The Ilex Fund

Report of the Manager

Tutman Fund Solutions Limited ('TFSL') (previously Evelyn Partners Fund Solutions Limited), as Manager, presents herewith the Annual Report for The Ilex Fund for the year ended 31 March 2026.

The Ilex Fund ('the Trust') is an authorised unit trust scheme further to an authorisation order dated 30 June 2003 and is a UCITS scheme complying with the investment and borrowing powers rules in the Collective Investment Schemes sourcebook ('COLL'), as published by the Financial Conduct Authority ('FCA').

The Company has been set up as an umbrella company. Provision exists for an unlimited number of sub-funds to be included within the umbrella and additional sub-funds may be established by the Manager with the agreement of the Depositary and the approval of the FCA. The sub-funds represent segregated portfolios of assets and, accordingly, the assets of a sub-fund belong exclusively to that sub-fund and shall not be used or made available to discharge (indirectly or directly) the liabilities of claim against, any other person or body, and any other sub-fund and shall not be available for any such purpose.

The Financial Stability Board ('FSB') created the Task Force on Climate-related Financial Disclosures ('TCFD') to improve and increase reporting of climate-related financial information. TFSL have produced TCFD reports in compliance with the FCA's rules on climate-related financial disclosures. The TCFD Product report is designed to help you understand the impact the Trust has on the climate and equally how climate change could influence the performance of the Trust. The report will also give you the ability to compare a range of climate metrics with other funds. To understand the governance, strategy, and risk management that TFSL has in place to manage the risks and opportunities related to climate change, please refer to the TCFD Entity report. These reports are available on our website <https://www.tutman.co.uk>.

On account of a cybercrime issue with our third-party vendor Linedata, TFSL lost connectivity to the core accounting platform ICON (used for the production of daily net asset values) on 11 August 2025. A period of investor dealing suspension was agreed at this point to facilitate the robust testing of a contingency Net Asset Value production model which was subsequently implemented on 21 August 2025. This was used to support daily pricing and associated investor dealing until full connectivity to ICON was restored on 25 September 2025.

The Trust Deed can be inspected at the offices of the Manager.

Copies of the Prospectus and Key Investor Information Document ('KIID') are available on request free of charge from the Manager.

Sub-fund

The Trust currently has one sub-fund, Ilex Balanced Fund ('sub-fund')

Investment objective and policy

The investment objective of the sub-fund is to produce an income return in excess of 2% per annum (net of fees) together with growth of capital over the longer term (i.e. at least 5 years). This performance target, however, is not guaranteed and it may not always be possible to achieve it over the period stated, or over any period of investment. Consequently, investors' capital is at risk.

The sub-fund operates a balanced strategy, meaning that, in respect of at least 70% of its portfolio, it will maintain a balance between shares (i.e., equities) and fixed interest securities. Such investment will be direct and indirect. The fixed interest securities will be a mixture of sovereign, investment grade and non-investment grade bonds. In normal market conditions, the exposure to shares and fixed interest securities will be indirect, generally through collective investment schemes.

For the purposes of the sub-fund's investment objective, investment grade bonds are those rated by S&P, Moody's or Fitch as being BBB- or above.

The allocation between shares and fixed interest securities, in which the sub-fund invests, will be actively managed and will vary in response to short term market conditions; however, the allocation to shares, will remain within a 40% to 85% range.

Collective investment schemes will represent between 50-100% of the sub-fund's invested assets. In times of market uncertainty, the sub-fund may invest directly in government bond assets which the Investment Manager considers less risky compared to the sub-fund's normal holdings.

Report of the Manager (continued)

Investment objective and policy (continued)

The sub-fund may also invest in convertibles, loan stock and other debt securities, warrants, deposits, cash and near cash, money market instruments, exchange traded funds, exchange traded certificates, exchange traded notes, investment trusts, and other transferable securities.

The sub-fund may invest in derivatives and forward transactions for investment purposes only after the Investment Manager has given not less than 60 days' notice to the unitholders, which may make the portfolio composition of the sub-fund highly volatile in the absence of compensating investment techniques.

Changes affecting the Trust in the year

On 30 June 2025, Thesis Holdings Limited bought Evelyn Partners Fund Solutions Limited. Following the completion of the acquisition of Evelyn Partners Fund Solutions Limited, the company has been renamed to Tutman Fund Solutions Limited.

Further information in relation to the Trust is illustrated on page 33.

In accordance with the requirements of the Financial Conduct Authority's Collective Investment Schemes sourcebook, we hereby certify the Annual Report on behalf of the Manager, Tutman Fund Solutions Limited.

Jenny Shanley

Stephen Mugford

Statement of the Manager's responsibilities

The Collective Investment Schemes sourcebook ('COLL') published by the FCA, requires the Manager to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Trust and of the net revenue and net capital gains on the scheme property of the Trust for the year.

In preparing the financial statements the Manager is responsible for:

- selecting suitable accounting policies and then applying them consistently;
- making judgements and estimates that are reasonable and prudent;
- following UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland;
- complying with the disclosure requirements of the Statement of Recommended Practice for the Financial Statements of UK Authorised Funds ('the SORP') issued by The Investment Association in May 2014 and amended in June 2017;
- keeping proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements;
- assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- using the going concern basis of accounting unless they either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so;
- such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error;
- taking reasonable steps for the prevention and detection of fraud and irregularities; and
- the maintenance and integrity of the Trust's information on the Manager's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

COLL also requires the Manager to carry out an Assessment of Value on the Trust previously published within the Annual Report, this assessment can now be found on the Manager's website at:

<https://www.tutman.co.uk/literature/>

The Manager is responsible for the management of the Trust in accordance with the Trust Deed, the Prospectus and COLL.

Report of the Trustee to the unitholders of The Ilex Fund

Trustee's responsibilities

The Trustee must ensure that the Trust is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes sourcebook, the Financial Services and Markets Act 2000, as amended, (together 'the Regulations'), the Trust Deed and Prospectus (together 'the Scheme documents') as detailed below.

The Trustee must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Trust and its investors.

The Trustee is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Trust in accordance with the Regulations.

The Trustee must ensure that:

- the Trust's cash flows are properly monitored and that cash of the Trust is booked into the cash accounts in accordance with the Regulations;
- the sale, issue, redemption and cancellation of units are carried out in accordance with the Regulations;
- the value of units of the Trust are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Trust's assets is remitted to the Trust within the usual time limits;
- the Trust's revenue is applied in accordance with the Regulations; and
- the instructions of the Manager are carried out (unless they conflict with the Regulations).

The Trustee also has a duty to take reasonable care to ensure that the Trust is managed in accordance with the Regulations and the Scheme documents in relation to the investment and borrowing powers applicable to the Trust.

Having carried out such procedures as we consider necessary to discharge our responsibilities as Trustee of the Trust, it is our opinion, based on the information available to us and the explanations provided, that in all material respects the Trust, acting through the Manager:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Trust's units and the application of the Trust's revenue in accordance with the Regulations and the Scheme documents of the Trust. The Manager suspended dealing in shares of Ilex Balanced Fund with immediate effect on 13 August 2025. This decision was made after discussion with us as Trustee and was required as a result of a global cybersecurity incident at the Manager's external software provider. Suspension of dealing was lifted on 17 September 2025; and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Trust.

NatWest Trustee and Depositary Services Limited
17 July 2026

Independent Auditor's report to the unitholders of The Ilex Fund

Opinion

We have audited the financial statements of The Ilex Fund (the 'Trust') for the year ended 31 March 2026, which comprise the Statement of total return, Statement of change in net assets attributable to unitholders, Balance sheet, the related Notes to the financial statements, including significant accounting policies and the Distribution table. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- Give a true and fair view of the financial position of the Trust as at 31 March 2026 and of the net revenue and the net capital gains on the scheme property of the Trust for the year then ended;
- Have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- Have been prepared in accordance with the Investment Association Statement of Recommended Practice for Authorised Funds, the rules of the Collective Investment Schemes sourcebook (COLL Rules) of the Financial Conduct Authority and the Trust Deed.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor responsibilities for the audit of the financial statements section of our report. We are independent of the Trust in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions Relating to Going Concern

In auditing the financial statements, we have concluded that the Manager's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Trust's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Manager with respect to going concern are described in the relevant sections of this report.

Other Information

The other information comprises the information included in the Annual Report other than the financial statements and our auditor's report thereon. The Manager is responsible for the other information contained within the Annual Report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on Other Matters Prescribed by the COLL Rules

In our opinion, based on the work undertaken in the course of the audit:

- Proper accounting records for the Trust have been kept and the accounts are in agreement with those records;
- We have received all the information and explanations which, to the best of our knowledge and belief, are necessary for the purposes of our audit; and
- The information given in the Report of the Manager for the year is consistent with the financial statements.

Independent Auditor's report to the unitholders of The Ilex Fund (continued)

Responsibilities of the Manager

As explained more fully in the Statement of the Manager's responsibilities set out on page 4, the Manager is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to wind up the Trust or to cease operations, or has no realistic alternative but to do so.

Auditor Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: <http://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

We assessed whether the engagement team collectively had the appropriate competence and capabilities to identify or recognise non-compliance with laws and regulations by considering their experience, past performance and support available.

All engagement team members were briefed on relevant identified laws and regulations and potential fraud risks at the planning stage of the audit. Engagement team members were reminded to remain alert to any indications of fraud or non-compliance with laws and regulations throughout the audit.

We obtained an understanding of the legal and regulatory frameworks that are applicable to the Trust and the sector in which it operates, focusing on those provisions that had a direct effect on the determination of material amounts and disclosures in the financial statements. The most relevant frameworks we identified include:

- UK Generally Accepted Accounting Practice including Financial Reporting Standard 102 and the IA Statement of Recommended Practice for Authorised Funds;
- The Financial Conduct Authority's COLL Rules; and
- The Trust's Prospectus.

We gained an understanding of how the Trust is complying with these laws and regulations by making enquiries of the Manager. We corroborated these enquiries through our review of submitted returns, external inspections, relevant correspondence with regulatory bodies and the Trust's breaches register.

We assessed the susceptibility of the financial statements to material misstatement, including how fraud might occur, by meeting with management and those charged with governance to understand where it was considered there was susceptibility to fraud. This evaluation also considered how the Manager was remunerated and whether this provided an incentive for fraudulent activity. We considered the overall control environment and how the Manager oversees the implementation and operation of controls. In areas of the financial statements where the risks were considered to be higher, we performed procedures to address each identified risk. We identified a heightened fraud risk in relation to:

- Management override of controls; and
- The completeness and classification of special dividends between revenue and capital.

Independent Auditor's report to the unitholders of The Ilex Fund (continued)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

Extent to which the audit was considered capable of detecting irregularities, including fraud (continued)

In addition to the above, the following procedures were performed to provide reasonable assurance that the financial statements were free of material fraud or error:

- Reviewing the level of and reasoning behind the Trust's procurement of legal and professional services;
- Performing audit procedures over the risk of management override of controls, including testing of journal entries and other adjustments for appropriateness, evaluating the business rationale of significant transactions outside the normal course of business, review of a pre sign-off Net Asset Valuation (NAV) statement for any unexpected activity and assessing judgements made by the Manager in its calculation of accounting estimates for potential management bias;
- Using a third-party independent data source to assess the completeness of the special dividend population and determining whether special dividends recognised were revenue or capital in nature with reference to the underlying circumstances of the investee companies' dividend payments;
- Assessing the Trust's compliance with the key requirements of the Collective Investment Schemes sourcebook and its Prospectus;
- Completion of appropriate checklists and use of our experience to assess the Trust's compliance with the IA Statement of Recommended Practice for Authorised Funds; and
- Agreement of the financial statement disclosures to supporting documentation.

Our audit procedures were designed to respond to the risk of material misstatements in the financial statements, recognising that the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve intentional concealment, forgery, collusion, omission or misrepresentation. There are inherent limitations in the audit procedures performed and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we would become aware of it.

Use of Our Report

This report is made solely to the Trust's unitholders, as a body, in accordance with Rule 4.5.12 of the COLL Rules published by the Financial Conduct Authority under section 247 of the Financial Services and Markets Act 2000. Our audit work has been undertaken so that we might state to the Trust's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trust and the Trust's unitholders as a body, for our audit work, for this report, or for the opinions we have formed.

Accounting policies of The Ilex Fund

for the year ended 31 March 2026

a Basis of accounting

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of investments. They have been prepared in accordance with FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland ('FRS 102') and in accordance with the Statement of Recommended Practice for UK Authorised Funds ('the SORP') published by The Investment Association in May 2014 and amended in June 2017, and the requirements of the Collective Investment Schemes sourcebook ('COLL').

