

Key Investor Information

tutman.

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

TM Stonehage Fleming European All Cap Equity Fund Class B

A sub Fund of the TM Stonehage Fleming Global Equities Umbrella Fund

This Fund is managed by Thesis Unit Trust Management Limited

ISIN (Income): GB0033403162

Objectives and Investment Policy

The objective and investment policy of the Fund aims to deliver total returns (inclusive of capital and income), generally over a period of 5 to 7 years, in excess of the MSCI Europe ex UK Dividend Reinvested Index through investment primarily in a diversified portfolio of European ex UK securities in any economic sector. Equity exposure may be obtained through equity and equity linked securities including shares, depository receipts, warrants and other participation rights, convertible securities, index and participation notes and equity linked notes. From time to time, the fund may invest up to a maximum of 20% of the portfolio in securities listed on a European recognised stock exchange outside continental Europe. No more than 10% of the portfolio may be invested in non- European securities. Its flexible investment approach means that the total return of the Fund may periodically diverge significantly from that of the MSCI Europe ex UK index. Derivatives and forward transactions may be used by the Fund for the purposes of hedging or EPM Purposes.

The Fund is a UCITS scheme as defined for the purposes of the FCA's Collective Investment Schemes Sourcebook as amended (the "Rules") and aims to invest primarily in equity securities but in pursuing its objective it may also invest in other asset classes specified by the Rules and within the limits of the investment and borrowing powers prescribed by the Rules and the Fund's Prospectus. Derivative and forward transactions may be used by the Fund. Subject to the Fund's objective, policies and investment powers, it allows the Investment Manager to make discretionary choices when deciding which investments should be held in the Fund.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income units. Investors can buy and sell units on demand when the scheme prices daily at 10.30 pm.

Risk and Reward Profile

The risk rating of the Fund is category 5 due to the volatility of the Fund price which sits in a range of between 10% and 15%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The Fund may use derivatives to reduce costs, overall risk and/or generate additional capital or income. This is known as Efficient Portfolio Management (EPM). When used for EPM purposes, there should not be an increase in the overall risk level of the Fund.
- Where derivative or structured product investments in the Fund may include a counterparty, there is a risk that the counterparty will not fulfil their obligation.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.
- A change to the tax status of the Fund or the applicable tax legislation in the markets within which the Fund invests could affect the value of an investor's units.
- Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.
- More political, economic or structural challenges face emerging markets or less developed countries than developed countries which may increase volatility and uncertainty.
- The price of gold/natural resources in which the Fund invest may be subject to sudden, unexpected and substantial fluctuations that may lead to significant declines in the values of the shares concerned and hence the Net Asset Value of the Fund.
- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	5.25%
Exit Charge	2.00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.76%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges. The UCITS annual report for each financial year will include detail on the exact charges made. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed "Expenses Payable out of the Property of the Fund" of the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk

Past Performance

Performance source: Morningstar Direct

(a) The Fund launched in 2003

(b) The bar chart shows the calendar year returns for the last 10 full calendar years. If a column is blank, there is insufficient performance data to provide a complete calendar year of performance

(c) Past performance has been calculated in pounds sterling

(d) Performance will be calculated as Total Return, including all charges levied against the Fund

(e) Past performance has limited value as a guide to future performance

(f) Investments may go down as well as up
