

# Non-UCITS retail scheme Key Investor Information

tutman.

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## TM First Arrow Diversified Fund

A sub Fund of the TM First Arrow Investment Funds

This Fund is managed by Thesis Unit Trust Management Limited ISIN (Accumulation): GB00B4PTMP82 ISIN (Income): GB00B4JQ4C62

### Objectives and Investment Policy

The investment objective of the Fund is to achieve long-term capital appreciation.

The Fund primarily invests in regulated and unregulated collective investment schemes and transferable securities in closed ended investment companies (together Investment Funds) in order to seek exposure to a diversified portfolio of asset classes, which collectively have relatively low exposure to equity market risk and volatility. The Investment Funds are managed by third party investment managers selected by the Investment Manager operating across developed and developing markets. The Investment Funds selected by the Investment Manager aim to include, but shall not be limited to, eligible fixed income funds, credit funds, absolute return funds, equity funds (both 'long-only' and hedged), private equity funds (including debt, buyout and venture) and real assets (including real estate, energy, infrastructure and commodity funds). In addition, the Fund may invest in transferable securities (including listed equities, bonds and, subject to the limits in the COLL Sourcebook, unlisted equities) offering exposure to a similar range of asset classes.

The Fund may also invest in money market instruments, cash and near cash, deposits, derivatives and forward transactions, which in the Investment Manager's opinion will either further the Fund's investment objective or with the aim of spreading investment risk and giving the holders of the units the benefit of the results of the management of the scheme property.

The Fund uses the Morgan Stanley Capital International (MSCI) World All Country (GBP) Index for performance comparison purposes only and the benchmark is not a target benchmark and the Fund is not constrained by it.

The index has been selected as a benchmark for performance because the constituents are representative of the areas in which the Fund itself is likely to invest, and it is therefore an appropriate comparator for the Fund's performance.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares, and reinvested in the case of accumulation shares. Investors can buy and sell shares on demand when the scheme prices on the last Business Day of each month at 10.30pm.

### Risk and Reward Profile

The risk rating of the Fund is category 5 due to the volatility of the Fund price which sits in a range of between 10% and 15%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.
- Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.
- More political, economic or structural challenges face emerging markets or less developed countries than developed countries which may increase volatility and uncertainty.
- Where derivative or structured product investments in the Fund may include a counterparty, there is a risk that the counterparty will not fulfil their obligation.
- This Fund is allowed to use derivatives to achieve its objective. Derivatives can cause a Fund to become leveraged. Leverage occurs when exposure to an area invested in is greater than its amount invested, resulting in the Fund being exposed to a potentially greater loss than the initial investment.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

## Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	7.00%
Exit Charge	3.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	0.87%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 31st December 2021. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed "Charges and Expenses" of the Fund's Prospectus, which is available on request via email to [thesisut@tutman.co.uk](mailto:thesisut@tutman.co.uk)
