

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

The Deribee Growth Fund Class A

A sub Fund of The Deribee Funds

This Fund is managed by Thesis Unit Trust Management Limited ISIN (Accumulation): GB00BN4J0S17 ISIN (Income): GB00BN4J2078

Objectives and Investment Policy

The Fund's objective is to achieve growth in value (through a combination of capital growth and income), in GBP terms, with a target return of the UK Consumer Prices Index (CPI) plus 3.5%, net of fees, over rolling 7 year periods. Capital is at risk and there is no guarantee that this return will be achieved over this specific period, or any other period.

The Investment Managers adopt a flexible investment strategy and may invest in some or all sectors in some or all world markets, in order to take advantage of economic opportunities worldwide. The Fund will typically allocate between 40% - 90% to equities. The Fund may also invest in fixed income (including both corporate and government bonds), money market instruments, warrants, deposits, cash and near cash. Investment in gold and commodities may be made through permitted investments such as collective investment vehicles.

The Fund may also invest in alternative strategies via permitted investments such as authorised and unregulated collective investment vehicles, in accordance with the FCA Rules. An alternative strategy is a financial asset which does not fall into one of the conventional investment categories such as equities, bonds and cash. Alternative strategies are designed to achieve risk-adjusted returns which have a lower correlation to major indices and markets. The composition of the Scheme Property as between equities and other asset classes will vary over time, in response to the Investment Managers' views of the economic and market environment. In addition, the exposure to equities may fall below 40% during difficult market conditions.

Typically, more than 50% (and at times up to 100%) of the above exposure will be gained through the use of collective investment vehicles. Collective investment vehicles may be managed by the Manager, the Investment Managers or an associate of the Manager or the Investment Managers. Derivatives may be used for Efficient Portfolio Management, although use is expected to be limited. The Manager has appointed multiple Investment Managers with different investment styles to achieve the investment objective. Allocations to the Investment Managers are subject to change in order to meet the Fund's investment objective and further details regarding the allocations are available upon request from the Manager.

The Fund uses the ARC GBP Steady Growth PCI peer group for performance comparison purposes only. This benchmark is not a target benchmark and the Fund is not constrained by it. This peer group has been selected as a comparator for performance because the parameters for this peer group are closely aligned with the policy of the Fund. The Fund also uses CPI plus 3.5% as a target benchmark. CPI has been selected as a performance target because it is a key measure of consumer inflation in the United Kingdom. The Fund aims to deliver positive returns plus 3.5% in excess of CPI, over rolling 7 year periods. CPI is therefore an appropriate target for the Fund.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income units, and reinvested in the case of accumulation units. Investors can buy and sell units on demand when the scheme prices daily at 12 midday.

Risk and Reward Profile

The risk rating of the Fund is category 4 due to the volatility of simulated data which sits in a range of between 5% and 10%. The risk rating is calculated using historical data and a prescribed standard deviation methodology. The simulated data used is consistent with risk limits of the Fund.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.
- Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.
- A warrant is a right to subscribe for shares, debentures, loan stock or government securities and is exercisable against the original issuer of the securities. Warrants often involve a high degree of gearing, so that a relatively small movement in the price of the underlying security results in a disproportionately large movement in the price of the warrant. The prices of warrants can therefore be volatile.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.13%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges. The Non-UCITS annual report for each financial year will include detail on the exact charges made. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed 'Charges and Expenses' of the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk

Past Performance

There is insufficient historical data to provide a useful indication of past performance for the The Deribee Growth Fund Class A.

Practical Information

The trustee of the fund is NatWest Trustee and Depositary Services Limited. The trustee has delegated the function of custodian to The Northern Trust Company.

Please email thesisut@tutman.co.uk if you require, or have any queries in relation to, the Fund price, Report and Accounts or Prospectus. All documentation relating to the Fund is available in English and is free of charge. The most recent prices will appear daily on the Trustnet website at www.trustnet.com and can also be obtained by telephone on 01483 783900. The annual Report and Accounts will be made available annually on the 31st July.

UK tax legislation may have an impact on the personal tax position of investors.

The information in this document relates to a single class of The Deribee Growth Fund, The Deribee Growth Fund Class A Income unit class. This document also represents the Accumulation unit class.

It is possible for you to switch your entitlement between sub-Funds of The Deribee Funds. You can obtain more information about switching by emailing thesisut@tutman.co.uk. You should be aware that an exchange of units for units (of whatever class) in another sub-Fund is treated as a redemption and sale and is a disposal for Capital Gains Tax purposes. The Prospectus and Report and Accounts are prepared for The Deribee Funds in its entirety.

The assets of The Deribee Growth Fund are segregated from other sub-Funds and can only be used to meet the liabilities of The Deribee Growth Fund and not of any other sub-Fund.

Information on the current remuneration policy, including a description of how remuneration and benefits are calculated and the identity of the remuneration committee members, is available on our website at www.tutman.co.uk and a copy can be obtained, free of charge, on request.
