The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Thesis Headway B Sub-Fund

A sub Fund of the Thesis Headway Fund

This Fund is managed by Thesis Unit Trust Management Limited ISIN (Accumulation): GB00B1T8WB61 ISIN (Income): GB00B1T8W945

Objectives and Investment Policy

The Fund is designed to achieve growth in capital and income by investing in a restricted portfolio of assets. The Fund will, from time to time, adopt short-term strategic stances that result in less market exposure being adopted in the attempt to produce more consistent positive returns for Unitholders. The Fund may invest in units in collective investment schemes, transferable securities, money market instruments, deposits and derivatives.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income units, and reinvested in the case of accumulation units. Investors can buy and sell units on demand when the scheme prices daily at 12 midday.

Risk and Reward Profile

The risk rating of the Fund is category 4 due to the volatility of the Fund price which sits in a range of between 5% and 10%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	3.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.07%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 31st October 2023. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed 'Charges and Expenses of the Scheme' of the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk
