

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

The Gulland Fund

This Fund is managed by Thesis Unit Trust Management Limited

ISIN (Income): GB0030350879

Objectives and Investment Policy

The Company aims to provide a combination of capital growth and capital, net of fees, over 5 year rolling periods. To achieve the objective, the Company will have exposure to a global portfolio which will typically comprise at least 60% equities and up to 40% in fixed income assets (which may include government and public securities) and cash. The composition of the Scheme Property as between equities and fixed income and cash will vary within these parameters depending on the Investment Managers' assessment of market conditions as well as the economic environment. The exposure to equities may fall below 60% during difficult markets. The assets in which the Company may also invest are other transferable securities (including warrants), money market instruments, deposits and near cash investments. The Company may invest in alternatives (i.e. gold, commodities and alternative strategies which target risk-adjusted returns uncorrelated to major indices and markets) but will only do so indirectly via permitted investments such as collective investment vehicles (including permitted closed-ended investment funds). The above exposure may be gained directly or through the use of collective investment vehicles which can include permitted closed-ended investment funds, including investments trusts. Such collective investment vehicles can include those managed by the ACD or its associates or the Investment Managers or their associates. Derivatives may be used for Efficient Portfolio Management (including hedging), although use is expected to be limited. The investment policy of the Company may mean that at times, where it is considered appropriate, the Scheme Property will not be fully invested and that prudent levels of liquidity will be maintained in order to reduce risk and preserve capital. The Company will hold cash and cash equivalents to maintain liquidity. The ACD has appointed multiple Investment Managers with different investment styles to achieve the investment objective. Allocations to the Investment Managers are subject to change in order to meet the Company's investment objective and further details regarding the allocations are available upon request from the ACD. The Investment Managers will actively manage the Company. This means the Investment Managers actively make decisions about how to invest the Scheme Property (and which investments to buy and sell) instead of simply following a market index.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares. Investors can buy and sell shares on demand when the scheme prices daily at 10:00am.

Risk and Reward Profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	10.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.51%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 30th June 2022. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed "Fees and Expenses" of the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk

Past Performance

- (a) The Fund launched in 2001. The The Gulland Fund launched in 2001
- (b) The bar chart shows the calendar year returns for the last 10 full calendar years. If a column is blank, there is insufficient performance data to provide a complete calendar year of performance
- (c) Past performance has been calculated in pounds sterling
- (d) Performance is calculated as Total Return, including all charges levied against the Fund
- (e) Past performance has limited value as a guide to future performance
- (f) Investments may go down as well as up
