The Trust has been established as a Non-UCITS retail scheme. It is not intended that the Trust will be marketed outside the UK. This Prospectus is intended for distribution in the United Kingdom. The distribution of this Prospectus and the offering of Units in the Trust may be restricted in other jurisdictions. Potential Unitholders must inform themselves of the legal requirements and restrictions of their own jurisdiction and act accordingly. This Prospectus does not amount to a solicitation or offer by any person in any jurisdiction in which such solicitation or offer would be unauthorised or unlawful.

In particular, the Units have not been and will not be registered under the 1933 Act, as amended, or any applicable securities laws of any state of the United States of America. They may not be offered or sold directly or indirectly in the United States of America, its territories and possessions, any state of the United States or the District of Columbia, or to US Persons. Any re-offer or resale of any of the Units in the United States or to US Persons may constitute a violation of United States law. The Trust has not been and will not be registered under the United States Investment Company Act of 1940, as amended. The Manager has not been and will not be registered under the United States Investment Advisers Act of 1940, as amended.

The Manager, Thesis Unit Trust Management Limited, is responsible for the information contained in this Prospectus. To the best of the Manager's knowledge and belief (having taken all reasonable care to ensure that such is the case), the information contained in this Prospectus does not contain any untrue or misleading statement or omit any matters required by COLL and FUND to be included in it. The Manager accepts responsibility accordingly.

The Trustee is not responsible for the information contained in this Prospectus and accordingly does not accept any responsibility under the FCA Rules or otherwise.

Copies of this document have been sent to the Financial Conduct Authority and to the Depositary in accordance with the COLL Sourcebook.

The Prospectus is based on information, law and practice at the date hereof. The Trust is not bound by any out-of-date Prospectus when it has issued a new Prospectus and potential investors should check that they have the most recently published Prospectus. Purchases must be made on the basis of the information contained in the most recently published Prospectus and supplementary documentation, including the latest reports when issued, which are available from the registered office of the Manager. Investors should check with the Manager that this is the most recently published version of the Prospectus.

Potential Unitholders should not treat the contents of this Prospectus as advice relating to legal, taxation, investment or any other matters and are recommended to consult their own professional advisers concerning the acquisition, holding or disposal of Units.

**IMPORTANT: If you are in any doubt about the contents of this Prospectus you should consult your professional adviser.**

### **Data Protection**

The personal details of each applicant for Units and each Unitholder will be held by the Manager and/or the Administrator as its agent in accordance with Data Protection Laws for the purposes of carrying out the Manager's agreement with each Unitholder. This may include the transfer of such data to other members of the Manager's group and to other businesses providing services to the Manager (including their offices outside the UK), where the transfer is necessary for the provision of services in relation to the Manager's role as operator of the Trust. The data protection laws and other laws of these countries may not be as comprehensive as those that apply within the UK. In these instances the

Manager will take steps to ensure that your privacy rights are respected. Unitholders have the right to access their personal data processed by the Manager together with (in certain circumstances) the right to object to the processing of such data for legitimate reasons. A copy of the Manager's Privacy Notice relating to investors is available at [www.tutman.co.uk](http://www.tutman.co.uk) or on request from [compliance@tutman.co.uk](mailto:compliance@tutman.co.uk).

### **Electronic Verification**

The Money Laundering, Terrorist Financing and Transfer of Funds (Information on the Payer) Regulations 2017, The Proceeds of Crime Act 2002, the Senior Management Arrangements, Systems & Controls Source book and Joint Money Laundering Steering Group guidance notes (which are updated from time to time) state that the Manager must check your identity and the source of the money invested. The Manager may also request verification documents from parties associated with you. In some cases, documentation may be required for officers performing duties on behalf of bodies corporate. The checks may include an electronic search of information held about you (or your associated party) on the electoral roll and using credit reference agencies. The credit reference agency may check the details you (or your associated party) supply against any particulars on any database (public or otherwise) to which they have access and may retain a record of that information although this is only to verify identity and will not affect your (or your associated party's) credit rating. They may also use your (or your associated party's) details in the future to assist other companies for verification purposes. If you apply for Units you are giving the Manager permission to ask for this information in line with Data Protection Laws. If you invest through a financial adviser they must fill an identity verification certificate on your behalf and send it to the Manager with your application.

### **1. DEFINITIONS**

"ACD"	Thesis Unit Trust Management Limited, authorised corporate director of the Company of which the PAIF Fund is a sub-fund.
"Act"	the Financial Services and Markets Act 2000 as amended or replaced from time to time.
"Administrator"	Northern Trust Global Services SE, UK branch, or such other entity as is appointed to act as administrator to the Company from time to time.

"Auditor"	Johnston Carmichael LLP, or such other entity as is appointed to act as auditor to the Trust from time to time.
"Base Currency"	unless otherwise specified in the case of a Fund, pounds sterling.
"Business Day"	a weekday being Monday to Friday (excluding any public or bank holiday in England).
"CASS"	the requirements relating to holding client assets and client money published by the FCA as part of the FCA Handbook, as amended or replaced from time to time.
"Class" or "Classes"	in relation to Units, (according to the context) all of the Units related to the Trust or a particular class or classes of Units related to the Trust and in relation to the Shares means (according to the context) all of the Shares of the PAIF

	Fund or a particular class or classes of Shares of the PAIF Fund.
"Class Currency"	the currency in which the Units of a Class are designated.
"COLL"	the Collective Investment Schemes Sourcebook issued by the FCA as amended or re-enacted from time to time.
" COLL Sourcebook"	the Collective Investment Schemes Sourcebook issued by the FCA (and forming part of the FCA Handbook) as amended from time to time.
"Company"	TM Gravis Real Assets ICVC.
"Conversion"	the conversion of Units in one class to Units of another Class and "Convert" shall be construed accordingly.
"Custodian"	the person who provides custodian services to the Company, being The Northern Trust Company or its successor or successors as custodian.
"Data Protection Laws"	<p>all applicable laws relating to the processing, privacy and/or use of personal data including the following laws to the extent applicable in the circumstances:</p> <ul style="list-style-type: none"> <li>a) the UK GDPR;</li> <li>b) the Data Protection Act 2018;</li> <li>c) any laws which implement any such laws;</li> <li>d) any laws which replace, extend, re-enact, consolidate or amend any of the foregoing (whether or not before or after the date of this Prospectus); and</li> <li>e) all final and binding guidance, guidelines and codes of practice issued by any relevant supervisory authority relating to such Data Protection Laws.</li> </ul>
"Dealing Day"	Monday to Friday inclusive when these are Business Days and other days as the Manager may decide from time to time and agree with the Trustee.
"Depositary"	Northern Trust Investor Services Limited, or such other entity as is appointed to act as depositary.
"EEA"	the European Economic Area.
"EEA State"	a member state of the European Union and any other state which is within the European Economic Area.
"Efficient Portfolio Management"	an investment technique where derivatives are used for one or more of the following purposes:

	<p>i) reduction of risk;</p> <p>ii) reduction of costs;</p> <p>generation of additional capital or income for the PAIF Fund with a risk level which is consistent with the risk profile of the PAIF Fund and the risk diversification rules laid down in COLL.</p>
"Eligible Institution"	as defined in the FCA Glossary.
"Exchange"	the exchange of Units for shares in the Company and vice versa, with the agreement of the Manager and ACD of the Company, as appropriate, by way of a redemption and issue of Units and Shares as appropriate.
"FATCA"	the part of the US Hiring Incentives to Restore Employment (HIRE) Act of March 2010 known as the 'Foreign Account Tax Compliance Act'. The act that requires financial institutions to report information on their US Shareholders in order to combat US tax evasion.
" FCA"	the Financial Conduct Authority or any successor body.
"FCA Glossary"	the glossary giving the meanings of the defined expressions used in the FCA Handbook as amended from time to time.
" FCA Handbook"	the FCA Handbook of Rules and Guidance, including COLL, as amended, updated or replaced from time to time.
"FCA Rules"	the rules contained in COLL but, for the avoidance of doubt, not including guidance or evidential requirements contained in COLL.
"Financial Instrument"	as defined in the FCA Glossary.
" Financial Services Register"	the public record, as required by section 347 of the Financial Services and Markets Act 2000 and as defined in the glossary of definitions to the FCA Handbook.
"FUND"	the investment funds sourcebook which forms part of the FCA Handbook.
"Fund Accountant"	Northern Trust Global Services SE, UK branch and its successor or successors as fund accountant;.
"Hedged Classes"	a Class in respect of which the Manager employs techniques and instruments with a view to hedging against fluctuations between the Class Currency of the relevant Class and the Base Currency.

"Home State"	as defined in the FCA Glossary.
"International Tax Compliance Regulations"	the International Tax Compliance Regulations 2015 (SI 2015/878), as amended or re-enacted from time to time.
"Investment Manager"	Gravis Advisory Ltd or such other entity (if any) as is appointed to provide investment management services to the Manager (and Trust) from time to time.
"Manager"	Thesis Unit Trust Management Limited or such other entity as is appointed to act as the investment manager of the Trust from time to time.
"Net Asset Value" or "NAV"	the value of the Scheme Property less the liabilities of the Trust as calculated in accordance with the Trust Deed.
"Non-UCITS retail scheme"	an authorised fund which is not a UK UCITS, a qualified investor scheme or a long-term asset fund.
"OECD"	the Organisation for Economic Co-operation and Development.
"OEIC Regulations"	the Open-Ended Investment Companies Regulations 2001 (SI 2001/1228)
"PAIF"	an open-ended investment company which is a Property Authorised Investment Fund, as defined in Part 4A of the Tax Regulations and the Glossary to the FCA Handbook.
"PAIF Fund"	TM Gravis UK Listed Property (PAIF) Fund, currently the only sub-fund of the Company, which, at the date of this Prospectus qualifies as a PAIF.
"PRN"	the product reference number assigned by the FCA to identify the authorised Trust or PAIF Fund.
"Register"	the register of Unitholders of the Trust.
"Registrar"	the person who maintains the Register, being Northern Trust Global Services SE, UK branch and its successor or successors as registrar.
"Regulations"	the FCA Handbook (including COLL and FUND), as amended.
"Scheme Property"	the property of the Trust to be given to the Trustee for safekeeping as required by the FCA Rules.
"SDRT"	stamp duty reserve tax.
"Share" or "Shares"	a share or shares in the PAIF Fund (including larger denomination shares, and smaller denomination shares equivalent to one thousandth of a larger denomination share).

<b>"Trust"</b>	TM Gravis UK Listed Property (Feeder) Fund.
<b>"Trust Deed"</b>	the trust deed constituting the Trust, as may be amended, varied or supplemented from time to time.
<b>"Trustee"</b>	Northern Trust Investor Services Limited or such other entity as is appointed to act as trustee from time to time.
"UK" or "United Kingdom"	the United Kingdom of Great Britain and Northern Ireland.
"UK GDPR"	Regulation (EU) 2016/679 as it forms part of the law of England and Wales, Scotland and Northern Ireland by virtue of section 3 of the European Union (Withdrawal) Act 2018 and as modified by the Data Protection, Privacy and Electronic Communications (Amendments etc) (EU Exit) Regulations 2019.
<b>"Unit" or "Units"</b>	a unit or units in the Trust (including fractions of units).
"United States" or "US"	the United States of America, its territories and possessions, any state of the United States, and the District of Columbia.
<b>"Unitholder"</b>	a holder of registered Units in the Trust.
"US Person(s)"	<p>a person who is in either of the following two categories:</p> <p>(i) a person included in the definition of "U.S. person" under Rule 902 of Regulation S under the 1933 Act; or</p> <p>(ii) a person excluded from the definition of a "Non-United States person" as used in the Commodity Futures Trading Commission ("CFTC") Rule 4.7.</p> <p>For the avoidance of doubt, a person is excluded from this definition of "US Person" only if they are outside the definition of "U.S. person" in Rule 902 and inside the definition of "Non-United States person" under CFTC Rule 4.7;</p>
<b>"Valuation Point"</b>	the point on a Dealing Day whether on a periodic basis or for a particular valuation, at which the Manager carries out a valuation of the Scheme Property for the purpose of determining the price at which Units of a Class may be issued, cancelled, sold, redeemed or exchanged. The current Valuation Point is 12 noon London time on each Dealing Day.
<b>"VAT"</b>	value added tax.
"1933 Act"	The United States Securities Act of 1933 (as may be amended or re-enacted).

Headings used in this Prospectus are for convenience only and shall not affect their meaning or legal effect.

References in the main body of this Prospectus to paragraphs mean paragraphs in the main body of this Prospectus unless otherwise stated. Similarly, references in an Appendix to paragraphs mean paragraphs in the relevant Appendix unless otherwise stated.

References to the plural shall include the singular and vice versa.

Unless otherwise defined in the "Definitions" above or elsewhere in this Prospectus, words or expressions defined in or for the purposes of the OEIC Regulations, the Act or the FCA Handbook shall bear the same meanings in this Prospectus.

References to statutes, statutory provisions or regulations (including any provision of the FCA Handbook) shall include those statutes, provisions, regulations, or provision of the FCA Handbook as amended, extended, consolidated, substituted or re-enacted from time to time and, in particular, references to Regulations and/or Directives of the European Union shall, where appropriate, include all domestic law and regulation enacted (or re-enacted) for the purpose of bringing such European Union law and regulation into domestic law and regulation.

## **2. DETAILS OF THE TRUST**

### **2.1. General information**

#### **2.1.1. General**

The Trust is a standalone authorised unit trust authorised by the FCA (PRN:913629) pursuant to an authorisation order dated 17 September 2019 and established by a trust deed.

The Trust has an unlimited duration.

The Trust has been established as a Non-UCITS retail scheme and is a standalone fund. The Trust will be managed so that it is a feeder fund for the PAIF Fund. The PAIF Fund is an open-ended investment company constituted as a Non-UCITS retail scheme and, as at the date of this Prospectus, qualifying as a PAIF.

The Trust is intended to enable companies and other investors who are not eligible or able to invest directly into the PAIF Fund to do so indirectly.

Unitholders are not liable for the debts of the Trust.

A Unitholder is not liable to make any further payment to the Trust after they have paid the price on purchase of the Units.

The AIFM of the Trust is Thesis Unit Trust Management Limited. The Manager is also the manager of certain authorised unit trusts and open-ended investment companies details of which are set out in Appendix IV.

Details of a typical investor in the Trust and historical performance data is set out in Appendix I.

#### **2.1.2. Head Office**

The registered and head office of the Manager is at Exchange Building, St John's Street, Chichester, West Sussex PO19 1UP and is also the address of the place in the UK for service on the Trust of notices or other documents required or authorised to be served on it.

#### **2.1.3. Base Currency**

The Base Currency of the Trust is Pounds Sterling.

#### **2.1.4. Longer-term investment**

The Trust is designed and managed to support longer-term investment and active trading is discouraged. Short-term or excessive trading into and out of the Trust may harm performance by disrupting the investment management strategy and by increasing expenses. The Manager may at its discretion refuse to accept applications for, or switching or conversion of, Units, especially where transactions are deemed disruptive, particularly from possible market timers or investors who, in its opinion, have a pattern of short-term or excessive trading or whose trading has been or may be disruptive to the Trust. For these purposes, the Manager may consider an investor's trading history in the Units or other funds managed by the Manager or the Investment Manager and accounts under common ownership or control.

### **2.2. The structure of the Trust**

#### **2.2.1. General**

The Trust is structured as a standalone unit trust.

The Trust is a Non-UCITS retail scheme and will be managed so that it is a feeder fund under COLL. It is intended that the Trust invest into the PAIF Fund.

The eligible securities markets and eligible derivatives markets on which the Trust may invest are set out in Appendix II. A detailed statement of the general investment and borrowing restrictions in respect of the Trust is set out in Appendix III.

#### **2.2.2. Units**

The rights represented by Units are those of a beneficial interest under a trust.

Units of different Classes may from time to time be issued in the Trust. The differences between Classes may be the minimum subscription, the minimum holding, the charges to be borne and/or the Class Currency, as detailed in Appendix I. In most cases either income Units or accumulation Units are offered. The Classes currently available are set out in Appendix I.

Further Classes of Unit may be established from time to time by the Manager with the approval of the FCA, the agreement of the Trustee and in accordance with the Trust Deed and the Regulations. On the introduction of any new Class a revised prospectus will be prepared, setting out the details of each Class.

The currency in which each new Class of Units will be denominated will be determined at the date of creation and set out in the Prospectus issued in

respect of the new Class of Units.

Units have no par value and, within each Class, are entitled to participate equally in the profits arising in respect of, and in the proceeds of, the liquidation of the Trust. Units do not carry preferential or pre-emptive rights to acquire further Units.

Where different Classes are in issue, each Class may attract different charges and so monies may be deducted from the Scheme Property attributable to such Classes in unequal proportions. In these circumstances, the proportionate interests of the Classes will be adjusted accordingly. Also, each Class may have its own investment minima or other features, such as restricted access, at the discretion of the Manager.

Unitholders are entitled (subject to certain restrictions) to convert all or part of their Units in a Class for Units of another Class Details of this Conversion facility and the restrictions are set out in paragraph 3.4 "Conversion".

#### Registered Units

All Units are in registered form. Certificates will not be issued in respect of Units. Ownership of Units will be evidenced by an entry in the Trust's register of Unitholders.

At least twice per year the Manager will send a statement to each person who holds units or has held units since the previous statement. Where units are jointly held, statements are sent to the first named Unitholder. The statement will describe the current holding(s) of Units at the date of the statement. Individual statements will also be issued at any time on request by the registered Unitholder.

#### Larger and smaller denomination Units

Units will be issued in larger and smaller denominations. There are 1,000 smaller denomination Units to each larger denomination Unit. Smaller denomination Units represent what, in other terms, might be called fractions of a larger Unit and have proportionate rights.

#### Class of Units

The Trust Deed provides for income and accumulation Units which can be further classified in accordance with the Trust Deed.

#### Hedged Class

Where available (in relation to which, see Appendix I), Hedged Classes allow the Manager to use currency hedging transactions to reduce the effect of exchange rate fluctuations between the Class Currency of the Hedged Class and the Base Currency of the. It is intended to hedge between 98%-102% against currency fluctuations. A 100% hedge may not be a perfect hedge and there can be no assurance that the currency hedging employed will fully eliminate the currency exposure to the Class Currency.

#### Income and accumulation Units

The Trust may issue income and accumulation Units in respect of each Class. Further details of the Units presently available including details of their criteria for subscription and fee structure, are set out in Appendix I.

Holders of income Units are entitled to be paid the distributable income attributed to such Units on any relevant interim and annual allocation dates applying to the relevant Fund.

Holders of accumulation Units are not entitled to be paid the income attributable to such Units, but that income is automatically transferred to (and retained as part of) the capital assets at the end of the relevant distribution period and is reflected in the price of an accumulation Unit.

Where the Trust has different Classes, each Class may attract different charges and so monies may be deducted from the Scheme Property attributable to such Classes in unequal proportions. In these circumstances, the proportionate interests of the Classes will be adjusted accordingly.

### **2.2.3. Currency management transactions and Unit Class hedging**

A Class of Units may be designated in a currency other than the Base Currency as detailed in the relevant section of Appendix I of this Prospectus. The Manager may try to mitigate this risk by using Financial Instruments, such as foreign exchange spot and forward contracts, as a hedge. If the Manager enters into such transactions then they will each be solely attributable to the relevant Class of Units and the gains/losses on and the costs of the relevant Financial Instruments will accrue solely to the relevant Class of Units. In such circumstances, Unitholders of that Class may be exposed to fluctuations in the Net Asset Value per Unit reflecting the gains/losses on and the costs of the relevant Financial Instruments and this strategy may limit holders of the relevant Class from benefiting if the Class currency falls against the Base Currency and/or the currency in which the assets of the scheme are denominated. Where the Manager seeks to hedge against currency fluctuations, while not intended, this could result in over-hedged or under-hedged positions due to external factors outside the control of the Company. As noted above, it is intended to hedge between 98%-102% against currency fluctuations. However over-hedged positions will not exceed 105% of the Net Asset Value and hedged positions will be kept under review to ensure that positions in excess of 100% of Net Asset Value will not be carried forward from month to month. To the extent that hedging is successful for a particular Class the performance of the Class is likely to move in line with the performance of the underlying assets with the result that investors in that Class may not gain if the Class currency falls against the Base Currency and/or the currency in which the assets are denominated. Where the Manager intends to enter into such hedging transactions it will be disclosed in the relevant section of Appendix I.

It should be noted that the total return will be hedged with all costs and expenses incurred from the currency hedge transactions being borne on a pro rata basis by all Hedged Classes denominated in the same currency.

The Manager will review the hedging position each Dealing Day and adjust the hedge where relevant if there is a material change to the dealing volume.

Investors should refer to paragraph 5.7 and paragraph 5.8 for a description of the risks associated with currency transactions.

## **3. BUYING, REDEEMING AND CONVERTING AND SWITCHING UNITS**

The dealing office of the Manager is normally open from 9.00 a.m. to 5.00 p.m. (London time) on each Business Day to receive requests for the purchase, sale and conversion and switching of Units. The Manager may vary these times at its discretion.

Units may be purchased by sending a completed application form or clear written instructions to the Administrator by post to its address or by obtaining an application form by telephoning the Manager's customer enquiry line on 0333 300 0375. The Manager has the right to establish facilities for recording telephone calls made or received on these telephone lines.

Requests to redeem Units may be made to the Manager by telephone on the number stated above, or by sending clear written instructions by post to the Administrator.

In addition, the Manager may from time to time make arrangements to allow Units to be bought or sold on-line or through other communication media (electronic or otherwise).

The Manager may also, at its discretion, introduce further methods of dealing in Units in the future.

Investors buy and redeem Units through the Manager who nets them to reduce the number of Units issued/cancelled by the Trust. When carrying out deals in Units, the Manager acts as principal but does not profit from this activity.

### **3.1. Client Money Rules**

The FCA Handbook contains provisions (known as the "Client Money Rules") designed to safeguard client money in the hands of authorised persons. However, the CASS rules also provide that money need not be treated as client money in respect of a delivery versus payment transaction, for the purpose of settling a transaction in relation to units in a regulated collective investment scheme such as the Trust, provided that:

- (i) the Manager receives the money from a client in relation to the Manager's obligation to issue Units in the Trust in accordance with COLL; or
- (ii) The money is held in the course of redeeming Units, where the proceeds are paid to the client within the timeframe specified in COLL.

In order to facilitate management of the Trust, the Manager makes use of the delivery versus payment exemption on the issue of Units in respect of money received other than in the form of cheques. Money received in other payment forms for the issue of Units is, therefore, not protected under the Client Money Rules until the delivery versus payment exemption period has expired. Money received by the Manager in the form of redemptions, cheques or other remittances is paid directly into a client money account maintained by the Manager with an Approved Bank, as defined in the FCA Rules, and protected in line with the Client Money Rules. No interest is payable by the Manager on monies credited to this account.

Money deposited into an account with a third party may have a security interest, lien or right of set-off in relation to the money, to the extent permitted by the Client Money Rules.

In certain circumstances, if the Manager has lost touch with an investor, the Manager will be permitted to pay the investor's client money balance to a registered charity after six years. The Manager will not do so until reasonable efforts have been made to contact the investor. The investor will still be entitled to recover this money from the Manager at a later date irrespective of whether the Manager has paid the money to charity. This is subject to the rules in COLL, which require the Manager to transfer any distribution payment which remains

unclaimed after a period of six years from the date of payment to the Company's capital property.

### **3.2. Electronic communications**

The Manager will accept instructions to purchase, sell or transfer Units or for the renunciation of title to Units on the basis of an authority communicated by electronic means and sent by the Unitholder, or delivered on their behalf by a person that is authorised by the FCA or regulated in another jurisdiction by an equivalent supervisory authority, subject to:

- 3.2.1. prior agreement between the Manager and the person making the communication as to:
  - (a) the electronic media by which such communications may be delivered; and
  - (b) how such communications will be identified as conveying the necessary authority; and
- 3.2.2. assurance from any person who may give such authority on behalf of the investor that they will have obtained the required appointment in writing from the Unitholder.

### **3.3. Money laundering**

As a result of legislation in force in the UK to prevent money laundering, the Manager is responsible for compliance with anti-money laundering regulations. In order to implement these regulations, in certain circumstances investors may be asked to provide proof of identity when buying or redeeming Units. This may involve an electronic check of information. Until satisfactory proof of identity is provided, the Manager reserves the right to refuse to issue Units, pay the proceeds of a redemption of Units, or pay income on Units to the investor. In the case of a purchase of Units where the applicant is not willing or is unable to provide the information requested within a reasonable period, the Manager also reserves the right to sell the Units purchased and return the proceeds to the account from which the subscription was made. These proceeds may be less than the original investment. The Manager can use credit reference agencies (who will record that an enquiry has been made) and/or may check electronic databases. In the case of bodies corporate, trusts and other legal arrangements, it is also required to establish the identity of any trustees or other controllers who have greater than 25% control of the body corporate or property of the trust that are not named on the application. In addition, it is also required to establish the identity of any individuals who have a specified beneficial interest in the Units. In the case of individuals it is required to establish the identity of any individuals who have a specified beneficial interest in the Units that are not named on the application. The applicant retains legal title to the Units and instructions will only be accepted from the applicant. The beneficial owner details are required for anti-money laundering purposes only. The Manager reserves the right to refuse any application to invest without providing any justification for doing so.

### **3.4. Buying Units**

#### **3.4.1. Procedure**

Units may be bought directly from the Manager or through a professional adviser or other intermediary. In addition, the Manager may from time to time make arrangements to allow Units to be bought through electronic communication. For

details of dealing charges see paragraph 3.6 below. Application forms may be obtained from the Manager.

Valid applications to purchase Units will be processed at the Unit price calculated, based on the Net Asset Value per Unit (or the relevant proportion of the Net Asset Value), at the next Valuation Point following receipt of the application, except in the case where dealing has been suspended as set out in paragraph 3.11.

The Manager, at its discretion, has the right to cancel a purchase deal if settlement is materially overdue (being more than five Business Days of receipt of an application form or other instruction) and any loss arising on such cancellation shall be the liability of the applicant. The Manager is not obliged to issue Units unless it has received cleared funds from an investor.

A purchase of Units in writing or any other communication media made available is a legally binding contract. Applications to purchase, once made are, except in the case where cancellation rights are applied, irrevocable. However, subject to its obligations under the Regulations, the Manager has the right to reject, on reasonable grounds relating to the circumstances of the applicant, any application for Units in whole or part, and in this event the Manager will return any money sent, or the balance of such monies, at the risk of the applicant. Such instructions will only be executed by the Manager once they have been verified and confirmed and the Manager's processing procedure has been satisfactorily completed. Please note that the Manager will not be liable for any losses or lost opportunities which may result from delays or rejections that arise from unclear instructions.

Any subscription monies remaining after a whole number of Units have been issued will not be returned to the applicant. Instead, smaller denomination Units will be issued. A smaller denomination Unit is equivalent to one thousandth of a larger denomination Unit.

Applicants who have received advice may have the right to cancel their application to buy Units at any time during the 14 days after the date on which they receive a contract notice from the Manager. If an applicant decides to cancel the contract, and the value of the investment has fallen at the time the Manager receives the completed cancellation notice, they will not receive a full refund as an amount equal to any fall in value will be deducted from the sum originally invested. The Manager may extend cancellation rights to other investors but is under no obligation to do so

#### **3.4.2. Documents the buyer will receive**

A confirmation giving details of the number and price of Units bought will be issued no later than the end of the Business Day following the Valuation Point by reference to which the price is determined, together with, where appropriate, a notice of the applicant's right to cancel.

Registration of Units can only be completed by the Manager upon receipt of any required registration details. These details may be supplied in writing to the Manager or by returning to the Manager the properly completed registration form and copy of the confirmation.

Settlement is due within four Business Days of the Valuation Point. An order for the purchase of Units will only be deemed to have been accepted by the Manager once it is in receipt of cleared funds for the application. If settlement is not made within a reasonable period, then the Manager has the right to cancel any Units issued in respect of the application. In the event of such a sale or realisation, the Manager shall be entitled to transfer such investments to such persons as it shall specify

and, recover any shortfall from that original investor.

The Manager reserves the right to charge interest at 4% above the prevailing Bank of England base rate, on the value of any settlement received later than the 4th Business Day following the Valuation Point.

No interest will be paid on funds held prior to investment. Units that have not been paid for cannot be redeemed.

Settlement must be made by electronic bank transfer to the bank account detailed on the application form.

Certificates will not be issued in respect of Units. Ownership of Units will be evidenced by an entry on the Register. Tax vouchers in respect of periodic distributions on Units will show the number of Units held by the recipient.

### **3.4.3. 3 Minimum subscriptions and holdings**

The minimum initial subscriptions, subsequent subscriptions and holdings levels for each Class of Unit are set out in Appendix I.

The Manager may at its sole discretion accept subscriptions and/or holdings lower than the minimum amount(s).

If following a redemption, conversion, Exchange or transfer, a holding in any Class of Unit should fall below the minimum holding for that Class, the Manager has the discretion to effect a redemption of that Unitholder's entire holding in that Class of Unit. The Manager may use this discretion at any time. Failure not to do so immediately after such redemption, or transfer does not remove this right.

## **3.3. Redeeming Units**

### **3.3.1. Procedure**

Every Unitholder is entitled on any Dealing Day to redeem its Units, which shall be purchased by the Manager dealing as principal.

Valid instructions to redeem Units will be processed at the Unit price calculated, based on the Net Asset Value per Unit (as adjusted for any dilution adjustment, as described in paragraph 3.6.4), at the next Valuation Point following receipt of the instruction, except in the case where dealing in Units has been suspended as set out in paragraph 3.11.

A redemption instruction in respect of Units in writing or any other communication media made available is a legally binding contract. However, an instruction to the Manager to redeem Units, although irrevocable, may not be settled by either the Trust or the Manager if the redemption represents Units where the money due on the earlier purchase of those Units has not yet been received or if insufficient documentation or anti-money laundering information has been received by the Manager.

For details of dealing charges see paragraph 3.6 below.

### **3.3.2. Documents a redeeming Unitholder will receive**

A confirmation giving details of the number and price of Units redeemed will be sent to the redeeming Unitholder (or the first named Unitholder, in the case of joint Unitholders) together with (if sufficient written instructions have not already been

given) a form of renunciation for completion and execution by the Unitholder (or, in the case of a joint holding, by all the joint Unitholders) no later than the end of the Business Day following the later of the request to redeem Units or the Valuation Point by reference to which the price is determined.

Payment of redemption proceeds will normally be made to the first named Unitholder (at their risk) via bank transfer in accordance with any instruction received (the Manager may recover any bank charge levied on such transfers). Instructions to make payments to third parties (other than intermediaries associated with the redemption) will not normally be accepted.

Such payment will be made within four Business Days of the later of (a) receipt by the Manager of the form of renunciation (or other sufficient written instructions) duly signed and completed by all the relevant Unitholders together with any other documentation and appropriate evidence of title, any required anti-money laundering related documentation, and (b) the Valuation Point following receipt by the Manager of the request to redeem.

### **3.3.3. Minimum redemption**

Part of a Unitholder's holding may be redeemed but the Manager reserves the right to refuse a redemption request if the value of the Units to be redeemed is less than the minimum stated in respect of the appropriate Class in question (see Appendix I).

### **3.3.4. Deferred redemption of Units**

If requested redemptions of Units on a particular Dealing Day exceed 10% of the Trust's value, redemptions of Units may be deferred to the next Dealing Day. Any such deferral would only be undertaken in such manner as to ensure consistent treatment of all Unitholders who had sought to redeem Units at any Dealing Day at which redemptions were deferred, and so that all deals relating to the earlier Dealing Day were completed before those relating to a later Dealing Day were considered. The intention of the deferred redemption power is to reduce the impact of dilution on the Scheme Property. In times of high levels of redemption, deferred redemption provisions would enable the Manager to protect the interests of continuing Unitholders by allowing it to match the sale of property of the Trust to the level of redemptions of Units.

## **3.4. Conversion**

Subject to any restrictions on the eligibility of investors for a particular Unit Class, a Unitholder may at any time:

- (i) Convert all or some of their Units of one Class for Units in another Class; or
- (ii) switch all or some of their Units for shares/units in another fund managed by the Manager.
- (iii) Exchange all or some of their units in the Feeder Fund for Shares in the PAIF Fund.

### ***Conversions***

Conversions will be effected by the Manager recording the change of Unit Class on the Register of the Trust.

If a Unitholder wishes to Convert Units they should apply to the Manager in the

same manner as for a sale as set out below.

Conversions may not be effected at the next Valuation Point and may be held over and processed with Conversion instructions given by other Unitholders. If you would like information about when your Conversion will be processed please contact the Manager.

Conversions will not generally be treated as a disposal for capital gains tax purposes. There is no fee on Conversions.

The number of Units to be issued in the new Class will be calculated relative to the price of the Units being converted from.

**Subject to any restrictions on the eligibility of investors for a particular Unit Class, with the agreement of the Trustee the Manager may effect a mandatory conversion of all or some of a Unitholder's units in one Unit Class for units of another Unit Class if this is in the best interests of Unitholders. Unitholders will be advised at least 60 days in advance of any such mandatory Conversion**

**A Unitholder who converts Units in one Class for Units in any other Class in the Trust will not be given a right by law to withdraw from or cancel the transaction**

### ***Switches***

Subject to any restrictions on the eligibility of investors for a particular Unit Class, a Unitholder may at any time Switch all or some of their Units of one Class the Trust ("the Original Units") for shares or units of another class in another fund ("the New Units"). The number of New Units issued will be determined by reference to the respective prices of New Units and Original Units at the Valuation Point applicable at the time the Original Units are redeemed and the New Units are issued.

A request to switch may be made in writing to the Registrar (switch forms can be obtained by telephoning 0333 300 0375). The Unitholder will be required to provide written instructions to the Registrar or their client adviser, as appropriate (which, in the case of joint Unitholders must be signed by all the joint Unitholders) before switching is effected.

The Manager may at its discretion make a charge on the Switching or Conversion of Units between funds or Classes. Any such charge on Switching does not constitute a separate charge payable by a Unitholder, but is rather the application of any redemption charge on the Original Units and any initial charge on the New Units, subject to certain waivers. For details of the charges on Switching currently payable, please see paragraph 3.6.3 "Charges on Conversion, Switching or Exchanges".

If a partial Switch would result in the Unitholder holding a number of Original Units or New Units of a value which is less than the minimum holding in the Class concerned, the Manager may, if it thinks fit, convert the whole of the applicant's holding of Original Units to New Units (and make a charge on Switching) or refuse to effect any Switch of the Original Units. Save as otherwise specifically set out, the general provisions on procedures relating to redemption will apply equally to a Switch. Written instructions must be received by the Manager before the Valuation Point on a Dealing Day in the Trust (or funds concerned) to be dealt with at the prices at the Valuation Point on that Dealing Day or at such other Valuation Point as the Manager at the request of the Unitholder giving the relevant instruction may agree. Switching or Conversion requests received after a Valuation Point will be

held over until the next day which is a Dealing Day in each of the relevant funds.

The Manager may adjust the number of New Units to be issued to reflect the application of any charge on switching together with any other charges or levies in respect of the application for the New Units or redemption of the Original Units as may be permitted pursuant to the COLL Sourcebook.

**Please note that under UK tax law a Switch of Units in the Trust for shares/units in any other fund is treated as a redemption of the Original Units and a purchase of New Units and will, for persons subject to taxation, be a realisation of the Original Units for the purposes of capital gains taxation, which may give rise to a liability to tax, depending upon the Unitholder's circumstances. However, as noted above, a Conversion of Units in one Class for Units in another Class in the Trust will not normally be treated as a realisation for UK tax purposes.**

**A Unitholder who Switches Units in the Trust for shares/units in any other fund (or who Switches between Classes of Units) will not be given a right by law to withdraw from or cancel the transaction.**

### **Exchanging between the PAIF Fund and the Trust**

The Manager is aware that certain investors who are eligible to invest in the PAIF Fund may be unable to do so for administrative reasons and will, therefore, invest through the Trust. When such investors are in a position to invest directly in the PAIF Fund, such investors will be able to Exchange their holdings of Unit for Shares in the PAIF Fund. The Manager intends to facilitate Exchanges between the Trust and the relevant class of Shares in the PAIF Fund once every three months immediately after the end of each income allocation period for the Trust.

