

Non-UCITS retail scheme Key Investor Information

tutman.

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

TM Cresswell Fund Class A GBP

This Fund is managed by Thesis Unit Trust Management Limited ISIN (Accumulation): GB00BMVFYN82 ISIN (Income): GB00BMVFXZ30

Objectives and Investment Policy

The Company aims to achieve capital growth of the UK Consumer Price Index plus 4%, after all fees and expenses, over a thirty-six month rolling period. There is no guarantee that the positive return will be achieved over this specific period, or any other period and capital is at risk. Prevailing this objective is a desire to preserve capital and maintain reasonable liquidity.

The Company aims to achieve the investment objective through investment in a diversified international portfolio. The Company aims to achieve the investment objective through direct and indirect investment (through collective investment schemes) in equities, bonds, cash and alternative investments including for example, infrastructure, gold and hedges funds. The Company will normally allocate 60% to equities, 20% to bonds, 15% to alternative investments and 5% to cash. At times, up to 100% may be invested in collective investment schemes (including schemes managed and operated by the ACD or its associates). Investment in gold and commodities may be made through collective investment schemes.

The performance of the Company will be measured against the UK Consumer Price Index plus 4% for target purposes only. This index was chosen as a target for the Company's return because the Company aims to grow investments above the rate of UK inflation.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares, and reinvested in the case of accumulation shares. Investors can buy and sell shares on demand when the scheme prices daily at 12 midday.

Risk and Reward Profile

The risk rating of the Fund is category 5 due to the volatility of simulated data which sits in a range of between 10% and 15%. The risk rating is calculated using historical data and a prescribed standard deviation methodology. The simulated data used is consistent with risk limits of the Fund.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	7.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.77%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges. The NURS annual report for each financial year will include detail on the exact charges made. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed 'Charges and Expenses' of the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk
