

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

The Global Multi Asset Fund

This Fund is managed by Thesis Unit Trust Management Limited ISIN (Accumulation): GB00B3SBV573 ISIN (Income): GB00B3RSKV86

Objectives and Investment Policy

The investment objective of the Company is to achieve capital growth, net of fees, over a rolling 5 year period.

To achieve the objective the Company will invest in a geographically diversified global portfolio which will comprise of at least 70% in equities and up to 30% in fixed income assets (which may include government and public securities). The Company may also invest in other transferable securities, eligible alternatives (e.g. property, infrastructure, commodities) via permitted instruments such as collective investment schemes, permitted closed-ended investment funds, money market instruments, warrants, deposits, near cash and cash investments.

Typically, half of the exposure to the assets above will be gained by investing through collective investment vehicles (including those managed by the ACD or its Associates or the Investment Manager or its Associates). All other exposure will be attained from direct investments.

The proportion of the Company invested in different geographical areas (which may include emerging markets) will vary over time in response to the economic and market environment.

Derivatives may be used for Efficient Portfolio Management (including hedging), although use is expected to be limited.

The Investment Manager will actively manage the Company. This means the Investment Manager actively makes decisions about how to invest the Scheme Property of the Company (and which investments to buy and sell) instead of simply following a market index.

The Company uses the Investment Association Mixed Investment 40-85% Shares peer group for performance comparison purposes only. This peer group is not a target benchmark and the Company is not constrained by it. The peer group has been selected as a comparator for performance because the parameters for this peer group of between 40 and 85% exposure to equities are closely aligned to the parameters as set out in the Policy of the Company.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares, and reinvested in the case of accumulation shares. Investors can buy and sell shares on demand when the scheme prices daily at 12 midday.

Risk and Reward Profile

The risk rating of the Fund is category 5 due to the volatility of the Fund price which sits in a range of between 10% and 15%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	7.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.84%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 31st October 2021. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed 'Payments out of scheme property' of the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk

Past Performance

Performance source: Morningstar Direct

(a) The Fund launched in 2010

(b) The bar chart shows the calendar year returns for the last 10 full calendar years. If a column is blank, there is insufficient performance data to provide a complete calendar year of performance

(c) Past performance has been calculated in pounds sterling

(d) Performance will be calculated as Total Return, including all charges levied against the Fund

(e) Past performance has limited value as a guide to future performance

(f) Investments may go down as well as up

1. From July 2022 the benchmark is IA Mixed Investment 40-85% Shares peer group. Prior to this the benchmark was a composite benchmark.