The Exchange would take place when there is minimal accrued income in the relevant class of the PAIF Fund to minimise income tax consequences and it would be with the agreement of the Manager so that the disposal would qualify for capital gains tax relief. The new Shares issued to the investors would therefore have the same acquisition cost and acquisition date for capital gains tax purposes as their original holding of Units.

Exchanges will take place by way of in specie redemptions of Units.

### **3.5. Market timing**

The Manager may refuse to accept a new subscription in the Trust or a switch if in the opinion of the Manager, it has reasonable grounds for refusing to accept a subscription or a switch from them. In particular, the Manager may exercise this discretion if it believes the Unitholder has been or intends to engage in market timing.

For these purposes, market timing activities include investment techniques which involve short term trading in and out of shares/units generally to take advantage of variation in the price of Units between the daily valuation points in the Trust. Short term trading of this nature may often be detrimental to long term Unitholders, in particular, the frequency of dealing may lead to additional dealing costs which can affect long term performance.

### **3.6. Dealing Charges**

The price per Unit at which Units are bought, redeemed or switched is the Net

Asset Value per Unit (as adjusted for any dilution adjustment, as described in paragraph 3.6.4). Any initial charge or redemption charge, (or dilution adjustment or SDRT on a specific deal, if applicable) is payable in addition to the price or deducted from the proceeds and is taken from the gross subscription or redemption monies.

### **3.6.1. Initial charge**

The Manager may impose a charge on the purchase of Units in each Class. The current initial charge, if any, is calculated as a percentage of the amount invested by a potential Unitholder with such percentage being set out in Appendix I. The Manager may waive or discount the initial charge at its discretion,

The initial charge (which is deducted from subscription monies) is payable by the Unitholder to the Manager. The current initial charge (if any) of a Class may only be increased in accordance with the Regulations.

### **3.6.2. Redemption Charge**

The Manager does not currently make a charge on the redemption of Shares in any Class.

The Manager may only introduce or increase a redemption charge in accordance with the Regulations. Also, if such a charge was introduced in respect of a specific Class of Units, it would not apply to Units issued before the date of the introduction (i.e., those not previously subject to a redemption charge).

### **3.6.3. Charges on Conversion, Switching or Exchanges**

On the Switching of Units between Classes in the Trust the Trust may impose a charge. If a redemption charge is payable in respect of the Original Units, this may become payable instead of, or as well as, the then prevailing initial charge for the New Units. The charge on Conversion/Switching is payable by the Unitholder to the Manager.

The Manager's current policy is to only levy a charge on switching that is no more than the excess of the initial charge applicable to New Units over the initial charge applicable to the Original Units as specified in Appendix I. There is currently no charge for converting Units in one Class for units in another class of the Trust or for Exchanges.

### **3.6.4. Dilution adjustment**

The actual cost of the Trust purchasing, selling or switching underlying investments may deviate from the mid-market value used in calculating its Unit price, due to dealing charges, taxes, and any spread between buying and selling prices of the Trust's underlying investments. These costs could have an adverse effect on the value of the Trust, known as "dilution". In order to mitigate the effect of dilution the Regulations allow the Manager to adjust the sale and purchase price of Units in the Trust to take into account the possible effects of dilution. This is known as making a dilution adjustment or operating swinging single pricing. The power to make a dilution adjustment may only be exercised for the purpose of reducing dilution in the Trust.

The price of Units in each Class of the Trust will always be calculated separately. Should any dilution adjustment be applied, it will, in percentage terms, affect the price of the Units in each Class in the Trust identically.

The Manager reserves the right to make a dilution adjustment on a daily basis. The dilution adjustment is calculated by reference to the estimated costs of dealing in the underlying investments of the Trust, including any dealing spreads, commission and transfer taxes.

The need to make a dilution adjustment will depend on the volume of purchases and redemptions and so the difference in value of Units being acquired and the value of Units being sold as a proportion of the total value of the Trust. It is therefore not possible to predict accurately whether dilution is likely to occur at any point in time.

The measurement period will typically be a single day but, where a trend develops so that for a number of days there is a surplus of acquisitions or redemptions each and every day, the aggregate effect of such acquisitions or redemptions as a proportion of the total Trust value will be considered.

Where the Trust is experiencing net acquisitions of its Units the dilution adjustment would increase the price of its Units above their mid-market value. Where the Trust is experiencing net redemptions the dilution adjustment would decrease the price of its Units to below their mid-market value.

The Manager's policy is for a dilution adjustment to be imposed on the purchase and redemption (and switch) of Units of whatever size and whenever made to ensure that the existing Unitholders (for purchases) or remaining Unitholders (for redemptions) are not otherwise adversely affected.

This policy is intended to mitigate the dilutive effect of Unitholder transactions on the future growth of the Trust.

In the event that a dilution adjustment is made, it will be applied to all transactions in the Trust during the relevant measurement period and all transactions during the relevant measurement period will be dealt on the same price inclusive of the dilution adjustment.

The Manager's decision on whether or not to make a dilution adjustment, and at what level a dilution adjustment might be made in a particular case or generally, will not prevent it from making a different decision on future similar transactions.

The dilution adjustment for the Trust may vary over time because the dilution adjustment for the Trust will be calculated by reference to the costs of dealing in the underlying investments of the Trust, including any dealing spreads, and these can vary with market conditions. The Manager estimates (using historic data to make future projections) that the estimated range of dilution will typically fall in the range of 0.01% to 0.75% when buying or selling Units, with a maximum of 1.00% expected.

On any occasion that the dilution adjustment is not applied, if the Trust is experiencing net acquisition of Units or net redemptions, there may be an adverse impact on the total assets of the Trust attributable to each underlying Unit which may otherwise constrain the future growth of the Trust. It should be noted that, as dilution is directly related to the inflows and outflows of monies from the Trust, it is not possible to predict accurately whether dilution will occur at any future time and so the exact amount of such a charge in advance on a particular transaction.

### **3.6.5. Stamp duty reserve tax ("SDRT")**

SDRT is generally charged on any agreements to transfer units in an authorised unit trust (other than transactions handled by the fund manager) to third parties at a rate of 0.5% of the consideration. The charging of SDRT (at a rate of 0.5%) on the redemption or surrender of units has now been abolished except from in

relation to non-pro rata in specie redemptions.

The current policy is that all SDRT costs (if applicable) will be paid out of the Scheme Property and charged to capital and that SDRT will not be recovered from individual Unitholders. However, the Manager reserves the right to require individual Unitholders to pay SDRT whenever it considers that the circumstances have arisen which make such imposition fair to all Unitholders or potential Unitholders. Deductions of any such costs from capital may erode or constrain capital growth.

### **3.7. Transfers**

Unitholders are entitled to transfer their Units to another person or body. All transfers must be in writing in the form of an instrument of transfer approved by the Manager for this purpose. Completed instruments of transfer must be returned to the Manager in order for the transfer to be registered by the Manager. The Manager may refuse to register a transfer unless any provision for SDRT due has been paid.

### **3.8. Restrictions and compulsory transfer, Conversion and redemption**

The Manager may from time to time take such action and/or impose such restrictions as it may think necessary for the purpose of ensuring that no Units are acquired or held by any person in breach of the law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory or which would result in the Trust incurring any liability to taxation which the Trust is not able to recoup itself or otherwise suffering (in the Manager's absolute discretion) any other adverse consequence. In this connection, the Manager may, inter alia, reject in its discretion any application for the purchase, redemption, transfer or switching of Units or require the conversion of shares/units in one class to another class.

If it comes to the notice of the Manager that any Units ("affected Units"):

- (a) are owned directly or beneficially in breach of any law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory; or
- (b) would result in the Trustee as trustee of the Trust incurring any liability to taxation which the Trustee would not be able to recoup itself or suffering any other adverse consequence (including a requirement to register under any securities or investment or similar laws or governmental regulation of any country or territory); or
- (c) are held in any manner by virtue of which the Unitholder or Unitholders in question is/are not qualified to hold such Units or if it reasonably believes this to be the case or the holding of such units might cause the Trust or its unitholder a pecuniary or administrative disadvantage or other adverse consequence which the Trust might not otherwise incur or suffer;
- (d) are owned by a Unitholder who is registered in a jurisdiction (where the Trust is not registered or recognised by the relevant competent authority) whereby communication with that Unitholder by the Manager, , might constitute a breach of the regulations in that jurisdiction (unless specific action is taken by the Manager to prevent such a communication constituting a breach),

the Manager may give notice to the Unitholder(s) of the affected Units requiring the transfer of such Units to a person who is qualified or entitled to own them or that a request in writing be given for the redemption or conversion of such Units in accordance with the COLL Sourcebook. If any Unitholder upon whom such a notice is served does not within 30 days after the date of such notice transfer their affected Units to a person qualified to own them or submit a written request for their redemption to the Manager or establish to the satisfaction of the Manager (whose judgement is final and binding) that they or the beneficial owner is qualified and entitled to own the affected Units, they shall be deemed upon the expiry of that 30 day period to have given a request in writing for the redemption or cancellation or conversion (at the discretion of the Manager) of all the affected Units.

A Unitholder who becomes aware that they are holding or own affected Units shall immediately, unless they have already received a notice as set out above, either transfer all their affected Units to a person qualified to own them or submit a request in writing to the Manager for the redemption, conversion or cancellation of all their affected Units.

Where a request in writing is given or deemed to be given for the redemption of affected Units, such redemption will (if effected) be effected in the same manner as provided for in the COLL Sourcebook.

The Manager can effect compulsory conversions of Units in certain circumstances, including as set out in 3.4.

### **3.9. Issue of Units in exchange for in specie assets**

The Manager may arrange for the Trust to issue Units in exchange for assets other than cash (expected to be shares in the PAIF Fund), but will only do so where the Trustee has taken reasonable care to determine that the Trust's acquisition of those assets in exchange for the Units concerned is not likely to result in any material prejudice to the interests of Unitholders.

The Manager will ensure that the beneficial interest in the assets is transferred to the Trust with effect from the issue of the Units.

### **3.10. In specie redemptions**

If a Unitholder requests the redemption of Units the Manager may, where it considers that deal to be substantial in relation to the total size of the Trust or in some way detrimental to the Trust, arrange for scheme property having the appropriate value to be transferred to the Unitholder (an 'in specie transfer'), in place of payment for the Units in cash. Before the redemption is effected, the Manager will give written notice to the Unitholder of the intention to make an in specie transfer. The Scheme Property to be transferred (or, if agreed by the Manager and properly authorised by the Unitholder, the proceeds of sale of such Scheme Property or transfer of scheme property of the PAIF Fund) is subject to stamp duty reserve tax or stamp duty unless the Scheme Property is transferred pro-rata.

### **3.11. Suspension of dealings in the Trust**

The Manager may, with the prior agreement of the Trustee, and must without delay if the Trustee so requires temporarily suspend the issue,

cancellation, sale and redemption of Units in the Trust where due to exceptional circumstances it is in the interests of all the Unitholders in the Trust. If the PAIF Fund suspends the issue, cancellation, sale and redemption of all or any Class of its Shares, then the Manager intends that the Trust would follow suit.

The Manager and the Trustee must ensure that the suspension is only allowed to continue for as long as is justified having regard to the interests of Unitholders.

The Manager or the Trustee (as appropriate) will immediately inform the FCA of the suspension and the reasons for it and will follow this up as soon as practicable with written confirmation of the suspension and the reasons for it to the FCA and the regulator in each EEA State where the Trust is offered for sale.

The Manager will notify Unitholders as soon as is practicable after the commencement of the suspension, including details of the exceptional circumstances which have led to the suspension, in a clear, fair and not misleading way and giving Unitholders details of how to find further information about the suspension.

Where such suspension takes place, the Manager will publish details on its website or other general means, sufficient details to keep Unitholders appropriately informed about the suspension, including, if known, its possible duration.

During the suspension none of the obligations in COLL 6.2 (Dealing) will apply but the Manager will comply with as much of COLL 6.3 (Valuation and Pricing) during the period of suspension as is practicable in light of the suspension.

Suspension will cease as soon as practicable after the exceptional circumstances leading to the suspension have ceased but the Manager and the Trustee will formally review the suspension at least every 28 days and will inform the FCA of the review and any change to the information given to Unitholders.

The Manager may agree during the suspension to deal in Units in which case all deals accepted during and outstanding prior to the suspension will be undertaken at a price calculated at the first Valuation Point after the restart of dealings in Units. On a resumption of dealings following suspension, the calculation of Unit prices and dealing will take place at the Dealing Day and times stated in this Prospectus.

### **3.12. Liquidity Management**

The Trust is managed so that the liquidity profile is aligned with its requirement to meet redemption requests from Unitholders on each Dealing Day. In normal circumstances, redemption requests will be processed as set out in Clause 3.3. However, in exceptional circumstances, if there is insufficient liquidity in the Trust to meet redemption requests, the Manager may need to temporarily suspend dealing in the Trust (as further described in Clause 3.11)

The Manager may also address temporary liquidity constraints in relation to the Trust by (i) borrowing cash (within the limits of Appendix III) to meet redemptions; or (ii) applying the in specie redemption provisions in Clause

3.10.

The Manager will manage and monitor liquidity risk in accordance with liquidity risk management procedures. The liquidity risk management procedures include the management, implementation and maintaining of appropriate liquidity limits for the Trust and periodic stress testing of the liquidity risk of the Trust under both normal and exceptional liquidity conditions to ensure that anticipated redemption requests can be met.

If the Manager's policy for managing liquidity should change then this will be set out in the annual report.

### **3.13. Governing law**

All deals in Units are governed by the law of England and Wales.

## **4. VALUATION OF THE COMPANY**

### **4.1. General**

The price of a Unit is calculated by reference to the Net Asset Value of the Trust (as adjusted for any dilution adjustment, as described in paragraph 3.6.4). The Net Asset Value per Unit is currently calculated at 12 noon (London time) (this being the Valuation Point) on each Dealing Day.

The Manager may at any time during a Business Day carry out an additional valuation if it considers it desirable to do so. The Manager shall inform the Trustee of any decision to carry out any such additional valuation. Valuations may be carried out for effecting a scheme of amalgamation or reconstruction which do not create a Valuation Point for the purposes of dealings. Where permitted and subject to the Regulations, the Manager may, in certain circumstances (for example where a significant event has occurred since the closure of a market) substitute a price with a more appropriate price which in its opinion reflects a fair and reasonable price for that investment.

The Manager will, upon completion of each valuation, notify the Trustee of the price of Units, of each Class and of any dilution adjustment applicable in respect of any purchase or redemption of Units.

A request for dealing in Units must be received by the Valuation Point on a particular Dealing Day in order to be processed on that Dealing Day. A dealing request received after this time will be held over and processed on the next Dealing Day, using the Net Asset Value per Unit calculated as at the Valuation Point on that next Dealing Day.

### **4.2. Calculation of the Net Asset Value**

The value of the Scheme Property of the Trust shall be the value of its assets less the value of its liabilities determined in accordance with the following provisions:

- 4.2.1. All the Scheme Property (including receivables) is to be included, subject to the following provisions.
- 4.2.2. Scheme Property which is not cash (or other assets dealt with in paragraph 4.2.3 and 4.2.4 below) shall be valued as follows and the prices used shall (subject as follows) be the most recent prices

which it is practicable to obtain:

- (a) units or shares in a collective investment scheme:
    - (i) if a single price for buying and redeeming units or shares is quoted, at that price; or
    - (ii) if separate buying and redemption prices are quoted, at the average of the two prices provided the buying price has been reduced by any initial charge included therein and the redemption price has been increased by any exit or redemption charge attributable thereto; or
    - (iii) if, in the opinion of the Manager, the price obtained is unreliable or no recent traded price is available or if no recent price exists, at a value which, in the opinion of the Manager, is fair and reasonable;
  - (b) exchange traded derivative contracts:
    - (i) if a single price for buying and selling the exchange-traded derivative contract is quoted, at that price; or
    - (ii) if separate buying and selling prices are quoted, at the average of the two prices;
  - (c) over-the-counter derivative contracts shall be valued in accordance with the method of valuation as shall have been agreed between the Manager and the Trustee;
  - (d) any other investment:
    - (i) if a single price for buying and redeeming the security is quoted, at that price; or
    - (ii) if separate buying and redemption prices are quoted, at the average of the two prices; or
    - (iii) if, in the opinion of the Manager, the price obtained is unreliable or no recent traded price is available or if no recent price exists or if the most recent price available does not reflect the Manager's best estimate of the value, at a value which, in the opinion of the Manager, is fair and reasonable;
  - (e) Scheme Property other than that described in paragraphs 4.2.2(a) to 4.2.2(d) above, at a value which, in the opinion of the Manager, is fair and reasonable;
- 4.2.3. Cash and amounts held in current and deposit and margin accounts and in other time related deposits shall be valued at their nominal values.
- 4.2.4. In determining the value of the Scheme Property, all instructions given to issue or cancel Units shall be assumed (unless the contrary is shown) to have been carried out and any cash paid or received

and all consequential action required by the Regulations or this Trust Deed shall be assumed (unless the contrary has been shown) to have been taken.

- 4.2.5. Subject to paragraphs 4.2.6 and 4.2.7 below, agreements for the unconditional sale or purchase of Scheme Property which are in existence but uncompleted shall be assumed to have been completed and all consequential action required to have been taken. Such unconditional agreements need not be taken into account if made shortly before the valuation takes place and if, in the opinion of the Manager, their omission will not materially affect the final net asset amount.
- 4.2.6. Futures or contracts for differences which are not yet due to be performed and unexpired and unexercised written or purchased options shall not be included under paragraph 4.2.5.
- 4.2.7. All agreements are to be included under paragraph 4.2.5 which are, or ought reasonably to have been, known to the person valuing the Scheme Property assuming that all other persons in the Manager's employment take all reasonable steps to inform it immediately of the making of any agreement.
- 4.2.8. Deduct an estimated amount for anticipated tax liabilities (on unrealised capital gains where the liabilities have accrued and are payable out of the property of the Scheme; on realised capital gains in respect of previously completed and current accounting periods; and on income where the liabilities have accrued) including (as applicable and without limitation) capital gains tax, income tax, corporation tax, VAT, stamp duty, SDRT and any foreign taxes or duties.
- 4.2.9. Deduct an estimated amount for any liabilities payable out of the Scheme Property and any tax or duty thereon, treating periodic items as accruing from day to day.
- 4.2.10. Deduct the principal amount of any outstanding borrowings whenever repayable and any accrued but unpaid interest on borrowings.
- 4.2.11. Add an estimated amount for accrued claims for tax of whatever nature which may be recoverable.
- 4.2.12. Add any other credits or amounts due to be paid into the Scheme Property.
- 4.2.13. Add a sum representing any interest or any income accrued due or deemed to have accrued but not received and any stamp duty reserve tax provision anticipated to be received.
- 4.2.14. Currencies or values in currencies other than Sterling shall be converted at the relevant Valuation Point at a rate of exchange that is not likely to result in any material prejudice to the interests of Unitholders or potential Unitholders.

#### 4.3. **Price per Unit**

The price per Unit at which Units are bought or are redeemed is the Net

Asset Value per Unit at the Valuation Point (as adjusted for any dilution adjustment, as described in paragraph 3.6.4). Any initial charge or redemption charge, (or dilution adjustment or SDRT on a specific deal, if applicable) is payable in addition to the price or deducted from the proceeds and is taken from the gross subscription or redemption monies.

Each allocation of income made at a time when more than one Class is in issue shall be done by reference to the relevant Unitholder's proportionate interest in the income property of the Trust in question calculated in accordance with the Trust Deed.

#### 4.4. **Pricing basis**

The Manager deals on a forward pricing basis. A forward price is the price calculated at the next Valuation Point after the purchase or redemption is deemed to be accepted by the Manager. Units in the Trust are single priced.

#### 4.5. **Publication of prices**

The most recent prices will appear daily on the Trustnet website at [www.trustnet.com](http://www.trustnet.com). The prices of Units may also be obtained by calling 01483 783 900.

For reasons beyond the control of the Manager, these may not necessarily be the current prices. The cancellation price last notified to the Depositary is available from the Manager upon request.

As the Manager deals on a forward pricing basis, the price that appears in these sources will not necessarily be the same as the one at which investors can currently deal. The Manager may also, at its sole discretion, decide to publish certain Unit prices in other third party websites or publications but the Manager does not accept responsibility for the accuracy of the prices published in, or for the non-publication of prices by, these sources for reasons beyond the control of the Manager.

### 5. **RISK FACTORS**

Potential investors should consider the following risk factors before investing in the Trust. This list must not be taken to be comprehensive as there may be new risks that arise in the future which could not have been anticipated in advance.

#### 5.1. **General**

The investments are subject to normal market fluctuations and other risks inherent in investing in securities. There can be no assurance that any appreciation in the value of investments will occur. The value of investments and the income derived from them may fall as well as rise and investors may not recoup the original amount they invest. There is no certainty that the investment objective will actually be achieved and no warranty or representation is given to this effect. The level of any yield for the Trust may be subject to fluctuations and is not guaranteed.

Inflation will affect the future buying power of any investment. If the returns on an investment have not beaten the rate of inflation, such investment will have less buying power in the future.

The entire market of a particular asset class or geographical sector may fall,

having a more pronounced effect on funds heavily invested in that asset class or region. There will be a variation in performance between funds with similar objectives due to the different assets selected.

When the Manager determines that adverse market conditions exist, the Trust may adopt a temporarily defensive position and invest some or all of its assets in money market instruments and/or bank deposits. In pursuing a temporary defensive strategy, the Trust may forgo potentially more profitable investment strategies and, as a result, may not achieve its stated investment objective.

#### 5.2. **Effect of initial charge or redemption charge**

Where an initial charge or redemption charge is imposed, an investor who realises their Units may not (even in the absence of a fall in the value of the relevant investments) realise the amount originally invested.

In particular, where a redemption charge is payable, investors should note that the percentage rate at which the redemption charge is calculated is based on the market value rather than the initial value of the Units. If the market value of the Units has increased the redemption charge will show a corresponding increase.

The Units therefore should be viewed as medium to long term investments.

#### 5.3. **Dilution**

The Trust may suffer a reduction in the value of its Scheme Property due to dealing costs incurred when buying and selling investments. To offset this dilution effect the Manager may require a dilution adjustment be made in addition to the price of Units when bought or as a deduction when sold.

#### 5.4. **Charges to capital**

Where the investment objective is to treat the generation of income as a higher priority than capital growth, or the generation of income and capital growth have equal priority, or a fund is seeking total returns through a combination of capital growth and income all or part of the Manager's fee (and where appropriate fixed expenses) may be charged against capital instead of against income. The treatment of the Manager's fee (and where appropriate fixed expenses) may increase the amount of income (which may be taxable) available for distribution to Unitholders concerned but will erode capital and may constrain capital growth. It may also have tax implications for certain investors.

#### 5.5. **Market Risk**

External factors can cause an entire asset class to decline in value. Prices and values of all shares or all bonds could decline at the same time. Some of the recognised exchanges on which the Trust/PAIF Fund may invest may prove to be illiquid or highly volatile from time to time and this may affect the price at which the Trust/the PAIF Fund may liquidate positions to meet repurchase requests or other funding requirements.

#### 5.6. **Suspension of dealings in Units**

Investors are reminded that in certain circumstances their right to redeem Units (including a redemption by way of switching) may be suspended.

## 5.7. **Currency exchange rates**

Currency fluctuations may adversely affect the value of the PAIF Fund's investments and the income thereon and, depending on an investor's currency of reference, currency fluctuations may adversely affect the value of their investment in Units. Exchange rate changes may also cause the value of underlying overseas investments and any income from them to go down as well as up.

The Net Asset Value per Unit will be computed in the Base Currency, whereas the underlying investments may be acquired in other currencies. The Base Currency value of the investments designated in another currency may rise and fall due to exchange rate fluctuations in respect of the relevant currencies. Adverse movements in currency exchange rates can result in a decrease in return and a loss of capital. It may not be possible or practical to hedge against the consequent currency risk exposure and in certain instances the Manager may consider it desirable not to hedge against such risk. Accordingly, the investments may or may not be fully hedged into the Base Currency. Currency management transactions, while potentially reducing the currency risks to which the Trust & PAIF Fund would otherwise be exposed, involve certain other risks, including the risk of a default by a counterparty.

Where the PAIF Fund engages in foreign exchange transactions which alter the currency exposure characteristics of its investments, the performance of such fund may be strongly influenced by movements in exchange rates as currency positions held by the PAIF Fund may not fully correspond with the securities positions held.

Investors should be aware that any currency hedging process may not give a precise hedge. Furthermore, there is no guarantee that the hedging will be totally successful.

## 5.8. **Unit/Share Currency Designation Risk**

Unit Classes may be available which are designated in a currency other than the Base Currency. In such circumstances, adverse exchange rate fluctuations between the Class Currency and the Base Currency, or between the Class Currency and the underlying currency exposures resulting from the underlying investment decisions including the currency management transactions may result in a decrease in return and/or a loss of capital for Unitholders.

Any currency management transactions that are undertaken to control this risk may limit Unitholder of any Unit Class from benefiting from opportunities if there was no currency management transactions and might expose investors to losses. Currency management transactions will expose investors to fluctuations in the Net Asset Value per Unit reflecting the gains/loss on and the costs of the relevant Financial Instruments.

Where currency management transactions provide exposure to currencies that are different from the Class Currency or the currency exposures arising from the underlying investments, the Trust (or PAIF Fund) will be exposed to the risk that changes in the value of the currencies to which the Trust/PAIF Fund is exposed may not correlate with changes in the value of the currency in which the underlying securities are denominated, which could result in loss on both the currency management transactions and the PAIF Fund's securities.

## **5.9. Hedged Units class risk**

Hedged Classes allow the Manager to use currency hedging transactions to reduce the effect of exchange rate fluctuations between the Class Currency of the Hedged Class and the Base Currency. It is intended to hedge between 98%-102% against currency fluctuations. A 100% hedge may not be a perfect hedge and there can be no assurance that the currency hedging employed will fully eliminate the currency exposure to the Class Currency.

Where there is more than one Hedged Class denominated in the same currency and it is intended to hedge the foreign currency exposure of such Classes against the Base Currency or against the currency or currencies in which the underlying assets are, or are expected to be, denominated, the Manager may aggregate the foreign exchange transactions entered into on behalf of such Hedged Classes and apportion the gains/loss on and the costs of the relevant Financial Instruments pro rata to each such Hedged Class. This may have an adverse effect on other classes in issue.

Although Currency Hedging may be implemented differently for different Classes, the Financial Instruments used to implement such strategies shall be assets/liabilities of the Trust as a whole. However, the gains/losses on and the costs of the relevant Financial Instruments will accrue to the relevant Class. It is not intended that any currency exposure of a Class will be combined with or offset with that of any other Class of the Trust. However, the assets and liabilities attributable to a Class are not "ring-fenced" from the liabilities attributable to other Classes. Accordingly, in the event of the Trust being unable to meet liabilities attributable to any Unit Class out of the assets attributable to that Unit Class, the excess liabilities would have to be met out of the assets attributable to the other Unit Classes.

## **5.10. Derivatives**

The Investment Manager of the PAIF Fund may employ derivatives with the aim of reducing the risk profile of a fund, reducing costs or generating additional capital or income, in accordance with Efficient Portfolio Management and also for investment purposes. The use of derivatives and forward transactions for investment purposes may increase the risk profile of that PAIF Fund.

To the extent that derivative instruments are utilised for hedging purposes, the risk of loss to the relevant PAIF Fund may be increased where the value of the derivative instrument and the value of the security or position which it is hedging prove to be insufficiently correlated.

Investment in derivatives may result in gains or losses that are greater than the original amount invested.

## **5.11. Counterparty and settlement**

The Trust and PAIF Fund will be exposed to a credit risk on parties with whom it trades and will also bear the risk of settlement default.

## **5.12. Concentration Risk**

Funds which invest in a narrow range of investments or in specialised sectors may be more volatile than those with a more broadly diversified

portfolio.

5.13. **Tax**

Tax laws currently in place may change in the future which could affect the value of your investments. See paragraph 10 headed 'Taxation' for further details about taxation of the Trust.

5.14. **Inflation and interest rates**

The real value of any returns that an investor may receive from the Trust could be affected by interest rates and inflation over time.

5.15. **Custody Risk**

The Trustee may delegate the function of safekeeping of Financial Instruments to the Custodian, who may in turn appoint custody agents. The Trustee or Custodian or custody agents may hold Financial Instruments in fungible accounts (meaning the assets are interchangeable) or omnibus accounts (resulting in accounts being combined). The use of omnibus accounts gives rise to a potential risk that there could be a shortfall in the Financial Instruments held in such an account should the total of the Financial Instruments be less than the aggregate entitlement of the Trust. It is expected that such risks will be mitigated by the Custodian's trade matching and reconciliation processes, however in the event of an irreconcilable shortfall, the affected clients would bear the risk of any shortfall on a pro-rata basis and the Trust may not recover all of its Financial Instruments..

5.16. **Liquidity**

Depending on the types of assets of the Trust or PAIF Fund invests in there may be occasions where there is an increased risk that a position cannot be liquidated in a timely manner at a reasonable price.

Investments in the PAIF Fund's portfolios may be or become illiquid. This means that, if the need arose, these investments might be difficult to sell and could result in realising less than the value of the investments reflected in the Net Asset Value of the portfolios, which would negatively affect fund performance.

The PAIF Fund may invest in instruments where the volume of transactions may fluctuate significantly depending on market sentiment. There is a risk that investments made by the PAIF Fund may become less liquid in response to market developments or adverse investor perceptions. In extreme market situations, there may be few willing buyers and the investments cannot be readily sold at the desired time or price, and the PAIF Fund may have to accept a lower price to sell the investments or may not be able to sell the investments at all. Trading in particular securities or other instruments may be suspended or restricted by the relevant exchange or by a governmental or supervisory authority and the PAIF Fund may incur a loss as a result. An inability to sell a portfolio position can adversely affect the PAIF Fund's value or prevent the PAIF Fund from being able to take advantage of other investment opportunities.

Liquidity risk also includes the risk that the PAIF Fund will not be able to pay redemption proceeds within an allowable time period because of unusual market conditions, and unusually high volume of redemption

requests, or other uncontrollable factors. To meet redemption requests, the PAIF Fund may be forced to sell investments, at an unfavourable time and/or conditions.

#### **5.17. PAIF Status**

If the PAIF Fund should breach any of the statutory conditions required for PAIF status, then depending on the nature of the breach and the number of breaches that have occurred, this may result in a corporation tax liability arising or HM Revenue & Customs terminating its PAIF status. Termination of the PAIF Fund's PAIF status would result in distributions paid by the PAIF Fund being treated differently for tax purposes.

#### **5.18. Property Risk**

The PAIF Fund may have indirect exposure to property which is less liquid than other asset classes such as bonds or equities.

Property values can go up as well as down and are affected by such factors as political factors, level of interest rates, economic growth, fluctuation in property yields, tenant default, supply and demand for residential property, changes in occupancy practices and changes in landlord and tenant law, planning or other property law. This may have an impact on the value of the investments of the PAIF Fund and it is possible that an investor will not get back all of their investment.

#### **5.19. Legal and regulatory risks**

Legal and regulatory (including taxation) changes could adversely affect the Trust. Regulation (including taxation) of investment vehicles such as the Trust is subject to change. The effect of any future legal or regulatory (including taxation) change on the Trust is impossible to predict, but could be substantial and have adverse consequences on the rights and returns of Unitholders.

#### **5.20. Political risk**

The value of the Trust and PAIF Fund may be affected by uncertainties such as international political developments, civil conflicts and war, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investments may be made. For example, assets could be compulsorily re-acquired without adequate compensation.

Events and evolving conditions in certain economies or markets may alter the risks associated with investments in countries or regions that historically were perceived as comparatively stable becoming riskier and more volatile. These risks are magnified in countries in emerging markets (those markets whose economies are in an emerging growth phase and offer higher potential return with higher risks than developed market countries).

#### **5.21. Collective Investment Schemes/Funds**

The PAIF Fund may invest in other collective investment schemes or funds (including those managed by the Manager or any Investment Manager). As an investor in another collective investment scheme/fund, it will bear, along

with the other investors, its portion of the expenses of the other collective investment scheme/Funds, including the management performance and/or other fees. These fees will be in addition to the management fees and other expenses which the Trust and PAIF Fund bears directly with its own operations.

The PAIF Fund may invest in underlying funds which are priced at a premium to their prevailing asset value. The market value of a share in an underlying fund may vary considerably from its net asset value and the PAIF Fund may not be able to realise its investment at their prevailing net asset value.

The investments made by underlying funds will typically comprise assets, including property, which are not quoted and the value of which is inherently subjective and uncertain, particularly where there has been limited transactional activity in the underlying market. Valuations of such assets may not reflect actual realisable values which may adversely impact the net asset value of the underlying fund (which in turn may adversely impact the value of the PAIF Fund's investment).

Any underlying funds in which the PAIF Fund invests may be reliant on third party service providers, including third party investment managers. The PAIF Fund's performance and returns to its investors may therefore be depend on the performance of the managers of the underlying funds, including their decisions as regard investment decisions, portfolio construction and monitoring, leverage and structuring (including tax structuring) and distribution policy.

The PAIF Fund may invest in underlying funds with no or limited operating history.

#### **5.22. Performance divergence**

Unitholders should note that because of the impact of operational cash balances held by the Trust, there may not be an exact match between the investment return from Units and the investment return of the corresponding shares in the PAIF Fund.

#### **5.23. PAIF Fund Expenses**

The Trust will invest solely in the PAIF Fund. As with any investment in a collective investment scheme, the Trust will bear, along with other investors, its portion of the expenses of the PAIF Fund.

#### **5.24. Cyber Security**

As the use of technology has become more prevalent in the course of business, funds have become more susceptible to operational and financial risks associated with cyber security, including: theft, loss, misuse, improper release, corruption and destruction of, or unauthorised access to, confidential or highly restricted data relating to the Trust and the Unitholders and compromises or failures to systems, networks, devices and applications relating to the operations of the Trust and its service providers. Cyber security risks may result in financial losses to the Trust and the Unitholders; the inability of the Trust to transact business with the Unitholders; delays or mistakes in the calculation of the Net Asset Value or other materials provided to Unitholders; the inability to process transactions with Unitholders or the parties; violations of privacy and other laws; regulatory fines, penalties and reputational damage; and compliance

and remediation costs, legal fees and other expenses. The Trust's service providers (including but not limited to the Manager and the Trustee and their agents), financial intermediaries, companies in which the Trust invests and parties with which the Trust engages in portfolio or other transactions also may be adversely impacted by cyber security risks in their own business, which could result in losses to the Trust or the Unitholders. While measures have been developed which are designed to reduce the risks associated with cyber security, there is no guarantee that those measures will be effective, particularly since the Trust does not directly control the cyber security defences or plans of its service providers, financial intermediaries and companies in which the Trust or PAIF Fund invests or with which it does business.

#### **5.25. Risks associated with the UK leaving the European Union ("Brexit")**

The UK has formally left the European Union (informally known as "Brexit").

However, the political, economic and legal consequences of Brexit are still not yet fully known. It is possible investments in the UK may be more difficult to value, to assess for suitability of risk, harder to buy or sell or subject to greater or more frequent rises and falls in value.

The UK's laws and regulations concerning funds may in future diverge from those of the European Union. This may lead to changes in the operation of the Company or the rights of investors or the territories in which the Shares of the Company may be promoted and sold.

#### **5.26. Infectious Diseases**

Infectious diseases that pose significant threats to human health may be highly disruptive to global economies and markets. The economic and market disruptions caused by infectious diseases could significantly impact the value of the Scheme Property and the value of distributions paid to Unitholders.

### **6. MANAGEMENT AND ADMINISTRATION**

#### **6.1. Regulatory Status**

The Manager, the Trustee and the Investment Manager are authorised and regulated by the Financial Conduct Authority.

#### **6.2. AIFM**

##### **6.2.1. General**

The AIFM and Manager of the Trust is Thesis Unit Trust Management Limited which is a private company limited by shares incorporated in England and Wales under the Companies Act 1985 on 6 February 1998 with company number 3508646.

The directors of the Manager are:

S R Mugford	Finance Director
D W Tyerman	Chief Executive Officer
S E Noone	Client Service Director
D K Mytnik	Non-Executive Director
V R Smith	Non-Executive Director

C A E Lawson	Independent Non-Executive Director
S Macdonald	Independent Non-Executive Director
L R Robinson	Independent Non-Executive Director
C J Willson	Independent Non-Executive Director
N C Palios	Non-Executive Chair

S R Mugford is also a director of Tutman Fund Solutions Limited and a member of the governing body of TUTMAN LLP, both authorised fund managers within the same group as the Manager, performing a senior management function. He holds directorships of other companies within the Thesis group and performs a senior management function within Thesis Asset Management Limited, which acts as an investment manager for some authorised funds operated by the Manager.

D W Tyerman is also a member of the governing body of TUTMAN LLP, an authorised fund manager within the same group as the Manager, performing senior management functions. He holds directorships of other companies within the Thesis group and performs senior management functions within Thesis Asset Management Limited, which acts as an investment manager for some authorised funds operated by the Manager.

S E Noone is also a member of the governing body of TUTMAN LLP, an authorised fund manager within the same group as the Manager, performing a senior management function.

N C Palios is also a director of Tutman Fund Solutions Limited and a member of the governing body of TUTMAN LLP, both authorised fund managers within the same group as the Manager, performing a senior management function. She holds directorships of other companies within the Thesis group and performs a senior management function within Thesis Asset Management Limited, which acts as an investment manager for some authorised funds operated by the Manager.

D K Mytnik and V R Smith also hold non-executive directorships of other companies within the Thesis group and are members of the governing body of TUTMAN LLP, an authorised fund manager within the same group as the Manager.

C J Willson, C A E Lawson, S Macdonald and L R Robinson are also independent non-executive directors of Tutman Fund Solutions Limited, an authorised fund manager within the same group as the Manager. They are not engaged in other business activities that are of significance to the Trust.

**Head office and registered office:**

Exchange Building, St Johns Street, Chichester, West Sussex PO19 1UP.

**Share capital:**

It has a share capital of £5,673,167 ordinary shares issued and paid up.

The Manager is responsible for managing and administering the Trust's affairs in compliance with the COLL Sourcebook and FUND. The Manager may delegate its management and administration functions, but not responsibility, to third parties, including associates subject to the rules in the COLL Sourcebook and FUND.

It has therefore delegated to the Investment Manager the function of managing and instructing the investment and disposal of the assets of the Trust in accordance with the investment objective and policy (as further explained in paragraph 6.4 below).

### **6.2.2. Terms of appointment:**

The appointment of the Manager has been made by virtue of the Trust Deed between the Trustee and the Manager.

Pursuant to the Trust Deed, the Manager manages and administers the affairs of the Trust in accordance with the Regulations and this Prospectus.

Details of the fees payable to the Manager are set out in paragraph 7.2 "Charges payable to the Manager" below.

The Manager is the manager or authorised corporate director of certain authorised unit trusts and open-ended investment companies details of which are set out in Appendix IV.

## **6.3. The Trustee and Depositary**

### **6.3.1. General**

The Trustee and Depositary of the Trust is Northern Trust Investor Services Limited, a private limited company, incorporated on 29 April 2020 with company number 12578024. Its registered office, head office and principal place of business is at 50 Bank Street, Canary Wharf, London E14 5NT.

The Trustee is authorised and regulated by the Financial Conduct Authority with FRN: 927658.

The Trustee's ultimate holding company is Northern Trust Corporation, a company which is incorporated in the State of Delaware, United States of America, with its headquarters at 50 South La Salle Street, Chicago, Illinois.

The Trustee is responsible for the safekeeping of the Scheme Property and must ensure that the Trust is managed in accordance with the Trust Deed and the provisions of COLL and FUND relating to the pricing of, and dealing in, Units and relating to the income and investment and borrowing powers of the Trust. The Trustee is also responsible for monitoring the cash flows of the Trust, and must ensure that certain processes carried out by the Manager are performed in accordance with the FCA Rules, the Trust Deed and the Prospectus.

### **6.3.2. Conflicts of interest**

Trustee may act as the depositary of other open-ended investment companies and as trustee or custodian of other collective investment schemes.

It is possible that the Trustee and/or its delegates and sub-delegates may in the course of its or their business be involved in other financial and professional activities which may on occasion have potential conflicts of interest with the Trust and/or other funds managed by the Manager or other funds for which the Trustee acts as the depositary, trustee or custodian. The Trustee will, however, have regard in such event to its obligations under the Trust Deed and the Regulations and, in particular, will use reasonable endeavours to ensure that the performance of its duties will not be impaired by any such involvement it may have and that any conflicts which may arise will be resolved fairly and in the best interests of Unitholders collectively so far as practicable, having regard to its obligations to other clients.

There may also be conflicts arising between the Trustee and the Trust, the Unitholders or the Manager. In addition, the Trustee also has a regulatory duty

when providing the services to act solely in the interests of Unitholders and the Trust. In order to comply with this requirement, the Trustee may in some instances be required to take actions in the interests of Unitholders and the Trust where such action may not be in the interests of the Manager.

From time to time conflicts may arise from the appointment by the Depositary of any of its delegates. For example, the Custodian may also perform certain investment operations and functions and derivatives collateral management functions delegated to it by the Investment Manager, if applicable.

The Depositary and any other delegate, is required to manage any such conflict having regard to the FCA Rules and its duties under the Depositary Agreement.

The Depositary will ensure that any such delegates or sub-delegates who are its affiliates are appointed on terms which are not materially less favourable to the Trust than if the conflict or potential conflict had not existed. The Custodian and any other delegate are required to manage any such conflict having regard to the FCA Rules and its duties to the Trust and to the Manager.

The Depositary (and any of its affiliates) may effect, and make a profit from, transactions in which the Depositary (or its affiliates, or another client of the Depositary or its affiliates) has (directly or indirectly) a material interest or a relationship of any description and which involves or may involve a potential conflict with the Trustee's duty to the Trust.

This includes circumstances in which the Trustee or any of its affiliates or connected persons: acts as market maker in the investments of the Trust; provides broking services to the Trust and/or to other funds or companies; acts as financial adviser, banker, derivatives counterparty or otherwise provides services to the issuer of the investments of the Trust; acts in the same transaction as agent for more than one client; has a material interest in the issue of the investments of the Trust; or earns profits from or has a financial or business interest in any of these activities.

The Depositary has a conflict of interest policy in place to identify, manage and monitor on an on-going basis any actual or potential conflict of interest. The Trustee has functionally and hierarchically separated the performance of its depositary tasks from its other potentially conflicting tasks. The system of internal controls, the different reporting lines, the allocation of tasks and the management reporting allow potential conflicts of interest and the Trustee issues to be properly identified, managed and monitored.

Nevertheless, as the Trustee operates independently from the Trust, Unitholders, the Manager and its associated suppliers and the Custodian, the Trustee does not anticipate any conflicts of interest with any of the aforementioned parties.

#### **6.3.4. Delegation of safekeeping functions**

The Trustee is permitted to delegate (and authorise its delegate to sub-delegate) the safekeeping of Scheme Property.

The Trustee has delegated safekeeping of the Scheme Property to The Northern Trust Company ("the Custodian"). In turn, the Custodian has delegated the custody of assets in certain markets in which the Trust may invest to various sub-delegates ("Sub-custodians").

### 6.3.5. Updated information

Up to date information regarding:

- (i) the Trustee's name;
- (ii) the description of its duties and any conflicts of interest that may arise between the Trust, the Unitholders or the Manager and the depositary; and
- (iii) the description of any safekeeping functions delegated by the Trustee, the description of any conflicts of interest that may arise from such delegation, and the list showing the identity of each delegate and sub-delegate

will be made available to Unitholders on request.

### 6.3.6. Terms of appointment

The appointment of the Trustee has been made under an agreement (as amended and novated from time to time) between the Manager and the Trustee (the **"Depositary Agreement"**).

The Depositary Agreement is terminable on receipt of six months' written notice given by either party. In the event that the Trustee indicates that it wishes to retire as trustee of the Trust, the Trust shall use its best endeavours promptly to appoint a duly qualified replacement for the Trustee. If no such person has been appointed to replace the Trustee by the expiry of three months from the end of the period of notice, the Manager will co-operate with the Trustee in giving notice to the FCA of a proposal to wind up the affairs of the Trust.

Under the Trust Deed, the Trustee is free to render similar services to others and the Trustee is subject to a duty not to disclose confidential information.

The powers, duties, rights and obligations of the Trustee under the Trust Deed shall, to the extent of any conflict, be overridden by the FCA Rules.

Under the Trust Deed the Trustee will be liable to the Trust for any loss of Financial Instruments held in custody or for any liabilities incurred by the Trust as a direct result of the Trustee's fraud, negligence or negligent or intentional failure to fulfil its obligations under the Trust Deed or the UK AIFM regime.

However, where the event which led to the loss of a Financial Instrument is not the result of the Trustee's own act or omission (or that of its sub-custodian), the Trustee is discharged of its liability for the loss of a Financial Instrument where the Trustee can prove that the Trustee could not have reasonably prevented the occurrence of the event which led to the loss despite adopting all precautions incumbent on a diligent trustee as reflected in common industry practice and despite rigorous and comprehensive due diligence. The Manager will inform investors without delay of any changes with respect to the Trustee's liability.

Other than to exercise the rights of lien/set off over the Scheme Property in relation to unpaid fees and expenses in relation to the proper performance of services under the Depositary Agreement or sub-custody agreement, unless otherwise agreed by the Manager on behalf of the Trust, the Trustee shall not be entitled to, and no sub-custodian shall be authorised by the Trustee to re-use for its own purpose and benefit any of the Scheme Property it has been entrusted

with.

Details of the fees payable to the Trustee are given in paragraph 7.3.

#### UK GDPR

Northern Trust's EMEA Data Privacy Notice sets out how the Trustee will process Unitholders' personal information as a data controller where these details are provided to it in connection with Unitholders' investment in the Fund.

Northern Trust's EMEA Data Privacy Notice may be updated from time to time and readers should confirm that they hold the latest version which can be accessed at [www.northerntrust.com/united-kingdom/privacy/emea-privacy-notice](http://www.northerntrust.com/united-kingdom/privacy/emea-privacy-notice).

Any Unitholder who provides the Manager, and its agents, with personal information about another individual (such as a joint investor), must show Northern Trust's EMEA Data Privacy Notice to those individuals.

### **6.4. The Investment Manager**

#### **6.4.1. General**

The Manager has appointed the Investment Manager, Gravis Advisory Limited (registered number 09910124 and having its registered office at 24 Savile Row, London, United Kingdom, W1S 2ES) to provide investment management services to the Manager in respect of the Trust. The Investment Manager is authorised and regulated by the Financial Conduct Authority. The principal activity of the Investment Manager is the provision of investment management services.

#### **6.4.2. Terms of appointment:**

The terms of the Investment Management Agreement between the Manager and the Investment Manager provide that the Investment Manager has authority to make decisions on behalf of the Manager on a discretionary basis in respect of day to day investment management of the Scheme Property including authority to place purchase orders and sale orders. Subject to the agreement of the Manager, the Investment Manager may appoint sub-investment advisers to discharge some or all of these duties. The Agreement may be terminated by either party on not less than six months' written notice or immediately by the Manager if it is in the interests of investors.

The Investment Manager will receive a fee paid by the Manager out of its remuneration received each month from the Trust as explained in paragraph 7.1 below.

### **6.5. The Registrar, Administrator and Fund Accountant**

The Manager is responsible for maintaining the Register but has delegated its Registrar function, as well as the function of Administrator and Fund Accountant, to Northern Trust Global Services SE, UK branch whose registered office is set out in Appendix VI. The Register is maintained by the Registrar and may be inspected by any Unitholder (or any Unitholder's duly authorised agent) at 50 Bank Street, London E14 5NT during normal business hours.

## 6.6. **The Auditor**

The auditor of the Trust is Johnston Carmichael LLP.

The Auditors are responsible for auditing the annual accounts of the Trust and expressing an opinion on certain matters relating to the Trust in the annual report including whether its accounts have been prepared in accordance with applicable accounting standards, the Regulations and the Trust Deed

## 6.7. **Conflicts of Interest**

The Manager, the Investment Manager and other companies within the Manager's or Investment Manager's group may, from time to time, act as investment manager or advisers to other funds or sub-funds which follow similar investment objectives to those of the Trust/PAIF Fund. It is therefore possible that the Manager and/or the Investment Manager may in the course of its business have potential conflicts of interest with the Trust or that a conflict exists between the Trust and other funds managed by the Manager. Each of the Manager and the Investment Manager will, however, have regard in such event to its obligations under the Investment Management Agreement and, in particular, to its obligation to act in the best interests of the Trust so far as practicable, having regard to its obligations to other clients, when undertaking any investment business where potential conflicts of interest may arise. Where a conflict of interest cannot be avoided, the Manager and the Investment Manager will ensure that the Trust and other collective investment schemes they manage are fairly treated.

The Manager acknowledges that there may be some situations where the organisational or administrative arrangements in place for the management of conflicts of interest are not sufficient to ensure, with reasonable confidence, that risks of damage to the interests of the Trust or its unitholders will be prevented. Should any such situations arise the Manager will disclose these to unitholders in the report and accounts or otherwise in an appropriate format.

The Trustee may act as the depositary of other open-ended investment companies and as trustee or custodian of other collective investment schemes.

Details of the Manager's conflicts of interest policy are available on request.

## 6.8. **Non-accountability for profits**

Neither the Trust, the Manager, the Trustee, the Investment Managers (or any associate of the same) or the Auditor is liable to account to either each other or to Unitholders for any profits or benefits it makes or receives that are made or derived from or in connection with:

- a) dealings in the Units of the Trust; or
- b) any transaction in the Scheme Property; or
- c) the supply of services to the Trust.

## **7. FEES AND EXPENSES**

### **7.1. Ongoing**

Other costs, charges, fees or expenses, other than the charges made in connection with the subscription and redemption of Units (see paragraph 3.6) payable by a Unitholder or out of Scheme Property are set out in this section.

The Trust may, so far as the COLL Sourcebook and FUND allows, pay out of the Scheme Property all relevant costs, charges, fees and expenses including, but not limited to, the following:

- 7.1.1. the fees and expenses and other charges (including for the avoidance of doubt any performance fee) payable to the Manager; the Investment Manager, the Registrar/Administrator and the Trustee;
- 7.1.2. broker's commission, fiscal charges (including stamp duty and/or stamp duty reserve tax) and other disbursements which are necessary to be incurred in effecting transactions for the Trust and normally shown in contract notes, confirmation notes and difference accounts as appropriate;
- 7.1.3. fees and expenses in respect of establishing and maintaining the register of Unitholders, including any sub-registers and any associated incurred expenses whether they are provided by the Manager, its associates or any other person;
- 7.1.4. any costs incurred in or about the listing of Units in the Trust on any Stock Exchange, and the creation, conversion and cancellation of Units;
- 7.1.5. any costs incurred in establishing or maintaining any services or facilities for electronic dealing in Units;
- 7.1.6. any costs incurred by the Trust in publishing the price of the Units in a national or other newspaper or any other form of media;
- 7.1.7. any costs incurred in producing and dispatching any payments made by the Trust, or the yearly and half-yearly reports of the Trust;
- 7.1.8. any fees, expenses or disbursements of any legal or other professional adviser of the Trust or of the Trustee or Manager or Investment Manager in relation to the Trust;
- 7.1.9. any costs incurred in taking out and maintaining any insurance policy in relation to the Trust, Trustee and Manager;
- 7.1.10. any costs incurred in respect of meetings of Unitholders convened for any purpose (including meetings of Unitholders in any particular Class);
- 7.1.11. any payment permitted by clause 6.7.15R of the COLL Sourcebook;
- 7.1.12. interest on borrowings and charges incurred in effecting or terminating such borrowings or in negotiating or varying the terms

of such borrowings;

- 7.1.13. taxation and duties payable in respect of the Scheme Property or the issue or redemption of Units;
- 7.1.14. the audit fees of the Auditors (including VAT) and any expenses of the Auditors;
- 7.1.15. the fees of the FCA, in accordance with FCA's Fee Manual, together with any corresponding periodic fees of any regulatory authority in a country or territory outside the United Kingdom in which Units in the Trust are or may be marketed;
- 7.1.16. any expense incurred in relation to company secretarial duties including the cost of maintenance of minute books and other documentation required to be maintained by the Trust;
- 7.1.17. any costs incurred in modifying the Trust Deed, Prospectus, KIIDs and other materials of the Trust (including costs in respect of meetings of unitholder convened for the purposes);
- 7.1.18. any costs incurred in printing reports, accounts, the Trust Deed, Prospectus and KIID of the Trust, and any costs incurred as a result of periodic updates of such documents and any other administrative expenses;
- 7.1.19. any expense incurred in relation to each dealing transaction of Units of the Trust by way of example, including the cost of telephone, fax, postage and bank charges required to process a dealing transaction;
- 7.1.20. all fees and expenses of paying agents in countries other than the UK where units in the Trust are registered for retail sale;
- 7.1.21. the total amount of any cost relating to the authorisation and establishment of the Trust or issue of units;
- 7.1.22. any other fee, cost, charge or expense otherwise due or permitted to be deducted from the Trust under the Regulations and/or by virtue of a change to the Regulations;
- 7.1.23. any value added or similar tax relating to any charge or expense set out herein;
- 7.1.24. expenses properly incurred by the Manager in the performance of its duties as Manager of the Trust, including without limitation any costs incurred in preparing, translating, producing (including printing), distributing and modifying, any Trust Deed any prospectus or key investor information document (apart from the cost of distributing the key investor information document), or reports, accounts, statements, contract notes and other like documentation or any other relevant document required under the Regulations;
- 7.1.25. such other expenses as the Manager resolves are properly payable out of the Trust's property;

The Manager is also entitled to be paid by the Trust out of the Scheme Property

any expenses incurred by the Manager or its delegates of the kinds described above.

VAT will be added to these fees, charges and expenses where appropriate and will be payable by the Trust.

#### Allocation of expenses

Expenses are allocated between capital and income in accordance with the Regulations. However, the approach for the Trust is set out in Appendix I. **Deducting charges from capital may erode or constrain capital growth.**

Where expenses are deducted in the first instance from income, if and only if this is insufficient, the Manager and Trustee have agreed that all or part of the deductions will be made from capital (save for any charge made in respect of SDRT and except charges and expenses relating directly to the purchase and sale of investments). If deductions were made from capital, this would result in capital erosion and constrain growth.

The Manager and the Trustee have agreed that the fees payable to the Manager and the Trustee will be apportioned as is set out in Appendix I in respect of each share class.

## **7.2. Charges payable to the Manager**

### **7.2.1. Annual management charge**

In payment for carrying out its management duties and responsibilities the Manager is entitled to take an annual fee as set out in Appendix I. The annual management charge will accrue on a daily basis in arrears by reference to the Net Asset Value of the Trust on the immediately preceding Dealing Day and the amount due for each month is payable on the last Dealing Day of each month. There is no equivalent charge in the Classes into which the Trust invests as a feeder fund.

The current annual management charges for the Trust is set out in Appendix I. The fees payable to the Investment Manager(s) and Administrator are payable by the Manager out of its own fee income.

### **7.2.2. Expenses**

The Manager is also entitled to all reasonable, properly documented, out of pocket expenses incurred in the performance of its duties as set out above, including stamp duty, stamp duty reserve tax on transactions in shares/units and expenses incurred (both one-off and ongoing) in effecting regulatory changes to the Trust.

VAT is payable on the charges or expenses mentioned above, where appropriate.

If a Class's expenses in any period exceed its income the Manager may take that excess from the capital property attributable to that Class.

The current annual fee payable to the Manager for a Class may only be increased or a new type of remuneration introduced in accordance with the

Regulations.

Please note, as the Trust will invest solely in the PAIF Fund (and as with any investment in a collective investment scheme) the Trust will bear, along with other investors, its portion of the expenses of the PAIF Fund.

### **7.3. Trustee's fee and expenses**

The Trustee receives for its own account a periodic fee which will accrue daily and is due monthly on the last Valuation Point in each calendar month in respect of that day and the period since the last Valuation Point in the preceding month and is payable within seven days after the last Valuation Point in each month. The rate of the periodic fee shall be as agreed between the Manager and the Trustee from time to time and is currently 0.75 bps (0.0075%) per annum of the value of the Trust (plus VAT).

These rates can be varied from time to time in accordance with the Regulations.

In addition to the periodic fee referred to above, the Trustee shall also be entitled to be paid transaction and custody charges in relation to transaction handling and safekeeping of the Scheme Property as follows:

Item	Range
Custody charges	0.02% to 0.50%
Transaction charges	£2.50 to £50 per transaction

Transaction and custody charges vary from country to country depending on the markets and the type of transaction involved. Transaction charges accrue at the time the transactions are effected and are payable as soon as is reasonably practicable, and in any event not later than the last Business Day of the month when such charges arose or as otherwise agreed between the Trustee and the Manager. Custody charges accrue and are payable as agreed from time to time by the Manager, the Trustee and the Custodian.

Where relevant, the Trustee may make a charge for (or otherwise benefit from) providing services in relation to: distributions, the provision of banking services, holding money on deposit, lending money or engaging in stock lending or derivative transactions in relation to the Trust and may purchase or sell or deal in the purchase or sale of Scheme Property, provided always that the services concerned and any such dealing are in accordance with the provisions of the Regulations.

The Trustee will also be entitled to payment and reimbursement of all costs, liabilities and expenses properly incurred in the performance of, or arranging the performance of, functions conferred on it by the Trust Deed, the Regulations or the general law.

On a winding up, redemption or termination of the Trust, the Trustee will be entitled to its pro rata fees, charges and expenses to the date of winding up, redemption or termination (as appropriate) and any additional expenses necessarily realised in settling or receiving any outstanding obligations.

Any value added tax on any fees, charges or expenses payable to the Trustee will be added to such fees, charges or expenses.

Any of the Trustee's fees, charges and expenses described above may be

payable to any person (including the Manager or any associate or nominee of the Trustee or of the Manager) who has had the relevant duty delegated to it by the Trustee pursuant to the FCA Rules.

#### **7.4 Administration, registration and transaction fees**

The administration of the Trust will be carried out by Northern Trust Global Services SE, UK branch, who will also act as Registrar and Fund Accountant.

The Manager is responsible for the payment of the fees of the Administrator. The Manager will pay the Administrator's fees from the annual management charge.

The charges and expenses associated with the setting up of transactions and any ongoing charges and expenses reasonably and properly incurred in respect of the processing and implementation of electronic transfers will be taken from the Scheme Property of the Trust.

### **8. TRUST DEED**

The Trust Deed is available for inspection at the registered offices of the Manager (set out in Appendix VI).

### **9. UNITHOLDER MEETINGS AND VOTING RIGHTS**

9.1. For the purposes of this paragraph:

9.1.1. a "physical meeting" is a general meeting convened at a physical location where Unitholders, or their proxy, must be physically present;

9.1.2. a "hybrid meeting" is a general meeting which allows Unitholders, or their proxy, to be physically present at the location where the meeting is convened, or to attend and vote remotely; and

9.1.3. a "virtual meeting" is a general meeting where all Unitholders, or their proxy, attend and vote remotely.

9.2. The provisions below, unless the context otherwise requires, apply to Class meetings as they apply to general meetings of Unitholders.

9.3. The Manager and the Trustee may convene a general meeting of Unitholders at any time in accordance with the FCA Rules. The Manager may hold a virtual meeting or a hybrid meeting as this is not inconsistent with any provisions in the Trust Deed.

9.4. Unitholders may request the convening of a general meeting by a requisition which must:

9.4.1. state the objective of the meeting;

9.4.2. be dated;

9.4.3. be signed by Unitholders who, at that date, are registered as the Unitholders of Units representing not less than one-tenth in value of all of the Units then in issue; and

9.4.4. be deposited with the Trustee.

- 9.5. Any Unitholder who participates remotely in a hybrid meeting by the means specified in the notice is deemed to be present at the meeting and has the same rights as a Unitholder who is physically present at the meeting.
- 9.6. Any Unitholder who participates in a virtual meeting by the means specified in the notice is deemed to be present at the meeting and has the same rights that the Unitholder would have at a physical meeting.
- 9.7. Any Unitholder who participates remotely may do so without having to appoint a proxy and is not required to submit their vote on a resolution in advance of the meeting.
- 9.8. A meeting of Unitholders, duly convened and held shall be competent by extraordinary resolution to require, authorise or approve any act, matter or document in respect of which any such resolution is required or expressly contemplated by the relevant regulations.
- 9.9. An extraordinary resolution is a resolution passed by a majority of not less than three-quarters of the votes validly cast (whether on a show of hands or on a poll) for the resolution at a general meeting, or, as the case may be, a Class meeting of Unitholders.
- 9.10. Except where an extraordinary resolution is specifically required or permitted, any resolution of Unitholders is passed by a simple majority of the votes validly cast.
- 9.11. A meeting of Unitholders has no powers other than those contemplated by the FCA Rules.
- 9.12. Where a meeting of Unitholders is convened by the Manager or the Trustee, Unitholders must receive at least 14 days' written notice (inclusive of the date on which the notice is first served and the day of the meeting) and the notice shall specify:
  - 9.12.1. whether the meeting is to be a physical meeting, a hybrid meeting or a virtual meeting;
  - 9.12.2. if the meeting is a physical meeting or a hybrid meeting, the place of the meeting;
  - 9.12.3. if the meeting is a hybrid meeting or a virtual meeting, the means by which a Unitholder may participate, including any requirements for Unitholders to register before the meeting begins or to provide proof of their right to attend, and an explanation of how participating Unitholders may vote in a show of hands or in a poll, if they do not appoint a proxy;
  - 9.12.4. the day and hour of the meeting;
  - 9.12.5. the terms of the resolutions to be proposed; and
  - 9.12.6. the address of the website where the minutes of the meeting will subsequently be published.
- 9.13. Where the notice is served by the Manager a copy shall be sent to the Trustee.
- 9.14. The accidental omission to give notice to, or the non-receipt of notice by any

Unitholder will not invalidate the proceedings at any meeting.

- 9.15. Notice of an adjourned meeting of Unitholders must be given to each Unitholder, stating that while two Unitholders are required to be present, in person, by proxy or remotely, to constitute a quorum at the adjourned meeting, this may be reduced to one in accordance with COLL 4.4.6R(3), should two such Unitholders not be present after a reasonable time of convening of the meeting.
- 9.16. Where the meeting is a hybrid meeting or a virtual meeting, the Manager shall take reasonable care to ensure that the necessary supporting technology to enable Unitholders to attend and vote is in place at the start of the meeting and operates adequately throughout its proceedings, so that Unitholders who attend or vote remotely are not unfairly disadvantaged.
- 9.17. The quorum at a meeting of Unitholders shall be two Unitholders present in person, by proxy or (where applicable) remotely using the means specified in the notice. If, after a reasonable time after the start of the meeting, a quorum is not present, the meeting:
- 9.17.1. if convened on the requisition of Unitholders, must be dissolved; and
- 9.17.2. in any other case, must stand adjourned to:
- a day and time which is seven or more days after the day and time of the meeting; and
  - in the case of a physical meeting or a hybrid meeting, a place to be appointed by the chair.
- 9.17.3. If, at an adjourned meeting under paragraph 9.17.2, a quorum is not present after a reasonable time from the time for the meeting, one person entitled to be counted in a quorum present at the meeting shall constitute a quorum.
- 9.17.4. The chair of a meeting which permits Unitholders to attend and vote remotely shall take reasonable care to give such Unitholders:
- an adequate opportunity to be counted as present in the quorum; and
  - sufficient opportunities to participate fully in the proceedings of the meeting, in particular when a vote is taken on a show of hands or by poll.
- 9.18. In the case of an equality of votes cast, the chair is entitled to a casting vote.
- 9.19. At any meeting of Unitholders, on a show of hands every Unitholder who is present in person or who attends the meeting remotely using the means specified in the notice, shall have one vote.
- 9.20. On a poll, votes may be given either personally or by proxy or in another manner permitted by the Trust Deed. The voting rights for each Unit must be the proportion of the voting rights attached to all of the Units in issue that the price of the Units bears to the aggregate price or prices of all of the Units in issue at a cut-off date selected by the Manager which is a reasonable time before notice of the meeting is sent out. A Unitholder entitled to more than

one vote need not, if they vote, use all their votes or cast all the votes they use in the same way. For joint Unitholders, the vote of the first Unitholder, or the proxy of the first Unitholder, stated in the Register will be accepted to the exclusion of the votes of other joint Unitholders.

- 9.21. In the context of despatch of notice, Unitholders means the persons who were entered in the Register seven days before the notice of meeting was given but excluding persons who are known not to be entered on the Register at the date of despatch of the notice.
- 9.22. To be included in the quorum and entitled to vote at the meeting, Unitholders mean the persons entered on the register at a time determined by the Manager and stated in the notice of the meeting, which must not be more than 48 hours before the time fixed for the meeting.
- 9.23. The Manager is not entitled to vote at or be counted in a quorum at a meeting of Unitholders in respect of Units held or deemed to be held by the Manager, except where the Manager holds Units on behalf of, or jointly with, a person who, if themselves the sole registered Unitholder would be entitled to vote, and from whom the Manager has received voting instructions. Associates of the Manager are entitled to be counted in a quorum and, if they hold Units on behalf of a person who would have been entitled to vote if they had been a registered Unitholder and they have received voting instructions from that person, may vote in respect of such Units pursuant to such instructions.
- 9.24. The Manager will publish the minutes on a website accessible to the general public without charge, no later than 5 Business Days after the meeting has taken place (but in the case of an original meeting which is adjourned, the minutes will be published no later than 5 Business Days after the adjourned meeting has taken place).
- 9.25. Any notice or document to be served upon a Unitholder will be duly served if it is:
  - 9.25.1. delivered to the Unitholder's address as appearing in the register; or
  - 9.25.2. sent using an electronic medium in accordance with paragraph 3.2.
- 9.26. Any notice or document served by post is deemed to have been served on the second Business Day following the day on which it was posted.
- 9.27. Any document left at a registered address or delivered other than by post is deemed to have been served on that day.
- 9.28. Any notice or document served by post on one joint Unitholder is deemed to also have been served on each other joint Unitholder whose address, as appearing on the Register, is the same address to which the notice or document was sent.
- 9.29. Any document or notice to be served on, or information to be given to a Unitholder, must be in legible form. For this purpose, any form is a legible form if it:
  - 9.29.1. is consistent with the Manager's knowledge of how the recipient of the document wishes or expects to receive the document;
  - 9.29.2. is capable of being provided in hard copy by the Manager;

- 9.29.3. enables the recipient to know or record the time of receipt; and
  - 9.29.4. is reasonable in the context.
- 9.30. Changes to the Trust are classified as fundamental, significant or notifiable.
- 9.31. The Manager must obtain the prior approval of Unitholders by extraordinary resolution for any proposed change to the Trust which constitutes a "fundamental change". This is a change or event which:
- 9.31.1. changes the purpose or nature of the Trust;
  - 9.31.2. may materially prejudice a Unitholder;
  - 9.31.3. alters the risk profile of the Trust; or
  - 9.31.4. introduces a new type of payment out of the Scheme Property.
- 9.32. The ACD must give prior written notice to Unitholders of any proposed change which constitutes a "significant change". This is a change or event which is not fundamental, but which:
- 9.32.1. affects a Unitholder's ability to exercise their rights in relation to their investment;
  - 9.32.2. would reasonably be expected to cause the Unitholder to reconsider their participation in the Trust;
  - 9.32.3. results in any increased payments out of Scheme Property to the Manager, or an Associate of the Manager; or
  - 9.32.4. materially increases other types of payment out of the Scheme Property.
- 9.33. The notice period must be a reasonable length and must not be less than 60 days.
- 9.34. The Manager must inform Unitholders in an appropriate manner and timescale of any notifiable changes that are reasonably likely to affect, or have affected, the operation of the Trust. This is a change or event, other than a fundamental or significant change, which a Unitholder must be made aware of unless the Manager concludes the change is insignificant. The appropriate manner and timescale of notification will depend on the nature of the change or event. An appropriate manner of notification could include the information being included in the next report of the Trust.
- 9.35. Changes to the investment objective and policy will normally require approval by Unitholders at an extraordinary general meeting if the change alters the nature or risk profile of the Trust, or on giving 60 days' notice to Unitholders where the changes do not alter the nature or risk profile of the Trust. In exceptional circumstances, changes may be made to the investment objective and policy of the Trust with no minimum period of notice where these are for clarification purposes only. In all cases, changes may only be made to the investment objective and policy following notification to the FCA pursuant to the Act and confirmation from the FCA that these changes will not affect the ongoing authorisation of the Trust.

## **10. TAXATION**

### **10.1. General**

The information below is a general guide based on current United Kingdom law and HM Revenue & Customs practice as at the date of this Prospectus, all of which are subject to change. It is not intended to be exhaustive and there may be other tax considerations which may be relevant to prospective investors.

It summarises the tax position of the Trust and of investors who are resident in the United Kingdom for tax purposes and hold Units as investments. The regime for taxation of income and capital gains received by investors depends on the tax law applicable to their particular circumstances and/or the place where the Scheme Property is invested.

Prospective investors who are in any doubt about their tax position, or who may be subject to tax in a jurisdiction other than the United Kingdom, are recommended to take professional advice.

### **10.2. The Trust**

The Trust is an authorised unit trust and is treated as an Authorised Investment Fund for tax purposes. The Trust is generally exempt from United Kingdom corporation tax on capital gains realised on the disposal of its investment in the PAIF Fund.

The Trust will receive income (or be deemed to do so in the case of accumulation Units) from the PAIF Fund. This will be streamed for tax purposes into up to three parts depending on the nature of the income generated by the PAIF Fund

- property income distributions (representing property income received by the PAIF Fund) will be received net of basic rate income tax (and it is expected that tax on property income distributions will be aligned with the increased basic rate for property income from April 2027) and no further corporation tax will be payable by the Trust on them;
- PAIF dividend distributions (representing any dividends received by the PAIF Fund and certain other income) will be exempt from corporation tax; and
- PAIF interest distributions (representing the net amount of all other income received by the PAIF Fund) will be received gross and subject to corporation tax.

The Trust will pay all distributable income as dividend distributions (or accumulate it in the case of accumulation Units). Income of the Trust will be deemed to be distributed for tax purposes, even when it is accumulated. References below to dividend distributions include deemed distributions of accumulated income.

### **10.3. Unitholders**

#### **Income**

#### **Individuals:**

Individuals resident in the UK liable to income tax at the basic, higher or additional rate will be taxed at the appropriate dividend rate on the receipt of dividend distributions subject to the availability of allowances and reliefs including the annual dividend allowance.

#### 10.3.1 **Corporate:**

Corporation tax payers which receive dividend distributions (or are deemed to do so in the case of accumulation Units) will have to divide them into two for tax purposes if the Trust received any PAIF dividend distributions, in which case the division will be indicated on the tax voucher. Any part representing dividends received from a company will be treated as dividend income (that is, franked investment income) and no further tax will be due on it. The remainder will be treated as an annual payment after deduction of income tax at the basic rate, and corporate Unitholders may, depending on their circumstances, be liable to tax on the grossed up amount, with the benefit of any income tax credit attached or to reclaim part of the tax credit as shown on the tax voucher.

