

Non-UCITS retail scheme Key Investor Information

tutman.

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

TM New Court Fund Class A 2011

This Fund is managed by Thesis Unit Trust Management Limited

ISIN (Income): GB00B74XT179

Objectives and Investment Policy

The objective is to preserve and grow the real value of the Fund over the longer term through a diversified investment approach.

The Fund may utilise a range of asset classes in order to achieve its objective. These may include equities, cash deposits, bonds, warrants, money market instruments, derivatives and forward transactions, funds (regulated and unregulated), transferable securities and may include exposure to currencies, commodities and property.

Approved derivatives transactions will be used for the purpose of meeting the investment objectives of the Fund.

Cash and near cash will be held to enable the pursuit of the investment objectives of the Fund or, as necessary to enable redemption of units the efficient management of the Fund in accordance with its investment objective, and other ancillary purposes.

The investment policy of the Fund may mean that at times, where it is considered appropriate, the property of the Fund will not be fully invested and that prudent levels of liquidity will be maintained.

Fund selections are made following quantitative and qualitative analysis. The Portfolio Manager considers medium to long-term cumulative performance of funds (including ETFs) but also investigates discrete period returns and risk metrics. Fund managers passing filter tests are then met in order to gain an understanding of their investment process and positioning. Terms will be negotiated with any fund house chosen and thereafter due diligence is on-going through regular assessment of performance and update meetings.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income units. Investors can buy and sell units on demand when the scheme prices daily at 12 midday.

Risk and Reward Profile

The risk rating of the Fund is category 4 due to the volatility of the Fund price which sits in a range of between 5% and 10%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- Where derivative or structured product investments in the Fund may include a counterparty, there is a risk that the counterparty will not fulfil their obligation.
- This Fund is allowed to use derivatives to achieve its objective. Derivatives can cause a Fund to become leveraged. Leverage occurs when exposure to an area invested in is greater than its amount invested, resulting in the Fund being exposed to a potentially greater loss than the initial investment.
- The Fund may use derivatives to reduce costs, overall risk and/or generate additional capital or income. This is known as Efficient Portfolio Management (EPM). When used for EPM purposes, there should not be an increase in the overall risk level of the Fund.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.
- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.
- A warrant is a right to subscribe for shares debentures, loan stock or government securities and is exercisable against the original issuer of the securities. Warrants often involve a high degree of gearing, so that a relatively small movement in the price of the underlying security results in a disproportionately large movement in the price of the warrant. The prices of warrants can therefore be volatile.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	2.75%
Exit Charge	5.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.27%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 30th June 2020. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed 'Charges and Expenses of the Fund' of the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk

Past Performance

Performance source: Morningstar Direct

- The Fund launched in 2011
- The bar chart shows the calendar year returns for the last 8 full calendar years. If a column is blank, there is insufficient performance data to provide a complete calendar year of performance
- Past performance has been calculated in pounds sterling
- Performance will be calculated as Total Return, including all charges levied against the Fund
- Past performance has limited value as a guide to future performance
- Investments may go down as well as up