The Manager has considered a detailed assessment of the sub-fund's ability to meet its liabilities as they fall due, including liquidity, declines in global capital markets and investor redemption levels. Based on this assessment, the sub-fund continues to be open for trading and the Manager is satisfied the sub-fund has adequate financial resources to continue in operation for at least the next 12 months and accordingly it is appropriate to adopt the going concern basis in preparing the financial statements.

b Valuation of investments

The purchases and sales of investments are included up to close of business on the last business day of the accounting year.

Purchases and sales of investments are recognised when a legally binding and unconditional right to obtain, or an obligation to deliver an asset arises.

The quoted investments of the sub-fund have been valued at the global closing bid-market prices excluding any accrued interest in the case of debt securities ruling on the principal markets on which the stocks are quoted on the last business day of the accounting year.

Collective investment schemes are valued at the bid price for dual priced funds and at the single price for single priced funds and are valued at their most recent published price prior to the close of business valuation on 31 March 2026.

c Foreign exchange

The base currency of the sub-fund is UK sterling which is taken to be the sub-fund's functional currency.

All transactions in foreign currencies are converted into sterling at the rates of exchange ruling at the dates of such transactions. The resulting exchange differences are disclosed in note 2 of the Notes to the financial statements.

Any foreign currency assets and liabilities at the end of the accounting period are translated at the exchange rate prevailing at the balance sheet date.

d Revenue

Revenue is recognised in the Statement of total return on the following basis:

Dividends from quoted equity instruments and non equity shares are recognised as revenue, net of attributable tax credits on the date when the securities are quoted ex-dividend.

Overseas dividends are recognised as revenue gross of any withholding tax and the tax consequences are recognised within the tax expense.

Distributions from collective investment schemes are recognised as revenue on the date the securities are quoted ex-dividend. Equalisation on distributions from collective investment schemes is deducted from the cost of the investment and does not form part of the sub-fund's distribution.

Distributions from collective investment schemes which are re-invested on behalf of the sub-fund are recognised as revenue on the date the securities are quoted ex-dividend and form part of the sub-fund's distribution.

Excess reportable income from reporting offshore funds is recognised as revenue when the reported distribution rate is available and forms part of the sub-fund's distribution.

Interest on bank deposits and short term deposits is recognised on an accruals basis.

Interest on debt securities is recognised on an accruals basis, taking into account the effective yield on the investment. Accrued interest purchased and sold on interest bearing securities is excluded from the capital cost of these securities and dealt with as part of the revenue of the sub-fund. The effective yield is a calculation that amortises any discount or premium on the purchase of an investment over its remaining life based on estimated cash flows. The amortised amounts form part of the distributable revenue and are calculated weekly and at each month end.

Accounting policies of The Ilex Fund (continued)

for the year ended 31 March 2026

e Expenses

Expenses, other than those relating to the purchase and sale of investments, are charged to revenue and then reallocated to capital, net of any tax effect. KIID production fees and Non-executive directors' fees are charged on a receipts basis. All other fees are charged on an accruals basis.

f Allocation of revenue and expenses to multiple unit types

All revenue and expenses which are directly attributable to a particular unit type are allocated to that type. All revenue and expenses which are attributable to the sub-fund are allocated to the sub-fund and are normally allocated across the unit types pro rata to the net asset value of each type on a daily basis.

g Taxation

Tax payable on profits is recognised as an expense in the period in which profits arise. The tax effects of tax losses available to carry forward are recognised as an asset when it is probable that future taxable profits will be available, against which these losses can be utilised.

UK corporation tax is provided as amounts to be paid/recovered using the tax rates and laws that have been enacted at the balance sheet date.

Deferred taxation is provided in full on timing differences that result in an obligation at 31 March 2026 to pay more or less tax, at a future date, at rates expected to apply when they crystallise based on current rates and tax laws. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. Deferred tax assets and liabilities are not discounted.

Provision for deferred tax assets are only made to the extent the timing differences are expected to be of future benefit.

h Efficient Portfolio Management

Where appropriate, certain permitted instruments such as derivatives or forward currency contracts may be used for Efficient Portfolio Management purposes. Where such instruments are used to protect or enhance revenue, the revenue or expenses derived therefrom are included in the Statement of total return as revenue related items and form part of the distribution. Where such instruments are used to protect or enhance capital, the gains and losses derived therefrom are included in the Statement of total return as capital related items.

i Distribution policies

i Basis of distribution

The distribution policy is to distribute all available revenue after deduction of expenses payable from revenue. Distributions attributable to income units are paid to unitholders. Distributions attributable to accumulation units are re-invested in the sub-fund on behalf of the unitholders.

ii Unclaimed distributions

Distributions to unitholders outstanding after 6 years are taken to the capital property of the sub-fund.

iii Revenue

All revenue is included in the final distribution with reference to policy d.

iv Expenses

Expenses incurred against the revenue of the sub-fund are included in the final distribution, subject to any expense which may be transferred to capital for the purpose of calculating the distribution, with reference to policy e.

v Equalisation

Group 2 units are units purchased on or after the previous XD date and before the current XD date. Equalisation applies only to group 2 units. Equalisation is the average amount of revenue included in the purchase price of group 2 units and is refunded to holders of these units as a return of capital. Being capital it is not liable to income tax in the hands of the unitholders but must be deducted from the cost of units for capital gains tax purposes. Equalisation per unit is disclosed in the Distribution table.

Investment Manager's report

Investment performance*

In the 12 months to 31 March 2026, the Ilex Balanced Fund's performance increased by 8.7%, behind the ARC Balanced Asset PCI, comparator which gained 9.4%. Entering March 2026, the portfolio had been leading the ARC peer group but the events in the Middle East, including the closure of the Strait of Hormuz, dragged on returns and resulted in underperformance over the 12 month period.

Within equities, the post-Liberation Day rally, fuelled by renewed enthusiasm around the expected productivity benefits of Artificial Intelligence ('AI'), benefitted the portfolio's overweight position in US equities and higher overall equity allocation relative to the ARC peer group. This was further bolstered by the thematic technology funds, including Bluebox Funds - Bluebox Global Technology Fund and Edmond de Rothschild Fund - Big Data, which provided differentiated exposure to the AI theme. However, as the year progressed, investor focus shifted towards thematic opportunities rather than quality, which worked against the quality style bias of the portfolio. While the underlying companies continue to exhibit strong fundamentals, valuations have come under pressure. GuardCap UCITS Funds - GuardCap Global Equity Fund was a notable detractor, and the position was sold during the period.

In March, the Iran-US conflict caused markets to favour defence and energy, two clear beneficiaries of an ongoing geopolitical conflict. These two sectors feature prominently in the UK market Index. Our lack of exposure to these sectors relative to the ARC Balanced Asset PCI contributed materially to the relative weakness in March, and therefore the underperformance for the 12 month period.

The fixed income portfolio delivered modest positive returns. Credit spreads tightened over the year and, as a result, corporates outperformed government bonds. The portfolio's short duration gilt positioning aided relative returns, especially in March as markets reacted to potential inflation shock from higher oil prices by shifting expectations from rate cuts to rate hikes.

Finally, alternative assets benefitted from the re-rating of Apax Global Alpha earlier in the period as the company announced an acquisition that represented a material premium for shareholders. However, this was counteracted by the AI driven disruption in software names in February which weighed on HarbourVest Global Private Equity's exposure to the software sector.

Investment review

In early April, we increased allocations to GuardCap UCITS Funds - GuardCap Global Equity Fund and MI Metropolis Valuefund, using proceeds from the sale of iShares Core S&P 500 UCITS ETF USD at the end of March 2025. This adjustment was made in line with our investment committee decision to increase exposure to active managers and reduce our allocation to US equities.

In June, we sold Muzinich Short Duration High Yield Fund and reallocated the proceeds to AXA World Funds - US Short Duration High Yield Bonds. This switch was prompted by the departure of one of the Muzinich Short Duration High Yield Fund's Investment Managers, the third such departure in recent years.

In August, we exited Apax Global Alpha position and initiated a new holding in HarbourVest Global Private Equity, a private equity investment trust. The decision followed the announced acquisition of Apax Global Alpha's portfolio, which resulted in a significant re-rating of the fund. The switch was completed in two tranches across August and early September.

In September, we decided to sell GuardCap UCITS Funds - GuardCap Global Equity Fund following a period of underperformance and an internal review that concluded a loss of conviction in the strategy. At the same time, we reduced our position in Fidelity Investment Funds ICVC - Index World Fund after a period of strong performance. The proceeds from both transactions were used to establish a new position in Life Cycle Global Equity Fund – UCITS, a diversified global equity strategy offering a beta-plus return profile with minimal tracking error.

There were no further transactions until January 2026 when we made several purchases to invest new capital in the portfolio, including FP Foresight UK Infrastructure Income Fund, Liontrust Monthly Income Bond Fund and Muzinich Global Short Duration Investment Grade Fund.

In February 2026, we increased our value-factor exposure by exiting iShares Core S&P 500 UCITS ETF USD, rotating and topping up iShares Edge MSCI World Value Factor UCITS ETF. This reduced the portfolio's US weighting while increasing exposure to Europe and Japan, in line with our tactical views.

* Source: Bloomberg and Morningstar, based on mid prices to 31 March 2026.

Investment Manager's report

Investment review (continued)

In March 2026, in light of the Iranian conflict, we changed our outlook and exposure to European and Japanese equities - regions we view as more vulnerable to elevated energy prices. We implemented this by reducing our holding in iShares Edge MSCI World Value Factor UCITS ETF, with the proceeds earmarked for investment with a specialist energy and commodity equity manager.

We also reduced credit risk in the portfolio in March by exiting Liontrust Monthly Income Bond Fund in which the proceeds, along with the proceeds from a matured small index-linked gilt holding, were reinvested into UK Treasury Gilt 4.25% 31/07/2034.

Investment strategy and outlook

A broader shift toward a more multipolar geopolitical environment appears to be underway. We expect traditional alliances to face increasing strain and governments to place greater emphasis on the resilience of industrial capacity, strategic resources and national security.

Against this backdrop, we believe infrastructure, commodities, and energy producers are well positioned to benefit from long term structural themes including decarbonisation, deglobalisation and rising AI related energy demand. Within fixed income, we continue to favour high quality assets, maintaining a preference for government bonds and adopting a more cautious stance toward credit markets.

All investments are listed on recognised stock exchanges and are approved securities or regulated collective investment schemes within the meaning of the FCA rules unless otherwise stated.

The comparative figures in brackets are as at 31 March 2025.

Risk and reward profile*

The risk and reward indicator table demonstrates where the sub-fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the sub-fund. The shaded area in the table below shows the sub-fund's ranking on the risk and reward indicator.

Typically lower rewards, lower risk ←				Typically higher rewards, higher risk →		
1	2	3	4	5	6	7

The sub-fund is in a medium category because the price of its investments have risen or fallen to some extent. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.

For full details on risk factors for the sub-fund, please refer to the Prospectus.

There have been no changes to the risk and reward indicator in the year.

* As per the KIID published on 28 January 2026.

Comparative table

The following disclosures give a unitholder an indication of the performance of a unit in the sub-fund. It also discloses the operating charges and direct transaction costs applied to each unit. Operating charges are those charges incurred in operating the sub-fund and direct transaction costs are costs incurred when purchasing or selling securities in the portfolio of investments.

	2026	2025	2024
Income	p	p	p
Change in net assets per unit			
Opening net asset value per unit	147.38	148.16	135.52

Investments carry risk. Past performance is not a guide to future performance. Investors may not get back the amount invested.

[^] Rounded to 2 decimal places.

^{^^} The operating charges are represented by the Ongoing Charges Figure ('OCF'). The OCF consists principally of the Manager's periodic charge and the Investment Manager's fee which are included in the annual management charge, but also includes the costs for other services paid. It is indicative of the charges which may occur in a year as it is calculated on historical data.

The OCF includes expenses incurred by underlying holdings of collective investment schemes and closed ended vehicles such as investment trusts in relation to the sub-fund (the synthetic 'OCF'). Following guidance issued by the Investment Association on 30 November 2023, the synthetic OCF calculation no longer includes closed ended vehicles.

Notes to the financial statements

for the year ended 31 March 2026

1. Accounting policies

The accounting policies are disclosed on pages 9 and 10.

2. Net capital gains / (losses)	2026	2025
	£	£
Non-derivative securities - realised gains	360,104	409,158
Non-derivative securities - movement in unrealised gains / (losses)	1,471,901	(418,079)
Currency losses	-	(2,997)
Transaction charges	(180)	(190)
Total net capital gains / (losses)	<u>1,831,825</u>	<u>(12,108)</u>
3. Revenue	2026	2025
	£	£
UK revenue	349,456	298,689
Unfranked revenue	160,542	164,561
Overseas revenue	264,319	258,621
Interest on debt securities	137,755	130,681
Bank and deposit interest	37,010	33,337
Total revenue	<u>949,082</u>	<u>885,889</u>
4. Expenses	2026	2025
	£	£
Payable to the Manager and associates		
Annual management charge*	238,212	225,369
Annual management charge rebate*	(70,453)	(64,927)
	<u>167,759</u>	<u>160,442</u>
Payable to the Trustee		
Trustee fees	<u>10,481</u>	<u>9,916</u>
Other expenses:		
Audit fee	9,360	9,000
Non-executive directors' fees	1,372	1,531
Safe custody fees	1,548	1,554
FCA fee	439	342
KIID production fee	417	500
	<u>13,136</u>	<u>12,927</u>
Total expenses	<u>191,376</u>	<u>183,285</u>

* For the year ended 31 March 2026, the annual management charge is 0.75% (2025: 0.75%). The annual management charge includes the Manager's periodic charge and the Investment Manager's fee.

Where the Manager's periodic charge and the Investment Manager's fee are cumulatively lower than the annual management charge a rebate may occur. For the year ended 31 March 2026, the annual management charge after rebates is 0.53% (2025: 0.53%).

Notes to the financial statements (continued)
for the year ended 31 March 2026

5. Taxation	2026 £	2025 £
<i>a. Analysis of the tax charge for the year</i>		
UK corporation tax	42,282	39,925
Total taxation (note 5b)	<u>42,282</u>	<u>39,925</u>

b. Factors affecting the tax charge for the year

The tax assessed for the year is lower (2025: lower) than the standard rate of UK corporation tax for an authorised collective investment scheme of 20% (2025: 20%). The differences are explained below:

	2026 £	2025 £
Net revenue before taxation	<u>757,706</u>	<u>702,604</u>
Corporation tax @ 20%	151,541	140,521
Effects of:		
UK revenue	(69,891)	(59,738)
Overseas revenue	<u>(39,368)</u>	<u>(40,858)</u>
Total taxation (note 5a)	<u>42,282</u>	<u>39,925</u>

6. Distributions

The distributions take account of revenue added on the issue of units and revenue deducted on the cancellation of units, and comprise:

	2026 £	2025 £
Interim income distribution	448,413	426,094
Interim accumulation distribution	3,197	3,809
Final income distribution	410,707	378,167
Final accumulation distribution	<u>2,912</u>	<u>2,409</u>
	865,229	810,479
Equalisation:		
Amounts deducted on cancellation of units	4,865	3,175
Amounts added on issue of units	<u>(1,600)</u>	<u>(4,356)</u>
Total net distributions	<u>868,494</u>	<u>809,298</u>

Reconciliation between net revenue and distributions:

Net revenue after taxation per Statement of total return	715,424	662,679
Undistributed revenue brought forward	23	13
Expenses paid from capital	191,376	183,286
Marginal tax relief	(38,275)	(36,657)
Undistributed revenue carried forward	<u>(54)</u>	<u>(23)</u>
Distributions	<u>868,494</u>	<u>809,298</u>

Details of the distribution per unit are disclosed in the Distribution table.

Notes to the financial statements (continued)
for the year ended 31 March 2026

Transaction charges	28	30
Total accrued expenses	<u>9,804</u>	<u>12,615</u>
Corporation tax payable	<u>39,181</u>	<u>36,880</u>
Total other creditors	<u>48,985</u>	<u>49,495</u>

10. Commitments and contingent liabilities

At the balance sheet date there are no commitments or contingent liabilities.

11. Unit types

The following reflects the change in units in issue in the year:

	Income
Opening units in issue	19,830,457
Total units issued in the year	748,820
Total units cancelled in the year	<u>(397,135)</u>
Closing units in issue	<u>20,182,142</u>
	Accumulation
Opening units in issue	92,406
Total units issued in the year	<u>9,479</u>
Closing units in issue	<u>101,885</u>

Further information in respect of the return per unit is disclosed in the Comparative table.

12. Related party transactions

Tutman Fund Solutions Limited (previously Evelyn Partners Fund Solutions Limited), as Manager is a related party due to its ability to act in respect of the operations of the sub-fund.

The Manager acts as principal in respect of all transactions of units in the sub-fund. The aggregate monies received and paid through the creation and cancellation of units are disclosed in the Statement of change in net assets attributable to unitholders of the sub-fund.

Amounts payable to the Manager and its associates are disclosed in note 4.

Notes to the financial statements (continued)

for the year ended 31 March 2026

13. Events after the balance sheet date

Subsequent to the year end, the net asset value per Income unit has increased from 155.9p to 169.0p and the Accumulation unit has increased from 221.9p to 240.6p as at 15 July 2026. This movement takes into account routine transactions but also reflects the market movements of recent months.

14. Transaction costs

a Direct transaction costs

Direct transaction costs include fees and commissions paid to agents, advisers, brokers and dealers; levies by regulatory agencies and security exchanges; and transfer taxes and duties.

Commission is a charge which is deducted from the proceeds of the sale of securities and added to the cost of the purchase of securities. This charge is a payment to agents, advisers, brokers and dealers in respect of their services in executing the trades.

Tax is payable on the purchase of securities in the United Kingdom. It may be the case that 'other taxes' will be charged on the purchase of securities in countries other than the United Kingdom.

The total purchases and sales and the related direct transaction costs incurred in these transactions are as follows:

	Purchases before transaction costs	Commission		Taxes		Purchases after transaction costs
	£	£	%	£	%	£
2026						
Closed-Ended Funds	130,175	52	0.04%	256	0.20%	130,483
Bonds*	1,545,772	-	-	-	-	1,545,772
Collective Investment Schemes	4,364,095	474	0.01%	-	-	4,364,569
Total	6,040,042	526	0.05%	256	0.20%	6,040,824

	Purchases before transaction costs	Commission		Taxes		Purchases after transaction costs
	£	£	%	£	%	£
2025						
Collective Investment Schemes	1,957,022	380	0.02%	-	-	1,957,402

	Sales before transaction costs	Commission		Taxes		Sales after transaction costs
	£	£	%	£	%	£

Collective Investment Schemes	4,803,033	(758)	0.02%	-	-	4,802,275
Total	5,200,452	(791)	0.06%	(4)	0.00%	5,199,657

	Sales before transaction costs	Commission		Taxes		Sales after transaction costs
	£	£	%	£	%	£
2025						
Collective Investment Schemes	3,376,849	(910)	0.03%	-	-	3,375,939

* No direct transaction costs were incurred in these transactions.

Notes to the financial statements (continued)

for the year ended 31 March 2026

14. Transaction costs

a Direct transaction costs (continued)

Summary of direct transaction costs (continued)

The following represents the total of each type of transaction cost, expressed as a percentage of the sub-fund's average net asset value in the year:

		% of average net asset value
2026	£	
Commission	1,317	0.00%
Taxes	260	0.00%
2025	£	% of average net asset value
Commission	1,290	0.00%

b Average portfolio dealing spread

The average portfolio dealing spread is calculated as the difference between the bid and offer value of the portfolio as a percentage of the offer value.

The average portfolio dealing spread of the investments at the balance sheet date was 0.02% (2025: 0.02%).

15. Risk management policies

In pursuing the sub-fund's investment objective, as set out in the Prospectus, the following are accepted by the Manager as being the main risks from the sub-fund's holding of financial instruments, either directly or indirectly through its underlying holdings. These are presented with the Manager's policy for managing these risks. To ensure these risks are consistently and effectively managed these are continually reviewed by the risk committee, a body appointed by the Manager, which sets the risk appetite and ensures continued compliance with the management of all known risks.

a Market risk

Market risk is the risk that the value of the sub-fund's financial instruments will fluctuate as a result of changes in market prices and comprise three elements: other price risk, currency risk, and interest rate risk.

(i) Other price risk

The sub-fund's exposure to price risk comprises mainly of movements in the value of investment positions in the face of price movements.

The main elements of the portfolio of investments exposed to this risk are collective investment schemes and closed-ended funds.

This risk is generally regarded as consisting of two elements: stock specific risk and market risk. Through these two factors, the sub-fund is exposed to price fluctuations, which are monitored by the Manager in pursuance of the investment objective and policy.

Adhering to investment guidelines and avoiding excessive exposure to one particular issuer can limit stock specific risk. Subject to compliance with the investment objective of the sub-fund, spreading exposure in the portfolio of investments both globally and across sectors or geography can mitigate market risk.

At 31 March 2026, if the price of the investments held by the sub-fund increased or decreased by 5%, with all other variables remaining constant, then the net assets attributable to unitholders of the sub-fund would increase or decrease by approximately £1,305,033 (2025: £1,230,366).

(ii) Currency risk

Currency risk is the risk that the value of investments or future cash flows will fluctuate as a result of exchange rate movements. Investment in overseas securities or holdings of foreign currency cash will provide direct exposure to currency risk as a consequence of the movement in foreign exchange rates against sterling. Investments in UK securities investing in overseas securities will give rise to indirect exposure to currency risk. These fluctuations can also affect the profitability of some UK companies, and thus their market prices, as sterling's relative strength or weakness can affect export prospects, the value of overseas earnings in sterling terms, and the prices of imports sold in the UK.

Notes to the financial statements (continued)

for the year ended 31 March 2026

15. Risk management policies (continued)

a Market risk (continued)

(ii) Currency risk (continued)

Forward currency contracts may be used to manage the portfolio exposure to currency movements.

The foreign currency risk profile of the sub-fund's financial instruments and cash holdings at the balance sheet date is as follows:

	Financial instruments and cash holdings	Net debtors and creditors	Total net foreign currency exposure
	£	£	£
2026			
US dollar	1,752,997	-	1,752,997
	Financial instruments and cash holdings	Net debtors and creditors	Total net foreign currency exposure
	£	£	£
2025			
US dollar	1,645,994	-	1,645,994

At 31 March 2026, if the value of sterling increased or decreased by 5% against all other currencies, with all other variables remaining constant, then the net assets attributable to unitholders of the sub-fund would increase or decrease by approximately £87,650 (2025: £82,300).

(iii) Interest rate risk

Interest rate risk is the risk that the value of the sub-fund's investments will fluctuate as a result of interest rate changes.

During the year the sub-fund's direct exposure to interest rates consisted of cash and bank balances and interest bearing securities. The sub-fund also has indirect exposure to interest rate risk as it invests in bond funds. The amount of revenue receivable from bank balances or payable on bank overdrafts will be affected by fluctuations in interest rates.

The value of interest bearing securities may be affected by changes in the interest rate environment, either globally or locally.

At 31 March 2026, if interest rates increased or decreased by 25 basis points, with all other variables remaining constant, then the net assets attributable to unitholders of the sub-fund would increase or decrease by approximately £54,224 (2025: £35,890).

The sub-fund would not in normal market conditions hold significant cash balances and would have limited borrowing capabilities as stipulated in the COLL rules.

Derivative contracts are not used to hedge against the exposure to interest rate risk.

The interest rate risk profile of financial assets and liabilities at the balance sheet date is as follows:

	Variable rate financial assets	Fixed rate financial assets	Non-interest bearing financial assets	Non-interest bearing financial liabilities	Total
	£	£	£	£	£
2026					
UK sterling	987,970	4,927,851	24,473,094	(459,692)	29,929,223
US dollar	-	-	1,752,997	-	1,752,997
	987,970	4,927,851	26,226,091	(459,692)	31,682,220

Notes to the financial statements (continued)

for the year ended 31 March 2026

a Market risk (continued)

(iii) Interest rate risk (continued)

	Variable rate financial assets	Fixed rate financial assets	Non-interest bearing financial assets	Non-interest bearing financial liabilities	Total
2025	£	£	£	£	£
UK sterling	1,199,246	3,274,994	23,723,127	(427,662)	27,769,705
US dollar	-	-	1,645,994	-	1,645,994
	<u>1,199,246</u>	<u>3,274,994</u>	<u>25,369,121</u>	<u>(427,662)</u>	<u>29,415,699</u>

b Credit risk

This is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. This includes counterparty risk and issuer risk.

