

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

SVS Baker Steel Electrum Fund Z Accumulation Shares AUD [ISIN: GB00BPJGV339]

The Fund is a sub-fund of SVS Baker Steel Global Investors OEIC.

The Authorised Corporate Director of the Fund is Tutman Fund Solutions Limited, part of the Thesis group.

Objectives and investment policy

The Fund aims to achieve capital growth in excess of the price return of MSCI ACWI Metals & Mining Index (the Target Benchmark) over a rolling 5 year period after the deduction of all fees.

There is no guarantee that this investment objective will be achieved over a rolling 5 year period, or any other time period and capital is at risk.

The Fund will invest at least 80% in shares of companies with a focus on speciality and precious metals equities. The Fund may also invest in companies whose business objective is the extraction, processing and marketing of primary resources.

The Fund may also invest up to 20% in:

- other shares
- cash, deposits and money market instruments
- bonds issued by governments and other organisations
- other investment funds
- currencies

The Fund may obtain indirect exposure to any permitted investment through the purchase of a Collective Investment Scheme, Exchange Traded Fund or an Exchange Traded Commodity. Investment via these vehicles will be limited to 10% of the Funds' total value and may include those operated and/or managed by the ACD or the Investment Manager.

The Investment Manager will include, as part of its overall investment process, Environmental, Social, and Governance ("ESG") factors when considering whether or not to invest in or sell particular shares. The Investment Manager may not invest in a company that falls within the parameters of the Fund's Exclusion Policy as stated in Appendix 8 of the Prospectus. Please refer to the prospectus for full details of the Investment Manager's approach to ESG integration and exclusions.

Any income the Fund generates will be re-invested.

You can buy and sell shares Monday to Fridays excluding UK public and bank holidays.

The Fund may use derivatives for efficient portfolio management (EPM), i.e to protect against market or currency movements, to reduce cost or to earn income or capital.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking the benchmark nor is the Fund constrained by the value, price or components of that benchmark or any other aspect. The benchmark is a target for the Fund, where the target return of the Fund aims to match or exceed the return of that benchmark.

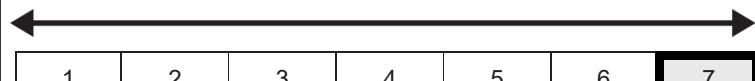

For full investment objectives, policy details and risk factors, please refer to the Prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- The Fund is in the highest category because the price of its investments have risen or fallen more significantly or with greater frequency than most other investments. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- Where the Fund invests in bonds, there is a risk the bond issuer may fail to meet its repayments. This is usually a greater risk for bonds that produce a higher level of income. Changes in interest rates, inflation and the creditworthiness of the bond issuer may also affect the bond's market value.
- Where the Fund invests into other investment funds, they may invest in different assets, countries or economic sectors and therefore have different risk profiles not in line with those of the Fund. Investment trusts and closed ended funds may borrow to purchase additional investments. This can increase returns when stock markets rise but will magnify losses when markets fall. The value of an investment trust or a closed-ended fund moves in line with stock market demand and its share price may be less than or more than the net value of the investments it holds.
- The Fund is entitled to use derivative instruments for EPM. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Fund. The organisation from which the Fund buys a derivative may fail to carry out its obligations, which could also cause losses to the Fund.
- The price of gold or other resources may be subject to sudden, unexpected and substantial fluctuations. This may lead to significant declines in the values of any companies developing these resources in which the fund invests and significantly impact investment performance.
- The Fund may hold a limited number of investments. If one of these investments falls in value this can have a greater impact on the Fund's value than if it held a larger number of investments.
- The Fund may invest in securities not denominated in sterling, the value of your investments may be affected by changes in currency exchange rates.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.35%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

Past performance

There is insufficient data to provide a useful indication of past performance to investors.

- The ongoing charges figure is estimated for year ending 31/12/2024 due to the share class having insufficient track record for the ongoing charges figure to be calculated exactly. The ongoing charges figure may vary from year to year and will exclude the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).

- A dilution adjustment may be applied to adjust the price of shares, as it may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market share price.

- The Fund's annual report for each financial year will include detail on the exact charges made.

- For further information about charges, please refer to relevant sections in the Fund's Prospectus.

Practical information

- The Depositary of the Fund is NatWest Trustee & Depositary Services Limited.
- You can get further information on the Fund, including how to buy and sell shares, from the Prospectus and the latest annual and half-yearly reports and accounts, which are in English only. You can get copies of these free of charge, by telephoning 0141 483 9701.
- The latest share prices are available on www.trustnet.com or by telephoning 0141 483 9701.
- UK tax laws may impact your own tax position.
- Tutman Fund Solutions Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the UK UCITS.
- The Fund is a Sub-fund of a UK UCITS umbrella company. The Prospectus and long report are prepared for the entire entity. The liabilities of each Sub-fund are segregated by UK law and the Fund should not be liable for any debts that cannot be paid by another sub-fund.
- There are other share classes available in this Fund. You can convert between share classes by writing to Transfer Agency, 177 Bothwell Street, Glasgow, G2 7ER.
- Details of the Thesis Group remuneration policy are available on <https://www.tutman.co.uk/remuneration-policy/> and a copy will be made available free of charge on request.