#### 10.3.2. **Capital gains**

Unitholders who are resident in the United Kingdom for tax purposes may, depending on their personal circumstances, be liable to capital gains tax or, if a corporate Unitholder, corporation tax on gains arising from the redemption, transfer or other disposal of Units (including from Switches, but not from Conversions). A relief from capital gains tax applies to exchanges of Units for units in the PAIF Fund done with the agreement of the Manager.

Part of any increase in value of accumulation Units represents the accumulation of income (including income equalisation but excluding the tax credit). These amounts may be added to the acquisition cost when calculating the capital gain realised on their disposal.

An exchange of Units of the Trust for units/shares in another fund will normally be treated as a disposal for this purpose but exchanges of Units between classes in the same fund are generally not.

#### 10.3.3. **Inheritance tax**

Holdings of Units of an individual unitholder who is long-term UK resident may become subject to an inheritance tax liability under the following circumstances. During an individual's lifetime, any transfer of holdings at less than market value may be liable.

Additionally, transfer following the death of the individual may also be liable. The charge to inheritance tax is not restricted to UK individuals. Reliefs and exemptions may apply to reduce or extinguish any liability to inheritance tax. Investors should seek professional advice if they are unclear on the inheritance tax consequences of investing in the Trust.

#### 10.3.4. **Income Equalisation**

The first income allocation received by an investor after buying Units may include an amount of income equalisation. This is effectively a repayment of the income equalisation paid by the investor as part of the purchase price. It is a return of capital, and is not taxable. Rather it should be deducted from the acquisition cost of the Units for capital gains tax purposes.

### 10.4. **Reporting of tax information**

The Trust and the Manager are subject to obligations which require them to provide certain information to relevant tax authorities about the Trust, investors and payments made to them.

Under the Automatic Exchange of Information (AEOI) Regime the Company is obliged to share certain information in relation to investors with HMRC which will be shared with other tax authorities. AEOI refers to US Foreign Account Tax Compliant Act ("FATCA") and associated inter-governmental agreements and OECD's Common Reporting Standard ("CRS") as applicable in participating jurisdictions.

Failure to comply with these requirements will subject a Sub-fund to US withholding taxes on certain US-sourced income and gains under FATCA and various penalties as applicable in different participating jurisdictions for being non-compliant with CRS regulations

Unitholders may be asked to provide additional information to the Manager to enable the Trust to satisfy these obligations. Failure to provide requested information under FATCA may subject a Unitholder to liability for any resulting US withholding taxes, US tax information reporting and/or mandatory redemption, transfer or other termination of the Unitholder's interest in the Trust.

To the extent the Trust is subject to withholding tax as a result of:

- a Unitholder failing (or delaying) to provide relevant information to the Manager;
- a Unitholder failing (or delaying) to enter into a direct agreement with the IRS;
- the Trust becoming liable under FATCA or any legislation or regulation to account for tax in any jurisdiction in the event that a Unitholder or beneficial owner of a Unit receives a distribution, payment or redemption, in respect of their Units or disposes (or be deemed to have disposed) of part or all of their Units in any way;

(each a "Chargeable Event"),

the Manager may take any action in relation to a Unitholder's or beneficial owner's holding to ensure that such withholding is economically borne by the relevant Unitholder or beneficial owner, and/or the Manager and/or its delegate or agent shall be entitled to deduct from the payment arising on a Chargeable Event an amount equal to the appropriate tax. The action by the Manager may also include, but is not limited to, removal of a non-compliant Unitholder from the Trust or the Manager or its delegates or agents redeeming or cancelling such number of Units held by the Unitholder or such beneficial owner as are required to meet the amount of tax. Neither the Manager nor its delegate or agent, will be obliged to make any additional payments to the Unitholder or beneficial owner in respect of such withholding or deduction.

Each investor agrees to indemnify the Trust, each Fund and/or the Manager and its delegates/agents for any loss caused by such investor arising to the Trust and/or Manager and/or its delegates/agents by reason of them becoming liable to account for tax in any jurisdiction on the happening of a Chargeable Event.

**As noted above, the foregoing statements are based on UK law and HMRC practice as known at the date of this Prospectus, which is subject**

**to change, and are intended to provide general guidance only. Unitholders and applicants for Units are recommended to consult their professional advisers if they are in any doubt about their tax position.**

**No liability is accepted by the Manager for such interpretation and all Unitholders should seek independent legal and taxation advice.**

## **11. WINDING UP OF THE TRUST**

The Trust will not be wound up except under the COLL Sourcebook.

Where the Trust is to be wound under the COLL Sourcebook, such winding up may only be commenced following approval by the FCA. The FCA may only give such approval if the Manager provides a statement (following an investigation into the affairs of the Trust or Fund) either that the Trust will be able to meet its liabilities within 12 months of the date of the statement or that the Trust will be unable to do so. The Trust may not be wound up under the COLL Sourcebook if there is a vacancy in the position of Manager at the relevant time.

The Trust shall be wound under the COLL Sourcebook:

- 11.1. if the order declaring the Trust to be an authorised unit trust scheme is revoked;
- 11.2. if an extraordinary resolution winding up the AUT is passed, provided FCA's prior consent to the resolution has been obtained by the Manager or Trustee;
- 11.3. if the Manager or the Trustee requests the FCA to revoke the order declaring the Trust to be an authorised unit trust scheme and FCA has agreed (provided no material change in any relevant factor occurs) that on the winding-up of the Trust, FCA will accede to that request;
- 11.4. on the expiration of any period specified in the Trust Deed as the period at the end of which the Trust is to terminate; or
- 11.5. on the effective date of a duly approved scheme of arrangement which is to result in the Trust being left with no property.

On the occurrence of any of the above:

- 11.6. COLL 6.2 (Dealing), COLL 6.3 (Valuation and Pricing) and COLL 5 (Investment and borrowing powers) will cease to apply to the Trust (except in respect of the final calculation);
- 11.7. the Trustee will cease to issue and cancel Units in the Trust and the Manager shall cease to sell or redeem Units or arrange for the Trust to issue or cancel them for the Trust (except in respect of a final cancellation);
- 11.8. no transfer of a Unit shall be registered and no other change to the Register of Unitholders shall be made without the sanction of the Manager;
- 11.9. where the Trust is being wound, the Trust shall cease to carry on its business except in so far as it is beneficial for the winding up of the Trust;
- 11.10. the corporate status and powers of the Trust and subject to 11.6 to 11.9 above, the powers of the Manager and Trustee shall continue until the Trust

is dissolved. The Manager and Trustee must ensure that it keeps Unitholders appropriately informed about the winding up including, if known, its likely duration.

The Trustee shall, as soon as practicable after the winding up commences, realise the assets and meet the liabilities of the Trust and, after paying out or retaining adequate provision for all liabilities properly payable and retaining provision for the costs of winding up make one or more interim distributions out of the proceeds to Unitholders proportionately to their rights to participate in the Scheme Property. Any unclaimed net proceeds or other cash (including unclaimed distribution payments) held by the Trustee after one year from the date on which they became payable must be paid by the Trustee into court (or, in Scotland, as the court may direct), subject to the Trustee having a right to retain any expenses properly incurred by them relating to that payment.

On completion of the winding-up, the Trustee will notify the FCA in writing of that fact and the Trustee or the Manager will request the FCA to revoke the order of authorisation.

## **12. GENERAL INFORMATION**

### **12.1. Accounting periods**

The annual accounting period of the Trust ends each year on 31 December (the accounting reference date). Details of the interim accounting periods are set out in Appendix I.

Distributions of income for the Company are made on or before the annual income allocation date and on or before the interim income allocation date in each year.

### **12.2. Notice to Unitholders**

All notices or other documents sent by the Manager to a Unitholder will be sent by normal post (or by email if the Unitholder agrees) to the last address (or email address as appropriate) notified in writing to the Trustee by the Unitholder.

### **12.3. Income allocations**

The interim and final allocation dates in respect of the Trust is set out in Appendix I

In relation to income Units, distributions of income in which income units are issued are paid by bank transfer directly into a Unitholder's bank account on or before the relevant income allocation date in each year as set out in Appendix I.

### **Distributions for all Share Classes will be paid in the Base Currency (pounds sterling).**

For accumulation Units, income will become part of the capital property of the Trust and will be reflected in the price of each such accumulation unit as at the end of the relevant accounting period.

The Trustee may at its option carry out any authentication procedures that it considers appropriate to verify, confirm or clarify unitholder payment instructions relating to dividend payments. This aims to mitigate the risk of

error and fraud for the Trust, its agents or Unitholders. Where it has not been possible to complete any authentication procedures to its satisfaction, the Trustee and transfer agent may, at its discretion, delay the processing of payment instructions until authentication procedures have been satisfied, to a date later than the envisaged dividend payment date.

If the Trustee is not satisfied with any verification or confirmation, it may decline to execute the relevant dividend payment until satisfaction is obtained. Neither the Trustee nor Manager shall be held responsible to the Unitholder or anyone if it delays execution or declines to execute dividend payments in these circumstances.

If a distribution made in relation to any income Units remains unclaimed for a period of six years after it has become due, it will be forfeited and will revert to the Trust.

The amount available for distribution in any accounting period is intended to be the entire net income received or deemed to be received from the PAIF Fund. It will be calculated by taking the aggregate of the income received or receivable in respect of that period, and deducting any charges and expenses paid or payable out of income in respect of that accounting period. The Trustee and/or Manager then makes such other adjustments as it considers appropriate (and after consulting the Trust's Auditors as appropriate) in relation to taxation, income equalisation, income unlikely to be received within 12 months following the relevant income allocation date, income which should not be accounted for on an accrual basis because of lack of information as to how it accrues, transfers between the income and capital account and other matters.

#### 12.4. **Annual reports**

Annual reports of the Trust will be published within four months of each annual accounting period and half yearly reports will be published within two months of each interim accounting period. The report containing the full accounts will be available upon request free of charge.

#### 12.5. **Documents of the Trust and the PAIF Fund**

The following documents may be inspected free of charge during normal business hours on any Business Day at the offices of the Manager at the address set out in Appendix VI.

12.5.1. the Prospectus and the prospectus of the PAIF Fund;

12.5.2. the most recent annual and half yearly reports of the Trust;

12.5.3. the instrument of incorporation of the PAIF Fund;

12.5.4. the Trust Deed (and any amending documents); and

12.5.5. the material contracts referred to below.

Unitholders may obtain copies of the above documents from the Manager. The Manager may make a charge at its discretion for copies of documents (apart from the most recent versions of the Prospectus and annual and half yearly reports of the Trust which are available free of charge to anyone who requests).

## 12.6. **Material contracts**

The following contracts, not being contracts entered into in the ordinary course of business, have been entered into by the Trust and are, or may be, material:

12.6.1. the Investment Management Agreement between the Manager and the Investment Manager; and

12.6.2. the Trust Deed between the Trust, the Trustee and the Manager.

Details of the above contracts are given under paragraph 6 "Management and Administration".

## 12.7. **Provision of investment advice**

Neither the Manager nor any of its officers, representatives or advisers shall be regarded as giving investment advice and persons requiring such advice should consult a professional financial adviser. All applications for Units are made solely on the basis of the current prospectus of the Trust, and investors should ensure that they have the most up to date version.

## 12.8. **Telephone calls**

Telephone calls may be recorded for regulatory, training or monitoring purposes..

Recordings will be provided on request for a period of least five years from the date of such recording or, where requested by a competent authority, for a period of seven years where the ACD can identify the call. If an investor asks the ACD to send a recording of a particular call, the ACD may ask for further information to help identify the exact call to which the request relates.

## 12.9. **Complaints**

Unitholders who have a complaint about the operation of the Trust should in the first instance contact the Manager.

If a complaint cannot be resolved satisfactorily with the Manager, it may be referred to the Financial Services Ombudsman at Exchange Tower, London E14 9SR or online at <https://www.financial-ombudsman.org.uk/>. A copy of the Manager's complaints handling procedure is available from the Manager on request.

## 12.10. **Risk management**

The Manager will provide upon the request of a Unitholder further information relating to:

12.10.1. the quantitative limits applying in the risk management of the Trust;

12.10.2. the methods used in relation to 12.10.1; and

12.10.3. any recent development of the risk and yields of the main categories of investment.

#### 12.11. **Best execution**

The Manager's order execution policy sets out the factors which the Manager expects the Investment Manager to consider when effecting transactions and placing orders in relation to the Trust. This policy has been developed in accordance with the Manager's obligations under the Regulations to obtain the best possible result for the Trust.

Details of the order execution policy are available on request.

#### 12.12. **Information available to Unitholders**

The following information will be made available to Unitholders as part of the Trust's periodic reporting and, as a minimum, in the annual report:

- (a) the percentage of the Trust's assets which will be subject to special arrangements arising from their illiquid nature, including an overview of any special arrangements in place, the valuation methodology applied to assets which are subject to such arrangements and how management and performance fees will apply to these assets;
- (b) the current risk profile of the Trust, and information on the risk management systems used by the Manager to manage those risks;
- (c) the total amount of leverage employed by the Trust calculated in accordance with the gross and commitment methods; and
- (d) any material changes to the information above.

It is intended that Unitholders will be notified promptly of any material changes to the liquidity management systems and procedures such as the suspension of redemptions, the deferral of redemptions or similar special liquidity arrangements. It is intended that any changes to the maximum level of leverage which the Trust may employ will be provided to Unitholders without undue delay.

#### 12.13. **Professional liability risks**

The Manager covers potential professional liability risks arising from its activities as the Trust's AIFM through additional own funds.

#### 12.14. **Fair treatment of investors**

The Manager ensures fair treatment of investors by its compliance with the applicable rules in COLL and FUND and with the rules contained in the FCA Handbook.

The Manager is required, under the FCA Handbook, to treat its customers fairly when they become, remain or cease to be Unitholders. The Manager complies with the rules in the FCA Handbook, and has adopted a series of policies and procedures (including a conflict of interest policy) which are designed to achieve this outcome.

The Manager may in certain circumstances grant preferential treatment to investors. This may include, for example, access to certain Classes, a waiver or reduction of certain charges, the payment of rebates, or access to individuals within the Manager or the Investment Manager. If such rights

are granted, this would typically be to Unitholders who invest significant amounts in the Trust. Such investors would not typically be legally or economically linked to the Manager.

Any Unitholder may be granted preferential treatment in relation to the terms of its investment in the Trust by the Manager, the Investment Manager and/or any other service provider to the Trust.

#### 12.15. **Genuine diversity of ownership**

The Manager must market and make available the Units in accordance with Regulation 9A(6)(a) of the Tax Regulations. Units in the Trust and information on the Trust are and will continue to be marketed and made easily and widely available to reach the intended categories of investors and in a manner appropriate to attract those categories of investors. The intended categories of investors are retail and institutional investors.

#### 12.16. **Recognition and Enforcement of Judgements**

The UK AIFMD regime requires the Manager to give details of legal instruments providing for the recognition and enforcement of judgments in England and Wales (which is the territory in which the Trust is established). The laws of England and Wales provide a number of legal mechanisms for the recognition and enforcement of judgments.

#### 12.17. **Unitholders' rights**

Unitholders are entitled to participate in the Trust on the basis set out in this prospectus (as amended from time to time). Paragraphs 12.9 ("Complaints"), 9 ("Unitholder Meetings and Voting Rights"), 12.4 ("Annual Reports") and 12.5 ("Documents of the Trust") of this Prospectus set out important rights about Unitholders' participation in the Trust.

Unitholders may have no direct rights against the service providers to the Trust.

The Manager must ensure that this Prospectus does not contain any untrue or misleading statement or omit any matter required to be disclosed in the Prospectus by the FUND Sourcebook or the COLL Sourcebook. To the extent that a Unitholder incurs loss as a consequence of an untrue or misleading statement or omission, the Manager may be liable to compensate that Unitholder subject to the Manager having failed to exercise reasonable care to determine that the statement was true and not misleading or that the omission was appropriate, in accordance with the FCA Handbook.

Unitholders have statutory and other legal rights which include the right to complain and may include the right to cancel an order or seek compensation.

Unitholders who are concerned about their rights in respect of the Trust should seek legal advice.

#### 12.18. **Financial Services Compensation Scheme**

The Manager is covered by the Financial Services Compensation Scheme. Unitholders may be entitled to compensation from the scheme if the Manager cannot meet its obligations. This depends on the type of business and the circumstances of the claim. Most types of investment businesses are covered for 100% of investments up to £85,000. Further information is available from:

The Financial Services Compensation  
Scheme PO Box 300, Mitcheldean GL17  
1DY

Tel: 0800 678 1100

Website: [www.fscs.org.uk](http://www.fscs.org.uk)

12.19. **Governing law and jurisdiction**

The Trustee treats a Unitholder's participation in the Trust as governed by the law of England and Wales. The Courts of England and Wales will have exclusive jurisdiction to settle any disputes or claims which may arise out of, or in connection with, a Unitholder's participation in the Trust.

## APPENDIX I

### PART A - TRUST DETAILS

#### TM GRAVIS UK LISTED PROPERTY (FEEDER) FUND

<b>Type of Scheme:</b>	NURS scheme
<b>PRN:</b>	913629
<b>Investment Objective &amp; Policy:</b>	The investment objective is to achieve income and capital growth through investment in the TM Gravis UK Listed Property (PAIF) Fund.
<b>Investment Policy:</b>	The Trust will invest all or substantially all of its assets in the Class F shares of the TM Gravis UK Listed Property (PAIF) Fund. To the extent that the Trust is not fully invested in the TM Gravis UK Listed Property (PAIF) Fund, the Trust will hold its remaining assets in cash.
<b>Benchmark:</b>	The Trust does not have a specific benchmark. The performance of the Fund can be measured by considering whether the objective is achieved (i.e. whether there is capital growth over the medium to long term).