The Trustee has appointed the custodian to provide custody services for the assets of the sub-fund. There is a counterparty risk that the custodian could cease to be in a position to provide custody services to the sub-fund. The sub-fund's investments (excluding cash) are ring fenced hence the risk is considered to be negligible.

In addition to the interest rate risk, bond investments are exposed to issuer risk which reflects the ability for the bond issuer to meet its obligations to pay interest and return the capital on the redemption date. Change in issuer risk will change the value of the investments and is dealt with further in note 15a. The debt securities held within the portfolio are investment grade bonds. A breakdown is provided in the Portfolio statement. The credit quality of the debt securities is disclosed in the Portfolio statement.

The sub-fund holds cash and cash deposits with financial institutions which potentially exposes the sub-fund to counterparty risk. The credit rating of the financial institution is taken into account so as to minimise the risk to the sub-fund of default.

Holdings in collective investment schemes are subject to direct credit risk. The exposure to pooled investment vehicles is unrated.

c Liquidity risk

A significant risk is the cancellation of units which investors may wish to sell and that securities may have to be sold in order to fund such cancellations if insufficient cash is held at the bank to meet this obligation. If there were significant requests for the redemption of units at a time when a large proportion of the portfolio of investments were not easily tradable due to market volumes or market conditions, the ability to fund those redemptions would be impaired and it might be necessary to suspend dealings in units in the sub-fund.

Investments in smaller companies at times may prove illiquid, as by their nature they tend to have relatively modest traded share capital. Shifts in investor sentiment, or the announcement of new price sensitive information, can provoke significant movement in share prices, and make dealing in any quantity difficult.

The sub-fund may also invest in securities that are not listed or traded on any stock exchange. In such situations the sub-fund may not be able to immediately sell such securities.

To reduce liquidity risk the Manager will ensure, in line with the limits stipulated within the COLL rules, a substantial portion of the sub-fund's assets consist of readily realisable securities. This is monitored on a monthly basis and reported to the Risk Committee together with historical outflows of the sub-fund.

In addition liquidity is subject to stress testing on an annual basis to assess the ability of the sub-fund to meet large redemptions, while still being able to adhere to its objective guidelines and the FCA investment borrowing regulations.

All of the financial liabilities are payable on demand.

Notes to the financial statements (continued)

for the year ended 31 March 2026

15. Risk management policies (continued)

d Fair value of financial assets and financial liabilities

There is no material difference between the value of the financial assets and liabilities, as shown in the balance sheet, and their fair value.

To ensure this, the fair value pricing committee is a body appointed by the Manager to analyse, review and vote on price adjustments/maintenance where no current secondary market exists and/or where there are potential liquidity issues that would affect the disposal of an asset. In addition, the committee may also consider adjustments to the sub-fund's price should the constituent investments be exposed to closed markets during general market volatility or instability.

	Investment assets	Investment liabilities
Basis of valuation	2026	2026
	£	£
Quoted prices	6,960,400	-
Observable market data	24,068,117	-
Unobservable data	-	-
	<u>31,028,517</u>	<u>-</u>
	Investment assets	Investment liabilities
Basis of valuation	2025	2025
	£	£
Quoted prices	6,042,189	-
Observable market data	22,144,208	-
Unobservable data	-	-
	<u>28,186,397</u>	<u>-</u>

No securities in the portfolio of investments are valued using valuation techniques.

e Assets subject to special arrangements arising from their illiquid nature

There are no assets held in the portfolio of investments which are subject to special arrangements arising from their illiquid nature.

f Derivatives

The sub-fund may employ derivatives with the aim of reducing the sub-fund's risk profile, reducing costs or generating additional capital or revenue, in accordance with Efficient Portfolio Management.

The Manager monitors that any exposure is covered globally to ensure adequate cover is available to meet the sub-fund's total exposure, taking into account the value of the underlying investments, any reasonably foreseeable market movement, counterparty risk, and the time available to liquidate any positions.

For certain derivative transactions cash margins may be required to be paid to the brokers with whom the trades were executed and settled. These balances are subject to daily reconciliations and are held by the broker in segregated cash accounts that are afforded client money protection.

During the year there were no derivative transactions.

Notes to the financial statements (continued)

for the year ended 31 March 2026

15. Risk management policies (continued)

f Derivatives (continued)

(i) Counterparties

Transactions in securities give rise to exposure to the risk that the counterparties may not be able to fulfil their responsibility by completing their side of the transaction. This risk is mitigated by the sub-fund using a range of brokers for security transactions, thereby diversifying the risk of exposure to any one broker. In addition the sub-fund will only transact with brokers who are subject to frequent reviews with whom transaction limits are set.

The sub-fund may transact in derivative contracts which potentially exposes the sub-fund to counterparty risk from the counterparty not settling their side of the contract. Transactions involving derivatives are entered into only with investment banks and brokers with appropriate and approved credit rating, which are regularly monitored. Forward currency transactions are only undertaken with the custodians appointed by the Trustee.

At the balance sheet date, there are no securities in the portfolio of investments subject to a repurchase agreement.

(ii) Leverage

The leverage is calculated as the sum of the net asset value and the incremental exposure generated through the use of derivatives (calculated in accordance with the commitment approach) divided by the net asset value.

There have been no leveraging arrangements in the year.

(iii) Global exposure

Global exposure is a measure designed to limit the leverage generated by a fund through the use of financial derivative instruments, including derivatives with embedded assets.

At the balance sheet date there is no global exposure to derivatives.

There have been no collateral arrangements in the year.

Distribution table

for the year ended 31 March 2026

Interim distributions in pence per unit

Group 1 - Units purchased before 1 April 2025

Group 2 - Units purchased 1 April 2025 to 30 September 2025

	Net revenue	Equalisation	Total distributions 30 November 2025	Total distributions 30 November 2024
Income				
Group 1	2.265	-	2.265	2.157
Group 2	2.088	0.177	2.265	2.157
Accumulation				
Group 1	3.138	-	3.138	2.907
Group 2	1.865	1.273	3.138	2.907

Final distributions in pence per unit

Group 1 - Units purchased before 1 October 2025

Group 2 - Units purchased 1 October 2025 to 31 March 2026

	Net revenue	Equalisation	Total distributions 31 May 2026	Total distributions 31 May 2025
Income				
Group 1	2.035	-	2.035	1.907
Group 2	1.832	0.203	2.035	1.907
Accumulation				
Group 1	2.858	-	2.858	2.607
Group 2	2.858	-	2.858	2.607

Equalisation

Equalisation applies only to group 2 units. It is the average amount of revenue included in the purchase price of group 2 units and is refunded to holders of these units as a return of capital. Being capital it is not liable to income tax in the hands of the unitholders but must be deducted from the cost of units for capital gains tax purposes.

