

Non-UCITS retail scheme Key Investor Information

tutman.

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

The Motim Fund

This Fund is managed by Thesis Unit Trust Management Limited ISIN (Accumulation): GB00B1Z54N71 ISIN (Income): GB00B1Z54M64

Objectives and Investment Policy

Investment of the assets of the Company must comply with COLL and the investment objective and policy of the Company. Details of the investment objective and policy are set out below.

The primary investment objective of the Company is to achieve positive returns and to deliver a better return than the Retail Price Index (RPI) (the "Index") after fees with a lower volatility than equity investment (measured by the FTSE All Share Index) over a rolling five year period.

Investors should be aware that the investors' capital is in fact at risk and there is no guarantee that positive returns or these rates of returns will be achieved, whether over rolling five year periods, or any time period.

The assets in which the Company may invest will be transferable securities, units in collective investment schemes, money market instruments, deposits and cash or near cash investments.

A positive return will be sought by investing in a diversified portfolio of different asset classes.

The Company's performance is measured against the Index. The Index has been selected as a performance target because it is a key measure of consumer inflation in the United Kingdom. The Company aims to deliver positive returns in excess of the Index. The Index is therefore an appropriate target for the Company.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares, and reinvested in the case of accumulation shares. Investors can buy and sell shares on demand when the scheme prices each Wednesday at 12 midday.

Risk and Reward Profile

The risk rating of the Fund is category 4 due to the volatility of the Fund price which sits in a range of between 5% and 10%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.
- Credit risk is the risk of loss stemming from a borrower's failure to repay the loan or meet its contractual obligation.
- Bond values are affected by changes in interest rates, inflation and any decline in creditworthiness of the bond issuer.
- Where derivative or structured product investments in the Fund may include a counterparty, there is a risk that the counterparty will not fulfil their obligation.
- The Fund may use approved derivatives for the purpose of hedging only. Hedging is when a position is taken to offset a risk in an opposing currency, market or investment. It is anticipated that the outcome of the use of derivatives would be to reduce, rather than to increase, the risk profile of the Fund.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	7.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.42%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 5th April 2021. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed "Payments out of scheme property" of the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk

Past Performance

Performance source: Morningstar Direct

- The Fund launched in 2008
- The bar chart shows the calendar year returns for the last 10 full calendar years. If a column is blank, there is insufficient performance data to provide a complete calendar year of performance
- Past performance has been calculated in pounds sterling
- Performance will be calculated as Total Return, including all charges levied against the Fund
- Past performance has limited value as a guide to future performance
- Investments may go down as well as up

Practical Information

The depositary of the Fund is NatWest Trustee and Depositary Services Limited. The depositary has delegated the function of custodian to The Northern Trust Company.