<b>Accounting date:</b>	Final: 31 December Interim: 31 March, 30 June, 30 September
<b>Distribution dates:</b>	Final: by 31 January Interim: by 30 April, 31 July, 31 October

<b>Units Classes:</b>	F (£), F (€) (Hedged), F (\$) (Hedged) – Income F (£), F (€) (Hedged), F (\$) (Hedged) – Accumulation G (£) – Income G (£) – Accumulation
-----------------------	--

<b>Initial charge:</b>	Class F: 4%** Class G: 4%**
<b>Redemption Charge:</b>	Nil

**Switching Charge:** Nil

**Annual Management Charge:** Class F 0.70% (per annum)  
Class G 0.65% (per annum)

the above percentages being a percentage of the Net Asset Value attributable to the relevant Class (plus VAT if applicable).

**Trustee Fee:** See section 7.3 of the Prospectus

**Charges taken from:** Capital

*Note: Deducting charges from capital may erode or constrain capital growth.*

### **Investment minima: \*\***

Lump sum Class F: £100

subscription Class G: £10,000,000

Top-up Class F: £100

Class G: £10,000

Holding Class F: £100

Class G: £10,000,000

Redemption N/A (provided minimum holding is maintained)

Switching N/A (provided minimum holding is maintained)

**Initial price of Units:** £1

**Performance Fee:** No.

**Profile of a Typical Investor/ Target Market:** **The Trust is available to a wide range of investors seeking to invest for the medium to long term who wish to gain access to a portfolio managed in accordance with a specific investment objective and policy and invest in the PAIF Fund. Investors must be prepared to accept fluctuations in the value of capital including capital loss and accept the risks of investing in equity markets.**

**Different Classes of Unit may be issued in respect of the Trust. The Classes currently available in respect of the Trust are set out above. The Trust can be marketed to all types of eligible investor subject to the applicable legal and regulatory requirements in the relevant jurisdiction(s). Investors should read the risk warnings set out in this Prospectus before investing.**

**Type of clients:** retail, professional clients and eligible counterparties (subject to the applicable legal and regulatory requirements in the relevant jurisdiction).

**Clients' knowledge and experience:** investors with at least basic knowledge and experience of funds which are to be managed in accordance with a specific investment objective and policy.

**Clients' financial situation with a focus on ability to bear losses:** Investors must be prepared to accept fluctuations in the value of capital including capital loss and accept the risks of investing in equity markets, including having the ability to bear 100% capital loss.

**Clients' risk tolerance and compatibility of risk/reward profile of the product with the target market:** due to the volatility of markets and specific risks of investing in shares in a fund (including those set out in the risk warnings in this Prospectus), investors should have a high risk tolerance. They should be willing to accept price fluctuations in exchange

for the opportunity of higher returns.

**Clients' objectives and needs:** investors should be seeking to invest for the medium to long term who wish to gain access to a portfolio managed in accordance with the specific investment objective and policy of the Trust. Investors will be seeking a fund with moderate risk profile.

**Clients' who should not invest:** Units in the Trust are deemed incompatible for investors which:

- are looking for full capital protection or full repayment of the amount invested and clients who want a guaranteed return (whether income or capital)
- are fully risk averse/have no risk tolerance
- need a fully guaranteed income of fully predictable return profile

**Distribution channel:** This product is eligible for all distribution channels (e.g. investment advice, portfolio management, non-advised sales and pure execution services).

**\*\*The Manager may waive the minimum levels (and initial charge) at its discretion.**

The maximum level of leverage for the Trust expressed as a ratio of the Trust's total exposure to its Net Asset Value:

- (a) under the gross method is 200%; and
- (b) under the commitment method is 200%.

### **Ongoing Charges**

The Investment Manager has, with the agreement of the Manager, undertaken that if the total OCF of the Trust (as calculated at the end of the relevant accounting period, but excluding underlying collective investment undertaking holding charges) exceeds 0.70%<sup>1</sup>, the Investment Manager shall reimburse the Trust for an amount which, when deducted from the operating costs incurred by the Trust during the relevant accounting period, would result in the Trust having a total OCF (excluding underlying collective investment undertaking holding charges) equal to the stated annual management charge for each class in the relevant accounting period.

Any amount to be reimbursed as stated above may be reimbursed by the Investment Manager in any one, or a combination of any or all, of the following methods as the Investment Manager may elect in its absolute discretion:

---

<sup>1</sup> For Class G shareholders the cap will be 0.65%

- (a) by repaying to the Manager or the Trustee on behalf of the Trust any fees, charges or other remuneration that the Investment Manager has received in respect of the relevant accounting period or previous accounting periods in consideration for its services;
- (b) by making a cash payment to the Manager or the Trustee on behalf of the Trust as a reimbursement for operating costs incurred by the Trust during the relevant accounting period;
- (c) by waiving any fees, charges or other remuneration that the Investment Manager has accrued in respect of the relevant accounting period or previous accounting periods in consideration for its services as Investment Manager to the Manager of but in respect of which payment has not been received;
- (d) by waiving any fees, charges or other remuneration that the Investment Manager reasonably expects to accrue in respect of future periods in consideration for its services as the Investment Manager of the Trust.

The Manager has undertaken to procure that the Trust receives promptly the full benefit of any such reimbursement, payment or waiver.

Any extraordinary cost, one-time expense, nonrecurring charge, underlying fund charge or any other cost, expense, charge or liability suffered or incurred by the Trust in respect of a reasonably unpredictable event or which is unlikely to occur again will not be included in total operating costs for the purpose of calculating the OCF of the Trust for the purposes of the above provisions.

## PART B - DETAILS OF THE PAIF FUND

### TM GRAVIS UK LISTED PROPERTY (PAIF) FUND

<b>Type of Scheme:</b>	NURS scheme (PAIF)
<b>PRN:</b>	913627
<b>Investment Objective:</b>	<p>It is intended that the Fund will be a PAIF at all times, and, as such, its investment objective is to carry on Property Investment Business and to manage cash raised from investors for investment in the Property Investment Business. In so doing the objective of the Fund is to provide some capital growth through market cycles (7 years) whilst delivering a periodic income.</p>
<b>Investment Policy:</b>	<p>The Fund seeks to achieve its objective primarily (70% +) by investing in a diversified portfolio of transferable real estate securities such as real estate investment trusts ("REITs") listed on the London Stock Exchange, real estate operating companies ("REOCs"), bonds and equities. The Fund seeks to minimise exposure to the retail property sector.</p> <p>In addition to investing in REITs and REOCs the Fund may also invest in other transferable securities (including convertible securities and rated and unrated debt securities of real estate companies), bonds, collective investment schemes, transferable securities, money market instruments, deposits, cash and near cash.</p> <p>Save as noted above, there is no particular emphasis on any geographical area or industry or economic sector.</p>
<b>Derivatives:</b>	<p>The Fund may hold derivatives only for Efficient Portfolio Management purposes. It is not intended that the use of derivatives for Efficient Portfolio Management purposes will increase the risk profile of the Fund.</p>
<b>Benchmark:</b>	<p>The Fund does not have a specific benchmark. The performance of the Fund can be measured by considering whether the objective is achieved (i.e. whether a periodic income is provided and there is any capital growth over a market cycle of 7 years).</p>
<b>Accounting date:</b>	<p>Final: 31 December</p> <p>Interim: 31 March, 30 June, 30 September</p>

**Distribution dates:** Final: by 31 January  
Interim: by 30 April, 31 July, 31 October

**Shares Classes:**<sup>2</sup> A (£), A (€) (Hedged), A (\$) (Hedged) – Income  
A (£), A (€) (Hedged), A (\$) (Hedged) – Accumulation  
B (£) – Income  
B (£) – Accumulation  
F (£), F (€) (Hedged), F (\$) (Hedged) – Income<sup>3</sup>  
F (£), F (€) (Hedged), F (\$) (Hedged) – Accumulation<sup>4</sup>

**Initial charge**<sup>5</sup>: Class A: 4%  
Class B: 4%  
Class F: Nil

**Redemption Charge:** Nil

**Switching Charge:** Nil

**Annual Management Charge:**

Class A	0.70% (per annum)
Class B:	0.65% (per annum)
Class F:	0%(per annum)

the above percentages being a percentage of the Net Asset Value of the Fund attributable to the relevant Class (plus VAT if applicable).

**Depositary Fee:** See section 7.3 of the Prospectus

**Charges taken from:** Capital  
*Note: Deducting charges from capital may erode or constrain capital*

<sup>2</sup> Distributions for all Share Classes (whether £, € or \$) will be paid in the Base Currency (pounds sterling).

<sup>3</sup> Class F shares are only available to the Feeder Fund or at the ACD's discretion

<sup>4</sup> Class F shares are only available to the Feeder Fund or at the ACD's discretion

<sup>5</sup> The initial charge may be waived at the discretion of the ACD.

*growth.*

#### **Investment minima<sup>6</sup>:**

Lump sum	Class A: £100
subscription	Class B: £10,000,000 Class F: Nil
Top-up	Class A: £100 Class B: £10,000 Class F: Nil
Holding	Class A: £100 Class B: £10,000,000 Class F: Nil
Redemption	N/A (provided minimum holding is maintained)
Switching	N/A (provided minimum holding is maintained)

**Investment Restriction:** TM Gravis UK Listed Property (PAIF) Fund may not invest more than 10% of its value in other collective investment schemes.

**Initial price of Shares:** £1

---

<sup>6</sup> The investment minima may be waived at the discretion of the ACD

**Performance Fee:**

No.

**Profile of a Typical Investor/ Target Market:**

**The Fund is available to a wide range of investors seeking to invest for the medium to long term who wish to gain access to a portfolio managed in accordance with a specific investment objective and policy. Investors must be prepared to accept fluctuations in the value of capital including capital loss and accept the risks of investing in equity markets.**

**Different Classes of Share may be issued in respect of the Fund. The Classes currently available in respect of the Fund are set out above. The Fund can be marketed to all types of eligible investor subject to the applicable legal and regulatory requirements in the relevant jurisdiction(s). Investors should read the risk warnings set out in this Prospectus before investing.**

**Type of clients:** retail, professional clients and eligible counterparties (subject to the applicable legal and regulatory requirements in the relevant jurisdiction).

**Clients' knowledge and experience:** investors with at least basic knowledge and experience of funds which are to be managed in accordance with a specific investment objective and policy.

**Clients' financial situation with a focus on ability to bear losses:** Investors must be prepared to accept fluctuations in the value of capital including capital loss and accept the risks of investing in equity markets, including having the ability to bear 100% capital loss.

**Clients' risk tolerance and compatibility of risk/reward profile of the product with the target market:** due to the volatility of markets and specific risks of investing in shares in a fund (including those set out in the risk warnings in this Prospectus), investors should have a high risk tolerance. They should be willing to accept price fluctuations in exchange for the opportunity of higher returns.

**Clients' objectives and needs:** investors should be seeking to invest for the medium to long term who wish to gain access to a portfolio managed in accordance with the specific investment objective and policy of the Sub-fund. Investors will be seeking a fund with moderate risk profile.

**Clients' who should not invest:** shares in the Company is deemed incompatible for investors which:

- are looking for full capital protection or full repayment of the amount invested and clients who want a guaranteed return (whether income or capital)

- are fully risk averse/have no risk tolerance
- need a fully guaranteed income of fully predictable return profile

**Distribution channel:** This product is eligible for all distribution channels (e.g. investment advice, portfolio management, non-advised sales and pure execution services).

**\*\*The ACD may waive the minimum levels (and initial charge) at its discretion.**

The maximum level of leverage for the Company expressed as a ratio of the Company's total exposure to its Net Asset Value:

- (c) under the gross method is 200%; and
- (d) under the commitment method is 200%.

## **APPENDIX II**

### **PART I**

#### **ELIGIBLE SECURITIES MARKETS AND ELIGIBLE DERIVATIVES MARKETS**

As the Trust is a feeder fund and invests solely in TM Gravis UK Listed Property (PAIF) Fund, it will not ordinarily invest directly on any eligible securities or derivatives markets (but may do so).

## **APPENDIX III**

### **INVESTMENT AND BORROWING POWERS OF THE TRUST**

#### **1. General rules of investment**

##### **A. General**

The Scheme Property will be invested with the aim of achieving the investment objectives of the Trust but subject to the limits set out in Chapter 5 of COLL ("**COLL 5**") which apply to Non-UCITS retail schemes and this Prospectus

In the event of any conflict arising between the rules set out in COLL 5 and this Appendix B of the Prospectus, the rules set out in COLL 5 shall prevail and this Appendix B shall be construed and shall take effect accordingly.

The Trust is a "feeder fund" and is permitted to invest solely in TM Gravis UK Listed Property (PAIF) Fund pursuant to COLL 5.6.7. TM Gravis UK Listed Property (PAIF) Fund is managed with the aim of providing its investment objective and policy, which included a prudent spread of risk.

#### **2. Investment in collective investment schemes**

2.1. All of the value of the Scheme Property of the Trust will be invested in Shares in the PAIF Fund (for this paragraph, "the Second Scheme") provided that the Second Scheme satisfies all of the following conditions

2.1.1. The second scheme must:

- (a) be a UK UCITS or satisfy the conditions necessary for it to enjoy the rights conferred by the UCITS Directive; or
- (b) be authorised as a Non-UCITS retail scheme; or
- (c) be a recognised scheme; or
- (d) be constituted outside the United Kingdom and the investment and borrowing powers of which are the same or more restrictive than those of a Non-UCITS retail scheme; or
- (e) be a scheme not falling within paragraphs (a) to (d) above and in respect of which no more than 20% in value of the Scheme Property (aggregated with investment in any transferable securities which are not approved securities) is invested.

Furthermore, the second scheme must be a scheme which operates on the principle of the prudent spread of risk and must be prohibited from investing more than 15 % in value of its property consisting of units or shares in

collective investment schemes.

The participants in the second scheme must be entitled to have their units redeemed in accordance with the scheme at a price related to the net value of the property to which the units relate and determined in accordance with the scheme.

As the second scheme is an umbrella, the provisions in the above two paragraphs apply to each sub-fund as if it were a separate scheme.

The Trust may invest in units or shares of a scheme that is managed or operated by (or, if it is an Open-Ended Investment Company, has as its authorised corporate director) the Manager of the Trust or by an associate of the Manager provided the conditions in COLL 5.2.16 R (Investment in other group schemes) are complied with.

### **3. Cash and near cash**

- 3.1. Cash and near cash must not be retained in the Scheme Property except to the extent that this may reasonably be regarded as necessary in order to enable:
  - 3.1.1. the pursuit of the Trust's investment objectives; or
  - 3.1.2. redemption of units; or
  - 3.1.3. efficient management of the Trust in accordance with its investment objectives; or
  - 3.1.4. other purposes which may reasonably be regarded as ancillary to the investment objectives of the Trust.

### **4. Borrowing powers**

- 4.1. The Trustee may, on the instructions of the Manager and subject to COLL 5.5.5 R (Borrowing limits), borrow money from an Eligible Institution or an Approved Bank for the use of the Trust on terms that the borrowing is to be repayable out of the Scheme Property.
- 4.2. The Manager must ensure that borrowing does not, on any business day, exceed 10% of the value of the Trust

### **5. Restrictions on lending of money**

- 5.1. None of the money in the property of the Trust may be lent and, for the purposes of this prohibition, money is lent by the Trustee if it is paid to a person ("the payee") on the basis that it should be repaid, whether or not by the payee.

### **6. Guarantees and indemnities**

- 6.1. The Trustee must not provide any guarantee or indemnity in respect of the obligation of any person.
- 6.2. None of the property of the Trust may be used to discharge any obligation arising under a guarantee or indemnity with respect to the obligation of any person.

## **7. Leverage**

7.1. This section explains in what circumstances and how the Manager may use leverage in respect of the Trust where the investment policy of the Trust permits its use of leverage, the different leverage calculation methods and maximum level of leverage permitted.

7.2. Leverage when used in this prospectus means the following sources of leverage can be used when managing the Trust:

7.2.1. cash borrowing, subject to the restrictions set out in paragraph 4 ("Borrowing Powers") of this Appendix;

7.3. The Manager is required to calculate and monitor the level of leverage of the Trust, expressed as a ratio between the exposure of the Trust and its Net Asset Value (Exposure/NAV), under both the gross method and the commitment method (so for the Trust with no borrowing or derivative usage the leverage ratio would be 1:1).

7.4. Under the gross method, the exposure of the Trust is calculated as follows:

7.4.1. include the sum of all assets purchased, plus the absolute value of all liabilities;

7.4.2. exclude cash and cash equivalents which are highly liquid investments held in the base currency of the Trust, that are readily convertible to a known amount of cash, are subject to an insignificant risk of change in value and provide a return no greater than the rate of a three month high quality bond;

7.4.3. derivative instruments are converted into the equivalent position in their underlying assets;

7.4.4. exclude cash borrowings that remain in cash or cash equivalents and where the amounts payable are known;

7.4.5. include exposures resulting from the reinvestment of cash borrowings, expressed as the higher of the market value of the investment realised or the total amount of cash borrowed; and

7.4.6. include positions within repurchase or reverse repurchase agreements and securities lending or borrowing or other similar arrangements.

Under the commitment method, the exposure of the Trust is calculated in the same way as under the gross method; however, where "hedging" offsets risk and "netting" eliminates risk, these values are not included.

7.5. The maximum level of leverage which the Trust may employ, calculated in accordance with the gross and commitment methods, is stated in Appendix I.

7.5. In addition, the total amount of leverage employed by the Trust will be disclosed in the Trust's annual report.

## **8. General**

It is envisaged that the Trust will normally be fully invested but there may be times that it is appropriate not to be fully invested when the Manager reasonably regards this as necessary in order to enable the redemption of Units, efficient management of the Trust or any one purpose which may reasonably be regarded as ancillary to the investment objective of the Trust.

Where the Trust invests in or disposes of shares in another collective investment scheme which is managed or operated by the Manager or an associate of the Manager, the Manager must pay to the Trust by the close of business on the fourth business day the amount of any initial charge in respect of a purchase, and in the case of a sale, any charge made for the disposal.

A potential breach of any of these limits does not prevent the exercise of rights conferred by investments held by the Trust but, in the event of a consequent breach, the Manager must then take such steps as are necessary to restore compliance with the investment limits as soon as practicable having regard to the interests of Unitholders.
