investment Manager invests or intends to invest.

Umbrella Exclusions Policies

- **Controversial Weapons Policy:** The Investment Manager arranges for the screening of companies globally for their corporate involvement in anti-personnel mines, cluster munitions and/or munitions made with depleted uranium. Where such corporate involvement has been verified, the Investment Manager’s policy is not to permit investment in securities issued by such companies by the Sub-Fund.
- **Private Prisons:** The Investment Manager excludes investment in companies involved in private prisons due to the belief that the sector contains too much investment, litigation, or other risk.
- **Cannabis:** The Investment Manager excludes investment in companies involved in cannabis due to the belief that the sector contains too much investment, litigation, or other risk.

Low Volatility Exclusions Policy

The Investment Manager arranges for the screening of companies globally for their corporate engagement in tobacco. Where such corporate involvement has been verified, the Investment Manager’s policy is not to permit investment in securities issued by such companies by the Sub-Fund.

Concentrated Exclusions Policy

The Investment Manager arranges for the screening of companies globally for their corporate engagement in tobacco, coal mining, fossil fuels, and gambling. Where such corporate involvement has been verified, the Investment Manager’s policy is not to permit investment in securities issued by such companies by the Sub-Fund.

Sustainable Exclusions Policy

The Investment Manager considers the following products as misaligned with the achievement of the UN Sustainable Development Goals: tobacco, coal, weapons, alcohol, pornography, gambling, and genetically modified organisms. The Investment Manager’s policy is not to permit investment by the Sub-Fund in securities issued by companies with direct involvement in such products.
