The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

SVS Baker Steel Gold & Precious Metals Fund B Accumulation Shares GBP [ISIN: GB00BNGMZG14]

The Authorised Corporate Director of the Fund is Tutman Fund Solutions Limited, part of the Thesis group.

Objectives and investment policy

The Fund aims to achieve capital growth in excess of the price return of MSCI ACWI Select Gold Miners IMI Index (the Target Benchmark) over a rolling 5 year period after the deduction of all fees.

There is no guarantee that this investment objective will be achieved over a rolling 5 year period, or any other time period and capital is at risk.

The Fund will invest at least 70% in shares of companies that have direct underlying Gold and/or precious metals exposure. The Fund may also invest through companies worldwide whose core business is involved in the mining, refining, production and marketing of Gold and/or precious metals.

The Fund may also invest up to 30% in other transferable securities, approved money market instruments, government and public securities, deposits, cash and near cash.

The Fund may also invest any permitted investment indirectly through exchange-traded funds, exchange traded commodities and collective investment schemes, limited to 10% of the Funds' total value and may include those operated and/or managed by the ACD or the Investment Manager.

As part of its investment process, the Investment Manager integrates environmental, social and governance ("ESG") factors when considering whether or not to invest in or sell particular shares. The Investment Manager may not invest in a company that falls within the parameters of the Company's Exclusion Policy as stated in Appendix 3 in the Prospectus. Please refer to the prospectus for full details of the Investment Manager's approach to ESG integration and exclusions.

Any income the Fund generates will be re-invested.

You can buy and sell shares Monday to Fridays excluding UK public and bank holidays.

The Fund may use derivatives for efficient portfolio management (EPM), i.e to protect against market or currency movements, to reduce cost or to earn income or capital.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking a benchmark nor is the Fund constrained by the value, price or components of a benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

For full investment objectives and policies details please refer to the Prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The Fund is in the highest category because the price of its investments have risen or fallen more significantly or with greater frequency than most other investments. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- Where investments are made in smaller company shares, these may be riskier as they can be more difficult to buy and sell. Their share prices may also move up and down more than larger companies.
- Investments in emerging markets may involve greater risks due to political and economic instability and underdeveloped markets and systems. This means your money may be at greater risk of loss.
- The Fund is entitled to use derivative instruments for EPM. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Fund. The organisation from which the Fund buys a derivative may fail to carry out its obligations, which could also cause losses to the Fund.
- The price of gold or other resources may be subject to sudden, unexpected and substantial fluctuations. This may lead to significant declines in the values of any companies developing these resources in which the fund invests and significantly impact investment performance.
- The Fund may hold a limited number of investments. If one of these investments falls in value this can have a greater impact on the Fund's value than if it held a larger number of investments. The Fund may invest in securities not denominated in sterling, the value of your investments may be affected by changes in currency exchange rates.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	1.26%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure may vary from year to year and will exclude the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- A dilution adjustment may be applied to adjust the price of shares, as it may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market share price.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- The ongoing charges figure is for the year ending 31/08/2025.
- For further information about charges, please refer to relevant sections in the Fund's Prospectus.
