

# Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## The Mishka Fund

This Fund is managed by Tutman LLP

ISIN (Accumulation):

GB0001844215

### Objectives and Investment Policy

The Fund aims to provide a total return (with a combination of income and growth of capital), net of fees, over rolling 5 year periods. There is no guarantee that this return will be achieved over any period, and capital is at risk.

The Fund aims to achieve the investment objective through investment in a diversified international portfolio. The Fund will normally allocate 40-85% to equities and 0 - 40% to fixed interest (e.g. corporate and government bonds). The Fund may invest outside these parameters where equity markets are considered as over valued by the Portfolio Manager or other asset classes can provide a better risk adjusted return in the market conditions. The Fund may obtain this exposure directly or through investment in collective investment vehicles (regulated and unregulated which may include other schemes managed by the ACD, or the Portfolio Manager or an associate of the ACD or Portfolio Manager). The assets in which the Fund may also invest (directly or indirectly) will be other transferable securities, including warrants, money market instruments, deposits, cash or near cash investments and alternatives (i.e. gold, commodities and property which will be held indirectly via permitted investments such as collective investment vehicles which can include exchange traded funds or real estate investment trusts). The proportion of the Fund invested in different geographical areas will vary over time in response to the economic and market environment.

The use of derivatives is permitted for hedging purposes only and is expected to be limited. The use of derivatives will not affect the risk profile of the Fund. The investment policy of the Fund may mean that at times, where it is considered appropriate, the Scheme Property of the Fund will not be fully invested and that prudent levels of liquidity will be maintained in order to reduce risk and preserve capital. The Fund will hold cash and cash equivalents to maintain liquidity. The Investment Manager will actively manage the Fund. This means the Investment Manager actively makes decisions about how to invest the Scheme Property (and which investments to buy and sell) instead of simply following a market index.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income units. Investors can buy and sell units on demand when the scheme prices on the fourteenth day and on the last business day of each month at 10.00am.

### Risk and Reward Profile

The risk rating of the Fund is category 4 due to the volatility of the Fund price which sits in a range of between 5% and 10%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

## Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	10.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.60%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 30th September 2022. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed "Charges and Other Expenses" of the Fund's Prospectus, which is available on request via email to [thesisut@tutman.co.uk](mailto:thesisut@tutman.co.uk)

## Past Performance

(a) The Fund launched in 1997

(b) The bar chart shows the calendar year returns for the last 10 full calendar years. If a column is blank, there is insufficient performance data to provide a complete calendar year of performance

(c) Past performance has been calculated in pounds sterling

(d) Performance will be calculated as Total Return, including all charges levied against the Fund

(e) Past performance has limited value as a guide to future performance

(f) Investments may go down as well as up

1. From December 2021, the benchmark is IA 20-60% Shares peer group. Prior to this the benchmark was the IA Flexible Investment peer group.

Performance source: Morningstar Direct