Accumulation distributions

Holders of accumulation units should add the distributions received thereon to the cost of the units for capital gains tax purposes.

Remuneration

Remuneration code disclosure

The remuneration committee is responsible for setting the remuneration policy for all partners, directors and employees within Evelyn Partners Group Limited ('the Group'), including individuals designated as Material Risk Takers (MRTs) under the Remuneration Code. The remuneration policy is designed to be compliant with the Code and provides a framework to attract, retain, motivate and reward partners, directors and employees. The overall policy is designed to promote the long-term success of the group and to support prudent risk management, with particular attention to conduct risk.

Remuneration committee

The remuneration committee report contained in the Group Report and Financial Statements for the year ended 31 December 2024 includes details on the remuneration policy. The remuneration committee comprises three independent non-executive directors¹ and is governed by formal terms of reference, which are reviewed and agreed by the board. The committee met seven times during 2024.

Remuneration policy

The main principles of the remuneration policy are:

- aligns the interests of employees with those of our clients/customers and investors;
- is compliant with relevant regulation and considers market best practice;
- is pragmatic, flexible, economic, and considers the commercial objectives of the business;
- is competitive and helps the Group attract and retain talented people;
- encourages behaviours consistent with the Group's values, ambitions, strategy, and risk appetite (including environmental, social and governance risk factors);
- supports the delivery of fair outcomes for our clients; and
- is clear, fair, free from bias and based on objective criteria that avoids discrimination (including gender).

Remuneration systems

Fixed pay is determined by considering an employee's role and responsibilities, external market information, and internal budgets/affordability. The remuneration committee considers all of these factors when determining appropriate salary/fixed profit share budgets as part of the annual pay review, and by exception any increases outside of the annual pay review.

Evelyn Partners operates Discretionary Incentive Plans (DIP) – these are discretionary bonus schemes that enable employees to be recognised for their hard work and commitment, through linking reward to the performance and outcomes, including client outcomes, of both the business and the individual employee.

Bonus awards under a DIP are made in cash and/or equity awards and are driven by the following factors:

- The financial performance (primarily EBITDA performance) of the business;
- An employee's individual performance in relation to the Group's key performance indicators and financial outcomes;
- An employee's individual performance in relation to behaviours which are in line with the Group's values, which includes client outcomes and regulatory compliance; and
- A risk and control review, which includes client outcomes.

¹ Please note that the data provided for the independent non-executive directors is as at 31 December 2024. The data provided is for independent non-executive directors only.

Remuneration (continued)

Aggregate quantitative information

The total amount of remuneration paid by Evelyn Partners Fund Solutions Limited ('EPFL') is nil as EPFL has no employees. However, a number of employees have remuneration costs recharged to EPFL and the annualised remuneration for these 70 employees is £3.58 million of which £3.19 million is fixed remuneration. This is based on the salary and benefits for those identified as working in EPFL as at 31 December 2024. Any variable remuneration is awarded for the year ended 31 December 2024. This information excludes any senior management or other Material Risk Takers (MRTs) whose remuneration information is detailed below.

Evelyn Partners Group Limited reviews its MRTs at least annually. These individuals are employed by and provide services to other companies in the Group. It is difficult to apportion remuneration for these individuals in respect of their duties to EPFL. For this reason, the aggregate total remuneration awarded for the year ended 31 December 2024 for senior management and other MRTs detailed below has not been apportioned.

The table below shows the aggregate remuneration split by Senior Management and other MRTs for EPFL [^]

	For the period 1 January 2024 to 31 December 2024				
	Fixed	Variable	Variable	Total	No. MRTs
	£'000	Cash £'000	Equity £'000		
Senior Management	3,448	2,470	-	5,918	15
Other MRTs	477	338	-	815	5
Total	3,925	2,808	-	6,733	20

Investment Manager

The Manager delegates the management of the Trust's portfolio of assets to Wren Investment Office Limited and pays to Wren Investment Office Limited, out of the annual management charge, a monthly fee calculated on the total value of the portfolio of investments at the month end. Wren Investment Office Limited are compliant with the Capital Requirements Directive regarding remuneration and therefore their staff are covered by remuneration regulatory requirements.

[^] On 30 June 2025, Thesis Holdings Limited bought Evelyn Partners Fund Solutions Limited. Following the completion of the acquisition of Evelyn Partners Fund Solutions Limited, the company has been renamed to Tutman Fund Solutions Limited. The current financial year end of Tutman Fund Solutions Limited has been extended from 31 December 2025 to 30 April 2026.

Further information

Distributions and reporting dates

Where net revenue is available it will be distributed/allocated semi-annually on the 31 May (final) and 30 November (interim). In the event of a distribution, unitholders will receive a tax voucher.

XD dates:	1 April	final
	1 October	interim
Reporting dates:	31 March	annual
	30 September	interim

Buying and selling units

The property of Ilex Balanced Fund is valued at 5pm on Wednesday of each week, but excluding the Wednesday falling in the last business day of the month, when the sub-fund will deal on that day, with the exception of any bank holiday in England and Wales, or the last business day prior to those days annually, where the valuation may be carried out at a time agreed in advance between the Manager and the Trustee, and prices of units are calculated as at that time. Unit dealing is on a forward basis i.e. investors can buy and sell units at the next valuation point following receipt of the order.

Prices of units and the estimated yield of the sub-fund are published on the following website: www.trustnet.com or may be obtained by calling 0141 483 9701.

Benchmark - Ilex Balanced Fund

Unitholders may compare the performance of the sub-fund against the ARC Balanced Asset PCI. Comparison of the sub-fund's performance against this benchmark will give unitholders an indication of how the sub-fund is performing against an index based on the real performance numbers delivered to discretionary private clients by participating Investment Managers.

The benchmark is not a target for the sub-fund, nor is the sub-fund constrained by the benchmark.
