

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

TM SDL UK Buffettology Fund General Shares

A sub Fund of the TM Sanford Deland Funds
This Fund is managed by Thesis Unit Trust Management Limited
ISIN (Accumulation): GB00BF0LDZ31
ISIN (Income): GB00BKJ9C676

Objectives and Investment Policy

The investment objective of the Fund is to seek to achieve an annual compounding rate of return over the long term, defined as 5 – 10 years, which is superior to the median performance of all of the funds forming the official peer group of which the Fund is part. ‘Peer group’ is defined as being the Investment Association sector to which the Fund has been allocated (currently being the UK All Companies Sector) or to which it may be allocated in future, as determined by that body. Investments will be made principally in UK equities, applying the methodology of Business Perspective Investing.

Business Perspective Investing identifies companies that exhibit criteria considered essential to the long term success of that business, and are expected to possess strong operating franchises and experienced management teams. Investments are to be made at a valuation deemed to provide shareholder value over the intended long term period of investment, not to be sold for short term profits. Further information regarding the investment criteria adopted in Business Perspective Investing can be obtained directly from the Investment Adviser or at <https://www.sanford-deland.com/15/about-sdl/the-principles/business-perspective-investing>. The Fund may also invest in other transferable securities, money market instruments, units and/or Shares in other collective investment schemes, deposits, warrants, cash and near cash. The Investment Adviser will adopt a focussed approach to investing in shares of those companies which it believes have strong operating franchises and experienced management teams and whose shares are undervalued and offer the potential for improved economic growth. The Fund may also invest in derivatives and forward transactions (for hedging purposes). The Fund may borrow and may enter into stocklending and underwriting transactions in accordance with COLL.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares, and retained and accumulated in the case of accumulation shares. Investors can buy and sell shares on demand when the scheme prices daily at 12 midday.

Risk and Reward Profile

The following risks are material in addition to the risks captured by the indicator above:

- The Fund holds equities concentrated by number and by location in the UK. Equities, as an asset class, tend to experience higher volatility than many other assets such as bonds or money market instruments. Funds concentrated by number of assets and/or geographic location are more vulnerable to market sentiment impacting on one or more of those assets or location and can carry a higher risk than funds holding more diversified assets.
- Liquidity risk: during difficult market conditions some securities, such as structured investments, corporate bonds and positions in emerging markets, may become more difficult to sell at a desired price.
- Counterparty risk: arising from securities which require a specific entity, usually a large bank, to honour its obligations to the Fund.
- Operational risk: arising from investments in overseas markets, in particular emerging markets countries, which may not have the same level of safekeeping and other controls as UK markets.
- Legal or tax risk: arising from a change in legal regulations, tax rules or the application of them.

All the risks currently identified as being applicable to the Fund are set out in the ‘Risk’ section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.00%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 31st August 2025. This figure may vary from year to year. It excludes:

· Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see the section headed 'Fees and Expenses' of the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk

Past Performance

- (a) The Fund launched in 2011
- (b) The bar chart shows the calendar year returns for the last 10 full calendar years. If a column is blank, there is insufficient performance data to provide a complete calendar year of performance
- (c) Past performance has been calculated in pounds sterling
- (d) Performance will be calculated as Total Return, including all charges levied against the Fund
- (e) Past performance has limited value as a guide to future performance
- (f) Investments may go down as well as up
