Assessment of Value

The FCA's Assessment of Value requirements have been in place since 2019, with Authorised Fund Managers (AFMs) such as Tutman Fund Solutions Ltd (TFSL) being required to perform an annual Assessment of Value (AOV) at share class level within the fund and to report its findings to investors. The assessment is based upon the seven criteria set out in the rules for each of the funds that the AFM controls.

The TFSL Board should ensure that the AFM carries out the assessment required by the FCA, and acts in the best interests of the investors. This report is the result of a rigorous review process by TFSL's AOV Committee which reviews the completed assessment and the data used to support all conclusions. TFSL uses third-party systems to ensure that comparative data is relevant and up to date.

Overall Assessment of Value

- The Board concluded that The Millennium Fund had provided some value to investors. Noting the Fund's relatively high cost compared to its peer group, there was no further action as TFSL are aware that the size of the fund is impacting the OCF.
