

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

TM Opus Fund

This Fund is managed by Tutman LLP

ISIN (Income): GB00B835H959

Objectives and Investment Policy

The objective of the Company is to achieve a combination of capital growth and income, net of fees, over a rolling 5 year period.

The Company will invest in a global portfolio which will typically comprise of equities (at least 60%). The remainder of the Scheme Property of the Company may be invested in fixed income assets (which may include government and public securities) and other transferable securities, cash and money market instruments. In addition, the Company may invest in eligible alternatives (e.g. infrastructure, gold and commodities) indirectly via permitted instruments such as investment trusts or other collective investment vehicles. Between 70% and 100% of the above exposure will be gained through the use of collective investment vehicles (regulated and unregulated, including those managed by the ACD or its associates or the Investment Manager or its associates), which may include investment trusts, Exchange Traded Funds and Index Funds. The allocation to collective investment vehicles will vary within the range of 70%-100% depending on markets and to take advantage of the expertise available via such collective investment vehicles. All other exposure will be attained from direct investments. In addition, the exposure to equities may fall below 60% during difficult markets. It is the ACD's intention that derivatives and forward transactions will only be used for Efficient Portfolio Management. The Investment Manager will actively manage the Company. This means the Investment Manager actively makes decisions about how to invest the Scheme Property (and which investments to buy and sell) instead of simply following a market index.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares. Investors can buy and sell shares on demand when the scheme prices every Wednesday where the last Business Day of a month does not fall during that week and the last Business Day of the month at 8.30am.

Risk and Reward Profile

The risk rating of the Fund is category 4 due to the volatility of the Fund price which sits in a range of between 5% and 10%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.
- Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	7.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.39%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 30th November 2024. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed "Fees and Expenses" of the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk

Past Performance

(a) The Fund launched in 2012

(b) The bar chart shows the calendar year returns for the last 10 full calendar years. If a column is blank, there is insufficient performance data to provide a complete calendar year of performance

(c) Past performance has been calculated in pounds sterling

(d) Performance will be calculated as Total Return, including all charges levied against the Fund

(e) Past performance has limited value as a guide to future performance

(f) Investments may go down as well as up

1. From 4th October 2023, the benchmark is IA 40-85% Shares peer group. Prior to this the benchmark was the Barclays Global Aggregate Bond Index and MSCI World

Performance source: Morningstar Direct
